No. 197.—REGULATIONS—

Under instructions from the Right Hon'ble the Secretary of State for India, the following clauses are substituted for clauses 2 and 3 of Rule IX of the Furlough Regulations of 1868, republished in G. G. O. No. 171 of 1874 :—

9. Leave granted under these Rules, without furlough pay, will not reckon as furlough already taken in calculating the balance at an officer's credit, or as part of the total of eight years allowed as shown in Rule XVI, but all furlough with furlough pay, whether on private affairs or on medical certificate, taken under these rules, will so reckon.

10. Furlough and leave previously taken under the Rules of 1796 or 1854, will count, as respects officers who have elected these Rules, as follows :—

Furlough on private affairs, with pay, taken under the Rules of 1796 or 1854, counts in all respects as furlough.

Leave on sick certificate, under the Rules of 1796, does not count in any respect as furlough.

Leave on sick certificate, with pay, under the Rules of 1854, counts as part of the maximum of eight years allowed under these Rules, but until the maximum thus made up be reached, this leave will not count as furlough already taken in determining the amount of furlough to which an officer is entitled.

“Leave without pay under the Rules either of 1796 or 1854, does not count in any respects as furlough.”

No. 198.—In continuation of G. G. O. No. 1244 of 1869, and under the authority of the Right Hon'ble the Secretary of State for India, it is hereby notified that in the case of a Colonel of the Indian Army who may be desirous of proceeding on furlough on the expiration of his term of Brigade Command, he may, if he has furlough to his credit, avail himself of it without reference to the restriction ordinarily imposed of serving three years from the date of his last return to duty.

EQUIPMENT.

No. 199.—BRITISH CAVALRY—

With reference to G. O. No. 1278, dated 21st December 1876, paragraph 2, the following rules for the supply and repair of line gear, &c., to regiments of British cavalry serving in the three Presidencies, are published for information and guidance.

2. All surplus stores, materials for repairs &c., of a suitable description and in serviceable condition, the property of officers commanding troops, will be taken over by Government at a valuation to be decided on by a special committee.

3. Special committees will be convened on an early date at stations where British cavalry regiments are located, in the Bengal Presidency under the orders of His Excellency the Commander-in-Chief, and in Madras and Bombay by direction of the Governments of those Presidencies.

4. The stores, materials, &c., will be carefully examined, weighed, counted or measured in the presence of the committee. And to enable the committee to arrive at a just valuation, a certificate will be signed by the officer commanding each regiment showing the actual cost that was incurred by commanding officers of troops in obtaining the various articles and materials locally.

5. The committee will also note and report on the condition of all articles already the property of Government, and record their opinion whether they will last the full period of service or not. In the latter case, the committee will state the reasons, which, as far as can be ascertained, will lead to their earlier condemnation.

6. Bills supported by the proceedings of such committees will be forwarded to the Examiner of Ordnance Accounts for adjustment.

7. Articles of line gear and materials for their repair will be supplied in the following proportions on indents to be submitted in the usual form on the 1st February of each year to the departments concerned. Indents for the year 1877-78 to be submitted as soon as possible.

The repairs necessary to line gear are to be effected by officers commanding regiments, and for the purpose of carrying out these repairs, the employment of two syces per troop at Rs. 2 each per mensem has been sanctioned by paragraph 10 of G. G. O. No. 1278 of 1876. Any other expense for material or labor necessarily incurred to be recovered by contingent bill in the manner prescribed in paragraph 8 of this order.

10. Well ropes and water bags will be procured locally by officers commanding regiments, and their cost recovered by monthly contingent bill under paragraph 8, repairs being effected under the rules which apply to articles of line gear.

11. All articles of line gear which have served the prescribed periods of duration and have been pronounced unfit for further service by competent Boards of Survey, will be sold on the spot to the highest bidder, and the proceeds realised credited to Government; such component parts of iron as may not be unserviceable being returned into ordnance store for further use in manufacture.

Rammers 6 per Troop.
Hand-beaters 12 per Troop.
To be procured locally by officers commanding regiments, cost being recovered by contingent bill, and to last till worn out.

12. Repairs needed to the flooring of stables will be effected by regimental establishments, and for this purpose rammers and hand-beaters will be supplied in the proportion marginally noted; when the repairs to be executed are of an extensive nature, the aid of the Public Works Department is to be applied for.

13. This order is applicable to the three Presidencies.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 1st March 1877.

Owing to the state of the tides the P. & O. Steamers will leave Calcutta on the 4th and 18th, instead of the 8th and 22nd March 1877, but they will be required to remain at Madras until the contract dates for leaving that Port, viz., 13th and 27th March 1877. Mails for Galle will close at the General Post Office at 7 p. m. on Wednesdays, the 7th and 21st March 1877, and be forwarded by Railway to Madras, so as to catch the P. & O. Steamers there.

The 2nd March 1877.

Mails for Ceylon, Straits, Hong-Kong, and the United States of America, for transmission per Steamer from Bombay, will be closed at the General Post Office on Saturday, the 3rd March 1877, at 7 p. m.

Mail for Madras only, for transmission per P. & O. Steamer *Australia*, will be closed at the General Post Office on Saturday, the 3rd March 1877, at 7 p. m.

Mails for Rangoon and Moulmein, for transmission per Steamer *Busheer*, will be closed at the General Post Office on Sunday, the 4th March 1877, at 7 p. m.

Mails for Akyab and Kyouk-Phyoo, for transmission per Steamer *Mahratta*, will be closed at the General Post Office on Sunday, the 4th March 1877, at 7 p. m.

Mails for Persian Gulf, for transmission per Steamer from Bombay, will be closed at the General Post Office on Tuesday, the 6th March 1877, at 7 p. m.

Mails for Madras, Ceylon and the intermediate ports, for transmission per Steamer *Africa*, will be closed at the General Post Office on Wednesday, the 7th March 1877, at 7 p. m.

The next Overland Mail *via* Bombay will close at the General Post Office on Friday, the 9th March 1877, by which mails for Mauritius, St. Denis, Reunion, Zanzibar, Mozambique, Delagoa Bay, Natal, Cape of Good Hope, the Comoro Islands and Madagascar can be forwarded.

2. Book-post and pattern packets must be posted on the 8th March 1877.

N. B.—The Letter Box will close at 7 p. m. precisely, after which hour overland letters, fully prepaid and bearing an extra postage stamp of two (2) annas on each cover, will be received up to 7-30 p. m., or bearing an extra postage stamp of four (4) annas on each cover up to 8 p. m.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The first part of the "Indian Law Reports," published under the authority of the Governor General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The

Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. E. E.

COLMAN MACAULAY.
Secretary and Accountant.

Proposed by *Mr. Robert Taylor*,

Seconded by *Mr. T. F. Bignold*, and carried unanimously—

That the Managers' proceedings in admitting the families of the late Messrs. Carpenter, Elliott, Glover, Walton, and R. H. Clifford to the benefits of the Fund be confirmed and the report and accounts be generally adopted.

Proposed by *Hon'ble F. R. Cockrell*,

Seconded by *Mr. R. Taylor*—

That to Article XXV of the rules be added the words "provided that a declaration on oath by not less than two eye witnesses will be considered sufficient proof of marriage in the cases of Messrs. Romesh Chunder Dutt and Beharilal Gupta."

Mr. Bell proposed that the words "*prima facie*" be substituted for "sufficient." This amendment was seconded by *Mr. O'Kinealy* and carried unanimously.

Proposed by *Mr. T. Bruce Lane*,

Seconded by *Mr. A. T. Maclean*, and carried unanimously—

That the following gentlemen be elected managers for the ensuing year:—*Hon'ble L. S. Jackson, A. Money, Esq., C. B., C. T. Buckland, Esq., J. O'Kinealy, Esq., W. M. Souttar, Esq.*

Mr. Lane drew the attention of the meeting to *Mrs. Belli's* case, stating that he did so at the request of *Mrs. Belli*, who had been informed by the Secretary, in his letter of the 12th July 1876, that any individual manager or member of the Service could bring forward her case at a half-yearly meeting. He urged that the disposition of his property made by *Mr. Belli*, by which his widow was declared by the Managers to have been thrown on the Fund, was an irrevocable trust settlement made in February 1867, at a time when *Mr. Belli* was 75 years old, had been a widower for some years, and had no children in circumstances which could enable them to make any claim upon the Fund. Presumably he was not at that time likely to marry again; but even assuming that he might do so, he would be then still in the position of a bachelor subscriber, who might make a trust settlement beyond his power to revoke hereafter, and might still marry after doing so without forfeiting his rights in the Fund. *Mr. Lane* further contended that there was no actual proof of any intention on *Mr. Belli's* part, when making the trust settlement of February 1867, "to benefit any party at the expense of the Fund," and that it was not right to throw on the widow of a marriage subsequently contracted the onus of proving the negative statement that no such intention existed. *Mr. Belli's* remarriage three months after he executed the settlement, though it might be considered suspicious, was not actual proof of such intention, and therefore insufficient to justify the extreme measure of refusing a pension to the widow. Looking therefore to the fact that the effect of the trust settlement, at the time when it was made, was not to "throw the support, entire or partial," of a single person on the Fund, that *Mr. Belli* had, as subscriber to the Fund, paid up more than Rs. 50,000, and that *Mrs. Belli* was now in a state of comparative poverty, *Mr. Lane* proposed that the decision of the half-yearly meeting of January 1876, refusing the application of *Mrs. Belli* for admission to the Fund under the old rules, should be submitted for the reconsideration of the Service.

Mr. O'Kinealy seconded the motion.

At the request of some of the subscribers present the Secretary then read the note which had formed the basis of the Managers' decision on the case.

"The accounts forwarded by *Mrs. Belli* show that her husband's property at his death was worth £21,727-6-9, and the income derivable from this property would be sufficient to absolutely exclude his widow and other members of his family from benefits under the old rules. On the 22nd February 1867 *Mr. Belli* made a settlement in trust for his three children of property now valued at £15,000, the condition of the settlement being that £5,000 was to be secured to each of these children and the balance was to form part of his own estate. A few months later, namely, on the 23rd of May 1867, he was married to his present widow. It would now appear from the papers submitted to the Managers that the property embraced by the deed of settlement is not more than sufficient to provide the sum of £15,000 to the children."

precluded from the benefits of the Fund. But even supposing that at the time of making the settlement he had not in contemplation his immediate marriage, *Mr. Belli* must have well known that if he did remarry the trust then made by him would have the effect of reducing his second wife's income so as to entitle her (other considerations apart) to fund benefits. If therefore a subscriber is presumed to intend the natural result of his acts, *Mrs. Belli* is now entirely excluded from fund benefits."

The Managers acting on this note held adversely to *Mrs. Belli's* claim, and submitted their decision to the general meeting of 26th January 1876, with the following report:—

The Managers also submit to this meeting the following statement in connection with the application of *Mrs. Belli* for pension:—*Mr. Belli* was a subscriber to the Fund under the old rules, and at the time of his decease, 29th July last, left property worth £21,727, out of which he was bound, under Article 26 of the old rules, to make a proper provision for his wife. That Article is as follows:—

"In case it shall be proved to the conviction of a general meeting of subscribers that a deceased member of this Fund has during his life-time, whether in immediate anticipation of his death or otherwise, made such a disposition of any part of his property, real or personal, as but for this rule would throw the entire or partial support of his widow or offspring upon the Fund, who would not have been so supported by the Fund had such part of his property not been so disposed of, with the intention thereby of benefiting any party at the expense of the Fund, then the widow or offspring of such a member or both shall forfeit all right to any part of the support which would have been claimable if no such disposition had been made."

"It is hereby declared that a general meeting of the latter (i.e., subscribers), duly held according to the rules of the institution, shall have full power to reject the application for aid from the Fund in any instance in which it may appear that a subscriber having property at his death, and having the power to dispose of it, has made no due provision for his family."

The Managers in administering the affairs of the Fund have invariably considered all private income left by a subscriber at death as available for the support of his family without reference to appropriations by testament or otherwise. In the present case *Mr. Belli* made such a disposition of his property in his life-time, namely, a trust in favour of his children by his first wife, that but for Article 26 his widow would be chargeable on the Fund. Under these circumstances the Managers consider the widow not entitled to the Fund allowance, and they now submit the case to the general meeting, and recommend that *Mrs. Belli's* application be disallowed.

The Managers' recommendation was approved by a resolution of the general meeting."

Some conversation ensued with regard to the general aspects of the case as disclosed in the foregoing proceedings. Attention was also called to Article 18 of the rules prescribing the manner in which alone the resolution of the general meeting could be revised, and to the fact that the procedure therein laid down had not been complied with.

Mr. Lane's motion, on being put to the meeting, was lost

PART II.

OF THE REGISTRATION ESTABLISHMENT.

4. The Local Government shall appoint an officer to be the Inspector General of Registration for the territories subject to such Government,

or may, instead of making such appointment, direct that all or any of the powers and duties hereinafter conferred and imposed upon the Inspector General shall be exercised and performed by such officer or officers; and within such local limits, as the Local Government from time to time appoints in this behalf.

The Governor of Bombay in Council may also, with the previous consent of the Governor General in Council, appoint an officer to be Branch Inspector General of Sindh, who shall have all the powers of an Inspector General under this Act other than the power to frame rules hereinafter conferred.
Branch Inspector General of Sindh.

Any Inspector General or the Branch Inspector General of Sindh may hold simultaneously any other office under Government.

5. For the purposes of this Act, the Local Government shall form Districts and Sub-Districts, and shall prescribe, and may from time to time alter, the limits of such Districts and Sub-Districts.

The Districts and Sub-Districts formed under this section, together with the limits thereof, and every alteration of such limits, shall be notified in the local official Gazette.

Every such alteration shall take effect on such day after the date of the notification as is therein mentioned.

6. The Local Government may appoint such persons, whether public officers or not, as it thinks proper, to be Registrars of the several Districts, and to be Sub-Registrars of the several Sub-Districts, formed as aforesaid, respectively.
Registrars and Sub-Registrars.

7. The Local Government shall establish in every District an office to be styled the Office of the Registrar and in every Sub-District an office or offices to be styled the Office of the Sub-Registrar, or the Offices of the Joint Sub-Registrars, and may amalgamate with any office of a Registrar any office of a Sub-Registrar subordinate to such Registrar,
Offices of Registrar and Sub Registrar.

and may authorize any Sub-Registrar whose office has been so amalgamated to exercise and perform, in addition to his own powers and duties, all or any of the powers and duties of the Registrar to whom he is subordinate:

Provided that no such authorization shall enable a Sub-Registrar to hear an appeal against an order passed by himself under this Act.

8. The Local Government may also appoint officers to be called Inspectors of Registration Offices, and may from time to time prescribe the duties of such officers. Every such Inspector shall be subordinate to the Inspector-General.
Inspectors of Registration Offices.

9. Every military cantonment where there is a Cantonment Magistrate may (if the Local Government so directs) be, for the purposes of this Act, a Sub-District or a District, and such Magistrate shall be the

Sub-Registrar or the Registrar of such Sub-District or District, as the case may be.

Whenever the Governor General in Council declares any military cantonment beyond the limits of British India to be a Sub-District or a District for the purposes of this Act, he shall also declare, in the case of a Sub-District, what authorities shall be Registrar of the District and Inspector General, and in the case of a District, what authority shall be Inspector General, with reference to such cantonment and the Sub-Registrar or Registrar thereof.

10. Whenever any Registrar other than the Registrar of a District including a Presidency Town, is absent otherwise than on duty in his District, or when his office is temporarily vacant,

any person whom the Inspector General appoints in this behalf, or, in default of such appointment, the Judge of the District Court within the local limits of whose jurisdiction the Registrar's Office is situate,

shall be the Registrar during such absence or until the Local Government fills up the vacancy.

Whenever the Registrar of a District including a Presidency Town is absent otherwise than on duty in his District, or when his office is temporarily vacant,

any person whom the Inspector General appoints in this behalf shall be the Registrar during such absence, or until the Local Government fills up the vacancy.

11. Whenever any Registrar is absent from his office on duty in his District, he may appoint any Sub-Registrar or other person in his District to perform, during such absence, all the duties of a Registrar, except those mentioned

12. Whenever any Sub-Registrar is absent, or when his office is temporarily vacant, any person whom the Registrar of the District appoints in this behalf shall be Sub-Registrar during such absence, or until the Local Government fills up the vacancy.

13. All appointments made under section 10, section 11, or section 12 shall be reported to the Local Government by the Inspector General. Such report shall be either special or general, as the Local Government directs.

The Local Government may suspend, remove or dismiss any person appointed under the provisions of this Act, and appoint another person in his stead.

14. Subject to the approval of the Governor General in Council, the Local Government may assign such salaries as such Government from time to time deems proper to the Registering Officers appointed under this Act, or provide for their remuneration by fees, or partly by fees and partly by salaries.

The Local Government may allow proper establishments for the several Offices under this Act.

15. The several Registrars and Sub-Registrars shall use a seal bearing the following inscription in English and in such other language as the Local Government directs:—"The seal of the Registrar (or of the Sub-Registrar) of ."

16. The Local Government shall provide for the office of every Registering Officer the books necessary for the purposes of this Act.

The books so provided shall contain the forms from time to time prescribed by the Inspector General, with the sanction of the Local Government, and the pages of such books shall be consecutively numbered in print, and the number of pages in each book shall be certified on the title-page by the officer by whom such books are issued.

The Local Government shall supply the office of every Registrar with a fire-proof box, and shall in each District make suitable provision for the safe custody of the records connected with the registration of documents in such District.

PART III.

OF REGISTRABLE DOCUMENTS.

17. The documents next hereinafter mentioned shall be registered, if the registration is compulsory, property to which they relate is situate in a District in which, and if they have been executed on or after the date on which, Act No. XVI of 1864, or Act No. XX of 1866, or Act No. VIII of 1871, or this Act came or comes into force (that is to say),—

(a) Instruments of gift of immoveable property;

(b) Other non-testamentary instruments which purport or operate to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, of the value of one hundred rupees and upwards, to or in immoveable property;

(c) Non-testamentary instruments which acknowledge the receipt or payment of any consideration on account of the creation, declaration, assignment, limitation or extinction of any such right, title or interest; and

(d) Leases of immoveable property from year to year, or for any term exceeding one year, or reserving a yearly rent;

Provided that the Local Government may, by order published in the official Gazette, exempt from the operation of the former part of this section any leases executed in any District, or part of a District, the terms granted by which do not exceed five years and the annual rents reserved by which do not exceed fifty rupees.

Nothing in clauses (b) and (c) of this section applies to any composition-deed,

(f) any instrument relating to shares in a Joint Stock Company, notwithstanding that the assets of such Company consist in whole or in part of immoveable property, or

(g) any endorsement upon or transfer of any debenture issued by any such Company,

(h) any document not itself creating, declaring, assigning, limiting or extinguishing any right, title or interest of the value of one hundred rupees and upwards to or in immoveable property, but merely creating a right to obtain another document which will when executed create, declare, assign, limit or extinguish any such right, title or interest,

documents merely creating right to obtain other documents.

(i) decrees and orders of Courts and awards,

(j) grants of immoveable property by Government,

(k) instruments of partition made by revenue officers,

(l) certificates and instruments of collateral security granted under the Land Improvement Act, 1871.

Authorities to adopt a son, executed after the first day of January 1872 and not conferred by a will, shall also be registered.

18. Any of the documents next hereinafter mentioned may be registered under this Act (that is to say),

Documents of which registration is optional.

(a) Instruments (other than instruments of gift and wills) which purport or operate to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, of a value less than one hundred rupees, to or in immoveable property :

(b) Instruments acknowledging the receipt or payment of any consideration on account of the creation, declaration, assignment, limitation or extinction of any such right, title or interest :

(c) Leases of immoveable property for any term not exceeding one year, and leases exempted under section 17 :

(d) Instruments (other than wills) which purport or operate to create, declare, assign, limit or extinguish any right, title or interest to or in moveable property :

(e) Wills

(f) All other documents not required by section 17 to be registered.

19. If any document duly presented for registration be in a language which the registering officer does not understand, and which is not commonly used in the District, he shall refuse to register the document, unless it be accompanied by a true translation into a language commonly used in the District and also by a true copy.

20. The registering officer may in his discretion refuse to accept for registration any document in which any interlineation, blank, erasure or alteration appears, unless the persons executing the document attest with their signatures or initials such interlineation, blank, erasure or alteration. If he register such document, he shall, at the time of registering the same, make a note in the register of such interlineation, blank, erasure or alteration.

21. (a) No non-testamentary document relating to immoveable property shall be accepted for registration unless it contains a description of such property sufficient to identify the same.

(b) Houses in towns shall be described as situate on the north or other side of the street or road (mentioning it) to which they front, and by their existing and former occupancies, and by their numbers if the houses in such street or road are numbered. Other houses and lands shall be described by their name, if any, and as being in the territorial division in which they are situate, and by their superficial contents, the roads and other properties on which they abut, and their existing occupancies, and also, whenever it is practicable, by reference to a Government map or survey.

(c) No non-testamentary document containing a map or plan of any property comprised therein shall be accepted for registration unless it be accompanied by a true copy of the map or plan, or, in case such property is situate in several Districts, by such number of true copies of the map or plan as are equal to the number of such Districts.

Documents containing maps or plans.

22. Failure to comply with the provisions contained in section 21, clause (b), shall not disentitle a document to be registered if the description of the property to which it relates is sufficient to identify such property.

PART IV.

OF THE TIME OF PRESENTATION.

23. Subject to the provisions contained in sections 24, 25 and 26, no document other than a will shall be accepted for registration unless presented for that purpose to the proper officer within four months from the date of its execution,

Time for presenting documents.

or, in the case of a copy of a decree or order, within four months from the day on which the decree or order was made, or, where it is appealable, within four months from the day on which it becomes final :

Provided that, where there are several persons executing a document at different times, such document may be presented for registration and re-registration within four months from the date of each execution.

24. If owing to urgent necessity or unavoidable accident, any document executed, or copy of a decree or order made, in British India is not presented for registration till after the expiration of the time hereinbefore prescribed in that behalf, the Registrar, in cases where the delay in presentation does not exceed four months, may direct that on payment of a fine not exceeding ten times the amount of the proper registration fee, such document shall be accepted for registration.

Provision where delay in presentation is unavoidable.

Any application for such direction may be lodged with a Sub-Registrar, who shall forthwith forward it to the Registrar to whom he is subordinate.

25. When a document purporting to have been executed by all or any of the parties out of British India is not presented for registration till after the expiration of the time hereinbefore prescribed in that behalf, the Registering Officer, if satisfied,

Documents executed out of British India.

(a) that the instrument was so executed, and
 (b) that it has been presented for registration within four months after its arrival in British India,

may, on payment of the proper registration fee, accept such document for registration.

•26. Whenever a registration-office is closed on the last day of any period provided in this Act for the presentation of any document, such last day shall, for the purposes of this Act, be deemed to be the day on which the office re-opens.

27. A will may at any time be presented for registration or deposited in manner hereinafter provided.

PART V.

OF THE PLACE OF REGISTRATION.

28. Save as in this Part otherwise provided, every document mentioned in section 17, clauses (a), (b), (c) and (d), and section 18, clauses (a), (b) and (c), shall be presented for registration in the office of a Sub-Registrar within whose Sub-District the whole or some portion of the property to which such document relates is situate.

29. Every document other than a document referred to in section 28 and a copy of a decree or order, may be presented for registration either in the office of the Sub-Registrar in whose Sub-District the document was executed, or in the office of any other Sub-Registrar under the Local Government at which all the persons executing and claiming under the document desire the same to be registered.

A copy of a decree or order may be presented for registration in the office of the Sub-Registrar in whose Sub-District the original decree or order was made, or, where the decree or order does not affect immoveable property, in the office of any other Sub-Registrar under the Local Government at which all the persons claiming under the decree or order desire the copy to be registered.

30. (a) Any Registrar may in his discretion receive and register any document which might be registered by any Sub-Registrar subordinate to him.

(b) The Registrar of a District including a Presidency Town and the Registrar of the Lahore District may receive and register any document referred to in section 28 without regard to the situation in any part of British India of the property to which the document relates.

31. In ordinary cases the registration or deposit of documents under this Act shall be made only at the office of the officer authorized to accept the same for registration or deposit.

But such officer may on special cause being shown send at the residence of any person desiring to

present a document for registration or to deposit a will, and accept for registration or deposit such document or will.

PART VI.

OF PRESENTING DOCUMENTS FOR REGISTRATION.

32. Except in the cases mentioned in section 31 and section 89, every document to be registered under this Act, whether such registration be compulsory or optional, shall be presented at the proper registration office,

by some person executing or claiming under the same, or, in the case of a copy of a decree or order, claiming under the decree or order,

or by the representative or assign of such person,

or by the agent of such person, representative or assign, duly authorized by power-of-attorney executed and authenticated in manner hereinafter mentioned.

33. For the purposes of section 32, the powers-of-attorney next hereinafter mentioned shall alone be recognized (that is to say),—

(a) if the principal at the time of executing the power-of-attorney resides in any part of British India in which this Act is for the time being in force, a power-of-attorney executed before and authenticated by the Registrar or Sub-Registrar within whose District or Sub-District the principal resides :

(b) if the principal at the time aforesaid resides in any other part of British India, a power-of-attorney executed before and authenticated by any Magistrate

(c) if the principal at the time aforesaid does not reside in British India, a power-of-attorney executed before and authenticated by a Notary Public, or any Court, Judge, Magistrate, British Consul or Vice-Consul, or representative of Her Majesty or of the Government of India :

Provided that the following persons shall not be required to attend at any registration-office or Court for the purpose of executing any such power-of-attorney as is mentioned in clauses (a) and (b) of this section

persons who by reason of bodily infirmity are unable without risk or serious inconvenience so to attend ;

persons who are in jail under civil or criminal process ; and

persons exempt by law from personal appearance in Court.

In every such case the Registrar or Sub-Registrar or Magistrate (as the case may be), if satisfied that the power-of-attorney has been voluntarily executed by the person purporting to be the principal, may attest the same without requiring his personal attendance at the office or Court aforesaid.

To obtain evidence as to the voluntary nature of the execution, the Registrar or Sub-Registrar or Magistrate may either himself go to the house of the person purporting to be the principal, or to the

jail in which he is confined, and examine him, or issue a commission for his examination.

Any power-of-attorney mentioned in this section may be proved by the production of it without further proof, when it purports on the face of it to have been executed before and authenticated by the person or Court hereinbefore mentioned in that behalf.

34. Subject to the provisions contained in this Part and in sections 41, 43, 45, 69, 75, 77, 88 and 89, no document shall be registered under this Act, unless the persons executing such document, or their representatives, assigns or agents authorized as aforesaid, appear before the registering officer within the time allowed for presentation under sections 23, 24, 25 and 26 :

Provided that if owing to urgent necessity or unavoidable accident all such persons do not so appear, the Registrar, in cases where the delay in appearing does not exceed four months, may direct that on payment of a fine not exceeding ten times the amount of the proper registration-fee in addition to the fine, if any, payable under section 24, the document may be registered.

Such appearances may be simultaneous or at different times.

The registering officer shall thereupon—

(a) enquire whether or not such document was executed by the persons by whom it purports to have been executed,

(b) satisfy himself as to the identity of the persons appearing before him and alleging that they have executed the document, and

(c) in the case of any person appearing as a representative, assign or agent, satisfy himself of the right of such person so to appear.

Any application for a direction under the proviso in this section may be lodged with a Sub-Registrar, who shall forthwith forward it to the Registrar to whom he is subordinate.

Nothing in this section applies to copies of decrees or orders.

35. If all the persons executing the document appear personally before the registering officer and are personally known to him, or if he be otherwise satisfied that they are the persons they represent themselves to be, and if they all admit the execution of the document ;

or, in the case of any person appearing by a representative, assign or agent, if such representative, assign or agent admits the execution ;

or, if the person executing the document is dead, and his representative or assign appears before the registering officer, and admits the execution,

the registering officer shall register the document as directed in sections 58 to 61, inclusive.

The registering officer may, in order to satisfy himself that the persons appearing before him are the persons they represent themselves to be, or for any other purpose contemplated by this Act, examine any one present in his office.

If any of the persons by whom the document purports to be executed deny its execution,

or if any such person appears to be a minor, an idiot, or a lunatic,

or if any person by whom the document purports to be executed is dead, and his representative or assign denies its execution,

the registering officer shall refuse to register the document: Provided that, where such officer is a Registrar, he shall follow the procedure prescribed in Part XII of this Act.

PART VII.

OF ENFORCING THE APPEARANCE OF EXECUTANTS AND WITNESSES.

36. If any person presenting any document for registration, or claiming under any document which is capable of being so presented, desires the appearance of any person whose presence or testimony is necessary for the registration of such document, the registering officer may, in his discretion, call upon such officer or Court as the Local Government from time to time directs in this behalf to issue a summons requiring him to appear at the registration office, either in person or by duly authorized agent, as in the summons may be mentioned, and at a time named therein.

37. The officer or Court, upon receipt of the person's fee payable in such cases, shall issue the summons accordingly, and cause it to be served upon the person whose appearance is so required.

38. A person who by reason of bodily infirmity is unable without risk or serious inconvenience to appear at the registration office, a person in jail under civil or criminal process, and persons exempt by law from personal appearance in Court, and who would but for the provision next hereinafter contained be required to appear in person at the registration office,

shall not be required so to appear.

In every such case the registering officer shall either himself go to the house of such person, or to the jail in which he is confined, and examine him, or issue a commission for his examination.

39. The law in force for the time being as to summonses, commissions, and compelling the attendance of witnesses, and for their remuneration in suits before Civil Courts shall, save as aforesaid and *mutatis mutandis*, apply to any summons or commission issued, and any person summoned to appear under the provisions of this Act.

PART VIII.

OF PRESENTING WILLS AND AUTHORITIES TO ADOPT.

40. The testator or, after his death, any person claiming as executor or otherwise under a will, may present it to any Registrar or Sub-Registrar for registration,

and the donor or after his death the donee of any authority to adopt, or the adoptive son, may pre-

sent it to any Registrar or Sub-Registrar for registration.

41. A will or an authority to adopt presented for registration by the testator or donor may be registered in the same manner as any other document.

A will or authority to adopt presented for registration by any other person entitled to present it, shall be registered if the registering officer is satisfied,

(a) that the will or authority was executed by the testator or donor, as the case may be,

(b) that the testator or donor is dead, and

(c) that the person presenting the will or authority is, under section 40, entitled to present the same.

PART IX.

OF THE DEPOSIT OF WILLS.

42. Any testator may, either personally or by duly authorized agent, deposit with any Registrar his will in a sealed cover superscribed with the name of the testator and that of his agent (if any) and with a statement of the nature of the document.

43. On receiving such cover, the Registrar, if satisfied that the person presenting the same for deposit is the testator or his agent, shall transcribe in his Register Book No. 5 the superscription aforesaid and shall note in the same book and on the said cover the year, month, day and hour of such presentation and receipt, and the names of any persons who may testify to the identity of the testator or his agent, and any legible inscription which may be on the seal of the cover.

The Registrar shall then place and retain the sealed cover in his fire-proof box.

44. If the testator who has deposited such cover wishes to withdraw it, he may apply, either personally or by duly authorized agent, to the Registrar who holds it in deposit, and such Registrar, if satisfied that the applicant is actually the testator or his agent, shall deliver the cover accordingly.

45. If, on the death of a testator who has deposited a sealed cover under section 42, application be made to the Registrar who holds it in deposit to open the same, and if the Registrar is satisfied that the testator is dead, he shall, in the applicant's presence, open the cover, and, at the applicant's expense, cause the contents thereof to be copied into his Book No. 3.

When such copy has been made, the Registrar shall re-deposit the original will.

46. Nothing hereinbefore contained shall affect the provisions of the Indian Succession Act, section 259, or the power of any Court by order to compel the production of any will. But whenever any such order is made, the Registrar shall, unless the will

has been already copied under section 45, open the cover and cause the will to be copied into his Book No. 3 and make a note on such copy that the original has been removed into Court in pursuance of the order aforesaid.

PART X.

OF THE EFFECTS OF REGISTRATION AND NON-REGISTRATION.

47. A registered document shall operate from the time from which it would have commenced to operate if no registration thereof had been required or made, and not from the time of its registration.

48. All non-testamentary documents duly registered under this Act, and relating to any property whether moveable or immoveable, shall take effect against any oral agreement or declaration relating to such property, unless where the agreement or declaration has been accompanied or followed by delivery of possession.

49. No document required by section 17 to be registered,

shall affect any immoveable property comprised therein,

or confer any power to adopt,

or be received as evidence of any transaction affecting such property or conferring such power,

unless it has been registered in accordance with the provisions of this Act.

50. Every document of the kinds mentioned in clauses (a), (b), (c) and (d) of section 17, and clauses (a) and (b) of section 18, shall, if duly registered, take effect as regards the property comprised therein, against every unregistered document relating to the same property, and not being a decree or order, whether such unregistered document be of the same nature as the registered document or not.

Nothing in the former part of this section applies to leases exempted under the proviso in section 17, or to the documents mentioned in clauses (e), (f), (g), (h), (i), (j), (k) and (l) of the same section.

Explanation.—In cases where Act No. XVI of 1864 or Act No. XX of 1866 was in force in the place and at the time in and at which such unregistered document was executed, "unregistered" means not registered according to such Act, and, where the document is executed after the first day of July 1871, not registered under Act No. VIII of 1871 or this Act.

PART XI.

OF THE DUTIES AND POWERS OF REGISTERING OFFICERS.

(A). As to the Register Books and Indexes.

51. The following Books shall be kept in the several offices hereinafter named (that is to say)—

Register-books to be kept in the several offices.

In all registration offices—

Book 1, "Register of non-testamentary documents relating to immoveable property;"

Book 2, "Record of reasons for refusal to register;"

Book 3, "Register of wills and authorities to adopt;" and

Book 4, "Miscellaneous Register."

In the offices of Registrars—

Book 5, "Register of deposits of wills."

In Book 1 shall be entered or filed all documents or memoranda registered under sections 17, 18 and 87 which relate to immoveable property, and are not wills.

In Book 4 shall be entered all documents registered under clauses (d) and (f) of section 18, which do not relate to immoveable property.

Nothing in the former part of this section shall be deemed to require more than one set of books where the Office of the Registrar has been amalgamated with the Office of a Sub-Registrar.

52. The day, hour and place of presentation, and the signature of every

Endorsements on document presented. person presenting a document for registration, shall be

Receipt for document. endorsed on every such document at the time of presenting it; a receipt for such document shall be given by the registering officer to the person presenting the same; and, subject

Documents admitted to registration to be copied. to the provisions contained in section 62, every document admitted to registration shall without unnecessary delay be copied in the book appropriated therefor according to the order of its admission.

And all such books shall be authenticated at such interval and in such manner as is from time to time prescribed by the Inspector General.

53. All entries in each book shall be numbered in a consecutive series, which

Entries to be numbered consecutively. shall commence and terminate with the year, a fresh series being commenced at the beginning of each year.

54. In every office in which any of the books

Current indexes and entries to be made. hereinbefore mentioned are kept there shall be prepared

current indexes of the contents of such books; and every entry in such indexes shall be made, so far as practicable, immediately after the registering officer has copied, or filed a memorandum of, the document to which it relates.

55. Four such indexes shall be made in all registration offices, and shall

Indexes to be made by registering officers. be named, respectively, Index No. I, Index No. II, Index No. III, and Index No. IV.

Index No. I shall contain the names and additions of all persons executing and of all persons claiming under every document entered or memorandum filed in Book No. 1.

Index No. II shall contain such particulars mentioned in section 21 relating to every such document and memorandum as the Inspector General from time to time directs in that behalf.

Index No. III shall contain the names and additions of all persons executing every will and authority entered in Book No. 3, and of the executors and persons respectively appointed thereunder, and after the death of the testator or the donor (but not before) the names and additions of all persons claiming under the same.

Index No. IV shall contain the names and additions of all persons executing and of all persons claiming under every document entered in Book No. 4.

Indexes Nos. I, II, III and IV shall contain such other particulars, and Extra particulars in Indexes. shall be prepared in such form, as the Inspector General from time to time directs.

56. Every Sub-Registrar shall send to the Registrar to whom he is subordinate, at such intervals as

Copy of entries in Indexes Nos. I, II and III to be sent by Sub-Registrar to Registrar. the Inspector General from time to time directs, a copy of all entries made by such Sub-Registrar, during the last of such intervals, in Indexes Nos. I, II and III.

Such copy to be filed by Registrar. Every Registrar receiving such copy shall file it in his office.

57. Subject to the previous payment of the fees

Registering officers to allow inspection of certain books and indexes, and to give certified copies of entries. payable in that behalf, the Books Nos. 1 and 2 and the indexes relating to Book No. 1 shall be at all times open to inspection by any person applying to inspect the same; and subject to the provisions of section 62, copies of entries in such books shall be given to all persons applying for such copies.

Subject to the same provisions, copies of entries in Book No. 3 and in the index relating thereto shall be given to the persons executing the documents to which such entries relate, or to their agents, and after the death of the executants (but not before) to any person applying for such copies.

Subject to the same provisions, copies of entries in Book No. 4 and in the index relating thereto shall be given to any person executing or claiming under the documents to which such entries respectively refer, or to his agent or representative. The requisite search under this section for entries in Books Nos. 3 and 4 shall be made only by the registering officer.

All copies given under this section shall be signed and sealed by the registering officer, and shall be admissible for the purpose of proving the contents of the original documents.

(B). As to the Procedure on admitting to Registration.

58. On every document admitted to registration,

Particulars to be endorsed on documents admitted to registration. other than a copy of a decree or order, or a copy of a certificate under the Land Improvement Act, 1871, sent by the Collector to be registered, there shall be endorsed from time to time the following particulars (that is to say),—

(a) the signature and addition of every person admitting the execution of the document; and, if such execution has been admitted by the represent-

ative, assign or agent of any person, the signature and addition of such representative, assign or agent;

(b) the signature and addition of every person examined in reference to such document under any of the provisions of this Act; and

(c) any payment of money or delivery of goods made in the presence of the registering officer in reference to the execution of the document, and any admission of receipt of consideration, in whole or in part, made in his presence in reference to such execution.

If any person admitting the execution of a document refuses to endorse the same, the registering officer shall nevertheless register it, but shall at the same time endorse a note of such refusal.

59. The registering officer shall affix the date

Such endorsements to be dated and signed by registering officer. and his signature to all endorsements made under sections 52 and 58, relating to the same document and made in his presence on the same day.

60. After such of the provisions of sections

34, 35, 58 and 59 as apply to any document presented for registration have been complied with, the registering officer shall endorse thereon a certificate containing the word "registered," together with the number and page of the book in which the document has been copied.

Such certificate shall be signed, sealed and dated by the registering officer, and shall then be admissible for the purpose of proving that the document has been duly registered in manner provided by this Act, and that the facts mentioned in the endorsements referred to in section 59 have occurred as therein mentioned.

61. The endorsements and certificate referred to

and mentioned in sections 59 and 60 shall then be copied into a memorandum of the Register Book, and the copy of the memorandum (if any) mentioned in section 57 shall be filed in Book No. 1.

The registration of the document shall then be deemed to be complete, and the document shall be returned to the person who presented the same for registration, or to such other person as he has nominated in writing to that effect on the receipt mentioned in section 52.

62. When a document is presented for registration under section 19, the

Procedure on presenting document in language unknown to registering officer. translation shall be transcribed in the register of documents of the nature of the original, and, together with the copy referred to in section 19, shall be filed in the registration office.

The endorsements and certificate respectively mentioned in sections 59 and 60 shall be made on the original, and for the purpose of making the copies and memoranda required by sections 57, 61, 65 and 66, the translation shall be treated as if it were the original.

63. Every registering officer may at his discre-

Power to administer oaths. tion administer an oath to any person examined by him under the provisions of this Act.

He may also at his discretion record a note of substance of statements. the substance of the statement made by each such person, and such statement shall be read over, or (if made in a language with which such person is not acquainted) interpreted to him in a language with which he is acquainted, and if he admits the correctness of such note, it shall be signed by the registering officer.

Every such note so signed shall be admissible for the purpose of proving that the statements therein recorded were made by the persons and under the circumstances therein stated.

(C). Special Duties of Sub-Registrar.

64. Every Sub-Registrar on registering a non-

Procedure on registration of document relating to land situate in several Sub-Districts. testamentary document relating to immovable property not wholly situate in his own Sub-District, shall make a memorandum thereof and of the endorsement and certificate (if any) thereon, and send the same to every other Sub-Registrar subordinate to the same Registrar as himself in whose Sub-District any part of such property is situate, and such Sub-Registrar shall file the memorandum in his Book No. 1.

65. Every Sub-Registrar on registering a non-

Procedure where document relates to land situate in several districts. testamentary document relating to immovable property situate in more districts than one, shall also forward a copy thereof and of the endorsement and certificate (if any) thereon, together with a copy of the map or plan (if any) mentioned in section 21, to the Registrar of every district in which any part of such property is situate other than the district in which his own Sub-District is situate.

The Registrar on receiving the same shall file in his Book No. 1 the copy of the document and the copy of the map or plan (if any), and shall forward a memorandum of the document to each of the Sub-Registrars subordinate to him within whose Sub-District any part of such property is situate; and every Sub-Registrar receiving such memorandum shall file it in his Book No. 1.

(D). Special Duties of Registrar.

66. On registering any non-testamentary docu-

Procedure on registering documents relating to land. ment relating to immovable property, the Registrar shall forward a memorandum of such document to each Sub-Registrar subordinate to himself in whose Sub-District any part of the property is situate.

He shall also forward a copy of such document, together with a copy of the map or plan (if any) mentioned in section 21, to every other Registrar in whose district any part of such property is situate.

Such Registrar on receiving any such copy shall file it in his Book No. 1, and shall also send a memorandum of the copy to each of the Sub-Registrars subordinate to him within whose Sub-District any part of the property is situate.

Every Sub-Registrar receiving any memorandum under this section shall file it in his Book No. 1.

67. On any document being registered under

Procedure on registration under section 30, clause (b).

section 30, clause (b), a copy of such document and of the endorsements and certificate thereon shall be forwarded to every Registrar within whose district any part of the property to which the instrument relates is situate, and the Registrar receiving such copy shall follow the procedure prescribed for him in the first clause of section 66.

(F). Of the controlling Powers of Registrars and Inspectors General.

68. Every Sub-Registrar shall perform the

Registrar to superintend and control Sub-Registrars.

duties of his office under the superintendence and control of the Registrar in whose district the office of such Sub-Registrar is situate.

ercise of his discretion, remit wholly or in part the difference between any fine levied under section 24 or section 34 and the amount of the proper registration fee.

PART XII.**OF REFUSAL TO REGISTER.**

Reasons for refusal to register to be recorded.

71. Every Sub-Registrar refusing to register a document,

except on the ground that the property to which it relates is not situate within his Sub-District, shall make an order of refusal and record his reasons for such order in his Book No. 2, and endorse the words "registration refused" on the document; and on application made by any person executing or claiming under the document, shall, without payment and unnecessary delay, give him a copy of the reasons so recorded.

No registering officer shall accept for registration a document so endorsed unless and until, under the provisions hereinafter contained, the document is directed to be registered.

72. Except where the refusal is made on the

Power to reverse or alter orders of Sub-Registrar refusing registration on ground other than denial of execution.

ground of denial of execution, an appeal shall lie against an order of a Sub-Registrar refusing to admit a document to registration (whether the registration of such document is compulsory or optional) to the Registrar to whom such Sub-Registrar is subordinate, if presented to such Registrar within thirty days from the date of the order; and the Registrar may reverse or alter such order:

and if the order of the Registrar directs the document to be registered and the document is duly presented for registration within thirty days after the making of such order, the Sub-Registrar shall obey the same, and thereupon shall, so far as may be practicable, follow the procedure prescribed in sections 58, 59 and 60; and such registration shall take effect as if the document had been registered when it was first duly presented for registration.

73. When a Sub-Registrar has refused to re-

Application where Sub-Registrar refuses to register on ground of denial of execution.

register a document on the ground that any person by whom it purports to be executed, or his representative or assign, denies its execution,

any person claiming under such document, or his representative, assign or agent authorized as aforesaid, may, within thirty days after the making of the order of refusal, apply to the Registrar to whom such Sub-Registrar is subordinate in order to establish his right to have the document registered.

Such application shall be in writing and shall be accompanied by a copy of the reason recorded under section 71, and the statements in the application shall be verified by the applicant in manner required by law for the verification of plaints.

74. In such case, and also where such denial as

Procedure of Registrar on such application.

aforesaid is made before a Registrar in respect of a document presented for registration to him, he shall, as soon as conveniently may be, enquire—

(a) whether the document has been executed;

(b) whether the requirements of the law for the time being in force have been complied with on the part of the applicant or person presenting the

document for registration as the case may be, so as to entitle the document to registration.

75. If the Registrar finds that the document Order to register and has been executed and that procedure thereon. the said requirements have been complied with, he shall order the document to be registered.

And if the document be duly presented for registration within thirty days after the making of such order, the registering officer shall obey the same, and thereupon shall, so far as may be practicable, follow the procedure prescribed in sections 58, 59 and 60.

Such registration shall take effect as if the document had been registered when it was first duly presented for registration.

The Registrar may, for the purpose of any enquiry under section 74, summon and enforce the attendance of witnesses, and compel them to give evidence as if he were a Civil Court, and he may also direct by whom the whole or any part of the costs of any such enquiry shall be paid, and such costs shall be recoverable as if they had been awarded in a suit under the Code of Civil Procedure.

Refusal by Registrar. 76. Every Registrar refusing—

(a) to register a document except on the ground that the property to which it relates is not situate within his district or that the document ought to be registered in the office of a Sub-Registrar, or

(b) to direct the registration of a document under section 72 or section 75,

shall make an order of refusal and record the reasons for such order in his Book No. 2, and on application made by any person executing or claiming under the document, shall, without unnecessary delay, give him a copy of the reasons so recorded.

No appeal lies from any order under this section or section 72.

77. Where the Registrar refuses to order the document to be registered, under section 72 or section 76.

Suit in case of refusal. any person claiming under such document, or his representative, assign or agent, may, within thirty days after the making of the order of refusal, institute in the Civil Court within the local limits of whose original jurisdiction is situate the office in which the document is sought to be registered, a suit for a decree directing the document to be registered in such office, if it be duly presented for registration within thirty days after the passing of such decree; and the provisions contained in the second and third paragraphs of section 75, shall, *mutatis mutandis*, apply to all documents so presented, and notwithstanding anything contained in this Act, the document shall be receivable in evidence in such suit.

PART XIII.

The Local Government may from time to time, subject to the like approval, alter such table.

79. A table of the fees so payable shall be published in the official Gazette, and a copy thereof in English and the vernacular language of the district shall be exposed to public view in every registration office.

80. All fees for the registration of documents under this Act shall be payable on the presentation of such documents.

PART XIV.

OF PENALTIES.

81. Every registering officer appointed under this Act and every person employed in his office for the purposes of this Act, who, being charged with the endorsing, copying, translating or registering of any document presented or deposited under its provisions, endorses, copies, translates or registers such document in a manner which he knows or believes to be incorrect, intending thereby to cause, or knowing it to be likely that he may thereby cause, injury, as defined in the Indian Penal Code to any person, shall be punished with imprisonment for a term which may extend to seven years, or with fine, or with both.

82. Whoever commits any of the following offences shall be punishable with imprisonment for a term which may extend to seven years, or with fine, or with both:

(a) intentionally makes any false statement, whether on oath or not, and whether it has been recorded or not, before any officer acting in execution of this Act, in any proceeding or inquiry under this Act,

(b) intentionally delivers to a registering officer in any proceeding under section 19 or section 21 a false copy or translation of a document, or a false copy of a map or plan,

(c) falsely personates another, and in such assumed character presents any document, or makes any admission or statement, or causes any summons or commission to be issued, or does any other act in any proceeding or enquiry under this Act,

(d) abets within the meaning of the Indian Penal Code anything made punishable by this Act.

83. A prosecution for any offence under this Act coming to the knowledge of a registering officer in his official capacity may be commenced by or with the permission of the Inspector General, the Branch Inspector General of Sindh, the Registrar or the Sub-Registrar, in whose territories, District or Sub-District, as the case may be, the offence has been committed.

Offences punishable under this Act shall be triable by any Court or officer exercising powers not less than those of a Subordinate Magistrate of the first class:

Provided that, in imposing penalties under this Act, no such Court or officer shall exceed the limits of jurisdiction prescribed by the law for the time being in force as to such Court or officer.

All fines imposed under this Act may be recovered, if for offences committed outside the limits of the Presidency Towns, in the manner prescribed by the Code of Criminal Procedure, and if for offences committed within those limits, in the manner prescribed by any Act regulating the Police of such Towns for the time being in force.

84. Every registering officer appointed under this Act shall be deemed a public servant within the meaning of the Indian Penal Code.

Every person shall be legally bound to furnish information to such registering officer when required by him to do so. And in section 228 of the same Code, the words "judicial proceeding" shall include any proceeding under this Act.

A Registrar shall, but a Sub-Registrar shall not, as such, be deemed a Court within the meaning of sections 435 and 436 of the Code of Criminal Procedure.

PART XV.

MISCELLANEOUS.

85. Documents (other than wills) remaining unclaimed in any registration office, for a period exceeding two years, may be destroyed.

86. No registering officer shall be liable to any suit, claim or demand by reason of anything in good faith done or refused in his official capacity.

87. Nothing done in good faith pursuant to this Act, or any Act hereby repealed, by any registering officer, shall be deemed invalid merely by reason of any defect in his appointment or procedure.

88. Notwithstanding anything herein contained, it shall not be necessary for any officer of Government, or for the Administrator General of Bengal, Madras or Bombay, or for any Official Trustee, or Official Assignee, or for the Sheriff, Receiver or Registrar of a High Court, to appear in person or by agent at any registration office in any proceeding connected with the registration of any instrument executed by him in his official capacity, or to sign as provided in section 58.

But when any instrument is so executed, the registering officer to whom such instrument is presented for registration may, if he think fit, refer to any Secretary to Government or to such officer of Government, Administrator General, Official Trustee, Official Assignee, Sheriff, Receiver or Registrar, as the case may be, for information respecting the same, and, on being satisfied of the execution thereof, shall register the instrument.

89. Every officer granting a certificate under the Land Improvement Act, 1871, shall send a copy of such certificate to the registering officer within the local limits of whose jurisdiction the whole or any part of the land to be improved, or of the land to be granted as collateral security, is situate, and such registering officer shall file the certificate in his book No. 1.

Exemptions from Act.

90. Nothing contained in this Act or in Act No. VIII of 1871 or in any Act whereby repealed shall be deemed to require, or to have at any time required, the registration of any of the following documents or maps

(a). Documents issued, received or attested by any officer engaged in making a settlement or revision of settlement of land-revenue, and which form part of the records of such settlement.

(b). Documents and maps issued, received or authenticated by any officer engaged on behalf of Government in making or revising the survey of any land, and which form part of the record of such survey.

(c). Documents which, under any law for the time being in force, or filed periodically in any revenue office by patwāris or other officers charged with the preparation of village-records.

(d). Sanads, inām title-deeds and other documents purporting to be or to evidence grants or assignments by Government of land or of any interest in land.

But all such documents and maps shall, for the purposes of sections 48 and 49, be deemed to have been and to be registered in accordance with the provisions of this Act.

91. Subject to such rules and the previous payment of such fees as the Local Government from time to time prescribes in this behalf, all documents and maps mentioned in section 90, clauses (a), (b) and (c), and all registers of the documents mentioned in clause (d), shall be open to the inspection of any person applying to inspect the same, and, subject as aforesaid, copies of such documents shall be given to all persons applying for such copies.

92. All rules relating to registration heretofore enforced in British Burma shall be deemed to have had the force of law, and no suit or other proceeding shall be maintained against any officer or other person in respect of anything done under any of the said rules.

THE FIRST SCHEDULE—ENACTMENTS REPEALED.**THE SECOND SCHEDULE—TABULAR STATEMENT OF OFFENCES.****THE THIRD SCHEDULE—FORMS.**

An Act to regulate the procedure and increase the jurisdiction of the Courts of Magistrates in the Presidency Towns.

WHEREAS it is expedient to consolidate and amend the law regulating the procedure of the Courts of Magistrates in the Presidency towns and to increase the jurisdiction of such Courts; It is hereby enacted as follows:—

PART I.**CHAPTER I.—PRELIMINARY.**

1. This Act may be called "The Presidency Magistrates' Act, 1877":

Short title.

Commencement.

And it shall come into force on the first day of April 1877.

2. On and from that day the Acts mentioned in the first schedule hereto annexed shall be repealed to the extent specified in the third column of the said schedule.

3. Nothing in this Act shall be deemed to restrict any power conferred by any special or local law.

Saving of powers under local laws.

4. The Court by which an offence is triable under this Act is indicated by the seventh column of the second schedule hereto annexed and by the third explanatory note prefixed to such schedule.

Matters indicated in second schedule.

The cases in which the Police may arrest without warrant or not, in the case of each offence under the Indian Penal Code or any law referred to in section 14,

whether a warrant or a summons shall ordinarily issue in the first instance, and

whether the offence is bailable or not, are indicated respectively by the third, fourth and fifth columns of the same schedule.

The punishment for each offence under the Indian Penal Code is indicated by the sixth column of the same schedule.

5. Cases pending when this Act comes into force in any of the Courts of Police Magistrates, or in the town of Bombay in the Court of Petty Sessions, shall be dealt with, as far as may be, according to the procedure herein provided.

Pending cases.

6. In this Act, unless there be something repugnant in the subject or context:—

Definitions.

“writing” includes print, lithography, photography and engraving:

“bailable offence” means an offence for, and “bailable case” means a case in, which bail may be taken under any law in force for the time being:

“bailable offence or case.”

“non-bailable offence” means an offence for, and “non-bailable offence or case.” means a case in, which bail may not be taken under any law in force for the time being:

“chapter.” chapter” means a chapter of this Act:

“place.” “place” includes also house, building and vessel: and

Words referring to acts done words which refer to acts done extend also to illegal omissions.

CHAPTER II.—CONSTITUTION AND POWERS OF THE PRESIDENCY MAGISTRATES' COURTS.

Establishment of Presidency Magistrates' Courts.

7. The Local Government may, with the sanction of the Governor General in Council,

(a) constitute within the towns of Calcutta, Madras and Bombay, respectively, so many divisions as the said Government thinks fit,

(b) define the extent thereof respectively,

(c) from time to time alter the number of such divisions and their respective extents, and

(d) establish a Presidency Magistrate's Court for each of such divisions.

8. The Local Government may also from time to time appoint a sufficient number of fit persons to be

Appointment of Presidency Magistrates.

Magistrates for the said towns, respectively, and may suspend or remove any person so appointed.

Any such person may sit and act as a Magistrate in any of the said Courts, and any two or

more of such persons may (subject to rules made under section 9) sit together as a Bench.

All persons appointed under this section shall be called Presidency Magistrates.

Every such person shall, by virtue of his office, be a Justice of the Peace for the town of which he is a Magistrate,

Presidency Magistrates to be Justices of the Peace.

and shall exercise jurisdiction in all places within the local limits of the ordinary original criminal jurisdiction of the High Court, and within the limits of the port of such town and of any navigable river or channel leading thereto as such limits are defined under the law for the time being in force for the regulation of ports and port-dues.

Local limits of jurisdiction.

The area comprised within such local limits shall be deemed to be a district within the meaning of the Code of Criminal Procedure and of this Act.

Every Presidency Magistrate in the town of Bombay shall exercise all powers and jurisdictions which, under any law in force immediately before the passing of this Act, may be exercised by the Court of Petty Sessions, and such Court is hereby abolished.

Bombay Court of Petty Sessions.

9. In each of the said towns the Local Government shall appoint one of the Presidency Magistrates to be Chief Magistrate. Such Magistrate shall exercise in such town all the powers which by any law or rule are required to be exercised by any Senior or Chief Magistrate, and may, with the previous sanction of the Local Government, make rules, consistent with this Act, to regulate

(a) the conduct and distribution of business and secure uniformity of practice in the Courts of the Magistrates of the Town:

(b) the times and places at which Benches of Magistrates shall sit

(c) the constitution of Benches:

(d) the mode of settling differences of opinion which may arise between Magistrates in session.

Notwithstanding the last paragraph of section 8, appeals under the law for the time being regulating the municipality of Bombay shall lie to the Chief Magistrate only.

10. All existing Magistrates of Police shall, be deemed to be Presidency Magistrates under this Act, and all references in any Act now in force to Magistrates of Police shall be deemed to be made to Presidency Magistrates.

References in Acts to Magistrates of Police.

Sentences which Presidency Magistrates may pass.

11. Any Magistrate may pass the following sentences:—

Imprisonment not exceeding the term of two years (including such solitary confinement as is authorized by law)

Fine not exceeding one thousand rupees

Whipping

A Presidency Magistrate may pass any lawful sentence, combining any of the sentences which he is authorized by law to pass.

EXPLANATION.—A Presidency Magistrate may award imprisonment in default of payment of fine, in addition to the full term of imprisonment which, under this section, he is competent to award. But no punishment inflicted, under this

section shall exceed the punishment provided for the offence by the Indian Penal Code or any special or local law.

12. In every case punishable under any law in force for the time being with imprisonment as well as fine, in which the offender is sentenced to a fine, whether with or without imprisonment, the Presidency Magistrate shall be guided by the provisions of sections 64 and 65 of the Indian Penal Code in fixing the period of imprisonment in default of payment of the fine:

Provided that, in no case decided by a Presidency Magistrate, where imprisonment has been inflicted as part of the substantive sentence, shall the period of imprisonment inflicted in default of payment of the fine exceed one-fourth of the period of imprisonment which he is competent to inflict as punishment for the offence otherwise than as imprisonment in default of payment of the fine.

Where a person is sentenced to fine only, the Presidency Magistrate may fix such term of imprisonment in default of payment of fine as is allowed by law, provided the term does not exceed two years.

13. When a person is convicted, at one trial, of two or more offences punishable under the same section or different sections of any law, the Presidency Magistrate may sentence him, for the offences of which he has been convicted, to the several penalties prescribed by such law which such Magistrate is competent to inflict; such penalties, when consisting of imprisonment, to commence the one after the expiration of the other:

Provided that the punishment shall not in the aggregate exceed twice the amount of punishment which the Magistrate is, by his ordinary jurisdiction, competent to inflict.

14. Offences punishable under any law, other than the Indian Penal Code, containing no distinct provision as to the Court or officer before which or before whom they are to be tried, may be inquired into and tried, according to the provisions hereinafter contained, by a Presidency Magistrate. But no such Magistrate shall pass any sentence in excess of his powers.

15. When any offence is committed in the presence of a Presidency Magistrate, he may order any person to arrest the offender, and when the offender is arrested may commit him to custody or, if the offence is bailable, may admit him to bail.

16. A Presidency Magistrate may record any confession or other statement made to him at any place within the local limits of his jurisdiction by any person with reference to any offence.

Such confessions shall be recorded in the manner provided by section 84, and such statements shall be recorded in the manner prescribed in section 115, clauses 3, 4 and 5, and such statements and confessions shall, when recorded, be forwarded to the Magistrate by whom the case is inquired into or tried.

No Presidency Magistrate shall record any such confession unless, upon inquiry, he has reason to believe that it was made voluntarily; and on recording any such confession, he shall make a memorandum at the foot thereof to the following effect:—

"I believe that this confession was voluntarily made. It was read over to the person making it and was admitted by him to be correct."

(Signed) A. B.,

Presidency Magistrate.

17. Upon complaint made to a Presidency Magistrate on oath of the abduction or unlawful detention of a woman, or of a female child under the age of fourteen years, for any unlawful purpose, he may make an order for the immediate restoration of such woman to her liberty, or of such female child to her husband, parent, guardian or other person having the lawful charge or government of such child, and may compel compliance with such order, using force if necessary.

PART II.

CHAPTER III.—THE PLACE OF INQUIRY AND TRIAL.

18. Every offence shall ordinarily be inquired into, and, if triable by a Magistrate, shall be tried, in the district in which it was committed. If triable by a High Court, it shall (subject to the provisions of section 64A of the Code of Criminal Procedure) be tried by the High Court to which the Magistrate commits.

EXPLANATION.—Offences created by local and special laws may be inquired into and tried in any place where the inquiry or trial might be held under the provisions of those laws or of this Act.

19. When a person is accused of the commission of any offence by reason of anything which has been done, and of any consequence which has ensued, such offence may be inquired into or tried in any district in which any such thing has been done, or any such consequence has ensued.

Illustrations.

(a.) A is wounded in district X and dies in district Z. The offence of the culpable homicide of A may be inquired into and tried either in X or Z.

(b.) A is wounded in district X, and is, during twenty days, unable to follow his ordinary pursuits in district Y, where he is being treated. The offence of causing grievous hurt to A may be inquired into and tried either in X or Y.

(c.) A is put in fear of injury in district X, and is thereby induced, in district Y, to deliver property to the person who put him in fear. The offence of extortion committed on A may be inquired into and tried either in X or Y.

20. When an act is an offence by reason of its relation to any other act which is also an offence, a charge of the first-mentioned offence may be inquired into and tried, either in the district in which it was committed, or in the district in which the other act was committed.

Illustrations.

(a.) A charge of abetment may be inquired into and tried, either in the district in which the abetment was committed, or in the district in which the offence abetted was committed.

(b.) A charge of receiving or retaining stolen goods may be inquired into and tried, either in the district in which the goods were stolen, or in the district in which any of them were at any time dishonestly received or retained.

(c.) A charge of wrongfully concealing a person known to have been kidnapped may be inquired into and tried in the district in which the wrongful concealing, or in the district in which the kidnapping, took place.

(d.) A, B, C and others combine together to abet the waging of war against the Queen. Any of the conspirators may be tried in any district in which acts were done by any one of the persons with whom he or they conspired, in pursuance of their original concerted plan and with reference to their common object.

21. When it is uncertain in which of several districts an offence was committed; or

Place for inquiry or trial where scene of offence is uncertain; where an offence is committed partly in one district and partly in another; or

or offence not committed in one district only; where an offence is a continuing one and continues to be committed in more districts than one; or

or offence is continuing; where an offence consists of several acts done in different districts;

it may be inquired into and tried in any of such districts.

An offence committed on a journey or voyage may be inquired into and tried in any district through or into which the person by whom the offence was committed, or the person against whom, or the thing in respect of which, the offence was committed, passed in the course of that journey or voyage.

22. The offence of being a thug, or of having belonged to a gang of dacoits, or of having escaped from custody, may be inquired into and tried wherever the accused person happens to be when the complaint is made.

The offence of criminal misappropriation, or of criminal breach of trust, may be inquired into and tried either in the district in which the property which is the subject of the offence was received by the accused person, or in any other district in which the offence was committed.

The offence of murder as a thug, dacoity or dacoity with murder, may be inquired into and tried wherever the person accused happens to be when arrested, or in any other district in which he might be tried under any other provision of this Act, or any other law relating to the trial of such offence.

The offence of stealing an animal may be inquired into and tried either in the district in which such animal was stolen, or in any other district through or into which it was conveyed.

23. Whenever any doubt arises as to the district in which any offence should be inquired into or tried, the High Court within whose jurisdiction the offender is apprehended may decide in which district the offence shall be inquired into or tried.

24. No sentence or order of any criminal Court shall be liable to be set aside merely on the ground that the inquiry or trial was held in a wrong district, unless it is proved, or appears, that the accused person in his defence, or the prosecutor in his prosecution, was actually prejudiced by such error, in either of which cases a new trial may be ordered.

CHAPTER IV.—OF THE COGNIZANCE OF OFFENCES.

25. A Presidency Magistrate may take cognizance of any offence—

- (a) upon receiving a complaint by a private person,
- (b) upon information or report by a Police officer,
- (c) upon information received under section 246,
- (d) if committed in his presence,
- (e) upon application under chapter V.

26. Any person acquainted with the facts of a case may make a complaint.

27. On receipt of a complaint a Presidency Magistrate may, if the person complained of be not already in custody, proceed by summons or warrant to compel his appearance;

and in the cases mentioned in section 25, clauses (b), (c), (d) and (e), the Presidency Magistrate may proceed as if he had received a complaint.

28. A complaint gives jurisdiction to a Presidency Magistrate—

(a) to inquire into or try (as the case may be) any offence covered by the facts complained of, or disclosed on such inquiry or trial,

(b) to try or commit for trial (as the case may be) any person not complained against, but who, at the time when the complaint is made, or subsequently, appears to have committed any offence so disclosed, and

(c) to issue process for the arrest or to compel the appearance of such person.

29. Nothing in section 27 or 28 shall be held to authorize a Presidency Magistrate to take cognizance, without complaint, of any offence falling under chapters XIX, XX or XXI of the Indian Penal Code; nor without sanction to receive a complaint, or to take cognizance without complaint of any offence, where such complaint or offence, by any law in force for the time being, may not be received or taken cognizance of without sanction.

30. Whenever a complaint is made to a Presidency Magistrate, such Magistrate, if he has jurisdiction in the case, shall examine the complainant; and such examination may be on oath or affirmation, or not, as the Magistrate in each case thinks fit:

Provided that the Magistrate, if he thinks fit, may, before the matter of the complaint is brought before him, require it to be reduced to writing.

31. Where the complaint has been made by petition, and the Magistrate neglects to examine the complainant, the trial of the person accused shall not be set aside on this ground.

32. The Magistrate before whom the complaint is duly made may, if, after examining the complainant, there is in his judgment no sufficient ground for proceeding, dismiss the complaint.

The dismissal of a complaint shall not prevent subsequent proceedings against the person complained against.

33. If it appears to such Magistrate that there is sufficient ground for proceeding, he shall issue his summons or his warrant (as the case may be) for causing the accused person to appear before him.

34. When a complaint is made before a Presidency Magistrate having jurisdiction in the case, that any person has committed, or is suspected of having committed, any offence triable by such Magistrate and punishable with fine only, or with imprisonment for a period not exceeding six months, or with both, the Magistrate may (subject to the provisions of section 4) issue his summons directed to such person, requiring him to appear to answer the complaint, at a certain time and place, before such Magistrate as may then be there.

If the Magistrate believes that the accused person is about to abscond, he may, instead of issuing a summons, issue a warrant in the first instance for the arrest of such person.

35. When a complaint is made before a Presidency Magistrate having jurisdiction in the case that any person has committed, or is suspected of having committed—

(a) any offence triable by such Magistrate and punishable with imprisonment for a period exceeding six months, or

(b) any offence triable exclusively by the High Court, or which, in the opinion of such Magistrate, ought to be tried by the High Court,

such Magistrate may (subject to the provisions of section 4) issue his warrant to arrest such person, or, if he thinks fit, his summons directed to such person, requiring him to appear to answer the complaint at a certain time and place before such Magistrate as may then be there.

36. If the person served with a summons does not appear before the Magistrate at the time mentioned in such summons, and the Magistrate is satisfied that such summons was duly served in what he deems a reasonable time before the time therein appointed for appearing pursuant thereto,

or if it appears to the Magistrate that, after due diligence, the summons could not be served according to the provisions of this Act,

the Magistrate may issue his warrant to apprehend the accused person.

37. Whenever the Magistrate issues a summons, he may, if he sees sufficient cause, dispense with the personal attendance of the accused person, and permit him to appear by his advocate, attorney or pleader.

But such Magistrate may in his discretion, at any stage of the proceedings, direct the personal attendance of the accused person, and, if necessary, enforce such attendance by issuing a warrant to arrest him.

CHAPTER V.—OF PROSECUTIONS IN CERTAIN CASES.

38. A complaint of an offence punishable under chapter VI of the Indian Penal Code, except section 127, or punishable under section 294A of the same Code, shall not be received by any Presidency Magistrate, unless it be made by order of, or under authority from, the Governor General in Council or the Local Government, or some officer empowered by the Governor General in Council or the Local Government to order or authorize such complaint, or unless it be made by the Advocate General.

39. A complaint of an offence of which any Judge or any public servant not removeable from his office without the sanction of the Government, is accused as such Judge or public servant, shall not be received by any Presidency Magistrate, except with the previous sanction or under the direction,

(a) of the Government, or

(b) of some officer empowered in this behalf by the Government, or

(c) of some Court or other authority to which such Judge or public servant is subordinate, and whose power so to sanction or direct such complaint has not been limited by the Government.

No such Judge or public servant shall, unless with the previous sanction of the Government, be prosecuted for any act purporting to be done by him in the discharge of his duty.

The Government may, in any case or class of cases, prescribe the person by whom, and the manner in which, the prosecution is to be conducted, and may specify the Court before which the trial shall be held.

In this section, the expression "Government" means either the Local Government or the Governor General in Council, and the expressions "Judge" and "public servant" have the meaning assigned to them respectively by the Indian Penal Code.

40. A complaint of any offence described in chapter X of the Indian Penal Code, not falling within section 175, 178, 179, 180 or 228 of that Code, shall not be received by any Presidency Magistrate, except with the sanction or on the complaint of the public servant concerned, or of his official superior.

41. A complaint of an offence against public justice, described in section 183, 184, 195, 196, 199, 200, 205, 206, 207, 208, 209, 210, 211 or 228 of the Indian Penal Code, when such offence is committed before or against a civil or criminal Court, shall not be received by any Presidency Magistrate, except with the sanction of the Court before or against which the offence was committed, or of some other Court to which such Court is subordinate.

42. A complaint of an offence relating to documents, described in section

Sanction to prosecution for certain offences relating to documents given in evidence.

463, 471, 475 or 476 of the Indian Penal Code, when the document has been given in evidence in any proceedings in any civil or criminal Court, shall not be received against any party to or witness in such proceedings, by any Presidency Magistrate, except with the sanction of the Court in which the document was given in evidence, or of some other Court to which such Court is subordinate.

43. The sanction referred to in sections 40, 41

Nature of sanction necessary.

and 42 respectively may be expressed in general terms, and need not name the accused person, and may be given at any time. But it shall, so far as practicable, specify the Court or other place in which, and the occasion on which, the offence is alleged to have been committed.

A sanction under any one of the three last preceding sections shall be deemed sufficient authority for the Presidency Magistrate to alter the charge (if any) to one of an offence coming within either of the two remaining sections, if the facts disclose such offence.

44. When any civil, criminal or other Court

Procedure in cases mentioned in section 40, 41 or 42.

inferior to a High Court is of opinion that there is sufficient ground for inquiring into any complaint mentioned in section 40, 41 or 42, such Court may either itself inquire into and commit the case for trial before the High Court, or may send the case for disposal to any Presidency Magistrate having jurisdiction.

The Court may send the accused person in custody, or take sufficient bail for his appearance, before such Magistrate; and may bind over any person to appear and give evidence in the case.

Nothing in this section shall prevent a Presidency Magistrate from disposing of cases under sections 172, 173, 174 and 175 of the Indian Penal Code where he himself is the public servant concerned.

45. A complaint of an offence under section

Prosecution for adultery.

497 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the other person (if any) under whose care she was living at the time when the adultery was committed.

A complaint of an offence under section 498 of

Prosecution for enticing away married woman.

the Indian Penal Code shall be made only by the husband of the woman concerned, or by the person (if any) having the care of her on behalf of her husband at the time when the offence was committed.

46. The application of the public servant or

Application to be deemed a complaint.

Court to a Presidency Magistrate to inquire into or try any case under this chapter shall be deemed a sufficient complaint.

CHAPTER VI.—OF THE SUMMONS AND WARRANT.

47. Every summons issued by a Presidency Ma-

gistrate to an accused person shall be in writing signed by such Magistrate, and shall be in the form (A)

given in the third schedule to this Act, or to the like effect.

48. If the accused person can be found, the

Summons how served.

summons shall be served on him personally, wherever he may be, by delivering or tendering the summons to him.

Every person to whom a summons is delivered or tendered under this section shall, if required by the person delivering or tendering the same, sign a receipt therefor, or countersign a copy thereof.

49. If the accused person cannot be found, the

Service when accused cannot be found.

summons may be served by leaving it for him with some adult male member or servant of his family residing with him; and the person with whom the summons is so left shall, if so required by the serving officer, sign a receipt therefor, or countersign a copy thereof. If there is no such member or servant with whom the summons can be left, the serving officer shall fix it on some conspicuous part of the house in which the accused person ordinarily resides, and thereupon the summons shall be deemed to have been duly served.

When the person summoned is in the service

Service on servants of Government and Railway Companies.

of Government or of any Railway Company, the Magistrate issuing the summons may send it to the head of the office in which the person summoned is employed; and such head shall thereupon cause the summons to be served in manner hereinbefore provided.

50. When a summons issued by a Presidency

Service of summons outside Presidency Towns.

Magistrate is to be served at any place outside the local limits of his jurisdiction, he may send the summons in duplicate to the Magistrate of the place where the accused resides or is, to be there served.

51. When a summons issued by a Presidency

Proof of service in such cases and when server not present.

Magistrate is served outside such local limits as aforesaid, and also in cases where the person who has served the same is not present at the hearing of the complaint, the service may be proved—

(a) by a solemn declaration, purporting to be made before a Magistrate, that such summons has been served, and such declaration may be endorsed on the duplicate summons and returned to the Magistrate who issued the summons, or

(b) by a copy of the summons purporting to be countersigned by the person to whom it is addressed, or

(c) by a receipt under section 48.

52. The provisions relating to a summons, its

Provisions applicable to all summonses under Act.

issue and service, contained in sections 47 to 51 (both inclusive), shall be applicable to every summons issued under this Act.

53. A Presidency Magistrate may, notwithstanding the issue of a sum-

Issue of warrant in addition to summons.

mons under this chapter, either before the appearance of the accused person as required by such summons, or after he fails so to appear, issue a warrant of arrest against him.

54. A Presidency Magistrate may issue a summons for the attendance, or a warrant for the apprehension, of any person within the local limits of his jurisdiction, in respect of any offence alleged or suspected to have been committed by such person in a different district, or on the high seas, or in a foreign country: provided that if the offence were committed within such local limits, the Magistrate might issue a summons or warrant.

55. On the attendance or apprehension of such person, if the Presidency Magistrate has not jurisdiction in the case, he shall either send such person to the Magistrate within the local limits of whose jurisdiction the offence is alleged to have been committed, or if the offence is bailable, take bail for his appearance before such Magistrate.

When the Presidency Magistrate cannot satisfy himself as to the Magistrate to whom the person so attending—or arrested should be sent, he shall report the case for the orders of the High Court.

56. Every warrant issued by a Presidency Magistrate shall be in writing under his hand, shall be directed to one or more Police-officers, and shall be in the form (B) given in the third schedule to this Act, or to the like effect.

A warrant issued under this Act remains in force until it is cancelled by the Magistrate who issued it, or until it is executed.

57. A fee of eight annas shall be paid for every summons or warrant issued by a Presidency Magistrate, except in the case of a summons to attend and give evidence or to produce documents, in which case there shall be paid a fee of four annas:

Provided that such Magistrate may in any case remit any such fee, if he is satisfied that the complainant is unable to pay the same, and shall remit it when the complaint is made by a public servant in the execution of his duty.

58. A Presidency Magistrate, in issuing a warrant for the arrest of any person, may in his discretion direct by endorsement on the warrant, that if such person give sufficient bail as therein mentioned for his appearance before the Magistrate on a specified day to answer the complaint, the officer to whom the warrant is directed shall take such bail, and shall release such person from custody.

The endorsement shall state (a) the number of sureties, (b) the amount in which they and the accused person are to be respectively bound, and (c) the day on which he is to appear before the Magistrate.

If bail be taken, the officer to whom the warrant is directed shall forward the recognizance to the Presidency Magistrate.

59. When a warrant is directed to more Police-officers than one, it may be executed by all, or by any one or more, of such officer.

60. A warrant directed to any Police-officer may also be executed by any other Police-officer whose name is endorsed upon the warrant by the officer to whom it is directed or endorsed.

Any Presidency Magistrate who issues a warrant of arrest may attend personally for the purpose of seeing that the warrant is duly executed.

62. Any such Magistrate may also at any time direct the arrest, in his presence, of any person for whose arrest he may issue a warrant.

63. A warrant issued by a Presidency Magistrate shall ordinarily be executed within the local limits of his jurisdiction.

But if the person against whom the warrant is issued goes into, or is in, any place outside such limits, the warrant may be executed in such place.

64. A Presidency Magistrate may direct a warrant to be executed outside the local limits of his jurisdiction, either with or without endorsement by a Magistrate within the local limits of whose jurisdiction it is to be executed.

Such warrant shall ordinarily be endorsed by the Magistrate within the local limits of whose jurisdiction it is to be executed.

The warrant may be forwarded to such Magistrate for endorsement, either by post or by any Police-officer to whom it is directed.

The Magistrate to whom such warrant is forwarded by post shall endorse his name thereon and cause it to be executed within the local limits of his jurisdiction.

If the warrant is forwarded by a Police-officer to whom it is directed, he may take it either to a Magistrate, or to a Police-officer not below the rank of an officer in charge of a station, within the local limits of whose jurisdiction the warrant is to be executed.

Such Magistrate or Police-officer shall endorse his name thereon, and such endorsement shall be sufficient authority to the Police-officer to whom the warrant is directed to execute the same within such limits, and the local police shall be bound to assist such officer in executing the warrant.

Whenever there is reason to believe that the delay occasioned by obtaining the endorsement of the Magistrate or Police-officer within the local limits of whose jurisdiction the warrant is to be executed will prevent such execution, the Police-officer to whom it is directed may execute the same without such endorsement in any place beyond the local limits of the jurisdiction of the Magistrate who issued it.

65. If a warrant is executed, whether with or without endorsement, outside the district in which it was issued, the person arrested shall, unless the Presidency Magistrate who issued the warrant be within twenty miles, or be nearer than the Magistrate in whose local jurisdiction the arrest was made, or unless bail be taken under section 58, be brought before the Magistrate within the local limits of whose jurisdiction the arrest was made.

Such Magistrate shall, if the person arrested appears to be the person intended by the Presidency Magistrate, direct his removal in custody to such Magistrate, unless such person is then ready and willing to give the bail (if any) required under section 58, in which case the Magistrate before whom he is so brought shall accept such bail and forward the recognizance to the Presidency Magistrate.

66. Every Magistrate or Police-officer to whom a warrant under this Act is directed for, execution shall execute the same, or cause it to be executed.

67. If a Presidency Magistrate having jurisdiction in the case has reason to believe that any person accused of an offence not coming within section 34 is absconding or concealing himself, so that a warrant issued against him under this Act cannot be executed, such Magistrate may issue a written proclamation, requiring him to appear to answer the complaint within a fixed period not less than thirty days from the date of publishing the proclamation.

Such proclamation shall be published as follows—

(a) it shall be publicly read in some conspicuous place of the town or village in which the accused person usually resides ;

(b) it shall be affixed to some conspicuous part of his ordinary place of abode, or some conspicuous place of such town or village ; and

(c) a copy thereof shall be affixed to some conspicuous part of such Magistrate's Court-house.

A statement by the Magistrate to the effect that the proclamation was duly published shall be conclusive evidence of compliance with the requirements of this section.

68. A Presidency Magistrate may order the attachment of any property, moveable or immoveable, belonging to any person believed to be absconding or concealing himself.

Such order shall authorize the attachment of any property within the local limits of the jurisdiction of the Magistrate making the order ; and it shall authorize the attachment of any property without such local limits when endorsed by the Magistrate of the district in which such property is situate.

If the property ordered to be attached be immoveable, the attachment under this section shall, in the case of land paying revenue to Government, be made through the Collector of the district in which the land is situate, and, in all other cases, (a) by seizure under the order of the Magistrate having jurisdiction ; or (b) by the appointment of a manager and receiver ; or (c) by an order prohibiting the payment of rent to the absent person ; or by all or any two of such processes as such Magistrate deems proper.

If the person so believed to be absconding or concealing himself does not appear within the time specified in the proclamation, the property under attachment shall be at the disposal of Government, but shall not be sold until the expiration of six months from the date of the attachment, unless it is of a perishable nature, or such Magistrate considers that the sale would be for the benefit of the

owner, in either of which cases the Magistrate may cause it to be sold whenever he thinks fit.

69. When any person whose property is or has been at the disposal of Government under the last paragraph of section 68 appears or is found within two years from the date of the attachment, and proves to the satisfaction of the Magistrate by whose order the property was attached that he did not abscond or conceal himself for the purpose of evading justice, such property, or, if the same has been sold, the nett proceeds of the sale, or if part only thereof has been sold, the nett proceeds of the sale and the residue of the property, shall, after satisfying thereout all costs incurred in consequence of the attachment, be delivered to him.

CHAPTER VII.—OF BAIL.

70. Every person arrested under this Act shall be kept in custody until he is discharged by the order of a competent Court, or until he is admitted to bail.

When any person appears or is brought before a Presidency Magistrate accused of any bailable offence, such person shall be admitted to bail : Provided that, in cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, the Magistrate may discharge him on his binding himself by a personal recognizance in such sum of money as the Magistrate thinks sufficient, to appear and attend at the time and place therein mentioned, and to continue so to attend until otherwise directed by the Magistrate.

71. When any person accused of any non-bailable offence appears or is brought before a Presidency Magistrate, such person shall not be admitted to bail, if there appear reasonable grounds for believing that he has been guilty of the offence of which he is accused.

If the evidence given in support of the complaint is, in the opinion of the Magistrate, not such as to afford such grounds,

or if such evidence is adduced on behalf of the accused person as, in the opinion of the Magistrate, weakens the presumption of his guilt,

but there appears to the Magistrate, in either of such cases, to be sufficient ground for further inquiry into his guilt, the accused person shall be admitted to bail pending such inquiry.

But if the Magistrate decide not to admit the accused person to bail, he shall commit him to custody by a warrant in the form (C) given in the third schedule hereto annexed, or to the like effect.

Any Presidency Magistrate may, at any subsequent stage of any proceeding under this Act, cancel the admission under this section of any accused person to bail, and may commit him to custody, or may admit to bail any person who has been committed to custody under this section.

72. When any person accused before a Presidency Magistrate of any offence is admitted to bail, a recognizance, in such sum

of money as the Magistrate thinks sufficient, shall be entered into by the person so accused and one or more sufficient sureties, conditioned that such person shall attend at the time and place mentioned in the recognizance, and shall continue so to attend until otherwise directed by the Magistrate, and, if required, shall appear when called upon at the High Court, to answer the charge.

It is the duty of the Presidency Magistrate or other officer accepting bail to satisfy himself that every surety entering into such recognizance is a person of whom it may reasonably be presumed that he can, if necessary, satisfy its terms.

Every such recognizance shall be in the form (D) given in the third schedule hereto annexed, or to the like effect.

73. After the recognizance has been entered into, the Presidency Magistrate, in case the accused person has appeared voluntarily or is in the custody of some officer, shall thereupon release him; and in case he is in some jail, shall issue a warrant of release to the officer in charge of the jail, and such officer shall thereupon release him.

74. If the accused person cannot find sufficient bail when permitted so to do, he may, if the Presidency Magistrate thinks fit, be admitted to bail upon finding the same at any time afterwards before conviction.

75. If, through mistake or fraud, insufficient bail have been taken, or if the bail become afterwards insufficient, the Presidency Magistrate may issue his warrant of arrest directing that the accused person be brought before him and may order such person to find sufficient bail, and on his failing so to do may commit him to prison.

76. The sureties for the attendance and appearance of an accused person admitted to bail may, at any time, apply to a Presidency Magistrate to discharge their recognizance.

On such application being made, the Magistrate shall issue his warrant of arrest, directing that the accused person be brought before him.

On the appearance of such person pursuant to the warrant, or on his voluntary surrender, the Magistrate shall direct the recognizance of the sureties to be discharged, and shall call upon the accused person to find other sufficient sureties, and if he fail to do so, may commit him to prison.

77. Whenever, by reason of default of attendance or appearance of the person bailed, a Presidency Magistrate is of opinion that proceedings should be had to recover the penalty mentioned in the recognizance into which such person has entered, he shall proceed to recover the same, by issuing a warrant for the attachment and sale of the moveable property belonging to such person, which may be found within the local limits of the jurisdiction of such Magistrate.

Such warrant may be executed within such limits, and it shall authorize the distress and sale of any moveable property belonging to the accused person without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

78. Whenever, by reason of default of attendance or appearance of the person bailed, the Presidency Magistrate is of opinion that proceedings should be had to recover from the sureties the penalty mentioned in the recognizance, he shall give them notice to pay the same, or to show cause why it should not be paid.

If such penalty be not paid, and if no sufficient cause for its non-payment be shown, the Presidency Magistrate shall proceed to recover the penalty from such sureties, by issuing a warrant for the attachment and sale of any moveable property belonging to them, or either of them, which may be found within the local limits of the jurisdiction of such Magistrate. Such warrant may be executed within such limits; and it shall authorize the attachment and sale of any moveable property belonging to the sureties, or either of them, without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, such sureties shall be liable to confinement, by order of the Presidency Magistrate, in the civil jail, during a period not exceeding six months.

79. The powers given by sections 77 and 78 may be exercised by every Presidency Magistrate in every case in which a recognizance has been given for the appearance of any person, if default is made by the non-appearance of such person before such Magistrate, according to the conditions of the recognizance:

Provided that the Magistrate may, at his discretion, remit any portion of the penalty mentioned in any such recognizance and enforce payment in part only.

80. When any person is required by a Presidency Magistrate to give bail, such Magistrate may permit him to deposit a sum of money or Government promissory notes to such amount as the Magistrate may fix in lieu of such bail.

CHAPTER VIII.—OF INQUIRY INTO CASES TRIABLE BY THE HIGH COURT.

81. Cases, triable by a High Court in the exercise of its ordinary original criminal jurisdiction, or which, in the opinion of the Presidency Magistrate before whom the accused person is brought, ought to be tried by such Court, shall be inquired into by a Presidency Magistrate; and in such inquiry he shall adopt the following procedure.

82. When the accused person appears or is brought before the Magistrate, or if his personal attendance is dispensed with, after reasonable notice to his advocate, attorney or pleader, the Magistrate shall, at such time as he thinks fit, take the evidence of the complainant and of such persons as are stated by the complainant to have any knowledge of the facts which form the subject-matter of the accusation and the attendant circumstances.

Such evidence shall be recorded in the manner described in clauses 3, 4 and 5 of section 115.

83. The complainant and the witnesses for the prosecution shall be examined in the presence of the accused person, or, when his personal attendance is dispensed with, of his advocate, attorney or pleader (if any).

The Magistrate may, in his discretion, summon or examine any witness offered on behalf of the accused person to answer or disprove the evidence against him.

84. Whenever an accused person is examined in the course of a preliminary inquiry into a case triable by the High Court, the whole of such examination, including every question put to him and every answer given by him, shall be recorded in full, and shall be shown or read to him, and he shall be at liberty to explain or add to his answers.

When the whole is made conformable to what he declares is the truth, the examination shall be attested by the signature of the Magistrate, who shall certify under his own hand that it was taken in his presence and in his hearing, and contains accurately the whole of the statement made by the accused person.

85. The Magistrate may, at any stage of the proceedings, summon and examine any person whose evidence he considers essential to the inquiry, and recall and re-examine any person already examined.

86. If, from the absence of a witness or from any other reasonable cause, it becomes necessary or advisable to adjourn the inquiry, the Magistrate may, by a written order, from time to time adjourn the inquiry on such terms as he thinks fit and remand the accused person for a reasonable time, not exceeding fifteen days.

EXPLANATION.—After commencing the inquiry, if sufficient evidence has been obtained to raise a suspicion that the person accused may have committed an offence, and it appears likely that further evidence may be obtained by a remand, this is a reasonable cause for a remand.

87. When a Presidency Magistrate finds that there are not sufficient grounds for committing the accused person for trial before the High Court, or for remanding him, he shall discharge him, unless it appears to the Magistrate that such person should be tried before himself, in which case he shall proceed accordingly.

EXPLANATION I.—The absence of the complainant, except when the offence may lawfully be compounded, shall not be deemed sufficient ground for a discharge, if there appear other evidence of a nature rendering a trial desirable.

EXPLANATION II.—A discharge is not equivalent to an acquittal, and does not bar the revival of a prosecution for the same offence.

EXPLANATION III.—An order of discharge shall not ordinarily be made until the evidence of the witnesses named for the prosecution has been taken.

88. When evidence has been given before a Presidency Magistrate, which appears to justify him in committing the accused person for trial for an offence triable exclusively by the High Court, or which, in the opinion of the Magistrate, ought to be tried by such Court, the accused person shall be committed for trial accordingly.

89. When the Magistrate determines to commit the accused person for trial before the High Court, he shall, after the evidence has been recorded, frame a charge under his hand, declaring with what offence the accused person is charged, and (subject to the provisions of the High Courts' Criminal Procedure Act, 1875) committing him for trial by such Court on such charge.

All such charges shall be drawn up in accordance with the provisions of chapter IX.

Pending such trial, the Magistrate may commit the accused person to custody by warrant in the form (E) given in the third schedule hereto annexed, or to the like effect; or may in case of a bailable offence release him on bail; and the charge, the record of the enquiry, and any weapon or other article necessary to produce in evidence shall be sent to the Clerk of the Crown or other officer appointed in this behalf by the High Court.

When the accused person is committed for trial before the High Court, the Magistrate shall issue an order to such person as may be appointed by the Local Government in this behalf, notifying the commitment, and stating the offence in the same form as the charge, unless the Magistrate is satisfied that such person is already aware of the commitment and the form of the charge.

90. As soon as the charge on which the accused person is to be tried has been prepared, it shall be read and explained to him; and a copy thereof shall be furnished to him, if he so require.

91. The accused person shall be required at once to give in, orally or in writing, a list of the persons whom he wishes to be summoned to give evidence on his trial before the High Court.

The Magistrate may, if he thinks proper, summon all or any such persons to attend and give evidence at the enquiry; and if he does so, the commitment shall not be considered to have been made until such evidence has been taken.

The Magistrate may in his discretion allow the accused person to give in any further list of witnesses at a subsequent time.

The Magistrate may summon and examine supplementary witnesses after commitment and before the commencement of the trial. Such examination shall, if possible, be taken in the presence of the accused person.

Nothing in this section shall be deemed to preclude the accused person from giving at any time before his trial before the High Court to the

Clerk of the Crown a further list of the persons whom he wishes to be summoned to give evidence on such trial.

92. When the person accused has been committed for trial, and has given in any list of the persons referred to in section 91, the Magistrate may either summon such persons to appear before the High Court, or leave them to be summoned by the Clerk of the Crown.

93. Complainants and witnesses for the prosecution and defence, whose attendance before the High Court is necessary, and who appear before the Presidency Magistrate, shall execute before him recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon at the High Court, to prosecute or to give evidence, as the case may be.

If any complainant or witness refuses to attend before the High Court, or to execute the recognizance above directed, the Presidency Magistrate may detain him in custody until he executes such recognizance, or until his attendance at the High Court is required, when the Magistrate shall send him in custody to the High Court.

CHAPTER IX.—OF THE CHARGE.

Form of Charges.

94. Every charge under this Act shall state the offence with which the accused person is charged.

If the law which creates the offence gives it any specific name, the offence may be described in the charge by that name only.

If the law which creates the offence does not give it any specific name, so much of the definition of the offence must be stated as to give the accused person notice of the matter with which he is charged.

The law and section of the law against which the offence is said to have been committed shall be mentioned in the charge.

The fact that the charge is made shall be equivalent to a statement that every legal condition, necessary by law to constitute the offence charged, was fulfilled in the particular case.

The charge shall be written in English. If English is not understood by the accused person, the charge shall be interpreted to him in a language which he understands.

If the accused person has been previously convicted of any offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, or of any other offence mentioned in section 3 or section 4, of Act No. VI of 1864 (to authorize the punishment of whipping in certain cases), and if it is intended to prove such previous conviction for the purpose of affecting the punishment which is to be awarded, the fact of the previous conviction must be stated in the charge. If such statement is omitted, it may

be added at any time before sentence is passed, but not afterwards.

Illustrations.

(a.) A is charged with the murder of B.

This is equivalent to a statement that A's act fell within the definition of murder given in sections 299 and 300 of the Indian Penal Code; that it did not fall within any of the general exceptions of the Penal Code; and that it did not fall within any of the five exceptions to section 300, or that, if it did fall within exception 1, one or other of the three provisos to that exception applied to it.

(b.) A is charged, under section 326 of the Indian Penal Code, with voluntarily causing grievous hurt to B, by means of an instrument for shooting. This is equivalent to a statement that the case was not provided for by section 335 of the Indian Penal Code, and that the general exceptions did not apply to it.

(c.) A is accused of murder, cheating, theft, extortion, adultery or criminal intimidation, or using a false property-mark. The charge may state that A committed murder, or cheating, or theft, or extortion, or adultery, or criminal intimidation, or that he used a false property-mark, without reference to the definitions of those crimes contained in the Indian Penal Code; but the sections under which the offence is punishable must, in each instance, be referred to in the charge.

(d.) A is charged, under section 184 of the Indian Penal Code, with intentionally obstructing a sale of property offered for sale by the lawful authority of a public servant. The charge should be in those words.

95. The charge shall contain such particulars as to the time and place of the alleged offence and the person against whom, or the thing in respect of which, it was committed, as are reasonably sufficient to give notice to the accused person of the matter with which he is charged.

96. When the nature of the case is such that the particulars mentioned in sections 94 and 95 do not give sufficient notice to the accused person of the matter with which he is charged, the charge shall also contain such particulars of the manner in which the alleged offence was committed as will be sufficient for that purpose.

Illustrations.

(a.) A is accused of the theft of a certain article at a certain time and place. The charge need not set out the manner in which the theft was effected.

(b.) A is accused of cheating B at a given time and place. The charge must set out the manner in which A cheated B.

(c.) A is accused of giving false evidence at a given time and place. The charge must set out that portion of the evidence given by A which is alleged to be false.

(d.) A is accused of obstructing B, a public servant, in discharge of his public functions at a given time and place. The charge must set out the manner in which A obstructed B in the discharge of his functions.

(e.) A is accused of the murder of B at a given time and place. The charge need not state the manner in which A murdered B.

(f.) A is accused of disobeying a direction of the law with intent to save B from punishment. The charge must set out the disobedience charged and the law infringed.

97. The charge may be in the form given in the third schedule to this Act or to the like effect.

98. No error, either in the way in which the offence is stated, or in the particulars required to be stated in section 96, and no omission to state the offence, or to state those particulars, shall be regarded at any stage of the case as material, unless the person accused was in fact misled by such error or omission.

Illustrations.

(a.) A is charged, under section 242 of the Indian Penal Code, with "having been in possession of counterfeit coin, having known at the time when he became possessed

thereof that such coin was counterfeit;" the word "fraudulently" being omitted in the charge. Unless it appears that A was in fact misled by this omission, the error shall not be regarded as material.

(b.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge, or is set out incorrectly. A defends himself, calls witnesses, and gives his own account of the transaction. The Court may infer from this that the omission to set out the manner of the cheating is not material.

(c.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge. There were many transactions between A and B, and A had no means of knowing to which of them the charge referred, and offered no defence. The Court may infer from such facts that the omission to set out the manner of the cheating was, in this case, a material error.

(d.) A is charged with the murder of Khodá Baksh on the 21st January. In fact, the murdered person's name was Haidar Baksh, and the date of the murder was the 20th January. A was never charged with any murder but one, and had heard the inquiry before the Magistrate, which referred exclusively to the case of Haidar Baksh. The Court may infer from these facts that A was not misled, and that the error in the charge was immaterial.

(e.) A was charged with murdering Haidar Baksh on the 20th January and Khodá Baksh (who tried to arrest him for that murder) on the 21st January. When charged for the murder of Haidar Baksh, he was tried for the murder of Khodá Baksh. The witnesses present in his defence were witnesses in the case of Haidar Baksh. The Court may infer from this that A was misled, and that the error was material.

99. Any accused person may apply to a Presidency Magistrate for an amendment of the charge made against him; and in considering whether any error in a charge did in fact mislead the accused person, the Magistrate shall take into account the fact that he did or did not make such an application.

100. A Presidency Magistrate may, upon the application of the accused person, or of the complainant, or upon his own motion, alter any charge at any stage of the proceedings before judgment is pronounced.

Every such alteration shall be read and explained to the accused person.

101. If the alteration is such that proceeding immediately with the trial is not likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may in his discretion, after making such alteration, proceed with the trial as if the altered charge had been the original charge.

102. If the alteration is such that proceeding immediately with the trial is likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may either direct a new trial, or suspend the trial for such period as may be necessary to enable the accused person to make his defence to the altered charge; and, after hearing his defence, the Magistrate may further adjourn the trial, to admit of the appearance of any witness whose evidence the Magistrate may consider to be material to the case, or whom the accused person may wish to be summoned in his defence.

103. In all cases of alteration of a charge, the complainant and accused person shall be allowed to recall and examine with refer-

ence to such alteration any witness who may have been examined.

104. If the offence stated in the altered charge be one for the prosecution of which previous sanction is necessary, the case shall not be proceeded with until such sanction is obtained, unless sanction has been already obtained for a prosecution on the same facts as those on which the altered charge is founded.

Joinder of Charges.

105. There must be a separate charge for every distinct offence of which any person is accused, and every such charge must be tried separately, except in the cases hereinafter excepted.

Illustration.

A is accused of a theft on one occasion, and of causing grievous hurt on another occasion. A must be separately charged and separately tried for the theft and the causing grievous hurt.

106. When a person is accused of more offences than one of the same kind committed within one year of each other, he may be charged with, and tried at the same time for, any number of them not exceeding three.

107. I.—If in one series of acts, so connected together as to form the same transaction, more offences than one are committed by the same person, he may be charged with and tried for every such offence at the same time.

II.—If the acts alleged constitute an offence falling within two or more separate definitions of any law in force for the time being, by which offences are defined or punished, the person accused of them may be charged with each of the offences so committed; but he must not receive a more severe punishment than could be inflicted for any of such offences.

III.—If several acts, of which one or more than one would by itself constitute an offence, form, when combined, a different offence, the person accused of them may be charged with every offence or any of the different offences, which he may have committed; but he must not receive for such offences, collectively, a punishment more severe than that which might have been inflicted for any one of such offences.

Illustrations

to paragraph I.—

(a) A rescues B, a person in lawful custody, and in so doing causes grievous hurt to C, a constable in whose custody B was. A may be separately charged with, convicted of, and punished for, offences under sections 225 and 333 of the Indian Penal Code.

(b) A has in his possession several seals knowing them to be counterfeit and intending to use them for the purpose of committing several forgeries punishable under section 466 of the Indian Penal Code. A may be separately charged with, convicted of, and punished for, the possession of each seal, under section 473 of the Indian Penal Code.

(c) A, with intent to cause injury to B, institutes a criminal proceeding against him, knowing that there is no just or lawful ground for such proceeding. A also falsely accuses B of having committed an offence, knowing that there is no just or lawful ground for such charge. A may be separately charged with, convicted of, and punished for, two offences under section 211 of the Indian Penal Code.

(d) A, with intent to cause injury to B, falsely accuses him of having committed an offence, knowing that there is no just or lawful ground for such charge. On the trial, A gives false evidence against B, intending thereby to cause B to be convicted of a capital offence. A may be separately charged with, convicted of, and punished for, offences under sections 211 and 194 of the Indian Penal Code.

(e) A, knowing that B, a female minor, has been kidnapped in order that she may be subjected to grievous hurt, wrongfully confines her and detains her against her will as a slave. A may be separately charged with, convicted of, and punished for, offences under sections 368 (read with 367) and 370 of the Indian Penal Code.

(f) A, with six others, commits the offences of rioting, grievous hurt, and of assaulting a public servant endeavouring, in the discharge of his duty as such, to suppress the riot. A may be separately charged with, convicted of, and punished for, offences under sections 147 and 325 and 152 of the Indian Penal Code.

(g) A threatens B, C and D at the same time with injury to their persons with intent to cause alarm to them. A may be separately charged with, convicted of, and punished for, each of the three offences under section 506 of the Indian Penal Code.

(h) A intentionally causes the death of three persons by upsetting a boat. A may be separately charged with, convicted of, and punished for, each of the three offences under section 302 of the Indian Penal Code.

The separate charges referred to in illustrations (a) to (h) respectively may be tried at the same time.

to paragraph II—

(i) A wrongfully strikes B with a cane. A may be separately charged with, and convicted of, offences under sections 352 and 323 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 323 only.

(j) A wrongfully kills a buffalo worth sixty rupees belonging to B, and then moves the carcass in order to take it dishonestly out of B's possession without B's consent. A may be separately charged with, and convicted of, offences under sections 429 and 379 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 429 only.

(k) Several stolen sacks of corn are made over to A and B who know they are stolen property. A and B thereupon voluntarily assist each other to conceal the sacks at the bottom of a grain-pit. A and B may be separately charged with, and convicted of, offences under sections 411 and 414 of the Indian Penal Code; but the Presidency Magistrate who tries them may not inflict a severer punishment than if he had convicted them under one of those sections only.

(l) A dishonestly uses a forged document as genuine evidence, in order to convict B, a public servant, of an offence under section 167 of the Indian Penal Code. A may be separately charged with, and convicted of, offences under sections 471 (read with 406) and 196 of the same Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under one of those sections only.

to paragraph III—

(m) A commits house-breaking by day with intent to commit adultery, and commits, in the house so entered, adultery with B's wife. A may be separately charged with, and convicted of, offences under sections 454 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

(n) A commits robbery on B, and, in doing so, voluntarily causes hurt to him. A may be separately charged with, and convicted of, offences under sections 323, 392 and 394 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 392 or 394 only.

(o) A entices B, the wife of C, away from C, with intent to commit adultery with B, and then commits adultery with her. A may be separately charged with, and convicted of, offences under sections 498 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

108. If a single act or series of acts is of such

Where it is doubtful a nature that it is doubtful what offence has been committed.

the facts which can be proved will constitute, the accused person may be charged with having committed all or any of such

offences; and any number of such charges may be tried at once, or he may be charged in the alternative with having committed some one of the said offences.

Illustration.

A is accused of an act which may amount to theft, or receiving stolen property, or criminal breach of trust, or cheating. He may be charged with theft, receiving stolen property, criminal breach of trust, and cheating, or he may be charged with having committed theft, or receiving stolen property, or criminal breach of trust, or cheating.

109. If, in the case mentioned in the last preceding section, one charge

When a person is charged with one offence, only is brought against an accused person, and it appears in evidence that he committed a different offence, for which he might have been charged under the provisions of that section, he may be convicted of the offence which he is shown to have committed, although he was not charged with it.

Illustration.

A is charged with theft. It appears that he committed the offence of criminal breach of trust, or that of receiving stolen goods. He may be convicted of criminal breach of trust, or of receiving stolen goods (as the case may be), though he was not charged with such offence.

110. When a person is charged with an offence,

When offence proved and part of the charge is included in offence not proved, but the part charged.

which is proved amounts to a different offence, he may be convicted of the offence which he is proved to have committed, though he was not charged with it.

Illustrations.

(a). A is charged, under section 407 of the Indian Penal Code, with criminal breach of trust in respect of property entrusted to him as a carrier. It appears that he did commit criminal breach of trust under section 406 in respect of the property, but that it was not entrusted to him as a carrier. He may be convicted of criminal breach of trust under section 406.

(b). A is charged with murder. He may be convicted of culpable homicide, or of causing death by negligence.

111. When more persons than one are accused

of the same offence, or of different offences committed in the same transaction, or

when one person is accused of committing any offence, and another of abetment of, or attempt to commit, such offence, they may be charged and tried together, or separately, as the Presidency Magistrate thinks fit, and the provisions contained in the former part of this chapter shall apply to all such charges.

Illustrations.

(a). A and B are accused of the same murder. A and B may be charged and tried together for the murder.

(b). A and B are accused of a robbery, in the course of which A commits a murder with which B has nothing to do. A and B may be tried together on a charge, charging both of them with the robbery, and A alone with the murder.

(c). A and B are both charged with a theft, and B is charged with two other thefts committed by him in the course of the same transaction. A and B may be both tried together on a charge, charging both with the one theft, and B alone with the two other thefts.

officer conducting the prosecution, may, with the consent of the Presidency Magistrate, withdraw, or such Magistrate of his own accord may suspend, the inquiry into, or trial of, the remaining charge or charges.

Previous Acquittals or Convictions.

113. A person who has once been tried for an offence and convicted or acquitted of such offence, shall, while such conviction or acquittal remains in force, not be liable to be tried again for the same offence, nor on the same facts for any other offence for which a different charge from the one made against him might have been made under section 108, or for which he might have been convicted under section 109.

A person convicted or acquitted of any offence may be afterwards tried for any offence for which a separate charge might have been made against him on the former trial under section 107, paragraph one.

A person acquitted or convicted of any offence constituted by any act causing consequences which, together with such act, constituted a different offence from that for which he was acquitted or convicted, may be afterwards tried for such last-mentioned offence, if the consequences had not happened, or were not known to the Court to have happened, at the time when he was acquitted or convicted.

A person acquitted or convicted of any offence constituted by any acts may, notwithstanding such acquittal or conviction, be subsequently charged with, and tried for, any other offence constituted by the same acts, which he may have committed if the Court by which he was first tried was not competent to try the offence with which he is subsequently charged.

Illustrations.

(a) A is tried upon a charge of theft as a servant and acquitted. He cannot afterwards be charged with theft as a servant, or, upon the same facts, with theft simply, or with criminal breach of trust.

(b) A is tried upon a charge of murder and acquitted. There is no charge of robbery; but it appears from the facts that A committed robbery at the time when the murder was committed: he may afterwards be charged with, and tried for, robbery.

(c) A is tried for an assault and convicted. The person assaulted afterwards dies. A may be tried again for culpable homicide.

(d) A is tried, under section 270 of the Indian Penal Code, for maliciously doing an act likely to spread the infection of a disease dangerous to life, and is acquitted. The act so done afterwards causes a person permanently to lose his eyesight. A may be charged, under section 325 of the same Code, with voluntarily causing grievous hurt to that person.

(e) A is charged by a Presidency Magistrate with, and convicted by him of, voluntarily causing hurt to B. A may not afterwards be tried for voluntarily causing grievous hurt to B, on the same facts, unless the case comes within paragraph three of this section.

(f) A is charged by a Presidency Magistrate with, and convicted by him of, theft of property from the person of B. A may be subsequently charged with, and tried for, robbery on the same facts.

(g) A, B and C are charged by a Presidency Magistrate with, and convicted by him of, robbing D. A, B and C may afterwards be charged with, and tried for, dacoity on the same facts.

CHAPTER X.—OF THE TRIAL OF CASES BY PRESIDENCY MAGISTRATES.

114. The following procedure shall be observed in the trial of cases by Presidency Magistrates.

In every such case the Magistrate shall record the following particulars:

- (a) the serial number,
- (b) the date of the commission of the offence,
- (c) the name of the complainant,
- (d) the name of the accused person,
- (e) the offence complained of or proved,
- (f) the prisoner's plea,
- (g) the final order,
- (h) the date of such order.

115. No Presidency Magistrate shall impose a fine exceeding two hundred rupees or imprisonment for a term exceeding six months, unless he has recorded the evidence of the witnesses.

Sentences passed under section 13 on the same occasion shall for the purposes of this section be considered as one sentence.

Where the Magistrate records such evidence, it shall be sufficient either to take it down with his own hand or to cause it to be taken down in writing from his dictation in open Court. All evidence so taken down shall be signed by the Magistrate and shall be part of the record.

Evidence so taken down shall ordinarily be taken in the form of a narrative, but the Magistrate may in his discretion take down, or cause to be taken down, any particular question or answer.

Every Magistrate recording the evidence of a witness shall record such remarks as he thinks material respecting the demeanour of such witness while under examination.

116. In cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, no formal charge need be made against the accused person; and the Magistrate may convict him of any offence punishable with fine only or with imprisonment for a term not exceeding six months, or with both, and which, from the facts proved, he appears to have committed.

In cases in which the Magistrate has power to impose imprisonment for a term exceeding six months, there shall be a formal charge against the accused person.

All charges under this section shall be drawn up by the Magistrate in accordance with the provisions of chapter IX.

117. Neither the complaint nor the process issued thereon shall be regarded otherwise than as notice to the accused person of the facts to be inquired into. No defect in the complaint or process shall invalidate the proceedings, unless it appears that the accused person was actually misled by such defect; and, in considering whether or not he was so misled, the Magistrate shall have regard to the manner in which the accused person conducted his defence.

118. If upon the day appointed for the appearance of the accused person, or any day subsequent thereon which the case may be called on, the complainant does not appear, the Magistrate shall dismiss the complaint, unless he thinks fit to adjourn the hearing of the same to some other day. Such adjournment shall be made upon such terms as the Magistrate thinks fit.

119. On the appearance of both parties on the day fixed for the trial, the substance of the complaint shall be stated to the accused person, and he shall be asked if he has any cause to show why he should not be convicted.

120. If the accused person admit the truth of the complaint, his admission shall be recorded; and if he shows no sufficient cause why he should not be convicted, the Magistrate may convict him accordingly.

121. If the accused person does not admit the truth of the complaint, the Magistrate shall proceed to hear the complainant and such witnesses as he produces in support of his complaint, and also to hear the accused person and such witnesses as he produces in his defence.

122. Whenever any charge is drawn up under this Act, it shall be drawn up as soon as the Magistrate is of opinion that a *prima facie* case has been established against the accused person, and shall be read and explained to the accused person, and he shall be asked whether he is guilty or has any defence to make.

123. If the accused person be examined, the procedure prescribed in section 84 shall be followed.

124. Before or during the hearing of any complaint, the Magistrate may, in order to secure the attendance of witnesses or for any other reason, adjourn the hearing, on such terms as he thinks fit, to a day to be then appointed and stated in the presence of the parties.

If on the day to which such hearing or such further hearing has been so adjourned, the accused person does not appear, the Magistrate may issue his warrant for the arrest of such person.

If on such day the complainant does not appear, the Magistrate may dismiss the complaint.

125. If a complainant, at any time before a final order is passed in any case punishable with fine only or with imprisonment for a term not exceeding six months, or with both, satisfies the said Magistrate that there are sufficient grounds for permitting him to withdraw his complaint, the Magistrate may permit him to do so.

The withdrawal under this section of a complaint shall operate as an acquittal of the accused person.

126. If the Magistrate, in any case tried under this chapter, finds the accused person not guilty, he shall record an order of acquittal.

If the accused person is convicted, the Magistrate shall pass sentence upon him; and, in all cases in which the Magistrate inflicts imprisonment, or fine exceeding two hundred rupees, or both, he shall add to the final order mentioned in section 114, clause (g), a brief statement of the reasons for the conviction.

When the personal attendance of the accused person during the trial has been dispensed with,

the sentence of the Magistrate shall be pronounced in his presence, except where the sentence is for fine only, in which case it may be pronounced in the presence of the accused person's advocate, attorney or pleader.

127. If in the course of any trial before a Presidency Magistrate, it appears that the case is one which he has not jurisdiction to try, or one which, in his opinion, ought to be tried by the High Court, he shall stop further proceedings under this chapter, and shall either forward the case to the Magistrate having jurisdiction, or commit the accused person, in accordance with the provisions of chapter VIII, to the High Court for trial.

128. Whoever, having been convicted of an offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, is again accused of any offence punishable under either of those chapters with imprisonment for a term of three years or upwards, shall ordinarily, if the Presidency Magistrate considers him an habitual offender, be committed to the High Court.

General Provisions as to Inquiries and Trials.

129. A Presidency Magistrate inquiring into or trying any case may permit any person to conduct the case as prosecutor; but no person other than the Advocate-General, Standing Counsel, Government Solicitor or other officer generally or specially empowered by the Local Government in this behalf shall be entitled to do so without such permission.

Any person conducting the case may do so personally or by an advocate, attorney or pleader.

130. Every person accused before a Presidency Magistrate of an offence, may of right be defended by any advocate, attorney or pleader.

131. If an accused person, though not insane, cannot be made to understand the proceedings, the Magistrate may proceed with the inquiry or trial; and if such inquiry results in a committal, or if such trial results in a conviction, the proceedings shall be forwarded to the High Court, with a report of the circumstances of the case, and the High Court shall pass thereon such order as it thinks fit.

132. The place in which the Court of a Presidency Magistrate is held for the purpose of inquiring into or trying any offence, shall be deemed an open Court, to which the public generally may have access, so far as the same can conveniently contain them:

Provided that the Magistrate may, if he thinks fit, order at any stage of any inquiry into or trial of any particular case, that the public generally, or any particular person, shall not have access to, or be, or remain in, the room or building used by the Magistrate.

133. In the case of offences which may lawfully be compounded, the injured person may compound the

offence out of Court, or in Court with the permission of the Presidency Magistrate. Such composition shall have the effect of an acquittal of the accused.

CHAPTER XI.—OF EVIDENCE.

A.—Of securing the Attendance of Witnesses.

134. Any Presidency Magistrate may, at any stage of any proceeding, inquiry or trial under this Act, summon, in manner provided by chapter VI, any witness, or examine any person in attendance though not summoned as a witness; and the Magistrate shall summon and examine such person if his evidence appears essential to the just decision of the case.

135. If a Presidency Magistrate has reason to believe that any witness, whose attendance is required will not attend to give evidence without being compelled to do so, he may, instead of issuing a summons, issue a warrant of arrest in the first instance.

136. If any person summoned under this Act to give evidence neglects or refuses to appear at the time and place appointed by the summons, and no reasonable excuse is offered for such neglect or refusal, the Presidency Magistrate, upon proof of the summons having been duly served, may issue a warrant under his hand to bring such person before him to testify as aforesaid.

137. If such warrant cannot be executed, and the Magistrate has reason to believe that the witness absconds or conceals himself for the purpose of preventing the execution thereof, he may issue a notice, requiring the attendance of such witness to give evidence at a time and place to be named therein, and such notice shall be affixed to some conspicuous part of such witness' ordinary place of abode, or, if he has no such abode, of the Magistrate's Court.

If the witness does not attend at the time and place so named, the Magistrate may order the attachment of any moveable property belonging to such witness, equal in value, as nearly as may be, to the amount of the costs of attachment and of any fine to which the witness may be liable under the provisions of section 172 of the Indian Penal Code.

138. The provisions of section 68 and section 69 as to the attachment, sale and restoration of moveable property shall apply to all property ordered to be attached under section 137.

139. Notwithstanding anything contained in the Prisoners' Testimony Act, 1869, any Presidency Magistrate desirous of examining, as a witness or accused person, in any case pending before him, any person confined in any jail within the local limits of his jurisdiction, may issue an order to the officer in charge of the said jail requiring him to bring such prisoner in proper custody, at a time to be therein named, to the Magistrate for examination.

The officer so in charge, on receipt of such order, shall act in accordance therewith, and shall provide for the safe custody of the prisoner during his absence from the jail for the purpose aforesaid.

140. The Presidency Magistrate may require complainants and witnesses for the prosecution and defence whose attendance before him is necessary, to execute recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon to prosecute or give evidence, as the case may be.

141. If any witness summoned or brought before a Presidency Magistrate refuses to answer such questions as are put to him, without offering any reasonable excuse for such refusal, such Magistrate may sentence him to simple imprisonment, or commit him to the custody of an officer of the Court, for any term not exceeding seven days, unless in the meantime such person consents to be examined and to answer; after which, in the event of his persisting in his refusal, he may be dealt with according to the provisions of section 205 or 206.

B.—Of Witnesses.

142. In the case of offences punishable with fine only or with imprisonment for a term not exceeding six months, or with both, it shall ordinarily be the duty of the complainant and accused to produce their own witnesses. But the Presidency Magistrate may in his discretion—

- (a) summon any person who appears to him likely to give material evidence on behalf of the complainant or the accused;
- (b) summon any witness named by the complainant or the accused:

Provided that the Magistrate may, before summoning a witness, require that his reasonable expenses incurred in attending for the purposes of the trial be deposited in Court.

143. In the case of all other offences, the Magistrate shall ascertain from the complainant, or otherwise, the names of any persons likely to be acquainted with the facts of the case and to be able to give evidence for the prosecution, and shall summon to give evidence before him such of them as he thinks necessary.

The Magistrate shall also summon any witness, and take any evidence that may be offered, in behalf of the accused person, to answer or disprove the evidence against him.

C.—Of Securing Documentary Evidence.

144. Whenever a Presidency Magistrate considers that the production of any document or other thing is necessary or desirable for the purposes of any inquiry, trial, or other proceeding under this Act, he may issue a summons to the person in whose possession or power such document or thing is believed to be, requiring him to attend and produce it at the time and place stated in the summons.

145. Where there is reason to believe that the person to whom the summons is addressed will not produce the document or

other thing as directed in the summons, the Magistrate may issue a warrant to search for such document or thing in the first instance.

146. If any letter in the custody of the Postal

Procedure as to letters in custody of Postal Department or telegraph officer.

Department is wanted for the purpose of any inquiry or trial by a Presidency Magistrate, the Magistrate may, if he is the Chief

Magistrate, direct the postal authorities to deliver such letter to such person as the Magistrate directs, and if he is not the Chief Magistrate, may apply to the Chief Magistrate, who may, if he thinks fit, give such direction.

The letter referred to in any direction given under this section shall be delivered accordingly.

147. Any Presidency Magistrate may, if he

Power to impound document produced.

thinks fit, impound any document or other thing produced before him, or may, at

the conclusion of the proceedings, order it to be returned to the person who produced it.

D.—Of the Examination of Accused Persons.

148. At any stage of any inquiry or trial under

Examination of accused.

this Act, the Magistrate may, without previously warning the accused person,

put such questions to him as he considers necessary.

The accused person shall not render himself liable to punishment for refusal to answer such questions, or for giving false answers to them, but the Magistrate shall draw such inference as may to him seem just from such refusal or false answers.

EXPLANATION.—The answer given by an accused person may be put in evidence against him, not only in such inquiry or trial, but also in any other inquiry into, or trial for, any other offence which such answer may tend to show he has committed.

149. Except as is provided in section 150, no

No influence to be used to induce disclosures.

influence, by means of any promise or threat or otherwise, shall be used to an

accused person to induce him to disclose or withhold any matter within his knowledge.

150. A Presidency Magistrate may, with the

Tender of pardon to accomplice.

view of obtaining the evidence of any persons supposed to have been directly or indirectly concerned in, or privy to, any offence specified in column seven of the second schedule hereto annexed as triable exclusively by the High Court, tender a pardon to such person on condition of his making a full and true disclosure of the whole of the circumstances, within his knowledge, relative to such offence and to every other person concerned in the perpetration thereof.

Every person accepting a tender under this section shall be examined as a witness in the case.

Such person, if not on bail, shall be detained in custody until the termination of the trial.

151. When a pardon has been tendered under

Commitment of person to whom pardon has been tendered.

section 150, if before the trial it appears to the Presidency Magistrate that any person who has accepted such

tender has either by wilfully concealing anything essential, or by giving false evidence, not complied with the conditions under

which the tender was made, such Magistrate may commit him for trial for the offence in respect of which the pardon was so tendered, or for any other offence of which he may appear to have been guilty in connection with the same matter.

The statement made by a person under pardon which pardon has been withdrawn under this section, may be put in evidence against him.

E.—Special Rules of Evidence.

152. The deposition of a civil surgeon or other

Deposition of medical witness, taken and witnessed.

duly attested by a Magistrate, may be given in evidence in any inquiry or trial under this Act, although the deponent is not called as a witness.

The Presidency Magistrate may, if he thinks fit,

Power to summon medical witness.

summon and examine such deponent as to the subject-matter of his deposition.

153. Any document purporting to be a report

Report of Chemical Examiner.

from the Chemical Examiner, or Assistant Chemical Examiner to Government, upon any matter or thing duly submitted to him for examination or analysis and report, in the course of any inquiry or trial under this Act, or in any preliminary inquiry relating thereto, may, if it bears his signature, be used as evidence in any inquiry or trial under this Act.

The Presidency Magistrate may presume that the

Genuineness of signature may be presumed.

signature to any such document is genuine, and that the person signing it held the office which he professed to hold at the time when he signed it.

The Presidency Magistrate may, if he thinks

Power to summon Chemical Examiner.

fit, summon and examine such Chemical Examiner or Assistant Chemical Examiner as to the subject-matter of his said report.

154. A previous conviction or acquittal may be

Previous conviction or acquittal how proved.

proved (a) by an extract certified, under the hand of the officer having the custody of the records of the Court in which such conviction or acquittal was had, to be a copy of the sentence or order, or (b), in case of a conviction either by a certificate signed by the officer in charge of the jail in which the punishment or any part thereof was inflicted or by production of the warrant of commitment under which the punishment was suffered.

155. If an accused person abscond, and after

Record of evidence in absence of accused.

due pursuit cannot be arrested, the Presidency Magistrate may, in his absence, examine the witnesses (if any) produced on behalf of the prosecution, and record their depositions; and any such deposition may, on the arrest of such person, be put in on his trial for the offence with which he is charged, if the attendance of the deponent cannot be procured.

156. Whenever any Presidency Magistrate,

Convictions on evidence partly recorded by one Magistrate and partly by another.

after having heard the whole or any part of the evidence in an inquiry or trial, ceases to exercise jurisdiction therein, and is succeeded by another Magistrate who has and who exercises such jurisdiction, the Magistrate so succeeding may act

on the evidence so recorded by his predecessor, or partly recorded by his predecessor and partly recorded by himself, or he may re-summon the witnesses and re-commence the inquiry or trial :

Provided that the accused person may, when the second Magistrate commences his proceedings, demand that the witnesses be re-summoned and reheard, in which case the inquiry or trial shall be re-commenced :

Provided also that the High Court may set aside any conviction passed on evidence not wholly recorded by the Magistrate before whom the conviction was had, if such Court is of opinion that the accused person has been materially prejudiced thereby ; and may order a new inquiry or trial.

157. Whenever in the course of a trial or inquiry under this Act it appears that the attendance of a witness cannot be procured without an amount of delay, expense or inconvenience which, under the circumstances of the case, would be unreasonable, the Presidency Magistrate may dispense with such attendance.

When attendance of witness may be dispensed with.

158. Such Magistrate may direct a commission to any Magistrate of the District, or Magistrate of the first class, within the local limits of whose jurisdiction such witness may be.

The Magistrate to whom the commission is directed, or, if he be the Magistrate of the District, such Magistrate of the first class as he appoints in this behalf, shall proceed to the place where such witness is, or shall summon such witness before himself, and shall take his evidence in the same manner, and may for this purpose exercise the same powers, as in trials of warrant-cases under the Code of Criminal Procedure.

If the witness is within the local limits of the jurisdiction of any Presidency Magistrate, other than the Magistrate dispensing with his attendance, the latter Magistrate may direct a commission to the former Magistrate, who thereupon shall have the like power to compel the attendance of, and to examine, such witness as he possesses for that purpose in cases pending before himself.

The complainant and the accused person may respectively forward interrogatories, in writing, upon which the Magistrate to whom the commission is directed shall examine the witness,

or the complainant and the accused person (if on bail) may appear before such Magistrate,

or the complainant and the accused person may so appear respectively by advocate, attorney or pleader,

and may examine, cross-examine and re-examine (as the case may be) the said witness.

After any commission issued under this section has been duly executed, it shall be returned, together with the deposition of the witness examined thereunder, to the Magistrate by whom it was issued ; and the commission, the return thereto, and the deposition of such witness, may be used as evidence in the case and shall form part of the record.

F.—Of Search-Warrants.

159. When a Presidency Magistrate considers that the production of any thing is essential to the conduct of an inquiry into an offence known or suspected to have been committed or to the discovery of the offender,

or when he considers that such inquiry or discovery will be furthered by a general search or inspection,

he may grant his search-warrant ; and the officer charged with the execution of such warrant may search or inspect any place within the local limits of the jurisdiction of such Magistrate.

The Magistrate may, if he thinks fit, specify in the warrant the particular place, building or part thereof to which only the search or inspection shall extend ; and the officer charged with the execution of such warrant shall then search or inspect only the place, building or part so specified.

Nothing in this section or in section 145 shall authorize a Magistrate to grant a warrant to search for a letter or telegram in the custody of the Postal Department or of a telegraph officer.

160. If a Presidency Magistrate, upon information and after such inquiry as he thinks necessary, has reason to believe that any place is used for the deposit or sale of stolen property, or of property which has been fraudulently obtained,

or for the deposit or sale or manufacture of forged documents, or counterfeit Government stamps, or counterfeit coin, or instruments or materials for counterfeiting coin, or for forging,

or that any forged documents, or counterfeit stamps, or false seals, or counterfeit coin, or instruments or materials used for counterfeiting coin, or for forging, are kept or deposited in any place,

he may by his warrant authorize any Police-officer above the rank of a constable—

(a) to enter, with such assistance as may be required, and by force if necessary, such place, and

(b) to search the same as specified in the warrant, and

(c) to take possession of any property, documents, stamps, seals or coins therein found, which he reasonably suspects to be stolen, unlawfully obtained, forged, false or counterfeit, and also any such instruments and materials as aforesaid, and

(d) to convey such property, documents, stamps, seals, coins, instruments or materials before a Presidency Magistrate, or to guard the same on the spot until the offender is taken before a Presidency Magistrate, or otherwise to dispose thereof in some place of safety, and

(e) to take into custody and carry before the said Magistrate every person found in such place, who appears to have been privy to the deposit, sale or manufacture or keeping of any such property, documents, stamps, seals, coins, instruments or materials knowing or having reasonable cause to suspect the said property to have been stolen or otherwise unlawfully obtained, or the said documents, stamps, seals, coins, instruments or materials to have been forged, falsified or counterfeited, or the said instruments or materials to have been or to be intended to be used for counterfeiting coin or for forging.

161. The provisions of sections 59, 60 and 61 shall apply to all search-warrants issued under this chapter.

162. Whenever any place liable to search or inspection under this chapter is closed, any person residing in, or being in charge of, such place shall, on demand of the officer or other person executing the warrant, allow such officer or other person free ingress thereto, and afford all reasonable facilities for a search therein.

163. A Police-officer or other person, authorized by a warrant to search any place, may break open any outer or inner door or window such place, in order to execute the warrant, if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

164. If the place ordered to be searched is an apartment in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the officer or other person charged with the execution of the warrant shall, unless a warrant of arrest has been issued against her, give her notice that she is at liberty to withdraw.

After giving such notice and allowing a reasonable time for such woman to withdraw, and affording her every reasonable facility for withdrawing, such officer or person may enter such apartment for the purpose of making the search, using at the same time every precaution consistent with this section for preventing the clandestine removal of the thing mentioned in the warrant.

165. Before making a search under this chapter the officer or other person about to make it shall call upon two or more respectable inhabitants of the locality in which the place to be searched is situate to attend and witness the search.

The search shall be made in their presence, but they shall not be required to attend the Court of the Magistrate as witnesses, unless especially summoned by him.

The occupant of the place searched, or some person in his behalf, shall, in every instance, be permitted to attend during the search.

166. Whenever it is necessary to cause a woman to be searched, the search shall be made with strict regard to the customs of the country.

CHAPTER XII.—OF APPEALS.

167. Any person convicted on a trial held by a Presidency Magistrate, may appeal to the High Court if the Magistrate has sentenced him to imprisonment for a term exceeding six months, or to fine exceeding two hundred rupees :

Provided that, where an accused person has been convicted on his own plea, no such appeal shall lie except as to the extent or legality of the sentence.

Sentences passed under section 13 on the same occasion shall, for the purposes of this section, be considered as one sentence.

For the purposes of the Indian Limitation Act, 1871, all appeals under this section and all applications to the High Court for the exercise of the

powers given by Act No. X of 1875, section 147, shall be deemed to be appeals under the Code of Criminal Procedure.

168. The Local Government may direct the Public Prosecutor or other officer specially or generally appointed in this behalf to present an appeal to the High Court from a Presidency Magistrate's order of acquittal or of dismissal, or of discharge; but in no other case shall there be an appeal by the prosecution from any order under this Act.

No appeal shall be presented under this section after two months from the date of the order complained of.

When an appeal is presented under this section, the High Court may order the accused person to be arrested and brought before it, and may commit him to prison pending the disposal of the appeal, or (if the offence of which he is accused be bailable) admit him to bail.

The High Court may, in any case so appealed, direct a new trial by any Presidency Magistrate, or may pass such order as may be warranted by law.

169. Every petition of appeal under this Act shall be accompanied by a copy of the order appealed against.

170. If any person affected by an order passed under this Act desires to have a copy of such order or of any deposition or other part of the record, he shall, on applying for such copy, be furnished therewith; provided that he pay for the same, unless the Magistrate, for some special reason, thinks fit to furnish it free of cost.

171. If the appellant be in jail, he shall be at liberty to present his petition of appeal, and the copy of the order appealed against, to the officer in charge of the jail, who shall thereupon forward such petition and copy to the High Court.

172. On receiving the petition of appeal and the copy of the order appealed against, the High Court shall peruse the same, and may fix a reasonable time for hearing the appellant or his advocate or pleader, or if he be present may hear him at once.

The High Court may, if it considers that there is no sufficient ground for altering or revising the order appealed against, reject the appeal summarily.

Before rejecting an appeal under this section, the High Court may call for the record of the case, but shall not be bound to do so.

In rejecting under this section an appeal by a person convicted, the High Court shall not enhance the sentence.

173. If the High Court does not reject the appeal summarily, it shall cause notice to be given to the appellant and the Public Prosecutor, Government Solicitor, or other officer

empowered by Government in that behalf, of the day on which such appeal will be heard,

and in case of appeals under section 168, the High Court shall also cause a like notice to be given to the respondent.

All such notices shall be served in manner provided by this Act for serving a summons unless in the case of persons present in Court, to whom they may be given orally.

174. The High Court shall send for the record of the case, and after perusing the same, and hearing the appellant or his advocate or pleader, if he appears, and the Government Solicitor or other officer empowered by Government in this behalf, if he appears, may—

(a) alter or reverse the order of such Court, or
(b) enhance any punishment which has been awarded, but not so as to inflict a greater punishment for the offence which, in the opinion of the High Court, he has committed, than the Presidency Magistrate could have inflicted for such offence, or

(c) order the appellant to be re-tried before any Presidency Magistrate or before the High Court, or

(d) if it considers that there is no sufficient ground for interfering with the sentence or order appealed against, reject the appeal.

175. Pending any appeal under section 167, the High Court may direct that the execution of the order appealed against be suspended, and, if the appellant be in confinement for a bailable offence, may order that he be released on bail.

Where the appellant is ultimately sentenced to imprisonment, the time during which he is so released shall be excluded in calculating the term of his imprisonment.

176. In dealing with any appeal under this chapter, the High Court, if it thinks additional evidence upon any point bearing upon the guilt or innocence of the accused person to be necessary, may either take such evidence itself, or may direct it to be taken by a Presidency Magistrate.

When the additional evidence is taken by the Presidency Magistrate, he shall certify such evidence to the High Court, and the High Court shall thereupon proceed to dispose of the appeal.

Unless the High Court otherwise directs, the accused person or his advocate, attorney or pleader, shall be present when the additional evidence is taken.

The provisions of this Act relating to summoning and enforcing the attendance of witnesses and their examination shall, so far as may be, apply to witnesses examined before a Magistrate under this section.

177. No order passed by a Presidency Magistrate shall be reversed or altered on appeal on account of any error or defect, either in the charge or in the proceedings, or on account of the improper admission or rejection of any evidence, unless such error or defect has occasioned a failure of justice, either

by affecting the due conduct of the prosecution, or by prejudicing the accused person in his defence.

178. No irregularity in the proceedings prior to the commencement of the trial is a sufficient ground for reversing or altering any order passed in a trial properly held.

179. When a Presidency Magistrate has passed an order inflicting punishment on any person for an offence not triable by such Magistrate, the High Court shall cancel the order, and either try the case itself or direct it to be tried by a Court of competent jurisdiction.

180. No appeal shall lie from any order of a Presidency Magistrate, except in the cases provided for by this Act or by any other law for the time being in force

Illustrations.

(a.) There is no appeal against an order refusing to grant compensation, in case of a groundless complaint.

(b.) There is no appeal against an order requiring a person to furnish security to keep the peace.

(c.) There is no appeal against an order requiring a person to furnish security to be of good behaviour.

(d.) There is no appeal against an order of maintenance.

181. Whenever an application is made to the High Court for the exercise of the powers conferred by the High Courts' Criminal Procedure Act, 1875, section 147, the applicant shall give to the Public Prosecutor, Government Solicitor, or such other officer as the Local Government appoints in this behalf, notice in writing of the application, together with a copy of the grounds on which it is to be made; and no order shall be made on the merits of the application unless at least twenty-four hours have elapsed between the giving of such notice and the hearing of the application.

182. When the decision of any Presidency Magistrate is called in question in the High Court, the Magistrate may submit with the record of the case a statement setting forth the grounds of his decision and any facts which he thinks material to the issue; and the Court shall consider such statement before overruling or setting aside the said decision.

CHAPTER XIII.—OF EXECUTION.

183. In cases tried by a Presidency Magistrate, the Magistrate passing any order inflicting imprisonment or whipping shall forward the accused person with a warrant for the execution of the sentence to the officer in charge of the jail of the Presidency town in which the trial was held,

or where there are more such jails than one, to the officer in charge of such of them as the Local Government from time to time directs in this behalf.

The warrant shall state the offence of which the accused person has been convicted, the nature of the punishment to which he has been sentenced, and if he has been sentenced to imprisonment, the term for which he is to be imprisoned.

184. Every such warrant shall be in writing under the hand of the Magistrate who issues it, and shall be directed to the officer in charge of the jail aforesaid, and shall be in the form (G) given in the third schedule to this Act or to the like effect.

Form and direction of warrant of commitment.

185. Whenever a Presidency Magistrate imposes a fine under this or any other Act for the time being in force, he may issue a warrant for the levy of the amount of the fine by distress and sale of any moveable property belonging to the offender, although the sentence directs that, in default of payment of the fine, the offender shall be imprisoned.

Levy of fine.

Such warrant may be executed within the local limits of such Magistrate's jurisdiction, and it shall authorize the distress and sale of any such property without such limits when endorsed by the Magistrate of the District in which it is found.

This section shall not apply to cases in which any special procedure is laid down, by any special or local law in force for the time being, for the recovery of any fine, but shall apply to cases in which no such procedure is laid down, and to all fines not levied when this Act comes into force, but which might have been levied under this section if it had been in force when they were imposed.

Section to what cases applicable.

When a warrant is issued under this section, the Presidency Magistrate may order the offender to be imprisoned until return can be conveniently made to such warrant, unless the offender enter into a recognizance, with or without sureties, as the Magistrate thinks fit, conditioned for his appearance before the Magistrate on the day appointed for such return, such day not being more than eight days from the time of taking the recognizance. But if, before issuing such warrant of distress, it appears to the Magistrate, by the admission of the offender or otherwise, that no sufficient distress can be had within the local limits of his jurisdiction whereon to levy such fine or penalty, he may, if he think fit, refrain from issuing such warrant.

Detention of offender until return made to distress-warrant.

No distress made under this Act shall be deemed unlawful, nor shall any person making the same be deemed a trespasser, on account of any defect or want of form in the summons, conviction, warrant of distress or other proceeding relating thereto.

Distress not illegal, nor distrainer a trespasser, for defect of form in proceedings.

The said warrant may be issued either by the Magistrate who imposes the fine, or by his successor in office.

Who may issue distress-warrant.

186. Whenever a Presidency Magistrate imposes a fine under any law in force for the time being, he may order the whole or any part of the fine to be paid in compensation—

Payment of fine in compensation.

(a) for expenses properly incurred in the prosecution,

(b) for the injury complained of, where such injury can, in the opinion of such Magistrate, be compensated by money.

Such payment shall be made, as the Magistrate thinks fit, to or for the benefit of the complainant, or the person injured, or both.

If the fine be imposed in a case which is subject to appeal, no such payment shall be made until the period allowed for presenting the appeal has elapsed, or, if an appeal be presented, until after the decision of the appeal.

At the time of awarding damages in any subsequent civil suit relating to the same matter, the Court shall take into consideration any sum which may have been paid under this section.

187. When the punishment of whipping is imposed, in addition to imprisonment, in a case which is subject to appeal, the whipping shall not be inflicted until fifteen days from the date of such sentence, or, if an appeal be made within that time, until the sentence is confirmed by the High Court: but the whipping shall be inflicted immediately on the expiry of the fifteen days, or, in case of an appeal, immediately on the receipt of the order of the High Court confirming the sentence.

Whipping, if imposed in addition to imprisonment in appealable case, when to be inflicted.

188. In the case of a person of or over sixteen years of age, the punishment of whipping shall be inflicted with such instrument, in such mode, and on such part of the person, as the Local Government directs; and, in the case of a person under sixteen years of age, it shall be inflicted in the way of school-discipline with a light ratan.

In no case, if the cat-of-nine-tails be the instrument employed, shall the punishment of whipping exceed one hundred and fifty lashes, or, if the ratan be employed, shall such punishment exceed thirty stripes.

The punishment of whipping shall be inflicted in the presence of the officer in charge of the jail: provided that, in the case of a person under sixteen years of age, the Magistrate may order it to be inflicted in his own presence.

189. The punishment of whipping shall not be inflicted unless a medical officer, if present, certifies, or, if there is not a medical officer present, unless it appears to the officer or Magistrate present, that the offender is in a fit state of health to undergo such punishment.

If, during the execution of a sentence of whipping, a medical officer certifies, or it appears to the officer or Magistrate present, that the offender is not in a fit state of health to undergo the remainder of the sentence, the whipping shall be finally stopped.

Punishment not to be inflicted if offender not in fit state of health.

Stay of execution.

Not to be executed by stalments.

190. No sentence of whipping shall be executed by instalments.

191. In any case in which, under section 189, a sentence of whipping is, wholly or partially, prevented from being executed, the offender shall be kept in custody till the Magistrate who passed the sentence can revise it; and the said Magistrate may, at his discretion, either remit such sentence, or sentence the offender, in lieu of whipping, or in lieu of so much of the sentence of whipping as was not executed, to

Procedure if punishment be prevented under section 189.

imprisonment for any period, which may be in addition to any other punishment to which he may have been sentenced for the same offence:

Provided that the whole period of imprisonment to which such offender is sentenced shall not exceed that to which he is liable by law, or that which the Magistrate is competent to inflict.

192. When sentence is passed under this Act on an escaped convict, such sentence, if of fine or whipping, shall take effect immediately, and, if of imprisonment, shall take effect after he has undergone the portion of his former sentence which remained unexpired at the time of his escape.

193. When a person already under sentence of imprisonment or transportation is sentenced under this Act to imprisonment, such imprisonment shall commence at the expiration of the imprisonment or transportation to which such person has been previously sentenced.

PART III.

CHAPTER XIV.—OF LUNATICS.

194. When any person accused before a Presidency Magistrate of an offence appears to such Magistrate to be of unsound mind and incapable of making his defence, the Magistrate shall enquire into the fact of such unsoundness, and shall cause the accused person to be examined by such medical officer as the Local Government directs, and thereupon shall examine such officer as a witness, and shall reduce the examination into writing.

If such Magistrate is of opinion that the accused person is of unsound mind, he shall stay further proceedings in the case.

195. When, from the evidence given before a Presidency Magistrate, there appears to be sufficient ground for believing that an accused person committed an act which, if he had been of sound mind, would have been an offence, and that he was at the time when the act was committed, by reason of unsoundness of mind, incapable of knowing the nature of such act or that he was doing what was contrary to law, the Presidency Magistrate shall, if such accused person appears to be of sound mind at the time of the inquiry or trial, proceed with the case.

196. Whenever an accused person is found to be of unsound mind and incapable of making his defence, the Presidency Magistrate, if the offence of which such person is accused be bailable, may release him on sufficient bail being given that he shall be properly taken care of, and shall be prevented from doing injury to himself or to any other person, and for his appearance when required before the Magistrate or such officer as the Magistrate appoints in this behalf.

If the offence be non-bailable, or if sufficient bail be not given, the Magistrate shall report the case for the order of the Local Government, and the accused person shall be kept in safe custody in such place as the Local Government directs.

197. Whenever proceedings are stayed under section 194, the Presidency Magistrate may at any time resume the inquiry or trial, and require the accused person to appear or to be brought before him.

When the accused person has been released under section 196, and the sureties for his appearance produce him to the officer whom the Magistrate appoints in this behalf, the certificate of such officer that the accused person is capable of making his defence shall be receivable as evidence.

198. If, when the accused person appears or is again brought before the Magistrate, such Magistrate considers him capable of making his defence, the inquiry or trial shall proceed.

If the Magistrate considers the accused person to be still incapable of making his defence, the Magistrate shall again act according to section 194.

199. Whenever any person is acquitted by a Presidency Magistrate upon the ground that, at the time at which such person is alleged to have committed an offence, he was, by reason of unsoundness of mind, incapable of knowing the nature of the act alleged as constituting the offence complained of, or that he was doing what was contrary to law, the order of acquittal shall state specially whether he committed the act or not.

200. Whenever such order states that the accused person committed the act alleged, the Presidency Magistrate before whom the trial was held shall, if such act would, but for the incapacity found, have constituted an offence, order such person to be kept in safe custody, in such place and manner as the Magistrate thinks fit, and shall report the case for the order of the Local Government.

The Local Government may order such person to be kept in safe custody in a lunatic asylum or other suitable place of safe custody.

201. When any person is confined under the provisions of section 196 or 200, the Inspector General of Prisons, if such person is confined in a jail, or the visitors of the lunatic asylums, or any two of them, if he is confined in a lunatic asylum, may visit him in order to ascertain his state of mind; and he shall be visited once at least in every six months by such Inspector General or by two of such visitors as aforesaid; and such Inspector General or visitors shall make a special report to the Local Government as to the state of mind of such person.

202. If such person is confined under section 196, and such Inspector General or visitors as aforesaid shall certify that, in his or their opinion, such person is capable of making his defence, he shall be taken before the Presidency Magistrate at such time as such Magistrate appoints, and such Magistrate shall deal with such person under the provisions of section 198; and the certificate of such Inspector General or visitors as aforesaid shall be receivable as evidence.

203. If such person is confined under the provisions of section 200, and such Inspector General or visitors as aforesaid certify that, in his or their judgment, he may be discharged without danger of his doing injury to himself or to any other person, the Local Government may thereupon either order him to be discharged, or to be detained in custody, or to be transferred to a public lunatic asylum, if he has not been already sent to such an asylum; and may appoint a commission, consisting of a judicial officer and two medical officers, whereof the chief medical officer attached to the lunatic asylum shall be one.

Procedure where lunatic confined under section 200 is declared capable of being discharged.

The said commission shall make formal inquiry into the state of mind of such person, taking such evidence as is necessary, and shall report to the Local Government, who may order his discharge or detention as it thinks fit.

204. Whenever any relative or friend of any person detained under the provisions of section 200 is desirous that he shall be delivered over to his care and custody, the Local Government, upon the application of such relative or friend, and on his giving security to the satisfaction of such Government that the person so detained shall be properly taken care of and shall be prevented from doing injury to himself or another, may order such person to be delivered to such relative or friend.

Delivery of lunatic to care of relative.

Whenever such person is so delivered over, it shall be upon condition that he shall be produced for the inspection of such officer as the Local Government appoints, and at such times as such Government directs.

The provisions of sections 201 and 203 shall, *mutatis mutandis*, apply to persons detained under the provisions of this section; and the certificate of the inspecting officer appointed under this section shall be dealt with as a certificate of the Inspector General of Prisons, or the visitors of lunatic asylums, under the said sections.

CHAPTER XV.—OF CONTEMPTS OF COURT.

205. When any such offence as is described in sections 175, 178, 179, 180 or 228 of the Indian Penal Code is committed in the view or presence of a Presidency Magistrate, he may cause the offender to be detained in custody; and, at any time before the Magistrate leaves his Court on the same day, he may take cognizance of the offence, and sentence the offender to punishment by fine not exceeding two hundred rupees, and, in default of payment, by imprisonment in the civil jail for a period not exceeding one month, unless such fine be sooner paid.

In every such case, the Magistrate shall record the acts constituting the offence, with the statement (if any) made by the offender as well as the finding and sentence.

If the offence is under section 228 of the Indian Penal Code, the record must show the nature and stage of the judicial proceeding in which the Magistrate interrupted or insulted was sitting, and the nature of the insult or interruption.

206. If the Presidency Magistrate considers that a person accused of any of the offences referred to in section 205 should be imprisoned otherwise than in default of payment of fine, or that a

Procedure where Court considers that accused should be imprisoned, or fined more than 200 rupees.

fine exceeding two hundred rupees should be imposed upon him, such Magistrate, after recording the facts constituting the offence and the statement of the accused person shall forward the case to another Presidency Magistrate, and shall require bail to be given for the appearance of such accused person before such other Magistrate, or, if sufficient bail be not given, shall forward such person under custody to such Magistrate.

Such other Magistrate shall proceed to try the accused person in the manner provided by this Act for trials before a Presidency Magistrate; and may sentence the offender to punishment, as provided in the section under which he is charged.

207. When any Presidency Magistrate has sentenced an offender to punishment, or forwarded him to another Magistrate for trial,

Discharge of offender on submission or apology.

for refusing or omitting to do anything which he was lawfully required to do, or for any intentional insult or interruption, the former Magistrate may discharge the offender, or remit the punishment, on his submission to the order or requisition of such Magistrate, or on apology being made to his satisfaction.

CHAPTER XVI.—OF SECURITY FOR KEEPING THE PEACE AND FOR GOOD BEHAVIOUR.

A.—Security for keeping the Peace.

208. Whenever a person accused of rioting, assault, or other breach of the peace, or with abetting the same, or with assembling armed men or taking other unlawful measures with the evident intention of committing the same, is convicted of such offence before a Presidency Magistrate,

and such Magistrate is of opinion that it is necessary to require such person to execute a personal recognizance for keeping the peace,

he may, in addition to any other order passed in the case, order the person so convicted to execute a personal recognizance for keeping the peace during such period as the Magistrate thinks fit to fix, not exceeding one year.

209. Whenever a Presidency Magistrate is of opinion that it is necessary to require sureties for keeping the peace, in addition to the personal recognizance of the person so convicted, such Magistrate may require him to give such sureties, and may fix the penalties which the sureties shall be respectively bound to discharge, and may direct that, if such bail be not given, he shall be imprisoned for such term not exceeding one year as the Magistrate thinks fit.

210. If the person so convicted be sentenced to imprisonment, the period so fixed, and the term of imprisonment in default of executing the recognizance, shall commence on the expiration of his sentence.

Where the order to execute such recognizance is not made at the time of signing, or by the Magistrate who signs the judgment, the person so convicted must be produced before the Magistrate making such order.

211. Whenever it appears to a Presidency Magistrate that it is necessary for the preservation of the peace that the term for

Extension of time for which person is bound.

which any person is so bound should be extended, he may, before the expiration of the first year, record his opinion to that effect and the grounds thereof, and may refer the case for the orders of the High Court.

Such Court, after examining the proceedings of the Magistrate, and making such further inquiry as it thinks necessary, may, if it see cause, authorize him to extend such term for a further period not exceeding one year from the expiration of the first year.

EXPLANATION.—When the subject of dispute, or ground for apprehension, is the same as that on which the first order was passed, the Magistrate must proceed under this section if the first bond is still in force, and not under section 215.

B.—Security for Good Behaviour.

212. Whenever it is proved before a Presidency Magistrate that any person is lurking within the local limits of his jurisdiction, or that there is within such limits a person who has no ostensible means of subsistence, or who cannot give a satisfactory account of himself, the Magistrate may require such person to enter into such recognizance, with sureties, for his good behaviour for a period not exceeding six months, as the Magistrate thinks sufficient.

When Magistrate may require security for good behaviour for six months.

the local limits of his jurisdiction, or that there is within such limits a person who has no ostensible means of subsistence, or who cannot give a satisfactory account of himself, the Magistrate may require such person to enter into such recognizance, with sureties, for his good behaviour for a period not exceeding six months, as the Magistrate thinks sufficient.

When Magistrate may require security for good behaviour for one year.

213. Whenever it is proved before a Presidency Magistrate that any person is by repute

a robber, house-breaker or thief, or a receiver of stolen property, knowing the same to have been stolen, or of notoriously bad livelihood, or of a dangerous character, such Magistrate may require similar security for the good behaviour of such person for a period not exceeding one year.

Procedure where security required for more than one year.

214. Whenever it is proved before a Presidency Magistrate that any person is an habitual robber, house-breaker or thief, or an habitual receiver of stolen property, knowing the same to have been stolen, or of a dangerous character, and that his release without security, at the expiration of the limited period of one year, would be hazardous to the community,

the Magistrate shall record his opinion to that effect, and make an order requiring similar security for the good behaviour of such person for a period not exceeding three years.

If such person does not comply with the order, the Magistrate shall issue a warrant directing his detention pending the orders of the High Court.

C.—Provisions as to both Kinds of Security.

215. Whenever a Presidency Magistrate receives information that any person is likely to commit a breach of the peace, or to do any act that may probably occasion a breach of the peace, or that

Summons to person to show cause why he should not give bond to keep peace or for good behaviour.

he is one of the persons referred to in sections 212, 213 and 214, he may summon such person to attend at a time and place mentioned in the summons, to show cause why he should not be required to execute a recognizance to keep the peace or for good behaviour, as the case may be.

EXPLANATION I.—A summons calling on a person to show cause why he should not execute such recognizance, may be issued on any report or other information which the Magistrate believes; but the Magistrate shall not require any person to execute such recognizance until the Magistrate has adjudicated on evidence before him.

EXPLANATION II.—A Magistrate may, if he thinks fit, recall any summons issued under this section.

216. Such summons shall set forth the substance of the report or information on which it is issued, the penalty to be specified in the recognizance, and the term for which it is to be in force, and, if bail are to be taken, their number, the penalties which they shall be respectively bound to discharge, and the time and place at which the person summoned is required to attend.

When the person believed to be likely to commit a breach of the peace or to be one of the persons referred to in sections 212, 213 and 214, is present in Court, no summons is necessary, but the Magistrate may at once require him to show cause why he should not be required to execute the recognizance.

217. If the person summoned does not attend on the day appointed at the hour and place named in the summons, the Presidency Magistrate, if satisfied that the summons has been duly served, may issue a warrant for his arrest:

Provided that, whenever it appears to such Magistrate, upon the report of a Police-officer or upon other credible information (the substance of which report or information shall be recorded by the Magistrate on the warrant), that there is reason to fear the commission of a breach of the peace, which may probably be prevented by the immediate arrest of any person, or that there is reason to think that any person is one of the persons so referred to, the Magistrate may at any time issue a warrant for his arrest.

218. The Magistrate may, if he sees sufficient cause, dispense with the personal attendance of the person informed against under section 215, and may permit him

to appear and execute the required recognizance, or show cause against such requisition, by an advocate, attorney or pleader.

219. If on the appearance of the person so informed against or, if his attendance is dispensed with, of his advocate, attorney or pleader, the Magistrate is not satisfied that there is occasion to bind over such person to keep the peace, or to be of good behaviour, the Magistrate shall direct his discharge.

220. If the Magistrate is satisfied that it is necessary for the preservation of the peace or the maintenance of good behaviour that such person shall execute a recognizance, the Magistrate shall make an order accordingly.

The penalty specified in every recognizance executed under this chapter shall be fixed with due regard to the circumstances of the case and the means of the person bound.

The penalty which the sureties shall be jointly and severally bound to discharge shall not exceed the penalty which the principal debtor is bound to discharge.

221. If a person required to furnish security under section 214 does not furnish the same, or offers sureties whom the Magistrate rejects, the proceedings shall be laid, as soon as conveniently may be, before the High Court.

Such Court, after examining such proceedings and requiring any further information or evidence which it thinks necessary, may pass such orders on the case as it thinks fit, provided that the period (if any) for which it may direct the security to be

222. Whenever security is required under this chapter, the amount of the security, the number and description of sureties, and the period of time for which the recognizance is to remain in force, shall be stated in the order, and the recognizance shall be in the form (II) or (I), as the case may be, given in the third schedule hereto annexed or to the like effect.

Contents of order for security.

Form of recognizance.

223. In the event of any person required to give security under the provisions of this chapter failing to furnish the security so required, he shall be committed to prison until he furnish the same:

Imprisonment in default of security.

Provided that no such person shall be kept in prison for a longer period than that for which the security has been required from him.

Term of imprisonment.

Imprisonment under this section may be rigorous or simple, as the High Court or Magistrate in each case directs.

224. If any person required under this chapter to enter into a recognizance is under sentence of imprisonment, he shall, on or after the expiration of his sentence, be brought up before the Magistrate for the purpose of entering into such recognizance.

Binding of sentenced person.

225. A Presidency Magistrate may at any time release any person imprisoned for failing to furnish security for good behaviour, whether by his own order or that of his predecessor in office, provided that the Magistrate is of opinion that such person may be released without hazard to the community.

Release of prisoners under requisition of security.

Whenever a Presidency Magistrate is of opinion that any person imprisoned for failing to furnish security for good behaviour, as ordered by the High Court, may be safely released without such security, such Magistrate shall make an immediate report of the case for the orders of the High Court.

Release of prisoner under requisition of security by order of High Court.

226. A surety for the peaceable conduct or good behaviour of another person may at any time apply to a Presidency Magistrate to discharge his recognizance.

Discharge of sureties.

On such application being made, the Magistrate shall issue his summons or warrant requiring the person for whom such surety is bound to appear or be brought before him.

When such person appears or is brought before the Magistrate, such Magistrate shall discharge the recognizance of the surety, and shall order such person to give a fresh surety.

227. The commission, or attempt to commit, or the abetment of, any offence, a breach, whatever, and wherever it may be committed, is a breach of the recognizance.

Commission, &c., of offence, a breach.

228. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter has been forfeited, he shall record the grounds of such proof, and call upon the person bound by such recognizance to pay the penalty thereof, or to show cause why it should not be paid.

Recovery of penalty from principal.

If sufficient cause be not shown and the penalty be not paid, the Magistrate shall proceed to recover the same by issuing a warrant for the attachment and sale of any moveable property be-

Such warrant may be executed within the local limits of the jurisdiction of the Magistrate who issued it; and it shall authorize the distress and sale of any moveable property belonging to the person so bound without such limits, when endorsed by the Magistrate of the District in which such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, the person so bound shall be liable to imprisonment by order of the Presidency Magistrate in the civil jail for a period not exceeding six months.

The penalty shall not be enforced until the person so bound has had an opportunity of showing cause against the enforcement, and until the breach of the condition of the recognizance has been proved.

229. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter by a surety has been forfeited, the Magistrate may give notice to the surety to pay the penalty to which he has thereby become liable, or to show cause why it should not be paid.

Recovery of penalty from surety.

If no sufficient cause is shown, and such penalty is not paid, the Magistrate may proceed to recover the penalty from such surety in manner provided by the last preceding section.

And in case such penalty cannot be so recovered, the Magistrate may sentence the surety to imprisonment in the civil jail for a period not exceeding six months.

230. Any previous conviction of the person to be bound may, in proceedings under this chapter, be proved in the manner prescribed in section 154.

Proof of previous conviction.

231. Proceedings under this chapter may be taken in any district in which the breach of the peace is apprehended, or in which an offence has been committed in breach of the bond, or in which the person whom it is desired to bind may be.

Where proceedings under this chapter may be taken.

232. The provisions of this chapter relating to security for good behaviour do not apply to European British subjects in cases where they may be dealt with under the European Vagrancy Act, 1874.

Provisions of chapter not applying to European vagrants.

CHAPTER XVII.—OF RESTORING POSSESSION OF IMMOVEABLE PROPERTY.

233. Whenever any person is convicted by a Presidency Magistrate of an offence attended with criminal force, and it appears to such Magistrate that, by such criminal force, any person has been dispossessed of any immoveable property, the Magistrate may order such person to be restored to possession.

Power to restore possession of immoveable property.

No such order shall prejudice any right over such immoveable property which any person may be able to show in a civil suit.

CHAPTER XVIII.—OF THE MAINTENANCE OF WIVES AND FAMILIES.

234. If any person, having sufficient means, neglects or refuses to maintain his wife, or his legitimate or illegitimate child unable to maintain itself, a Presidency Magistrate may, upon due proof thereof by evidence, order such person to make a monthly allowance for the maintenance of his said wife, or child, or both, at such monthly rate not exceeding fifty rupees in the whole, as such Magistrate thinks fit, and to pay the same to such person as the Magis-

Order for maintenance of wives and children.

Such allowance shall be payable from the date of the order.

If any person so ordered wilfully neglects to comply with the order, a
Enforcement of order. Presidency Magistrate may, for every breach of the order, issue a warrant for levying the amount due in manner hereinbefore provided for levying fines; and may sentence such person, for each month's allowance remaining unpaid, to imprisonment for any term not exceeding one month:

Provided that if such person offers to maintain his wife on condition of her living with him, and his wife refuses to live with him, such Magistrate may consider any grounds of refusal stated by such wife; and may make the order allowed by this section notwithstanding such offer, if he is satisfied that such person is living in adultery, or that he has habitually treated his wife with cruelty.

No wife shall be entitled to receive an allowance from her husband under this section, if she is living in adultery, or if, without any sufficient reason, she refuses to live with her husband, or if they are living separately by mutual consent.

235. On the application of any person receiving, or ordered to pay, a monthly allowance under the provisions of section 234, and on proof of a change in the circumstances of such person, his wife or child, the Magistrate may make such alteration in the allowance ordered as he thinks fit, provided the monthly rate of fifty rupees be not exceeded.

236. A copy of the order of maintenance shall be given without fee to the person in whose favour it is made, or to his guardian (if any); and such order shall be enforceable by any Magistrate in any place where the person against whom it is made may be, on such Magistrate being satisfied as to the identity of the parties and the non-payment of the allowance due.

PART IV.

CHAPTER XIX.—MISCELLANEOUS.

237. The procedure prescribed by this Act shall be followed, so far as it can be, in all miscellaneous criminal cases and proceedings which are instituted in any Presidency Magistrate's Court.

238. All offences against the provisions of any law for the time being in force relating to Railways, Telegraphs, the Post Office, and Arms and Ammunition may be enquired into by a Presidency Magistrate, and may be tried according to the provisions of this Act.

239. The powers conferred on a Presidency Magistrate by section 238 may be exercised whether the offence is stated to have been committed within the local limits of his jurisdiction or not; but such powers shall only be exercised if the witnesses necessary for the prosecution of the offender are to be found within such limits.

240. A Presidency Magistrate may, if he thinks fit, refer for the opinion of the High Court any question of law which may arise in the hearing of any case in which he has jurisdiction; or may give judgment in any such matter, subject to the decision of the High Court on such reference; and, pending such decision by the High Court, may either commit the accused person to jail or release him on bail to appear for judgment

241. When a question has been so referred, the High Court shall pass such order thereon as it thinks fit, and shall cause a copy of such order to be sent to the Magistrate by whom the reference was made, who shall proceed to dispose of the case conformably to the said order.

The High Court may direct by whom the costs of the reference shall be paid.

242. Whenever any person causes a Police-officer to arrest another person, and whenever a complaint of any offence is made before any Presidency Magistrate, if it appears to the Magistrate by whom the case is heard that there was no sufficient ground for causing such arrest or for making such complaint, the Magistrate may award such compensation, not exceeding fifty rupees, to be paid by the person so causing the arrest or making the complaint, to the person so arrested or complained against, for his loss of time and expenses in the matter, as the Magistrate thinks fit.

In such cases, if more persons than one are arrested or complained against, the Magistrate may, in like manner, award to each of them such compensation, not exceeding fifty rupees, as such Magistrate thinks fit.

All compensation awarded under this section may be recovered as if it were a fine.

243. When the inquiry or trial before any Presidency Magistrate is concluded, he may make such order as he thinks fit for the disposal of any moveable property produced before him regarding which any offence appears to have been committed.

EXPLANATION.—In this section the term 'property' includes not only such property as has been originally in the possession or under the control of any party, but also any property into or for which the same may have been converted or exchanged, and anything acquired by such conversion or exchange, whether immediately or otherwise.

244. If any property alleged to be stolen or fraudulently obtained, is in the custody of any Police-officer by virtue of any warrant of a Presidency Magistrate, or in prosecution of any complaint of an offence in regard to the obtaining thereof, and the person accused of such offence is not found, or has been summarily dealt with and discharged, or has been tried and acquitted,

or if such person has been tried and found guilty, but the property so in custody has not been included in the charge upon which he has been found guilty, or if any property has been seized by a Police-officer under section 160,

any Presidency Magistrate may make an order for the delivery of such property to the person appearing to be the rightful owner thereof; or, in case the owner cannot be ascertained, may make such order with respect to the property as the Magistrate thinks fit:

Provided that no such order shall bar the right of any person to sue the person to whom the property is delivered, and to recover such property from him, so that the suit be instituted within six months next after such order has been made.

245. Subject to any rules that may be made by the Local Government, with the previous sanction of the Governor General Council, a Presidency Magistrate may order

payment, on the part of Government, of the reasonable expenses of any complainant or witness attending for the purpose of any trial under this Act.

246. Every person aware of the commission

All persons to give information of certain offences. within the local limits of the jurisdiction of a Presidency Magistrate of any offence

SCHEDULE II.

TABULAR STATEMENT OF OFFENCES.

(See Section 4.)

EXPLANATORY NOTES.—1st.—The entries in the second and sixth columns of the schedule, headed respectively "Offence" and "Punishment under the Indian Penal Code," are not intended as definitions of the offences and punishments described in the several corresponding sections of the Indian Penal Code, or even as abstracts of those sections, but merely as notices to the subject of the section, the number of which is given in the first column.

2nd.—The term "Whether bailable or not," in column 5, is to be taken in connection with the provisions of sections 70 and 71 of this Act.

3rd.—The High Court may try an offence entered in column 7 as triable by a Magistrate.

4th.—The last part of the schedule, headed "Offences against other Laws," shall not be taken to alter or affect any special provision contained in such laws regarding the procedure to be followed in the case of offences made punishable thereby.

5th.—The direction in column 4 is meant to indicate to Presidency Magistrates the manner in which the discretion vested in them by sections 34 and 35 is commonly to be used.

SCHEDULE.

I. SUITS. II. APPEALS. III. APPLICATIONS.

A Bill for the Limitation of Suits, and for other Purposes.

WHEREAS it is expedient to consolidate and amend the law relating to the limitation of suits, appeals and certain applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:—

PART I.

PRELIMINARY.

1. This Act may be called 'The Indian Limitation Act, 1877,' and shall come into force on the first day of July 1877.

It extends to the whole of British India; but nothing contained in sections two and three or in Parts II and III applies—

- (a) to suits under the Indian Divorce Act, or
- (b) to suits under Madras Regulation VI of 1831.

2. Act No. IX of 1871 (*An Act for the Limitation of Suits and for other purposes*) shall be repealed.

But all references to such Act shall be read as if made to this Act; and nothing herein or in that Act contained shall be deemed to affect any title acquired under that Act or under any enactment thereby repealed.

And notwithstanding anything herein contained, any suit mentioned in No. 143, No. 144 or No. 145 of the schedule hereto annexed, may be brought within five years next after the said first day of July 1877, unless where the period prescribed for such suit by the said Act No. IX of 1871 shall have expired before the completion of the said five years.

3. In this Act, unless there be something repugnant in the subject or context—

'minor' means a person who has not completed his age of eighteen years:

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or anything growing in,

or attached to, or subsisting upon, the land of another:

'bill of exchange' includes also a hundí:

'trustee' does not include a benámídar, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered under the law for the registration of documents in force at the time and place of executing the document referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS AND APPLICATIONS.

4. Subject to the provisions contained in sections Dismissal of suits, &c., five to twenty-six (inclusive), instituted, &c., after every suit instituted, appeal period of limitation. presented, and application made after the period of limitation prescribed therefor by the schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint, stamped in accordance with the law for the time being in force, is presented to the proper officer: in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a).—A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(b).—An appeal presented after the prescribed period is admitted and registered. The appeal shall, nevertheless, be dismissed.

5. If the period of limitation prescribed for any suit, appeal or application expires on a day when the Court is closed, the suit, appeal or application may be instituted, presented or made on the day that the Court re-opens:

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

6. When, by any law not mentioned in the schedule hereto annexed and now or hereafter to be in force in any part of British India, a period of limitation differing from that prescribed by this Act is specially prescribed for any suits, appeals or applications, nothing herein contained shall alter the period so prescribed.

And nothing herein contained shall affect the periods of limitation prescribed for appeals from, or applications to review, any decree, order or judgment of a High Court in the exercise of its original jurisdiction.

Appeals from decrees of High Courts on original side.

Legal Disability.

7. If a person entitled to sue be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit within the same period after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the schedule hereto annexed.

When he is at such time affected by two disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his representative in interest may institute the suit within the same period after the death as would otherwise have been allowed from the time so prescribed.

When such representative is at the date of the death affected by any disability, the rules contained in the former part of this section shall apply.

Nothing in this section shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which the suit must be brought.

Illustrations.

(a). The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accrual. He may institute his suit at any time within three years from the date of his attaining majority.

(b). A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accrual. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c). A right to sue accrues to Z during his minority. After the accrual, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity ceases.

(d). A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y his minor son. Time runs against Y from the date of his attaining majority.

(e). A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accrual A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(f). A right to sue as landlord to recover possession from a tenant accrues to A who is an idiot. A dies three years after the accrual, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given, without the concurrence of such person, time will run against them all: but where no such discharge can be given, time will not run as against any of them until they all are free from disability.

Disability of one joint creditor.

Illustrations.

(a) A incurs a debt to a firm of which B, C and D are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C and D.

(b) A incurs a debt to the same firm. B and C are insane, and D is a minor. Time will not run against any of them until they are all free from disability.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Continuous running of time. Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his representatives, for the purpose of following in his or their hands such property, shall be barred by any length of time.

Explanation.—A purchaser in good faith for value from a trustee is not his representative within the meaning of this section.

11. Suits in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

12. No foreign rule of limitations shall be a defence to a suit in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

13. In computing the period of limitation prescribed for any suit, the day on which the right to sue accrues shall be excluded.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, an application to the High Court for the admission of a special appeal, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence or order appealed against or sought to be reviewed, shall be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

14. In computing the period of limitation prescribed for any suit, the time during which the defendant has been absent from British India shall be excluded, unless service of a summons to appear and answer in the suit can, during such absence, be made under the Code of Civil Procedure, section 60.

15. In computing the period of limitation prescribed for any suit, the time during which the plaintiff has been prosecuting with due diligence another suit, whether in a Court of first instance or in a Court of appeal, against the same defendant or some person whom he represents, shall be excluded, where the last-mentioned suit is founded upon the same cause of action, and is instituted in good faith in a Court which from defect of jurisdiction, or other cause of a like nature, is unable to try it.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief, shall be excluded, where the last-mentioned application is made in good faith to a Court which from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction, shall be deemed to be prosecuting a suit within the meaning of this section.

16. In computing the period of limitation prescribed for any suit, the institution of which has been stayed by injunction or order, the time of the continuance of the injunction or order, shall be excluded.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 19, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

17. In computing the period of limitation prescribed for a suit for possession by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a suit to set aside the sale, shall be excluded.

18. When a person who would, if he were living, have a right to sue, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative in interest of the deceased capable of suing.

When a person against whom, if he were living, a right to sue would have accrued, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative whom the plaintiff may sue.

Nothing in the former part of this section applies to suits for the possession of immoveable property or of an hereditary office.

19. When any person having a right to sue has, by means of fraud, been kept from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed,

the time limited for commencing a suit,

(a) against the person guilty of the fraud or accessory thereto, or,

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

20. If a promise or acknowledgment in respect of any property or right has been made in writing signed, either personally or through a duly authorized agent, by the party against whom such property or right is claimed or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the promise or acknowledgment was so signed.

When the writing containing the promise or acknowledgment is undated, oral evidence may be given of the time when it was signed. But oral evidence of its contents shall not be received unless it has been destroyed wrongfully by the person on whom the promise or acknowledgment would be binding.

EXPLANATION 1.—For the purposes of this section a promise or acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery or performance has not yet come, or is accompanied by a refusal to pay, deliver or perform or is coupled with a claim to a set-off, or is addressed to any person other than the person entitled to the property or right:

but it must amount to a substantial acknowledgment of liability in respect of the property, or right in question.

EXPLANATION 2.—Nothing in this section renders one of several partners or executors chargeable by reason only of a written promise or acknowledgment signed by another of them.

Illustrations.

Z, a bond-debtor, himself writes a letter promising to pay the debt to his creditor A. Z affixes his seal, but does not sign the letter:

Z pays part of the debt and promises orally to pay the rest:

Z publishes an advertisement, requesting his creditors to bring in their claims for examination:

In none of these cases is the debt taken out of the operation of this Act.

21. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent generally or specially authorized in this behalf,

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent generally or specially authorized in this behalf,

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of principal, the debt has arisen from a contract in writing and the fact of the payment appears in the hand-writing of the person making the same, on the instrument, or in his own books, or in the books of the creditor.

Where mortgaged land is in the possession of the mortgagee, the delivery and receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Provided that, when a plaintiff dies, and the suit is continued by his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Provided also, that, when a defendant dies, and the suit is continued against his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted against the deceased defendant.

23. In the case of a suit for the breach of a contract, where there are successive breaches of contract, a fresh right to sue arises, and a fresh period of limitation begins to run, upon every fresh breach; and where the breach is a continuing breach, a fresh right to sue arises, and a fresh period of limitation begins to run, at every moment of the time during which the breach continues.

Nothing in the former part of this section applies to suits for the breach of contracts for the payment of money by instalments, where, on default made in payment of one instalment, the whole becomes due.

Illustrations.

(a).—A contracts to pay an annuity to B for his life by quarterly instalments. A fails to pay any of the instalments. Here upon every fresh failure, a fresh right to sue arises and a fresh period of limitation begins to run; and this Act may bar the remedy on the earlier breaches without affecting the remedy on the later breaches.

(b).—A, a tenant, covenants with B, his landlord, to keep certain buildings in repair. At every moment of the time during which the buildings continue out

of repair and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

24. In the case of a continuing wrong independent of contract, a fresh right to sue arises, and a fresh period of limitation begins to run, at every moment of the time during which the wrong continues.

Illustration.

A diverts B's watercourse. At every moment of the time during which the diversion continues and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

25. In the case of a suit for compensation for an act lawful in itself which becomes unlawful in case it causes damage, the period of limitation shall be computed from the time when the damage accrues.

Illustration.

A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation runs from the time of the subsidence.

26. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(a).—A Hindú makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(b).—A Hindú makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

27. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement, and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water, or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

EXPLANATION.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced

in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a).—A suit is brought in 1871 for obstructing a right of way. The defendant admits the obstruction but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1850 to 1st January 1870. The plaintiff is entitled to judgment.

(b).—In a like suit also brought in 1871 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1818 to 1868. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(c).—In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

28. Provided that, when any land or water

Exclusion in favour of upon, over, or from which reversioner of servient any easement has been enjoyment.

joyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term, shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next

after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a deceased Hindú widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

29. At the determination of the period hereby limited to any person for Extinguishment of right to property. instituting a suit for possession of any property, his right to such property shall be extinguished.

30. Where a series of trespassers adverse to one Possession by successive trespassers. another and to the rightful owner of any immoveable property or hereditary office take and keep possession thereof for several periods each less than the period so limited, but collectively exceeding such period, the person who is in possession of such property or office when the title of the rightful owner is extinguished shall have a right to such possession.

Nothing in this section shall operate to bar any right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him.

170.—For the execution of any such decree or order of which a certified copy has been registered under the Indian Registration Act.	Six years ...	made against any one or more of them, or against his or their representatives, shall take effect against them all. <i>Explanation II.</i> —"proper Court" means the Court whose duty it is (whether under sections 227 or 228 of the Code of Civil Procedure or otherwise) to execute the decree or order. The date of the decree or order, or (where there has been an appeal) the date of the final decree or order of the Appellate Court, or (where there has been a review of judgment) the date of the decision passed on the review.
171.—To enforce a judgment, decree or order of any Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction, or an order of Her Majesty in Council.	Twelve years ...	When a present right to enforce the judgment, decree or order accrued to some person capable of releasing the right : Provided that when the judgment, decree or order has been revived, or some part of the principal money secured thereby, or some interest on such money has been paid, or some acknowledgment of the right thereto has been given in writing, signed by the person liable to pay such principal or interest or his agent, to the person entitled thereto or his agent, the twelve years shall be computed from the date of such revivor, payment or acknowledgment, or the latest of such revivors, payments or acknowledgments, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

1. The Limitation Act (IX of 1871) contains, directly or indirectly, numerous references to the Code of Civil Procedure. And therefore the revision of the Code, which the Indian Legislature has resumed and hopes soon to complete, entail the revision of the Limitation Act.

2. The object of the present Bill is primarily to adapt the law of limitation to the revised Code ; but the opportunity has been taken to make certain amendments which the experience of nearly six years has shown to be desirable. Of these the following are the principal :—

Preliminary.

3. Titles acquired under the old Limitation Act (XIV of 1859) or the present Act (IX of 1871) will be saved.

* 'Easement' is defined so as to include what is technically called a profit à prendre.

Limitation of Suits, Appeals and Applications.

4. Suits will not be 'instituted' for the purpose of the Act, unless the plaints are stamped in accordance with law.

5. Section 7 has been extended so as to provide for supervenient and successive disabilities.

Computation of Period of Limitation.

6. To section 15 has been added a clause providing for the exclusion of the time during which an applicant has been making a *bona fide* application in a Court unable to grant it.

7. Section 20 (as to the effect of acknowledgments in writing as to debts and legacies) has been extended to promises or acknowledgments in respect of any property or right, and oral evidence of the contents of the writing containing the promise or acknowledgment will not be receivable, unless it has been wrongfully destroyed by the person on whom the promise or acknowledgment would be binding.

8. Section 21 (as to the effect of payment of interest or part-payment of principal) has been made to comprise the case of delivery and receipt of the produce of mortgaged land in the possession of the mortgagee.

9. Section 24 (as to continuing nuisances) has been extended so as to cover all cases of continuing wrongs independent of contract.

Acquisition by Possession of the Ownership of Easements, Land and Hereditary Offices.

10. The exception as to light and air has been struck out of section 28 (as to exclusion in favour of the reversioner of the servient tenement). This exception complicates the law, and the reasons which led to a like exception in the English Prescription Act do not seem to apply to India.

11. Provision has been made in section 30 for the case of a series of trespassers adverse to one another and to the rightful owner of any land or hereditary office, taking and keeping possession thereof for several periods, each less than the period limited by the Act, but collectively exceeding that period. The rule adopted is that the person who is in possession when the title of the rightful owner is extinguished shall have a right to such possession. But the right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him is expressly saved.

The Schedule.

12. The time when the period fixed for the following suits begins to run has been altered as follows:—

No.

9. For the price of lodging.

When the price becomes payable.

22 (=23 of Act IX of 1871). For a malicious prosecution.

When the plaintiff is acquitted or the prosecution is otherwise terminated.

33 (=38 of Act IX). Against one who, having a right to use property for specific purposes, perverts it to other purposes.

When the perversion first becomes known to the person injured thereby.

46 (=47, 48, of Act IX). For specific moveable property lost or acquired by theft or dishonest misappropriation or conversion, or for damages for wrongfully taking or detaining the same.

When the owner of the property first learns in whose possession it is.

47 (=26, 33, 34, 35 of Act IX). For other specific moveable property, or for compensation for taking or injuring or wrongfully detaining the same.

When the property is wrongfully taken or injured, or when the detainer's possession becomes unlawful.

53 (=57 of Act IX). For the balance due on a mutual, open and current account, where there have been reciprocal demands between the parties.

The latest date at which any item is entered in the account by or on behalf of the defendant.

57 (=90 of Act IX). By a principal against his agent for moveable property received by the latter and not accounted for.

When the account is demanded and refused, or the agency terminates, whichever first happens.

58 (= 91 of Act IX). Other suits by principals against agents for neglect or misconduct.

When the neglect or misconduct becomes known to the plaintiff.

59 (=92 of Act IX). To cancel or set aside an instrument not otherwise provided for.

When the facts entitling the plaintiff to have the instrument cancelled or set aside become known to him.

109 (=112 of Act IX). For a call by a company registered under any Statute or Act.

When the call is payable.

111 (=114 of Act IX). For the rescission of a contract.

When the facts entitling the plaintiff to have the contract rescinded become known to him.

122 (=125 of Act IX). By a Hindú governed by the law of the Mitáksharā to set aside his father's alienation of ancestral property.

When the alienee takes possession of the property.

123 (= 127 of Act IX). By a Hindú excluded from joint family property to enforce a right to share therein.

The date of the exclusion.

13. The period of limitation has been altered in the case of the following suits :—

No.

39 (=11 of Act IX). For infringing copyright or any other exclusive privilege : from one year to three years.

46 (=26 of Act IX). For taking or detaining lost or wrongfully acquired moveable property : from one year to three years.

47 (=48, 49 of Act IX). For wrongfully detaining other moveable property : from two years to three years.

143 (=148 of Act IX). Against a mortgagee to recover possession of immoveable property mortgaged : from sixty years to thirty years.

144 (=149 of Act IX). In a Charter Court by a mortgagee to redeem : from sixty years to thirty years.

145. Suits in the name of the Secretary of State in Council : from sixty years to thirty years.

14. The following classes of suits have been specially provided for :—

No.

40. To restrain waste.

41. To compel a legatee to refund.

42. By a ward who has attained majority to set aside a sale by his guardian.

124. By a Hindú for a declaration of his right to maintenance.

15. The following eight applications have also been provided for :—

No.

151. For an order under section 258 of the Code of Civil Procedure [No. IV] compelling a decree-holder to certify payment or adjustment.

152. For dismissal of a suit on the ground of the plaintiff's bankruptcy or insolvency.

153. For leave to appear and defend a summary suit on a negotiable instrument.

154. For an order under section 629 of the Code of Civil Procedure [No. IV] restoring to the file a rejected application for review.

160. Under sections 364 and 366 of the same Code, by a person claiming to be the representative of a deceased plaintiff.

162. By a purchaser at an execution-sale to set aside the sale on the ground that the person whose interest in the property purported to be sold had no legally saleable interest therein.

166. For payment of the amount of a decree by instalments.

171. To enforce an order of Her Majesty in Council.

16. On the other hand the Bill omits as useless the following numbers of the schedule to Act IX of 1871 :—

73. By the endorsee of a bill or promissory note against the endorser.

79. By payee against drawer, when the bill has been dishonoured by non-acceptance and afterwards by non-payment.

146. For a declaration of right to an easement.

17. In Nos. 144 and 145, the Bill provides for acknowledgments signed by the agent of a depositary, pawnee, mortgagee or some person claiming under him.

18. Lastly, in No. 169 it explains, in accordance with decided cases, when an application to execute a decree passed in favour of, or against, several persons enures in favour of, or against, them all, and when in favour of, or against, only those by, or against, whom the application is made.

WHITLEY STOKES,
Secy. to the Govt. of India.

The following Report of a Select Committee, together with the Bill as settled by them, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th February 1877 :—

We, the undersigned Members of the Select Committee to which the Bill to restrict the transport of Salt by Sea was referred, have the honour to report that we have considered the Bill and the papers noted in the margin.

From Department of Revenue, Agriculture and Commerce, No. 201C.S., dated 24th July 1874.	transport

Suggestions by G. H. M. Batten, Esq., dated 8th February 1877.	have the

honour to report that we have considered the Bill and the papers noted in the margin.

2. We think that the proposed Act should come into force on the West Coast of India at once, and elsewhere on such day as the Government of India directs.

3. We have saved from the operation of section 2 salt covered by rawānas granted under Madras Regulation I of 1805, section 11, clause 3.

4. We think that the power to stop, search and arrest, given by section 4, should be exercised only by officers who have reason to believe from personal knowledge or from information taken down in writing that salt is being, or has within twenty-four hours been, illegally carried. We have empowered such officers to seize vessels which they have reason to believe to be liable to confiscation under the proposed Act, and cause them to be brought into any British Indian port. We have limited their power to arrest persons without warrant to cases in which salt is actually found on board. We have provided that all salt in respect of which an offence has been committed under the proposed Act shall be liable to confiscation.

5. We have omitted as useless the section as to the summary punishment of offences against the proposed Act.

6. We have transferred the powers given to the Government of India by section 3, clauses (b) and (c), and section 4, to the Governments of Madras and Bombay, the Lieutenant Governor of Bengal and the Chief Commissioner of British Burma.

7. We recommend that the Bill thus amended be passed. But we think that it has been so altered as to require republication.

Calcutta, 19th February 1877.

No. II.

A Bill to restrict the transport of Salt by Sea.

WHEREAS it is expedient to restrict the transport of salt by sea in manner hereinafter appearing; It is hereby enacted as follows :—

1. This Act may be called "The Transport of Salt Act, 1877 :"

Extent. It extends to the whole of British India and, further, applies—

(a) to all European British subjects of Her Majesty within the territorial jurisdiction of Princes and States in India in alliance with Her Majesty;

(b) to all Native Indian subjects of Her Majesty, wherever they may be ;

And it shall come into force on the west coast of India at once, and elsewhere on such day as the Governor General in Council may, by notification in the *Gazette of India*, direct in this behalf.

2. When any salt is carried by sea in any vessel other than a vessel of the burden of three hundred tons and upwards, the owner and master of such vessel shall each be liable to a fine not exceeding one thousand rupees, or to imprisonment for a term which may extend to six months, or to both.

Exceptions. 3. Nothing in section two applies to—

(a) salt covered by a permit granted under section twenty-eight or section thirty-one of the Act of the Governor of Bombay in Council No. VII of 1873, or by a rawāna granted under Madras Regulation I of 1805, section eleven, clause third;

(b) salt covered by a pass granted by any officer whom the Government may appoint in this behalf;

(c) such amount of salt carried on board any vessel for consumption by her crew or by the passengers or animals (if any) on board as the Government may from time to time exempt from the operation of section two.

4. When any officer of Government empowered by the Government, whether by name or office, to act under this section, has reason to believe from personal knowledge or from information taken down in writing, that any salt is being carried, or has within the twenty-four hours next before the requirement first hereinafter mentioned been carried, in any vessel so as to render the owner or master of such vessel liable to the penalties prescribed by section two, he may require such vessel to be brought to, and thereupon may—

- (a) enter and search the same;
- (b) require the master of such vessel to produce any documents in his possession relating to such vessel or the cargo thereof;
- (c) seize such vessel if the said officer has reason to believe it liable to confiscation under this Act, and cause it to be brought with its crew and cargo into any port in British India; and
- (d) where salt is found on board such vessel, search and arrest without a warrant any person on board the same who such officer has reason to believe is punishable under section two.

5. Any master of a vessel refusing or neglecting to bring to or to produce his papers when required to do so by an officer acting under section four, and any person obstructing any such officer in the performance of his duty, may be arrested by such officer without a warrant, and shall be liable to a fine not exceeding one thousand rupees, or to imprisonment for a term which may extend to six months, or to both.

6. Every vessel in which salt is carried in contravention of this Act, the cargo on board such vessel, and all salt in respect of which an offence under

this Act has been committed, shall be liable to confiscation.

The confiscation of any vessel under this section shall include her tackle, apparel and furniture.

Confiscations under this section may be adjudged (a) by the Chief Customs Authority, or (b) by such other officer as the Local Government may from time to time appoint in this behalf.

Whenever any Customs officer is satisfied that any article is liable to confiscation under this section, he may seize such article, and shall at once report the seizure to his superior officer for the information of the Chief Customs Authority, or such other officer as aforesaid, who may, if satisfied on such report, or after making such enquiry as he thinks fit, that the article so seized is liable to confiscation, either declare it to be confiscated or impose a fine in lieu thereof not exceeding the value of the article.

7. For the purpose of the adjudication of penalties under section two or section five, every offence thereunder may be deemed to have been committed within the limits of the jurisdiction of the Magistrate of any place where the offender is found, or to which, if arrested under section four or section five, he may be brought.

8. In this Act 'the Government' means the Governor of Madras in Council, the Governor of Bombay in Council, the Lieutenant Governor of Bengal, or the Chief Commissioner of British Burma.

Military staff clerks serving in the offices of the Adjutant General in India (including the offices of the Deputy Adjutant General, Royal Artillery in India, and the Assistant Adjutant General for Musketry, Army Headquarters), Quartermaster General in India, Military Secretary to His Excellency the Commander-in-Chief, Judge Advocate General, Surgeon-General, British Forces.

Embarkation, Transport and Bazar Sergeants. Drill Instructors, Volunteer corps.

Non-commissioned staff of Hill depots.

Ditto garrisons and forts.

Provost Sergeants of garrison cells and of station and military prisons.

Non-commissioned officers and men of the Viceroy's Band.

European non-commissioned officers of native regiments, including Drummers, Fifers and Buglers of European parentage.

Royal Engineers and other European non-commissioned officers and men serving with the corps of Sappers and Miners.

Non-commissioned officers and men of the European Invalid Battalion present with their corps.

Staff Sergeants of Gymnasia.

- Paragraphs 3 and 11 of the Royal Warrant are not applicable to India.
- Recommendations for the medal and gratuity are to be submitted annually on the 1st April, on Bengal Form No. 376, and all men who are then entitled should be included, a separate roll being furnished in each case.
- No soldier is, except under special circumstances, to be considered to have served with an irreproachable character unless he is in possession of, or entitled to, four good conduct badges.
- No soldier who has been twelve times entered in the regimental defaulter book, is to be considered to have served with an exemplary character.
- If circumstances should prevent a soldier getting the medal from the hands of his commanding officer, it will be delivered to him through the Adjutant General of the Army.
- A warrant officer, whether in a department or public office, retains his medal granted to him before his promotion to the warrant grade, and is entitled to the gratuity on final discharge.
- A non-commissioned officer or soldier serving in a public office or department retains the medal previously granted to him, the gratuity with accumulated interest being transferred to the Military branch of the Government Savings Bank, and is entitled to his gratuity on receiving his final discharge from the army.
- If the soldier recommended has ever been tried by court martial, a copy of the charge, finding, sentence and confirmation, must also be attached to the application.
- The character given to the applicant must be entered in the handwriting of his departmental commanding officer.
- The grant of the gratuity will be notified in the general orders of the Commander-in-Chief, and republished in the garrison or station orders, where the recipient is serving, and a copy of the latter order is to be transmitted to his regiment, for the necessary entry in the soldier's record of service.
- Men whose fathers and maternal grandfathers or whose mothers and paternal grandfathers were of pure European origin, are considered to be of European parentage, and a certificate to the effect that the individual recommended fulfils these conditions is to be inserted at the foot of the rolls of Drum, Fife or Bugle Majors, and of Drummers, Fifers and Buglers, of native corps.
- A non-commissioned officer remanded to regimental duty for misconduct, but afterwards re-admitted to the unattached list, is to be treated in regard to these rewards as if he had been tried and reduced for the offence which entailed his remand.
- The medal will be transmitted direct to commanding officers of corps, when the recipient is serving with a regiment; and in other cases to officers commanding at the station where the soldier may be serving, and will be delivered to him on parade by the commanding officer. Should a regiment

be serving in a station or garrison where other troops are quartered, the commanding officer will report the receipt of the medal to the General or other officer commanding, so that, should he think proper, he may order a general parade of the troops to witness the presentation. The recipient's receipt for the medal to be forwarded to the office of the Adjutant General in India, Simla, as soon as practicable after presentation.

PAY AND ALLOWANCES.

No. 226.—PAY CODE—

The following corrections are to be made in the Pay Code for India, Volume I, "British Troops":—

Article 368, Clause *a*, is re-constructed as follows:—

"If, after the expiration of his tour of foreign service, a medical officer G. O. No. 132 of the British Service is detained in India with a view to his proceeding in charge of troops returning to England—up to date of embarkation."

Article 1711. *Add*—"If acquitted of the charge

RAILWAY.

The 7th March 1877.

No. 107R.—In accordance with Section XXVI of Act XVIII of 1854 as amended by Act No.

XXV of 1871, the Governor General in Council has been pleased to authorize the substitution of the following rules relating to trollies and lorries on State Railways, proposed by the Director of State Railways, for the rules which have hitherto been in force, and which were published in the *Gazette of India*, Part I, dated the 12th April 1878, page 357, (Notification No. 1 R, dated the 3rd April 1878) :—

205.—Material lorries shall not be placed on a Railway, except under the charge of the Inspector of the District, or, with permission of the Inspector, of a Foreman or other efficient subordinate officer.

205A.—Before any such lorries are placed on the line, notice shall be given in writing, or by telegraph, to the Station Masters at each of the nearest stations, and the Station Masters shall advise Engine-drivers and Guards of trains that lorries are on the line.

205B.—When any such lorry is placed upon the main line, a line-clear shall be obtained whenever it is possible to do so; but when this is not possible, such lorry must be preceded and followed at intervals of 600 yards (except on a descending gradient steeper than 1 in 100, on curves, in cuttings and tunnels, or during fogs and storms, when the distance shall be 800 yards) by a man bearing a red signal, being a red flag by day and a red lamp by night.

206.—Light-riding trollies shall not be placed on the line, except under the charge of officers or subordinates who have been specially authorized to use them.

206A.—When any such trolley is placed upon the main line, a line-clear shall, if possible, be obtained. When it is not possible to obtain a line-clear, and in front, or in rear, or both in front and in rear, a clear view along the line for a distance of at least 800 yards cannot be obtained by reason of curves, cuttings, tunnels, fogs, storms, or any other cause, such trolley shall be preceded or followed, or both, as the case may be, at a distance of 800 yards, by a signal similar to that prescribed for a lorry by Rule No. 205B.

206B.—Whether otherwise protected or not, no trolley shall be placed on an open line without a red flag by day, or a red lamp by night, showing both ways, constantly and conspicuously displayed. The flag shall be placed in a socket, and the lamp so placed that it can be readily seen by approaching trains.

206C.—“Trollies when not in use must have the wheels chained and locked together, and must never be left in such a position as to allow of their being tampered with.”

*Offg. Post Master of Calcutta.***THE INDIAN LAW REPORTS.**

PUBLISHED UNDER AUTHORITY.

The first part of the "Indian Law Reports," published under the authority of the Governor General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER, VINING AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

The publication of the Bengal Law Reports and the Madras, Bombay, and N. W. P. High Court Reports will cease on the completion of the volumes now in course of publication.

Subscribers to the Bengal Law Reports, who have already paid their subscriptions to the end of June 1876, will be supplied with the complete set of Reports for the first half of 1876 in lieu of the volume of the Bengal Law Reports which they would otherwise have received.

The following books may be had from the Office of Superintendent of Government Printing, No. 8, Hastings Street.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every Rupee's worth of stamps, for discount in exchanging them for cash. Service labels are not received.

Books required for the public service cannot be supplied on payment ; they are only issued on the authority of the Department to which the indenting officer is subordinate.

THE THIRD SCHEDULE—FORMS.

An Act to regulate the procedure and increase the jurisdiction of the Courts of Magistrates in the Presidency Towns.

WHEREAS it is expedient, to consolidate and amend the law regulating the procedure of the Courts of Magistrates in the Presidency towns and to

increase the jurisdiction of such Courts; It is hereby enacted as follows:—

PART I.

CHAPTER I.—PRELIMINARY.

1. This Act may be called "The Presidency Magistrates' Act, 1877":
Short title.

And it shall come into force on the first day of April 1877.
Commencement.

2. On and from that day the Acts mentioned in the first schedule hereto annexed shall be repealed to the extent specified in the third column of the said schedule.
Repeal of Acts.

3. Nothing in this Act shall be deemed to restrict any power conferred by any special or local law.
Saving of powers under local laws.

4. The Court by which an offence is triable under this Act is indicated by the seventh column of the second schedule hereto annexed and by the third explanatory note prefixed to such schedule.
Matters indicated in second schedule.

The cases in which the Police may arrest without warrant or not, in the case of each offence under the Indian Penal Code or any law referred to in section 14,

whether a warrant or a summons shall ordinarily issue in the first instance, and

whether the offence is bailable or not, are indicated respectively by the third, fourth and fifth columns of the same schedule.

The punishment for each offence under the Indian Penal Code is indicated by the sixth column of the same schedule.

5. Cases pending when this Act comes into force in any of the Courts of Police Magistrates, or in the town of Bombay in the Court of Petty Sessions, shall be dealt with, as far as may be, according to the procedure herein provided.

"place." "place" includes also house, building and vessel: and

Words referring to acts done. words which refer to acts done extend also to illegal omissions.

CHAPTER II.—CONSTITUTION AND POWERS OF THE PRESIDENCY MAGISTRATES' COURTS.

Establishment of Presidency Magistrates' Courts.

7. The Local Government may, with the sanction of the Governor General in Council,

(a) constitute within the towns of Calcutta, Madras and Bombay, respectively, so many divisions as the said Government thinks fit,

(b) define the extent thereof respectively,

(c) from time to time alter the number of such divisions and their respective extents, and

(d) establish a Presidency Magistrate's Court for each of such divisions.

8. The Local Government may also from time to time appoint a sufficient number of fit persons to be Magistrates for the said towns, respectively, and may suspend or remove any person so appointed.

Any such person may sit and act as a Magistrate in any of the said Courts, and any two or more of such persons may (subject to rules made under section 9) sit together as a Bench.

All persons appointed under this section shall be called Presidency Magistrates.

Every such person shall, by virtue of his office, be a Justice of the Peace for the town of which he is Magistrate,

and shall exercise jurisdiction in all places within the local limits of the ordinary original criminal jurisdiction of the High Court, and within the limits of the port of such town and of any navigable river or channel leading thereto as such limits are defined under the law for the time being in force for the regulation of ports and port-dues.

The area comprised within such local limits shall be deemed to be a district within the meaning of the Code of Criminal Procedure and of this Act.

Every Presidency Magistrate in the town of Bombay shall exercise all powers and jurisdictions which, under any law in force immediately before the passing of this Act, may be exercised by the Court of Petty Sessions, and such Court is hereby abolished.

9. In each of the said towns the Local Government shall appoint one of the Presidency Magistrates to be Chief Magistrate. Such Magistrate shall exercise in such town all the powers which by any law or rule are required to be exercised by any Senior or Chief Magistrate, and may, with the previous sanction of the Local Government, make rules, consistent with this Act, to regulate

(a) the conduct and distribution of business and secure uniformity of practice in the Courts of the Magistrates of the Town:

(b) the times and places at which Benches of Magistrates shall sit:

(c) the constitution of Benches:

(d) the mode of settling differences of opinion which may arise between Magistrates in session.

Notwithstanding the last paragraph of section 8, appeals under the law for the time being regulating the municipality of Bombay shall lie to the Chief Magistrate only.

10. All existing Magistrates of Police shall be deemed to be Presidency Magistrates under this Act, and all references in any Act now in force to Magistrates of Police shall be deemed to be made to Presidency Magistrates.

Sentences which Presidency Magistrates may pass.

11. Any Presidency Magistrate may pass the following sentences:—

Imprisonment not exceeding the term of two years (including such solitary confinement as is authorized by law):

Fine not exceeding one thousand rupees:

Whipping.

A Presidency Magistrate may pass any lawful sentence, combining any of the sentences which he is authorized by law to pass.

EXPLANATION.—A Presidency Magistrate may award imprisonment in default of payment of fine, in addition to the full term of imprisonment which, under this section, he is competent to award. But no punishment inflicted under this section shall exceed the punishment provided for the offence by the Indian Penal Code or any special or local law.

12. In every case punishable under any law in force for the time being with imprisonment as well as fine, in which the offender is sentenced to a fine, whether with or without imprisonment, the Presidency Magistrate shall be guided by the provisions of sections 64 and 65 of the Indian Penal Code in fixing the period of imprisonment in default of payment of the fine:

Provided that, in no case decided by a Presidency Magistrate, where imprisonment has been inflicted as part of the substantive sentence, shall the period of imprisonment inflicted in default of payment of the fine exceed one-fourth of the period of imprisonment which he is competent to inflict as punishment for the offence otherwise than as imprisonment in default of payment of the fine.

Where a person is sentenced to fine only, the Presidency Magistrate may fix such term of imprisonment in default of payment of fine as is allowed by law, provided the term does not exceed two years.

13. When a person is convicted, at one trial, of two or more offences punishable under the same section or different sections of any law, the Presidency Magistrate may sentence him, for the offences of which he has been convicted, to the several penalties prescribed by such law which such Magistrate is competent to inflict. Such penalties, when consisting of imprisonment, to commence the one after the expiration of the other :

Provided that the punishment shall not in the aggregate exceed twice the amount of punishment which the Magistrate is, by his ordinary jurisdiction competent to inflict.

14. Offences punishable under any law, other than the Indian Penal Code, containing no distinct provision as to the Court or officer before which or before whom they are to be tried, may be inquired into and tried, according to the provisions hereinafter contained, by a Presidency Magistrate. But no such Magistrate shall pass any sentence in excess of his powers.

15. When any offence is committed in the presence of a Presidency Magistrate, he may order any person to arrest the offender, and when the offender is arrested may commit him to custody or, if the offence is bailable, may admit him to bail.

16. A Presidency Magistrate may record any confession or other statement made to him at any place within the local limits of his jurisdiction by any person with reference to any offence.

Such confessions shall be recorded in the manner provided by section 84, and such statements shall be recorded in the manner prescribed in section 115, clauses 3, 4 and 5, and such statements and confessions shall, when recorded, be forwarded to the Magistrate by whom the case is inquired into or tried.

No Presidency Magistrate shall record any such confession unless, upon inquiry, he has reason to believe that it was made voluntarily; and on recording any such confession, he shall make a

memorandum at the foot thereof to the following effect:—

"I believe that this confession was voluntarily made. It was read over to the person making it and was admitted by him to be correct."

(Signed) A. B.,
Presidency Magistrate.

17. Upon complaint made to a Presidency Magistrate on oath of the abduction or unlawful detention of a woman, or of a female child under the age of fourteen years, for any unlawful purpose, he may make an order for the immediate restoration of such woman to her liberty, or of such female child to her husband, parent, guardian or other person having the lawful charge or government of such child, and may compel compliance with such order, using force if necessary.

PART II.

CHAPTER III.—THE PLACE OF INQUIRY AND TRIAL.

18. Every offence shall ordinarily be inquired into, and, if triable by a Magistrate, shall be tried, in the district in which it was committed. If triable by a High Court, it shall (subject to the provisions of section 61A of the Code of Criminal Procedure) be tried by the High Court to which the Magistrate commits.

EXPLANATION.—Offences created by local and special laws may be inquired into and tried in any place where the inquiry or trial might be held under the provisions of those laws or of this Act.

19. When a person is accused of the commission of any offence by reason of anything which has been done, and of any consequence which has ensued, such offence may be inquired into or tried in any district in which any such thing has been done, or any such consequence has ensued.

Illustrations.

(a.) A is wounded in district X and dies in district Z. The offence of the culpable homicide of A may be inquired into and tried either in X or Z.

(b.) A is wounded in district X, and is, during twenty days, unable to follow his ordinary pursuits in district Y, where he is being treated. The offence of causing grievous hurt to A may be inquired into and tried either in X or Y.

(c.) A is put in fear of injury in district X, and is thereby induced, in district Y, to deliver property to the person who put him in fear. The offence of extortion committed on A may be inquired into and tried either in X or Y.

20. When an act is an offence by reason of its relation to any other act which is also an offence, a charge of the first-mentioned offence may be inquired into and tried, either in the district in which it was committed, or in the district in which the other act was committed.

Illustrations.

(a.) A charge of abetment may be inquired into and tried, either in the district in which the abetment was committed, or in the district in which the offence abetted was committed.

(b.) A charge of receiving or retaining stolen goods may be inquired into and tried, either in the district in which the goods were stolen, or in the district in which any of them were at any time dishonestly received or retained.

(c.) A charge of wrongfully concealing a person known to have been kidnapped may be inquired into and tried in the district in which the wrongful concealing, or in the district in which the kidnapping, took place.

(d.) A, B, C and others combine together to abet the waging of war against the Queen. Any of the conspirators may be tried in any district in which acts were done by any one of the persons with whom he or they conspired, in pursuance of their original concerted plan and with reference to their common objects.

21. When it is uncertain in which of several districts an offence was committed; or

where an offence is committed partly in one district and partly in another; or

where an offence is a continuing one and continues to be committed in more districts than one; or

where an offence consists of several acts done in different districts,

it may be inquired into and tried in any of such districts.

An offence committed on a journey or voyage may be inquired into and tried in any district through or into which the person by

whom the offence was committed, or the person against whom, or the thing in respect of which, the offence was committed, passed in the course of that journey or voyage.

22. The offence of being a thug, or of having belonged to a gang of dacoits, or of having escaped from custody, may be inquired

into and tried wherever the accused person happens to be when the complaint is made.

The offence of criminal misappropriation, or of criminal breach of trust, may be inquired into and tried either in the district in

which the property which is the subject of the offence was received by the accused person, or in any other district in which the offence was committed.

The offence of murder as a thug, dacoity or dacoity

with murder, may be inquired into and tried wherever the person accused happens to be

when arrested, or in any other district in which he might be tried under any other provision of this Act, or any other law relating to the trial of such offence.

The offence of stealing an animal may be inquired into and tried either

in the district in which such animal was stolen, or in any other district through or into which it was conveyed.

23. Whenever any doubt arises as to the district in which any offence should be inquired into or tried, the High Court within whose jurisdiction the offender is apprehended may decide in which district the offence shall be inquired into or tried.

High Court to decide, in case of doubt, district where inquiry shall take place.

24. No sentence or order of any criminal Court shall be liable to be set aside merely on the ground that the inquiry or trial was held in a wrong district, unless it is proved, or appears, that the accused person in his defence, or the prosecutor in his prosecution, was actually prejudiced by such error, in either of which cases a new trial may be ordered.

Effect, on sentence, of holding investigation, inquiry or trial in wrong district.

CHAPTER IV.—OF THE COGNIZANCE OF OFFENCES.

When Presidency Magistrate may take cognizance of offences.

25. A Presidency Magistrate may take cognizance of any offence—

(a) upon receiving a complaint by a private person,

(b) upon information or report by a Police officer,

(c) upon information received under section 246,

(d) if committed in his presence,

(e) upon application under chapter V.

26. Any person acquainted with the facts of a case may make a complaint.

Who may make complaints.

27. On receipt of a complaint a Presidency Magistrate may, if the person complained of be not already in custody, proceed by summons or warrant to compel his appearance;

Process to compel appearance.

and in the cases mentioned in section 25, clauses (b), (c), (d) and (e), the Presidency Magistrate may proceed as if he had received a complaint.

28. A complaint gives jurisdiction to a Presidency Magistrate—

Jurisdiction given by complaint.

(a) to inquire into or try (as the case may be) any offence covered by the facts complained of, or disclosed on such inquiry or trial,

(b) to try or commit for trial (as the case may be) any person not complained against, but who, at the time when the complaint is made, or subsequently, appears to have committed any offence so disclosed, and

(c) to issue process for the arrest or to compel the appearance of such person.

29. Nothing in section 27 or 28 shall be held to

authorize a Presidency Magistrate to take cognizance, without complaint, of any offence falling under chapters XIX, XX or XXI of the Indian Penal Code; nor without sanction to receive a complaint, or to take cognizance without complaint of any offence, where such complaint or offence, by any law in force for the time being, may not be received or taken cognizance of without sanction.

Complaint or sanction required in certain cases.

30. Whenever a complaint is made to a Presidency Magistrate, such Magistrate, if he has jurisdiction in the case, shall examine the complainant; and such examination may be, on oath or affirmation, or not, as the Magistrate in each case thinks fit:

Magistrate to examine complainant.

Provided that the Magistrate, if he thinks fit, may, before the matter of the complaint is brought before him, require it to be reduced to writing.

31. Where the complaint has been made by petitioner, and the Magistrate neglects to examine the complainant, the trial of the person accused shall not be set aside on this ground.

32. The Magistrate before whom the complaint is duly made may, if, after examining the complainant, there is in his judgment no sufficient ground for proceeding, dismiss the complaint.

The dismissal of a complaint shall not prevent subsequent proceedings against the person complained against.

33. If it appears to such Magistrate that there is sufficient ground for proceeding, he shall issue his summons or his warrant (as the case may be) for causing the accused person to appear before him.

34. When a complaint is made before a Presidency Magistrate having jurisdiction in the case, that any person has committed, or is suspected of having committed, any offence triable by such Magistrate and punishable with fine only, or with imprisonment for a period not exceeding six months, or with both, the Magistrate may (subject to the provisions of section 4) issue his summons directed to such person, requiring him to appear to answer the complaint, at a certain time and place, before such Magistrate as may then be there.

If the Magistrate believes that the accused person is about to abscond, he may, instead of issuing a summons, issue a warrant in the first instance for the arrest of such person.

35. When a complaint is made before a Presidency Magistrate having jurisdiction in the case that any person has committed, or is suspected of having committed—

(a) any offence triable by such Magistrate and punishable with imprisonment for a period exceeding six months, or

(b) any offence triable exclusively by the High Court, or which, in the opinion of such Magistrate, ought to be tried by the High Court,

such Magistrate may (subject to the provisions of section 4) issue his warrant to arrest such person, or, if he thinks fit, his summons directed to such person, requiring him to appear to answer the complaint at a certain time and place before such Magistrate as may then be there.

36. If the person served with a summons does not appear before the Magistrate at the time mentioned in such summons, and the Magistrate is satisfied that such summons was duly served in what he deems a reasonable time before the time therein appointed for appearing pursuant thereto,

or if it appears to the Magistrate that, after due diligence, the summons could not be served according to the provisions of this Act,

the Magistrate may issue his warrant to apprehend the accused person.

37. Whenever the Magistrate issues a summons, he may, if he sees sufficient cause, dispense with the personal attendance of the accused person, and permit him to appear by his advocate, attorney or pleader.

But such Magistrate may in his discretion, at any stage of the proceedings, direct the personal attendance of the accused person, and, if necessary, enforce such attendance by issuing a warrant to arrest him.

CHAPTER V.—OF PROSECUTIONS IN CERTAIN CASES.

38. A complaint of an offence punishable under chapter VI of the Indian Penal Code, except section 127, or punishable under section 294A of the same Code, shall not be received by any Presidency Magistrate, unless it be made by order of, or under authority from, the Governor General in Council or the Local Government, or some officer empowered by the Governor General in Council or the Local Government to order or authorize such complaint, or unless it be made by the Advocate General.

39. A complaint of an offence of which any Judge or any public servant not removable from his office without the sanction of the Government, is accused as such Judge or public servant, shall not be received by any Presidency Magistrate, except with the previous sanction or under the direction,

(a) of the Government, or
(b) of some officer empowered in this behalf by the Government, or

(c) of some Court or other authority to which such Judge or public servant is subordinate, and whose power so to sanction or direct such complaint has not been limited by the Government.

No such Judge or public servant shall, unless with the previous sanction of the Government, be prosecuted for any act purporting to be done by him in the discharge of his duty.

The Government may, in any case or class of cases, prescribe the person by whom, and the manner in which, the prosecution is to be conducted, and may specify the Court before which the trial shall be held.

In this section, the expression "Government" means either the Local Government, or the Governor General in Council, and the expressions "Judge" and "public servant" have the meaning assigned to them respectively by the Indian Penal Code.

40. A complaint of any offence described in chapter X of the Indian Penal Code, not falling within section 175, 178, 179, 180 or 228 of that Code, shall not be received by any Presidency Magistrate, except with the sanction or on the complaint of the public servant concerned, or of his official superior.

41. A complaint of an offence against public justice, described in section 193, 194, 195, 196, 199, 200, 205, 206, 207, 208, 209, 210, 211 or 228 of the Indian Penal Code, when such offence is committed before or against a civil or criminal Court, shall not be received by any Presidency Magistrate, except with the sanction of the Court before or against which the offence was committed, or of some other Court to which such Court is subordinate.

42. A complaint of an offence relating to documents, described in section 468, 471, 475 or 476 of the Indian Penal Code, when the document has been given in evidence in any proceedings in any civil or criminal Court, shall not be received against any party to or witness in such proceedings, by any Presidency Magistrate, except with the sanction of the Court in which the document was given in evidence, or of some other Court to which such Court is subordinate.

Sanction to prosecution for certain offences relating to documents given in evidence.

43. The sanction referred to in sections 40, 41 and 42 respectively may be expressed in general terms, and need not name the accused person, and may be given at any time. But it shall, so far as practicable, specify the Court or other place in which, and the occasion on which, the offence is alleged to have been committed.

Nature of sanction necessary.

A sanction under any one of the three last preceding sections shall be deemed sufficient authority for the Presidency Magistrate to alter the charge (if any) to one of an offence coming within either of the two remaining sections, if the facts disclose such offence.

44. When any civil, criminal or other Court inferior to a High Court is of opinion that there is sufficient ground for inquiring into any complaint mentioned in section 40, 41 or 42, such Court may either itself inquire into and commit the case for trial before the High Court, or may send the case for disposal to any Presidency Magistrate having jurisdiction.

Procedure in cases mentioned in section 40, 41 or 42.

The Court may send the accused person in custody, or take sufficient bail for his appearance, before such Magistrate; and may bind over any person to appear and give evidence in the case.

Nothing in this section shall prevent a Presidency Magistrate from disposing of cases under sections 172, 173, 174 and 175 of the Indian Penal Code where he himself is the public servant concerned.

45. A complaint of an offence under section 497 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the other person (if any) under whose care she was living at the time when the adultery was committed.

Prosecution for adultery.

A complaint of an offence under section 498 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the person (if any) having the care of her on behalf of her husband at the time when the offence was committed.

Prosecution for enticing away married woman.

46. The application of the public servant or Court to a Presidency Magistrate to inquire into or try any case under this chapter shall be deemed a sufficient complaint.

Application to be deemed a complaint.

CHAPTER VI.—OF THE SUMMONS AND WARRANT.

47. Every summons issued by a Presidency Magistrate to an accused person shall be in writing signed by such Magistrate, and shall be in the form (A)

Form of summons.

given in the third schedule to this Act, or to the like effect.

48. If the accused person can be found, the summons shall be served on him personally, wherever he may be, by delivering or tendering the summons to him.

Summons how served.

Every person to whom a summons is delivered or tendered under this section shall, if required by the person delivering or tendering the same, sign a receipt therefor, or countersign a copy thereof.

49. If the accused person cannot be found, the summons may be served by leaving it for him with some adult male member or servant of his family residing with him; and the person with whom the summons is so left shall, if so required by the serving officer, sign a receipt therefor, or countersign a copy thereof. If there is no such member or servant with whom the summons can be left, the serving officer shall fix it on some conspicuous part of the house in which the accused person ordinarily resides, and thereupon the summons shall be deemed to have been duly served.

Service when accused cannot be found.

When the person summoned is in the service of Government or of any Railway Company, the Magistrate issuing the summons may send it to the head of the office in which the person summoned is employed; and such head shall thereupon cause the summons to be served in manner hereinbefore provided.

Service on servants of Government and Railway Companies.

50. When a summons issued by a Presidency Magistrate is to be served at any place outside the local limits of his jurisdiction, he may send the summons in duplicate to the Magistrate of the place where the accused resides or is, to be there served.

Service of summons outside Presidency Towns.

51. When a summons issued by a Presidency Magistrate is served outside such local limits as aforesaid, and also in cases where the person who has served the same is not present at the hearing of the complaint, the service may be proved—

Proof of service in such cases and when server not present.

(a) by a solemn declaration, purporting to be made before a Magistrate, that such summons has been served, and such declaration may be endorsed on the duplicate summons and returned to the Magistrate who issued the summons, or

(b) by a copy of the summons purporting to be countersigned by the person to whom it is addressed, or

(c) by a receipt under section 48.

52. The provisions relating to a summons, its issue and service, contained in sections 47 to 51 (both inclusive), shall be applicable to every summons issued under this Act.

Provisions applicable to all summonses under Act.

53. A Presidency Magistrate may, notwithstanding the issue of a summons under this chapter, either before the appearance of the accused person as required by such summons, or after he fails so to appear, issue a warrant of arrest against him.

Issue of warrant in addition to summons.

54. A Presidency Magistrate may issue a summons for the attendance, or a warrant for the apprehension, of any person within the local limits of his jurisdiction, in respect of any offence alleged or suspected to have been committed by such person in a different district, or on the high seas, or in a foreign country: provided that if the offence were committed within such local limits, the Magistrate might issue a summons or warrant.

Summons or warrant for apprehension of person within jurisdiction for offence committed beyond.

Summons for the attendance, or a warrant for the apprehension, of any person within the local limits of his jurisdiction, in respect of any offence alleged or suspected to have been committed by such person in a different district, or on the high seas, or in a foreign country: provided that if the offence were committed within such local limits, the Magistrate might issue a summons or warrant.

55. On the attendance or apprehension of such person, if the Presidency Magistrate has not jurisdiction in the case, he shall either send such person to the Magistrate within the local limits of whose jurisdiction the offence is alleged to have been committed, or if the offence is bailable, take bail for his appearance before such Magistrate.

Magistrate's procedure on arrest, under his own warrant, for offence committed out of his jurisdiction.

On the attendance or apprehension of such person, if the Presidency Magistrate has not jurisdiction in the case, he shall either send such person to the Magistrate within the local limits of whose jurisdiction the offence is alleged to have been committed, or if the offence is bailable, take bail for his appearance before such Magistrate.

When the Presidency Magistrate cannot satisfy himself as to the Magistrate to whom the person so attending or arrested should be sent, he shall report the case for the orders of the High Court.

56. Every warrant issued by a Presidency Magistrate shall be in writing under his hand, shall be directed to one or more Police-officers, and shall be in the form (B) given in the third schedule to this Act, or to the like effect.

Form and direction of warrant.

Every warrant issued by a Presidency Magistrate shall be in writing under his hand, shall be directed to one or more Police-officers, and shall be in the form (B) given in the third schedule to this Act, or to the like effect.

A warrant issued under this Act remains in force until it is cancelled by the Magistrate who issued it, or until it is executed.

Continuance of warrant.

57. A fee of eight annas shall be paid for every summons or warrant issued by a Presidency Magistrate, except in the case of a summons to attend and give evidence or to produce documents, in which case there shall be paid a fee of four annas:

Fees for summonses and warrants.

A fee of eight annas shall be paid for every summons or warrant issued by a Presidency Magistrate, except in the case of a summons to attend and give evidence or to produce documents, in which case there shall be paid a fee of four annas:

Provided that such Magistrate may in any case remit any such fee, if he is satisfied that the complainant is unable to pay the same, and shall remit it when the complaint is made by a public servant in the execution of his duty.

Power to remit fees.

Provided that such Magistrate may in any case remit any such fee, if he is satisfied that the complainant is unable to pay the same, and shall remit it when the complaint is made by a public servant in the execution of his duty.

58. A Presidency Magistrate, in issuing a warrant for the arrest of any person, may in his discretion direct by endorsement on the warrant, that if such person give sufficient bail as therein mentioned for his appearance before the Magistrate on a specified day to answer the complaint, the officer to whom the warrant is directed shall take such bail, and shall release such person from custody.

When Magistrate may direct bail to be taken.

A Presidency Magistrate, in issuing a warrant for the arrest of any person, may in his discretion direct by endorsement on the warrant, that if such person give sufficient bail as therein mentioned for his appearance before the Magistrate on a specified day to answer the complaint, the officer to whom the warrant is directed shall take such bail, and shall release such person from custody.

The endorsement shall state (a) the number of sureties, (b) the amount in which they and the accused person are to be respectively bound, and (c) the day on which he is to appear before the Magistrate.

If bail be taken, the officer to whom the warrant is directed shall forward the recognizance to the Presidency Magistrate.

Recognizance to be forwarded.

59. When a warrant is directed to more Police-officers than one, it may be executed by all, or by any one or more, of such officer.

Warrant to several persons.

A warrant directed to any Police-officer may also be executed by any other Police-officer whose name is endorsed upon the warrant by the officer to whom it is directed or endorsed.

Any Presidency Magistrate who issues a warrant of arrest may attend personally for the purpose of seeing that the warrant is duly executed.

Magistrate issuing warrant may superintend its execution.

Any such Magistrate may also at any time direct the arrest, in his presence, of any person for whose arrest he may issue a warrant.

Arrest in presence of Magistrate.

A warrant issued by a Presidency Magistrate shall ordinarily be executed within the local limits of his jurisdiction.

Where warrant may be executed.

But if the person against whom the warrant is issued goes into, or is in, any place outside such limits, the warrant may be executed in such place.

A Presidency Magistrate may direct a warrant to be executed outside the local limits of his jurisdiction, either with or without endorsement by a Magistrate within the local limits of whose jurisdiction it is to be executed.

A Presidency Magistrate may direct a warrant to be executed outside the local limits of his jurisdiction, either with or without endorsement by a Magistrate within the local limits of whose jurisdiction it is to be executed.

Such warrant shall ordinarily be endorsed by the Magistrate within the local limits of whose jurisdiction it is to be executed.

The warrant may be forwarded to such Magistrate for endorsement, either by post or by any Police-officer to whom it is directed.

The Magistrate to whom such warrant is forwarded by post shall endorse his name thereon and cause it to be executed within the local limits of his jurisdiction.

If the warrant is forwarded by a Police-officer to whom it is directed, he may take it either to a Magistrate, or to a Police-officer not below the rank of an officer in charge of a station, within the local limits of whose jurisdiction the warrant is to be executed.

Such Magistrate or Police-officer shall endorse his name thereon, and such endorsement shall be sufficient authority to the Police-officer to whom the warrant is directed to execute the same within such limits, and the local police shall be bound to assist such officer in executing the warrant.

Whenever there is reason to believe that the delay occasioned by obtaining the endorsement of the Magistrate or Police-officer within the local limits of whose jurisdiction the warrant is to be executed will prevent such execution, the Police-officer to whom it is directed may execute the same without such endorsement in any place beyond the local limits of the jurisdiction of the Magistrate who issued it.

If a warrant is executed, whether with or without endorsement, outside the district in which it was issued, the person arrested shall, unless the Presidency Magistrate who issued the warrant be within twenty miles, or be nearer than the Magistrate in whose local jurisdiction the arrest was made, or unless bail be taken under section 58, be brought before the Magistrate within the local limits of whose jurisdiction the arrest was made.

Procedure on execution of warrant outside issuer's jurisdiction.

If a warrant is executed, whether with or without endorsement, outside the district in which it was issued, the person arrested shall, unless the Presidency Magistrate who issued the warrant be within twenty miles, or be nearer than the Magistrate in whose local jurisdiction the arrest was made, or unless bail be taken under section 58, be brought before the Magistrate within the local limits of whose jurisdiction the arrest was made.

Such Magistrate shall, if the person arrested appears to be the person intended by the Presidency Magistrate, direct his removal in custody to such Magistrate, unless such person is then ready and willing to give the bail (if any) required under section 58, in which case the Magistrate before whom he is so brought shall accept such bail and forward the recognizance to the Presidency Magistrate.

66. Every Magistrate or Police-officer to whom a warrant under this Act is directed for execution shall execute the same, or cause it to be executed.

67. If a Presidency Magistrate having jurisdiction in the case has reason to believe that any person accused of an offence not coming within section 34 is absconding or concealing himself, so that a warrant issued against him under this Act cannot be executed, such Magistrate may issue a written proclamation, requiring him to appear to answer the complaint within a fixed period not less than thirty days from the date of publishing the proclamation.

Such proclamation shall be published as follows—

(a) it shall be publicly read in some conspicuous place of the town or village in which the accused person usually resides;

(b) it shall be affixed to some conspicuous part of his ordinary place of abode, or some conspicuous place of such town or village; and

(c) a copy thereof shall be affixed to some conspicuous part of such Magistrate's Court-house.

A statement by the Magistrate to the effect that the proclamation was duly published shall be conclusive evidence of compliance with the requirements of this section.

68. A Presidency Magistrate may order the attachment of any property, moveable or immoveable, belonging to any person believed to be absconding or concealing himself.

Such order shall authorize the attachment of any property within the local limits of the jurisdiction of the Magistrate making the order; and it shall authorize the attachment of any property without such local limits when endorsed by the Magistrate of the district in which such property is situate.

If the property ordered to be attached be immoveable, the attachment under this section shall, in the case of land paying revenue to Government, be made through the Collector of the district in which the land is situate, and, in all other cases, (a) by seizure under the order of the Magistrate having jurisdiction; or (b) by the appointment of a manager and receiver; or (c) by an order prohibiting the payment of rent to the absent person; or by all or any two of such processes as such Magistrate deems proper.

If the person so believed to be absconding or concealing himself does not appear within the time specified in the proclamation, the property under attachment shall be at the disposal of Government, but shall not be sold until the expiration of six months from the date of the attachment, unless it is of a perishable nature, or such Magistrate considers that the sale would be for the benefit of the

owner, in either of which cases the Magistrate may cause it to be sold whenever he thinks fit.

69. When any person whose property is or has been at the disposal of Government under the last paragraph of section 68 appears or is found within two years from the date of the attachment, and proves to the satisfaction of the Magistrate by whose order the property was attached that he did not abscond or conceal himself for the purpose of evading justice, such property, or, if the same has been sold, the nett proceeds of the sale, or if part only thereof has been sold, the nett proceeds of the sale and the residue of the property, shall, after satisfying thereout all costs incurred in consequence of the attachment, be delivered to him.

CHAPTER VII.—OF BAIL.

70. Every person arrested under this Act shall be kept in custody until he is discharged by the order of a competent Court, or until he is admitted to bail.

When any person appears or is brought before a Presidency Magistrate accused of any bailable offence, such person shall be admitted to bail: Provided that, in cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, the Magistrate may discharge him on his binding himself by a personal recognizance in such sum of money as the Magistrate thinks sufficient, to appear and attend at the time and place therein mentioned, and to continue so to attend until otherwise directed by the Magistrate.

71. When any person accused of any non-bailable offence appears or is brought before a Presidency Magistrate, such person shall not be admitted to bail, if there appear reasonable grounds for believing that he has been guilty of the offence of which he is accused.

If the evidence given in support of the complaint is, in the opinion of the Magistrate, not such as to afford such grounds,

or if such evidence is adduced on behalf of the accused person as, in the opinion of the Magistrate, weakens the presumption of his guilt,

but there appears to the Magistrate, in either of such cases, to be sufficient ground for further inquiry into his guilt,

the accused person shall be admitted to bail pending such inquiry.

But if the Magistrate decide not to admit the accused person to bail, he shall commit him to custody by a warrant in the form (C) given in the third schedule hereto annexed, or to the like effect.

Any Presidency Magistrate may, at any subsequent stage of any proceeding under this Act, cancel the admission under this section of any accused person to bail, and may commit him to custody, or may admit to bail any person who has been committed to custody under this section.

72. When any person accused before a Presidency Magistrate of any offence is admitted to bail, a recognizance, in such sum

of money as the Magistrate thinks sufficient, shall be entered into by the person so accused and one or more sufficient sureties, conditioned that such person shall attend at the time and place mentioned in the recognizance, and shall continue so to attend until otherwise directed by the Magistrate, and, if required, shall appear when called upon at the High Court, to answer the charge.

It is the duty of the Presidency Magistrate or other officer accepting bail to satisfy himself that every surety entering into such recognizance is a person of whom it may reasonably be presumed that he can, if necessary, satisfy its terms.

Every such recognizance shall be in the form (D) given in the third schedule hereto annexed, or to the like effect.

73. After the recognizance has been entered into, the Presidency Magistrate, in case the accused person has appeared voluntarily or is in the custody of some officer, shall thereupon release him; and in case he is in some jail, shall issue a warrant of release to the officer in charge of the jail, and such officer shall thereupon release him.

74. If the accused person cannot find sufficient bail when permitted so to do, he may, if the Presidency Magistrate thinks fit, be admitted to bail upon finding the same at any time afterwards before conviction.

75. If, through mistake or fraud, insufficient bail have been taken, or if the bail become afterwards insufficient, the Presidency Magistrate may issue his warrant of arrest directing that the accused person be brought before him and may order such person to find sufficient bail, and on his failing so to do may commit him to prison.

76. The sureties for the attendance and appearance of an accused person admitted to bail may, at any time, apply to a Presidency Magistrate to discharge their recognizance.

On such application being made, the Magistrate shall issue his warrant of arrest, directing that the accused person be brought before him.

On the appearance of such person pursuant to the warrant, or on his voluntary surrender, the Magistrate shall direct the recognizance of the sureties to be discharged, and shall call upon the accused person to find other sufficient sureties, and if he fail to do so, may commit him to prison.

77. Whenever, by reason of default of attendance or appearance of the person bailed, a Presidency Magistrate is of opinion that proceedings should be had to recover the penalty mentioned in the recognizance into which such person has entered, he shall proceed to recover the same, by issuing a warrant for the attachment and sale of the moveable property belonging to such person, which may be found within the local limits of the jurisdiction of such Magistrate.

Such warrant may be executed within such limits, and it shall authorize the distress and sale of any moveable property belonging to the accused person without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

78. Whenever, by reason of default of attendance or appearance of the person bailed, the Presidency Magistrate is of opinion that proceedings should be had to recover from the sureties the penalty mentioned in the recognizance, he shall give them notice to pay the same, or to show cause why it should not be paid.

If such penalty be not paid, and if no sufficient cause for its non-payment be shown, the Presidency Magistrate shall proceed to recover the penalty from such sureties, by issuing a warrant for the attachment and sale of any moveable property belonging to them, or either of them, which may be found within the local limits of the jurisdiction of such Magistrate. Such warrant may be executed within such limits; and it shall authorize the attachment and sale of any moveable property belonging to the sureties, or either of them, without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, such sureties shall be liable to confinement, by order of the Presidency Magistrate, in the civil jail, during a period not exceeding six months.

79. The powers given by sections 77 and 78 may be exercised by every Presidency Magistrate in every case in which a recognizance has been given for the appearance of any person, if default is made by the non-appearance of such person before such Magistrate, according to the conditions of the recognizance:

Provided that the Magistrate may, at his discretion, remit any portion of the penalty mentioned in any such recognizance and enforce payment in part only.

80. When any person is required by a Presidency Magistrate to give bail, such Magistrate may permit him to deposit a sum of money or Government promissory notes to such amount as the Magistrate may fix in lieu of such bail.

CHAPTER VIII.—OF INQUIRY INTO CASES TRIABLE BY THE HIGH COURT.

81. Cases, triable by a High Court in the exercise of its ordinary original criminal jurisdiction, or which, in the opinion of the Presidency Magistrate before whom the accused person is brought, ought to be tried by such Court, shall be inquired into by a Presidency Magistrate; and in such inquiry he shall adopt the following procedure.

82. When the accused person appears or is brought before the Magistrate, or if his personal attendance is dispensed with, after reasonable notice to his advocate, attorney or pleader, the Magistrate shall, at such time as he thinks fit, take the evidence of the complainant and of such persons as are stated by the complainant to have any knowledge of the facts which form the subject-matter of the accusation and the attendant circumstances.

Such evidence shall be recorded in the manner described in clauses 3, 4 and 5 of section 115.

83. The complainant and the witnesses for the prosecution shall be examined in the presence of the accused person, or, when his personal attendance is dispensed with, of his advocate, attorney or pleader (if any).

The Magistrate may, in his discretion, summon or examine any witness offered on behalf of the accused person to answer or disprove the evidence against him.

84. Whenever an accused person is examined in the course of a preliminary inquiry into a case triable by the High Court, the whole of such examination, including every question put to him and every answer given by him, shall be recorded in full, and shall be shown or read to him, and he shall be at liberty to explain or add to his answers.

When the whole is made conformable to what he declares is the truth, the examination shall be attested by the signature of the Magistrate, who shall certify under his own hand that it was taken in his presence and in his hearing, and contains accurately the whole of the statement made by the accused person.

85. The Magistrate may, at any stage of the proceedings, summon and examine any person whose evidence he considers essential to the inquiry, and recall and re-examine any person already examined.

86. If, from the absence of a witness or from any other reasonable cause, it becomes necessary or advisable to adjourn the inquiry, the Magistrate may, by a written order, from time to time adjourn the inquiry on such terms as he thinks fit and remand the accused person for a reasonable time, not exceeding fifteen days.

EXPLANATION.—After commencing the inquiry, if sufficient evidence has been obtained to raise a suspicion that the person accused may have committed an offence, and it appears likely that further evidence may be obtained by a remand, this is a reasonable cause for a remand.

87. When a Presidency Magistrate finds that there are not sufficient grounds for committing the accused person for trial before the High Court, or for remanding him, he shall discharge him, unless it appears to the Magistrate that such person should be tried before himself, in which case he shall proceed accordingly.

EXPLANATION I.—The absence of the complainant, except when the offence may lawfully be compounded, shall not be deemed sufficient ground for a discharge, if there appear other evidence of a nature rendering a trial desirable.

EXPLANATION II.—A discharge is not equivalent to an acquittal, and does not bar the revival of a prosecution for the same offence.

EXPLANATION III.—An order of discharge shall not ordinarily be made until the evidence of the witnesses named for the prosecution has been taken.

88. When evidence has been given before a Presidency Magistrate, which appears to justify him in committing the accused person for trial for an offence triable exclusively by the High Court, or which, in the opinion of the Magistrate, ought to be tried by such Court, the accused person shall be committed for trial accordingly.

89. When the Magistrate determines to commit the accused person for trial before the High Court, he shall, after the evidence has been recorded, frame a charge under his hand, declaring with what offence the accused person is charged, and (subject to the provisions of the High Courts' Criminal Procedure Act, 1875) committing him for trial by such Court on such charge.

All such charges shall be drawn up in accordance with the provisions of chapter IX.

Pending such trial, the Magistrate may commit the accused person to custody by warrant in the form (E) given in the third schedule hereto annexed, or to the like effect, or may in case of a bailable offence release him on bail; and the charge, the record of the enquiry, and any weapon or other article necessary to produce in evidence shall be sent to the Clerk of the Crown or other officer appointed in this behalf by the High Court.

When the accused person is committed for trial before the High Court, the Magistrate shall issue an order to such person as may be appointed by the Local Government in this behalf, notifying the commitment, and stating the offence in the same form as the charge, unless the Magistrate is satisfied that such person is already aware of the commitment and the form of the charge.

90. As soon as the charge on which the accused person is to be tried has been prepared, it shall be read and explained to him; and a copy thereof shall be furnished to him, if he so require.

91. The accused person shall be required at once to give in, orally or in writing, a list of the persons whom he wishes to be summoned to give evidence on his trial before the High Court.

The Magistrate may, if he thinks proper, summon all or any such persons to attend and give evidence at the enquiry; and if he does so, the commitment shall not be considered to have been made until such evidence has been taken.

The Magistrate may in his discretion allow the accused person to give in any further list of witnesses at a subsequent time.

The Magistrate may summon and examine supplementary witnesses after commitment and before the commencement of the trial. Such examination shall, if possible, be taken in the presence of the accused person.

Nothing in this section shall be deemed to preclude the accused person from giving at any time before his trial before the High Court to the

Clerk of the Crown a further list of the persons whom he wishes to be summoned to give evidence on such trial.

92. When the person accused has been committed for trial, and has given in any list of the persons referred to in section 91, the Magistrate may either summon such persons to appear before the High Court, or leave them to be summoned by the Clerk of the Crown.

93. Complainants and witnesses for the prosecution and defence, whose attendance before the High Court is necessary, and who appear before the Presidency Magistrate, shall execute before him recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon at the High Court, to prosecute or to give evidence, as the case may be.

If any complainant or witness refuses to attend before the High Court, or to execute the recognizance above directed, the Presidency Magistrate may detain him in custody until he executes such recognizance, or until his attendance at the High Court is required, when the Magistrate shall send him in custody to the High Court.

CHAPTER IX.—OF THE CHARGE.

Form of Charges.

94. Every charge under this Act shall state the offence with which the accused person is charged.

If the law which creates the offence gives it any specific name, the offence may be described in the charge by that name only.

If the law which creates the offence does not give it any specific name, so much of the definition of the offence must be stated as to give the accused person notice of the matter with which he is charged.

The law and section of the law against which the offence is said to have been committed shall be mentioned in the charge.

The fact that the charge is made shall be equivalent to a statement that every legal condition, necessary by law to constitute the offence charged, was fulfilled in the particular case.

The charge shall be written in English. If English is not understood by the accused person, the charge shall be interpreted to him in a language which he understands.

If the accused person has been previously convicted of any offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, or of any other offence mentioned in section 3 or section 4 of Act No. VI of 1884 (to authorize the punishment of whipping in certain cases), and if it is intended to prove such previous conviction for the purpose of affecting the punishment which is to be awarded, the fact of the previous conviction must be stated in the charge. If such statement is omitted, it may

be added at any time before sentence is passed, but not afterwards.

Illustrations.

(a.) A is charged with the murder of B.

This is equivalent to a statement that A's act fell within the definition of murder given in sections 299 and 300 of the Indian Penal Code; that it did not fall within any of the general exceptions of the Penal Code; and that it did not fall within any of the five exceptions to section 300, or that, if it did fall within exception 1, one or other of the three provisos to that exception applied to it.

(b.) A is charged, under section 326 of the Indian Penal Code, with voluntarily causing grievous hurt to B, by means of an instrument for shooting. This is equivalent to a statement that the case was not provided for by section 335 of the Indian Penal Code, and that the general exceptions did not apply to it.

(c.) A is accused of murder, cheating, theft, extortion, adultery or criminal intimidation, or using a false property-mark. The charge may state that A committed murder, or cheating, or theft, or extortion, or adultery, or criminal intimidation, or that he used a false property-mark, without reference to the definitions of those crimes contained in the Indian Penal Code; but the sections under which the offence is punishable must, in each instance, be referred to in the charge.

(d.) A is charged, under section 184 of the Indian Penal Code, with intentionally obstructing a sale of property offered for sale by the lawful authority of a public servant. The charge should be in those words.

95. The charge shall contain such particulars as to the time and place of the alleged offence and the person against whom, or the thing in respect of which, it was committed, as are reasonably sufficient to give notice to the accused person of the matter with which he is charged.

96. When the nature of the case is such that the particulars mentioned in sections 94 and 95 do not give sufficient notice to the accused person of the matter with which he is charged, the charge shall also contain such particulars of the manner in which the alleged offence was committed as will be sufficient for that purpose.

Illustrations.

(a.) A is accused of the theft of a certain article at a certain time and place. The charge need not set out the manner in which the theft was effected.

(b.) A is accused of cheating B at a given time and place. The charge must set out the manner in which A cheated B.

(c.) A is accused of giving false evidence at a given time and place. The charge must set out that portion of the evidence given by A which is alleged to be false.

(d.) A is accused of obstructing B, a public servant, in discharge of his public functions at a given time and place. The charge must set out the manner in which A obstructed B in the discharge of his functions.

(e.) A is accused of the murder of B at a given time and place. The charge need not state the manner in which A murdered B.

(f.) A is accused of disobeying a direction of the law with intent to save B from punishment. The charge must set out the disobedience charged and the law infringed.

97. The charge may be in the form given in the third schedule to this Act or to the like effect.

98. No error, either in the way in which the offence is stated, or in the particulars required to be stated in section 96, and no omission to state the offence, or to state those particulars, shall be regarded at any stage of the case as material, unless the person accused was in fact misled by such error or omission.

Illustrations.

(a.) A is charged, under section 242 of the Indian Penal Code, with "having been in possession of counterfeit coin, having known at the time when he became possessed

thereof that such coin was counterfeit;" the word "fraudulently" being omitted in the charge. Unless it appears that A was in fact misled by this omission, the error shall not be regarded as material.

(b.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge, or is set out incorrectly. A defends himself, calls witnesses, and gives his own account of the transaction. The Court may infer from this that the omission to set out the manner of the cheating is not material.

(c.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge. There were many transactions between A and B, and A had no means of knowing to which of them the charge referred, and offered no defence. The Court may infer from such facts that the omission to set out the manner of the cheating was, in this case, a material error.

(d.) A is charged with the murder of Khodá Baksh on the 21st January. In fact, the murdered person's name was Haidar Baksh, and the date of the murder was the 20th January. A was never charged with any murder but one, and had heard the inquiry before the Magistrate, which referred exclusively to the case of Haidar Baksh. The Court may infer from these facts that A was not misled, and that the error in the charge was immaterial.

(e.) A was charged with murdering Haidar Baksh on the 20th January and Khodá Baksh (who tried to arrest him for that murder) on the 21st January. When charged for the murder of Haidar Baksh, he was tried for the murder of Khodá Baksh. The witnesses present in his defence were witnesses in the case of Haidar Baksh. The Court may infer from this that A was misled, and that the error was material.

99. Any accused person may apply to a Presidency Magistrate for an amendment of the charge made against him; and in considering whether any error in a charge did in fact mislead the accused person, the Magistrate shall take into account the fact that he did or did not make such an application.

100. A Presidency Magistrate may, upon the application of the accused person, or of the complainant, or upon his own motion, alter any charge at any stage of the proceedings before judgment is pronounced.

Every such alteration shall be read and explained to the accused person.

101. If the alteration is such that proceeding immediately with the trial is not likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may in his discretion, after making such alteration, proceed with the trial as if the altered charge had been the original charge.

102. If the alteration is such that proceeding immediately with the trial is likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may either direct a new trial, or suspend the trial for such period as may be necessary to enable the accused person to make his defence to the altered charge; and, after hearing his defence, the Magistrate may further adjourn the trial, to admit of the appearance of any witness whose evidence the Magistrate may consider to be material to the case, or whom the accused person may wish to be summoned in his defence.

103. In all cases of alteration of a charge, the complainant and accused person shall be allowed to recall and examine with refer-

ence to such alteration any witness who may have been examined.

104. If the offence stated in the altered charge be one for the prosecution of which previous sanction is necessary, the case shall not be proceeded with until such sanction is obtained, unless sanction has been already obtained for a prosecution on the same facts as those on which the altered charge is founded.

Joinder of Charges.

105. There must be a separate charge for every distinct offence of which any person is accused, and every such charge must be tried separately, except in the cases hereinafter excepted.

A is accused of a theft on one occasion, and of causing grievous hurt on another occasion. A must be separately charged and separately tried for the theft and the causing grievous hurt.

106. When a person is accused of more offences than one of the same kind, committed within one year of each other, he may be charged with, and tried at the same time for, any number of them not exceeding three.

107. I.—If in one series of acts, so connected together as to form the same transaction, more offences than one are committed by the same person, he may be charged with and tried for every such offence at the same time.

II.—If the acts alleged constitute an offence falling within two or more separate definitions of any law in force for the time being, by which offences are defined or punished, the person accused of them may be charged with each of the offences so committed; but he must not receive a more severe punishment than could be inflicted for any of such offences.

III.—If several acts, of which one or more than one would by itself constitute an offence, form, when combined, a different offence, the person accused of them may be charged with every offence or any of the different offences, which he may have committed; but he must not receive for such offences, collectively, a punishment more severe than that which might have been inflicted for any one of such offences.

Illustrations

to paragraph I—

(a) A rescues B, a person in lawful custody, and in so doing causes grievous hurt to C, a constable in whose custody B was. A may be separately charged with, convicted of, and punished for, offences under sections 225 and 333 of the Indian Penal Code.

(b) A has in his possession several seals knowing them to be counterfeit and intending to use them for the purpose of committing several forgeries punishable under section 466 of the Indian Penal Code. A may be separately charged with, convicted of, and punished for, the possession of each seal, under section 473 of the Indian Penal Code.

(c) A, with intent to cause injury to B, institutes a criminal proceeding against him, knowing that there is no just or lawful ground for such proceeding. A also falsely accuses B of having committed an offence, knowing that there is no just or lawful ground for such charge. A may be separately charged with, convicted of, and punished for, two offences under section 211 of the Indian Penal Code.

(d) A, with intent to cause injury to B, falsely accuses him of having committed an offence, knowing that there is no just or lawful ground for such charge. On the trial, A gives false evidence against B, intending thereby to cause B to be convicted of a capital offence. A may be separately charged with, convicted of, and punished for, offences under sections 211 and 194 of the Indian Penal Code.

(e) A, knowing that B, a female minor, has been kidnapped in order that she may be subjected to grievous hurt, wrongfully confines her and detains her against her will as a slave. A may be separately charged with, convicted of, and punished for, offences under sections 368 (read with 367) and 370 of the Indian Penal Code.

(f) A, with six others, commits the offences of rioting, grievous hurt, and of assaulting a public servant endeavouring in the discharge of his duty as such, to suppress the riot. A may be separately charged with, convicted of, and punished for, offences under sections 147 and 325 and 152 of the Indian Penal Code.

(g) A threatens B, C and D at the same time with injury to their persons with intent to cause alarm to them. A may be separately charged with, convicted of, and punished for, each of the three offences under section 506 of the Indian Penal Code.

(h) A intentionally causes the death of three persons by upsetting a boat. A may be separately charged with, convicted of, and punished for, each of the three offences under section 302 of the Indian Penal Code.

The separate charges referred to in illustrations (a) to (h) respectively may be tried at the same time.

to paragraph II—

(i) A wrongfully strikes B with a cane. A may be separately charged with, and convicted of, offences under sections 352 and 323 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 323 only.

(j) A wrongfully kills a buffalo worth sixty rupees belonging to B, and then moves the carcase in order to take it dishonestly out of B's possession without B's consent. A may be separately charged with, and convicted of, offences under sections 429 and 379 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 429 only.

(k) Several stolen sacks of corn are made over to A and B who know they are stolen property. A and B thereupon voluntarily assist each other to conceal the sacks at the bottom of a grain-pit. A and B may be separately charged with, and convicted of, offences under sections 411 and 414 of the Indian Penal Code; but the Presidency Magistrate who tries them may not inflict a severer punishment than if he had convicted them under one of those sections only.

(l) A dishonestly uses a forged document as genuine evidence, in order to convict B, a public servant, of an offence under section 167 of the Indian Penal Code. A may be separately charged with, and convicted of, offences under sections 471 (read with 466) and 196 of the same Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under one of those sections only.

to paragraph III—

(m) A commits house-breaking by day with intent to commit adultery, and commits, in the house so entered, adultery with B's wife. A may be separately charged with, and convicted of, offences under sections 451 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

(n) A commits robbery on B, and, in doing so, voluntarily causes hurt to him. A may be separately charged with, and convicted of, offences under sections 323, 392 and 391 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 392 or 394 only.

(o) A entices B, the wife of C, away from C, with intent to commit adultery with B, and then commits adultery with her. A may be separately charged with, and convicted of, offences under sections 498 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

the facts which can be proved will constitute, the accused person may be charged with having committed all or any of such

offences; and any number of such charges may be tried at once, or he may be charged in the alternative with having committed some one of the said offences.

Illustration.

A is accused of an act which may amount to theft, or receiving stolen property, or criminal breach of trust, or cheating. He may be charged with theft, receiving stolen property, criminal breach of trust, and cheating, or he may be charged with having committed theft, or receiving stolen property, or criminal breach of trust, or cheating.

109. If, in the case mentioned in the last pre-

ceding section, one charge When a person is charged with one offence, only is brought against an he can be convicted of accused person, and it ap-

pears in evidence that he committed a different offence, for which he might have been charged under the provisions of that section, he may be convicted of the offence which he is shown to have committed, although he was not charged with it.

Illustration.

A is charged with theft. It appears that he committed the offence of criminal breach of trust, or that of receiving stolen goods. He may be convicted of criminal breach of trust, or of receiving stolen goods (as the case may be), though he was not charged with such offence.

110. When a person is charged with an offence,

which is proved amounts to a different offence, he may be convicted of the offence which he is proved to have committed, though he was not charged with it.

Illustrations.

(a). A is charged, under section 407 of the Indian Penal Code, with criminal breach of trust in respect of property entrusted to him as a carrier. It appears that he did commit criminal breach of trust under section 406 in respect of the property, but that it was not entrusted to him as a carrier. He may be convicted of criminal breach of trust under section 406.

(b). A is charged with murder. He may be convicted of culpable homicide, or of causing death by negligence.

111. When more persons than one are accused

when one person is accused of committing any offence, and another of abetment of, or attempt to commit, such offence, they may be charged and tried together, or separately, as the Presidency Magistrate thinks fit, and the provisions contained in the former part of this chapter shall apply to all such charges.

Illustrations.

(a). A and B are accused of the same murder. A and B may be charged and tried together for the murder.

(b). A and B are accused of a robbery, in the course of which A commits a murder with which B has nothing to do. A and B may be tried together on a charge, charging both of them with the robbery, and A alone with the murder.

(c). A and B are both charged with a theft, and B is charged with two other thefts committed by him in the course of the same transaction. A and B may be both tried together on a charge, charging both with the one theft, and B alone with the two other thefts.

officer conducting the prosecution, may, with the consent of the Presidency Magistrate, withdraw, or such Magistrate of his own accord may suspend, the inquiry into, or trial of, the remaining charge or charges.

Previous Acquittals or Convictions.

113. A person who has once been tried for an offence and convicted or acquitted of such offence, shall, while such conviction or acquittal remains in force, not be liable to be tried again for the same offence, nor on the same facts for any other offence for which a different charge from the one made against him might have been made under section 108, or for which he might have been convicted under section 109.

A person convicted or acquitted of any offence may be afterwards tried for any offence for which a separate charge might have been made against him on the former trial under section 107, paragraph one.

A person acquitted or convicted of any offence constituted by any act causing consequences which, together with such act, constituted a different offence from that for which he was acquitted or convicted, may be afterwards tried for such last-mentioned offence, if the consequences had not happened, or were not known to the Court to have happened, at the time when he was acquitted or convicted.

A person acquitted or convicted of any offence constituted by any acts may, notwithstanding such acquittal or conviction, be subsequently charged with, and tried for, any other offence constituted by the same acts, which he may have committed if the Court by which he was first tried was not competent to try the offence with which he is subsequently charged.

Illustrations.

(a) A is tried upon a charge of theft as a servant and acquitted. He cannot afterwards be charged with theft as a servant, or, upon the same facts, with theft simply, or with criminal breach of trust.

(b) A is tried upon a charge of murder and acquitted. There is no charge of robbery; but it appears from the facts that A committed robbery at the time when the murder was committed: he may afterwards be charged with, and tried for, robbery.

(c) A is tried for an assault and convicted. The person assaulted afterwards dies. A may be tried again for culpable homicide.

(d) A is tried, under section 270 of the Indian Penal Code, for malignantly doing an act likely to spread the infection of a disease dangerous to life, and is acquitted. The act so done afterwards causes a person permanently to lose his eyesight. A may be charged, under section 325 of the same Code, with voluntarily causing grievous hurt to that person.

(e) A is charged by a Presidency Magistrate with, and convicted by him of, voluntarily causing hurt to B. A may not afterwards be tried for voluntarily causing grievous hurt to B, on the same facts, unless the case comes within paragraph three of this section.

(f) A is charged by a Presidency Magistrate with, and convicted by him of, theft of property from the person of B. A may be subsequently charged with, and tried for, robbery on the same facts.

(g) A, B and C are charged by a Presidency Magistrate with, and convicted by him of, robbing D. A, B and C may afterwards be charged with, and tried for, dacoity on the same facts.

CHAPTER X.—OF THE TRIAL OF CASES BY PRESIDENCY MAGISTRATES.

Cases may be tried summarily.

by Presidency Magistrates.

114. The following procedure shall be observed in the trial of cases by Presi-

In every such case the Magistrate shall record the following particulars:

- (a) the serial number,
- (b) the date of the commission of the offence,
- (c) the name of the complainant,
- (d) the name of the accused person,
- (e) the offence complained of or proved,
- (f) the prisoner's plea,
- (g) the final order,
- (h) the date of such order.

115. No Presidency Magistrate shall impose a fine exceeding two hundred rupees or imprisonment for a term exceeding six months, unless he has recorded the evidence of the witnesses.

Sentences passed under section 13 on the same occasion shall for the purposes of this section be considered as one sentence.

Where the Magistrate records such evidence, it shall be sufficient either to take it down with his own hand or to cause it to be taken down in writing from his dictation in open Court. All evidence so taken down shall be signed by the Magistrate and shall be part of the record.

Evidence so taken down shall ordinarily be taken in the form of a narrative, but the Magistrate may in his discretion take down, or cause to be taken down, any particular question or answer.

Every Magistrate recording the evidence of a witness shall record such remarks as he thinks material respecting the demeanour of such witness while under examination.

116. In cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, no formal charge need be made against the accused person; and the Magistrate may convict him of any offence punishable with fine only or with imprisonment for a term not exceeding six months, or with both, and which, from the facts proved, he appears to have committed.

In cases in which the Magistrate has power to impose imprisonment for a term exceeding six months, there shall be a formal charge against the accused person.

All charges under this section shall be drawn up by the Magistrate in accordance with the provisions of chapter IX.

117. Neither the complaint nor the process issued thereon shall be regarded otherwise than as notice to the accused person of the facts to be inquired into. No defect in the complaint or process shall invalidate the proceedings, unless it appears that the accused person was actually misled by such defect; and, in considering whether or not he was so misled, the Magistrate shall have regard to the manner in which the accused person conducted his defence.

118. If upon the day appointed for the appearance of the accused person, or any day subsequent thereon to which the case may be called on, the complainant does not appear, the Magistrate shall dismiss the complaint, unless he thinks fit to adjourn the hearing of the same to some other day. Such adjournment shall be made upon such terms as the Magistrate thinks fit.

119. On the appearance of both parties on the day fixed for the trial, the substance of the complaint shall be stated to the accused person, and he shall be asked if he has any cause to show why he should not be convicted.

Procedure on appearance of parties.

120. If the accused person admit the truth of the complaint, his admission shall be recorded, and if he shows no sufficient cause why he should not be convicted, the Magistrate may convict him accordingly.

Conviction on admission of truth of complaint.

121. If the accused person does not admit the truth of the complaint, the Magistrate shall proceed to hear the complainant and such witnesses as he produces in support of his complaint, and also to hear the accused person and such witnesses as he produces in his defence.

Procedure when no such admission is made.

122. Whenever any charge is drawn up under this Act, it shall be drawn up as soon as the Magistrate is of opinion that a *prima facie* case has been established against the accused person, and shall be read and explained to the accused person, and he shall be asked whether he is guilty or has any defence to make.

Charge when drawn up.

123. If the accused person be examined, the procedure prescribed in section 84 shall be followed.

Procedure on examining accused.

124. Before or during the hearing of any complaint, the Magistrate may, in order to secure the attendance of witnesses or for any other reason, adjourn the hearing, on such terms as he thinks fit, to a day to be then appointed and stated in the presence of the parties.

If on the day to which such hearing or such further hearing has been so adjourned, the accused person does not appear, the Magistrate may issue his warrant for the arrest of such person.

If on such day the complainant does not appear, the Magistrate may dismiss the complaint.

125. If a complainant, at any time before a final order is passed in any case punishable with fine only or with imprisonment for a term not exceeding six months, or with both, satisfies the said Magistrate that there are sufficient grounds for permitting him to withdraw his complaint, the Magistrate may permit him to do so.

The withdrawal under this section of a complaint shall operate as an acquittal of the accused person.

126. If the Magistrate, in any case tried under this chapter, finds the accused person not guilty, he shall record an order of acquittal.

Acquittal.

If the accused person is convicted, the Magistrate shall pass sentence upon him; and, in all cases in which the Magistrate inflicts imprisonment, or fine, exceeding two hundred rupees, or both, he shall add to the final order mentioned in section 114, clause (g), a brief statement of the reasons for the conviction.

Sentence.

When the personal attendance of the accused person during the trial has been dispensed with,

the sentence of the Magistrate shall be pronounced in his presence, except where the sentence is for fine only, in which case it may be pronounced in the presence of the accused person's advocate, attorney or pleader.

127. If in the course of any trial before a Presidency Magistrate, it appears that the case is one which he has not jurisdiction to try, or one which, in his opinion, ought to be tried by the High Court, he shall stop further proceedings under this chapter, and shall either forward the case to the Magistrate having jurisdiction, or commit the accused person, in accordance with the provisions of chapter VIII, to the High Court for trial.

Procedure when, after commencement of trial, Magistrate finds case beyond his jurisdiction.

128. Whoever, having been convicted of an offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, is again accused of any offence punishable under either of those chapters with imprisonment for a term of three years or upwards, shall ordinarily, if the Presidency Magistrate considers him an habitual offender, be committed to the High Court.

General Provisions as to Inquiries and Trials.

129. A Presidency Magistrate inquiring into or trying any case may permit any person to conduct the case as prosecutor; but no person other than the Advocate-General, Standing Counsel, Government Solicitor or other officer generally or specially empowered by the Local Government in this behalf shall be entitled to do so without such permission.

Permission to conduct prosecution.

Any person conducting the case may do so personally or by an advocate, attorney or pleader.

130. Every person accused before a Presidency Magistrate of an offence, may of right be defended by any advocate, attorney or pleader.

Right of accused to be defended.

131. If an accused person, though not insane, cannot be made to understand the proceedings, the Magistrate may proceed with the inquiry or trial; and if such inquiry results in a committal, or if such trial results in a conviction, the proceedings shall be forwarded to the High Court, with a report of the circumstances of the case, and the High Court shall pass thereon such order as it thinks fit.

Procedure where accused does not understand proceedings.

132. The place in which the Court of a Presidency Magistrate is held for the purpose of inquiring into or trying any offence, shall be deemed an open Court, to which the public generally may have access, so far as the same can conveniently contain them:

Presidency Magistrates' Courts to be open.

Provided that the Magistrate may, if he thinks fit, order at any stage of any inquiry into or trial of any particular case, that the public generally, or any particular person, shall not have access to, or be, or remain in, the room or building used by the Magistrate.

133. In the case of offences which may lawfully be compounded, the injured person may compound the

Compounding offences.

offence out of Court, or in Court with the permission of the Presidency Magistrate. Such composition shall have the effect of an acquittal of the accused.

CHAPTER XI.—OF EVIDENCE.

A.—Of securing the Attendance of Witnesses.

134. Any Presidency Magistrate may, at any stage of any proceeding, inquiry or trial under this Act, summon, in manner provided by chapter VI, any witness, or examine any person in attendance though not summoned as a witness; and the Magistrate shall summon and examine such person if his evidence appears essential to the just decision of the case.

135. If a Presidency Magistrate has reason to believe that any witness, whose attendance is required will not attend to give evidence without being compelled to do so, he may, instead of issuing a summons, issue a warrant of arrest in the first instance.

136. If any person summoned under this Act to give evidence neglects or refuses to appear at the time and place appointed by the summons, and no reasonable excuse is offered for such neglect or refusal, the Presidency Magistrate, upon proof of the summons having been duly served, may issue a warrant under his hand to bring such person before him to testify as aforesaid.

137. If such warrant cannot be executed, and the Magistrate has reason to believe that the witness absconds or conceals himself for the purpose of preventing the execution thereof, he may issue a notice, requiring the attendance of such witness to give evidence at a time and place to be named therein, and such notice shall be affixed to some conspicuous part of such witness' ordinary place of abode, or, if he has no such abode, of the Magistrate's Court.

If the witness does not attend at the time and place so named, the Magistrate may order the attachment of any moveable property belonging to such witness, equal in value, as nearly as may be, to the amount of the costs of attachment and of any fine to which the witness may be liable under the provisions of section 172 of the Indian Penal Code.

138. The provisions of section 68 and section 69 as to the attachment, sale and restoration of moveable property shall apply to all property ordered to be attached under section 137.

139. Notwithstanding anything contained in the Prisoners' Testimony Act, 1869, any Presidency Magistrate desirous of examining, as a witness or accused person, in any case pending before him, any person confined in any jail within the local limits of his jurisdiction, may issue an order to the officer in charge of the said jail requiring him to bring such prisoner in proper custody, at a time to be therein named, to the Magistrate for examination.

The officer so in charge, on receipt of such order, shall act in accordance therewith, and shall provide for the safe custody of the prisoner during his absence from the jail for the purpose aforesaid.

140. The Presidency Magistrate may require complainants and witnesses for the prosecution and defence whose attendance before him is necessary, to execute recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon to prosecute or give evidence, as the case may be.

141. If any witness summoned or brought before a Presidency Magistrate refuses to answer such questions as are put to him, without offering any reasonable excuse for such refusal, such Magistrate may sentence him to simple imprisonment, or commit him to the custody of an officer of the Court, for any term not exceeding seven days, unless in the meantime such person consents to be examined and to answer; after which, in the event of his persisting in his refusal, he may be dealt with according to the of section 205 or 206.

B.—Of Witnesses.

142. In the case of offences punishable with fine only or with imprisonment for a term not exceeding six months, or with both, it shall ordinarily be the duty of the complainant and accused to produce their own witnesses. But the Presidency Magistrate may in his discretion—

- (a) summon any person who appears to him likely to give material evidence on behalf of the complainant or the accused;
- (b) summon any witness named by the complainant or the accused:

Provided that the Magistrate may, before summoning a witness, require that his reasonable expenses incurred in attending for the purposes of the trial be deposited in Court.

143. In the case of all other offences, the Magistrate shall ascertain from the complainant, or otherwise, the names of any persons likely to be acquainted with the facts of the case and to be able to give evidence for the prosecution, and shall summon to give evidence before him such of them as he thinks necessary.

The Magistrate shall also summon any witness, and take any evidence that may be offered, in behalf of the accused person, to answer or disprove the evidence against him.

C.—Of Securing Documentary Evidence.

144. Whenever a Presidency Magistrate considers that the production of any document or other thing is necessary or desirable for the purposes of any inquiry, trial, or other proceeding under this Act, he may issue a summons to the person in whose possession or power such document or thing is believed to be, requiring him to attend and produce it at the time and place stated in the summons.

145. Where there is reason to believe that the person to whom the summons is addressed will not produce the document or

other thing as directed in the summons, the Magistrate may issue a warrant to search for such document or thing in the first instance.

146. If any letter in the custody of the Postal

Procedure as to letters in custody of Postal Department or telegraph officer.

Department is wanted for the purpose of any inquiry or trial by a Presidency Magistrate, the Magistrate may, if he is the Chief

Magistrate, direct the postal authorities to deliver such letter to such person as the Magistrate directs, and if he is not the Chief Magistrate, may apply to the Chief Magistrate, who may, if he thinks fit, give such direction.

The letter referred to in any direction given under this section shall be delivered accordingly.

147. Any Presidency Magistrate may, if he

Power to impound document produced.

thinks fit, impound any document or other thing produced before him, or may, at

the conclusion of the proceedings, order it to be returned to the person who produced it.

D.—Of the Examination of Accused Persons.

148. At any stage of any inquiry or trial under

Examination of accused.

this Act, the Magistrate may, without previously

warning the accused person, put such questions to him as he considers necessary.

The accused person shall not render himself liable to punishment for refusal to answer such questions, or for giving false answers to them, but the Magistrate shall draw such inference as may to him seem just from such refusal or false answers.

EXPLANATION.—The answer given by an accused person may be put in evidence against him, not only in such inquiry or trial, but also in any other inquiry into, or trial for, any other offence which such answer may tend to show he has committed.

149. Except as is provided in section 150, no

No influence to be used to induce disclosures.

influence, by means of any promise or threat or otherwise, shall be used to an

accused person to induce him to disclose or withhold any matter within his knowledge.

150. A Presidency Magistrate may, with the

Tender of pardon to accomplice.

view of obtaining the evidence of any persons supposed

to have been directly or indirectly concerned in, or privy to, any offence specified in column seven of the second schedule hereto annexed as triable exclusively by the High Court, tender a pardon to such person on condition of his making a full and true disclosure of the whole of the circumstances, within his knowledge, relative to such offence and to every other person concerned in the perpetration thereof.

Every person accepting a tender under this section shall be examined as a witness in the case.

Such person, if not on bail, shall be detained in custody until the termination of the trial.

151. When a pardon has been tendered under

Commitment of person to whom pardon has been tendered.

section 150, if before the trial it appears to the Presidency Magistrate that any person who has accepted such

tender has either by wilfully concealing anything essential, or by giving false evidence, not complied with the conditions under

which the tender was made, such Magistrate may commit him for trial for the offence in respect of which the pardon was so tendered, or for any other offence of which he may appear to have been guilty in connection with the same matter.

The statement made by a person under pardon which pardon has been withdrawn under this section, may be put in evidence against him.

E.—Special Rules of Evidence.

152. The deposition of a civil surgeon or other

Deposition of medical witness, taken and duly attested by a Magistrate,

may be given in evidence in any inquiry or trial under this Act, although the deponent is not called as a witness.

The Presidency Magistrate may, if he thinks fit,

deponent as to the subject-matter of his deposition.

153. Any document purporting to be a report

from the Chemical Examiner, or Assistant Chemical Examiner to Government, upon any matter or thing duly submitted to him for examination or analysis and report, in the course of any inquiry or trial under this Act, or in any preliminary inquiry relating thereto, may, if it bears his signature, be used as evidence in any inquiry or trial under this Act.

The Presidency Magistrate may presume that the

Genuineness of signature may be presumed.

signature to any such document is genuine, and that the person signing it held the

office which he professed to hold at the time when he signed it.

The Presidency Magistrate may, if he thinks

fit, summon and examine such Chemical Examiner or

154. A previous conviction or acquittal may be

proved (a) by an extract certified, under the hand of the

Previous conviction or acquittal how proved. officer having the custody of

the records of the Court in which such conviction or acquittal was had, to be a copy of the sentence or order, or (b), in case of a conviction either by a certificate signed by the officer in charge of the jail in which the punishment or any part thereof was inflicted or by production of the warrant of commitment under which the punishment was suffered.

155. If an accused person abscond, and after

due pursuit cannot be arrested, the Presidency Magistrate may, in his absence,

Record of evidence in absence of accused. examine the witnesses (if any) produced on behalf of the prosecution, and record their depositions; and any such deposition may, on the arrest of such person, be put in on his trial for the offence with which he is charged, if the attendance of the deponent cannot be procured.

156. Whenever any Presidency Magistrate,

after having heard the whole or any part of the evidence

in an inquiry or trial, ceases to exercise jurisdiction there-

in, and is succeeded by another Magistrate who has and who exercises such jurisdiction, the Magistrate so succeeding may act

on the evidence so recorded by his predecessor, or partly recorded by his predecessor and partly recorded by himself, or he may re-summon the witnesses and re-commence the inquiry or trial :

Provided that the accused person may, when the second Magistrate commences his proceedings, demand that the witnesses be re-summoned and reheard, in which case the inquiry or trial shall be re-commenced :

Provided also that the High Court may set aside any conviction passed on evidence not wholly recorded by the Magistrate before whom the conviction was had, if such Court is of opinion that the accused person has been materially prejudiced thereby ; and may order a new inquiry or trial.

157. Whenever in the course of a trial or inquiry under this Act it appears that the attendance of a witness cannot be procured without an amount of delay, expense or inconvenience which, under the circumstances of the case, would be unreasonable, the Presidency Magistrate may dispense with such attendance.

When attendance of witness may be dispensed with.

158. Such Magistrate may direct a commission to any Magistrate of the District, or Magistrate of the first class, within the local limits of whose jurisdiction such witness may be.

The Magistrate to whom the commission is directed, or, if he be the Magistrate of the District, such Magistrate of the first class as he appoints in this behalf, shall proceed to the place where such witness is, or shall summon such witness before himself, and shall take his evidence in the same manner, and may for this purpose exercise the same powers, as in trials of warrant-cases under the Code of Criminal Procedure.

If the witness is within the local limits of the jurisdiction of any Presidency Magistrate, other than the Magistrate dispensing with his attendance, the latter Magistrate may direct a commission to the former Magistrate, who thereupon shall have the like power to compel the attendance of, and to examine, such witness as he possesses for that purpose in cases pending before himself.

The complainant and the accused person may respectively forward interrogatories, in writing, upon which the Magistrate to whom the commission is directed shall examine the witness,

or the complainant and the accused person (if on bail) may appear before such Magistrate,

or the complainant and the accused person may so appear respectively by advocate, attorney or pleader,

and may examine, cross-examine and re-examine (as the case may be) the said witness.

After any commission issued under this section has been duly executed, it shall be returned, together with the deposition of the witness examined thereunder, to the Magistrate by whom it was issued ; and the commission, the return thereto, and the deposition of such witness, may be used as evidence in the case and shall form part of the record.

F.—Of Search-Warrants.

159. When a Presidency Magistrate considers that the production of any thing is essential to the conduct of an inquiry into an offence known or suspected to have been committed or to the discovery of the offender,

or when he considers that such inquiry or discovery will be furthered by a general search or inspection,

he may grant his search-warrant ; and the officer charged with the execution of such warrant may search or inspect any place within the local limits of the jurisdiction of such Magistrate.

The Magistrate may, if he thinks fit, specify in the warrant the particular place, building or part thereof to which only the search or inspection shall extend ; and the officer charged with the execution of such warrant shall then search or inspect only the place, building or part so specified.

Nothing in this section or in section 145 shall authorize a Magistrate to grant a warrant to search for a letter or telegram in the custody of the Postal Department or of a telegraph officer.

160. If a Presidency Magistrate, upon information and after such inquiry as he thinks necessary, has reason to believe that any place is used for the deposit or sale of stolen property, or

of property which has been fraudulently obtained, or for the deposit or sale or manufacture of forged documents, or counterfeit Government stamps, or counterfeit coin, or instruments or materials for counterfeiting coin, or for forging,

or that any forged documents, or counterfeit stamps, or false seals, or counterfeit coin, or instruments or materials used for counterfeiting coin, or for forging, are kept or deposited in any place,

he may by his warrant authorize any Police-officer above the rank of a constable—

(a) to enter, with such assistance as may be required, and by force if necessary, such place, and

(b) to search the same as specified in the warrant, and

(c) to take possession of any property, documents, stamps, seals or coins therein found, which he reasonably suspects to be stolen, unlawfully obtained, forged, false or counterfeit, and also any such instruments and materials as aforesaid, and

(d) to convey such property, documents, stamps, seals, coins, instruments or materials before a Presidency Magistrate, or to guard the same on the spot until the offender is taken before a Presidency Magistrate, or otherwise to dispose thereof in some place of safety, and

(e) to take into custody and carry before the said Magistrate every person found in such place, who appears to have been privy to the deposit, sale or manufacture or keeping of any such property, documents, stamps, seals, coins, instruments or materials knowing or having reasonable cause to suspect the said property to have been stolen or otherwise unlawfully obtained, or the said documents, stamps, seals, coins, instruments or materials to have been forged, falsified or counterfeited, or the said instruments or materials to have been or to be intended to be used for counterfeiting coin or for forging.

161. The provisions of sections 59, 60 and 61 shall apply to all search-warrants issued under this chapter.

162. Whenever any place liable to search or inspection under this chapter is closed, any person residing in, or being in charge of, such place shall, on demand of the officer or other person executing the warrant, allow such officer or other person free ingress thereto, and afford all reasonable facilities for a search therein.

163. A Police-officer or other person, authorized by a warrant to search any place, may break open any outer or inner door or window of such place, in order to execute the warrant, if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

164. If the place ordered to be searched is an apartment in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the officer or other person charged with the execution of the warrant shall, unless a warrant of arrest has been issued against her, give her notice that she is at liberty to withdraw.

After giving such notice and allowing a reasonable time for such woman to withdraw, and affording her every reasonable facility for withdrawing, such officer or person may enter such apartment for the purpose of making the search, using at the same time every precaution consistent with this section for preventing the clandestine removal of the thing mentioned in the warrant.

165. Before making a search under this chapter the officer or other person about to make it shall call upon two or more respectable inhabitants of the locality in which the place to be searched is situate to attend and witness the search.

The search shall be made in their presence, but they shall not be required to attend the Court of the Magistrate as witnesses, unless especially summoned by him.

The occupant of the place searched, or some person in his behalf, shall, in every instance, be permitted to attend during the search.

166. Whenever it is necessary to cause a woman to be searched, the search shall be made with strict regard to the customs of the country.

CHAPTER XII.—OF APPEALS.

167. Any person convicted on a trial held by a Presidency Magistrate, may appeal to the High Court if the Magistrate has sentenced him to imprisonment for a term exceeding six months, or to fine exceeding two hundred rupees:

Provided that, where an accused person has been convicted on his own plea, no such appeal shall lie except as to the extent or legality of the sentence.

Sentences passed under section 13 on the same occasion shall, for the purposes of this section, be considered as one sentence.

For the purposes of the Indian Limitation Act, 1871, all appeals under this section and all applications to the High Court for the exercise of the

powers given by Act No. X of 1875, section 147, shall be deemed to be appeals under the Code of Criminal Procedure.

168. The Local Government may direct the Public Prosecutor or other officer specially or generally appointed in this behalf to present an appeal to the High Court from a Presidency Magistrate's order of acquittal or of dismissal, or of discharge; but in no other case shall there be an appeal by the prosecution from any order under this Act.

No appeal shall be presented under this section after two months from the date of the order complained of.

When an appeal is presented under this section, the High Court may order the accused person to be arrested and brought before it, and may commit him to prison pending the disposal of the appeal, or (if the offence of which he is accused be bailable) admit him to bail.

The High Court may, in any case so appealed, direct a new trial by any Presidency Magistrate, or may pass such order as may be warranted by law.

169. Every petition of appeal under this Act shall be accompanied by a copy of the order appealed against.

170. If any person affected by an order passed under this Act desires to have a copy of such order or of any deposition or other part of the record, he shall, on applying for such copy, be furnished therewith; provided that he pay for the same, unless the Magistrate, for some special reason, thinks fit to furnish it free of cost.

171. If the appellant be in jail, he shall be at liberty to present his petition of appeal, and the copy of the order appealed against, to the officer in charge of the jail, who shall thereupon forward such petition and copy to the High Court.

172. On receiving the petition of appeal and the copy of the order appealed against, the High Court shall peruse the same, and may fix a reasonable time for hearing the appellant or his advocate or pleader, or if he be present may hear him at once.

The High Court may, if it considers that there is no sufficient ground for altering or revising the order appealed against, reject the appeal summarily.

Before rejecting an appeal under this section, the High Court may call for the record of the case, but shall not be bound to do so.

In rejecting under this section an appeal by a person convicted, the High Court shall not enhance the sentence.

173. If the High Court does not reject the appeal summarily, it shall cause notice to be given to the appellant and the Public Prosecutor, Government Solicitor, or other officer

empowered by Government in that behalf, of the day on which such appeal will be heard, and in case of appeals under section 168, the High Court shall also cause a like notice to be given to the respondent.

All such notices shall be served in manner provided by this Act for serving a summons unless in the case of persons present in Court, to whom they may be given orally.

174. The High Court shall send for the record of the case, and after perusing the same, and hearing the appellant or his advocate or pleader, if he appears, and the Government Solicitor or other officer empowered by Government in this behalf, if he appears, may—

(a) alter or reverse the order of such Court, or
(b) enhance any punishment which has been awarded, but not so as to inflict a greater punishment for the offence which, in the opinion of the High Court, he has committed, than the Presidency Magistrate could have inflicted for such offence, or

(c) order the appellant to be re-tried before any Presidency Magistrate or before the High Court, or

(d) if it considers that there is no sufficient ground for interfering with the sentence or order appealed against, reject the appeal.

175. Pending any appeal under section 167, the High Court may direct that the execution of the order appealed against be suspended, and, if the appellant be in confinement for a bailable offence, may order that he be released on bail.

Where the appellant is ultimately sentenced to imprisonment, the time during which he is so released shall be excluded in calculating the term of his imprisonment.

176. In dealing with any appeal under this chapter, the High Court, if it thinks additional evidence upon any point bearing upon the guilt or innocence of the accused person to be necessary, may either take such evidence itself, or may direct it to be taken by a Presidency Magistrate.

When the additional evidence is taken by the Presidency Magistrate, he shall certify such evidence to the High Court, and the High Court shall thereupon proceed to dispose of the appeal.

Unless the High Court otherwise directs, the accused person or his advocate, attorney or pleader, shall be present when the additional evidence is taken.

The provisions of this Act relating to summoning and enforcing the attendance of witnesses and their examination shall, so far as may be, apply to witnesses examined before a Magistrate under this section.

177. No order passed by a Presidency Magistrate shall be reversed or altered on appeal on account of any error or defect, either in the charge or in the proceedings, or on account of the improper admission or rejection of any evidence, unless such error or defect has occasioned a failure of justice, either

by affecting the due conduct of the prosecution, or by prejudicing the accused person in his defence.

178. No irregularity in the proceedings prior to the commencement of the trial is a sufficient ground for reversing or altering any order passed in a trial properly held.

179. When a Presidency Magistrate has passed an order inflicting punishment on any person for an offence not triable by such Magistrate, the High Court shall cancel the order, and either try the case itself or direct it to be tried by a Court of competent jurisdiction.

180. No appeal shall lie from any order of a Presidency Magistrate, except in the cases provided for by this Act or by any other law for the time being in force.

Illustrations.

(a) There is no appeal against an order refusing to grant compensation, in case of a groundless complaint.

(b) There is no appeal against an order requiring a person to furnish security to keep the peace.

(c) There is no appeal against an order requiring a person to furnish security to be of good behaviour.

(d) There is no appeal against an order of maintenance.

181. Whenever an application is made to the High Court for the exercise of the powers conferred by the High Courts' Criminal Procedure Act, 1875, section 147, the applicant shall give to the Public Prosecutor, Government Solicitor, or such other officer as the Local Government appoints in this behalf, notice in writing of the application, together with a copy of the grounds on which it is to be made; and no order shall be made on the merits of the application unless at least twenty-four hours have elapsed between the giving of such notice and the hearing of the application.

182. When the decision of any Presidency Magistrate is called in question in the High Court, the Magistrate may submit with the record of the case a statement setting forth the grounds of his decision and any facts which he thinks material to the issue; and the Court shall consider such statement before overruling or setting aside the said decision.

CHAPTER XIII.—OF EXECUTION.

183. In cases tried by a Presidency Magistrate, the Magistrate passing any order inflicting imprisonment or whipping shall forward the accused person with a warrant for the execution of the sentence to the officer in charge of the jail of the Presidency town in which the trial was held,

or where there are more such jails than one, to the officer in charge of such of them as the Local Government from time to time directs in this behalf.

The warrant shall state the offence of which the accused person has been convicted, the nature of the punishment to which he has been sentenced and if he has been sentenced to imprisonment, the term for which he is to be imprisoned.

184. Every such warrant shall be in writing under the hand of the Magistrate who issues it, and shall be directed to the officer in charge of the jail aforesaid, and shall be in the form (G) given in the third schedule to this Act or to the like effect.

Form and direction of warrant of commitment.

185. Whenever a Presidency Magistrate imposes a fine under this or any other Act for the time being in force, he may issue a warrant for the levy of the amount of the fine by distress and sale of any moveable property belonging to the offender, although the sentence directs that, in default of payment of the fine, the offender shall be imprisoned.

Levy of fine.

Such warrant may be executed within the local limits of such Magistrate's jurisdiction, and it shall authorize the distress and sale of any such property without such limits when endorsed by the Magistrate of the District in which it is found.

This section shall not apply to cases in which any special procedure is laid down, by any special or local law in force for the time being, for the recovery of any fine, but shall apply to cases in which no such procedure is laid down and to all fines not levied when this Act comes into force, but which might have been levied under this section if it had been in force when they were imposed.

Section to what cases applicable.

When a warrant is issued under this section, the Presidency Magistrate may order the offender to be imprisoned until return can be conveniently made to such warrant, unless the offender enter into a recognizance, with or without sureties, as the Magistrate thinks fit, conditioned for his appearance before the Magistrate on the day appointed for such return, such day not being more than eight days from the time of taking the recognizance. But if, before issuing such warrant of distress, it appears to the Magistrate, by the admission of the offender or otherwise, that no sufficient distress can be had within the local limits of his jurisdiction whereon to levy such fine or penalty, he may, if he think fit, refrain from issuing such warrant.

Detention of offender until return made to distress-warrant.

No distress made under this Act shall be deemed unlawful, nor shall any person making the same be deemed a trespasser, on account of any defect or want of form in the summons, conviction, warrant of distress or other proceeding relating thereto.

Distress not illegal, nor distrainer a trespasser, for defect of form in proceedings.

The said warrant may be issued either by the Magistrate who imposes the fine, or by his successor in office.

Who may issue distress-warrant.

186. Whenever a Presidency Magistrate imposes a fine under any law in force for the time being, he may order the whole or any part of the fine to be paid in compensation—

Payment of fine in compensation.

(a) for expenses properly incurred in the prosecution,

(b) for the injury complained of, where such injury can, in the opinion of such Magistrate, be compensated by money.

Such payment shall be made, as the Magistrate thinks fit, to or for the benefit of the complainant, or the person injured, or both.

If the fine be imposed in a case which is subject to appeal, no such payment shall be made until the period allowed for presenting the appeal has elapsed, or, if an appeal be presented, until after the decision of the appeal.

At the time of awarding damages in any subsequent civil suit relating to the same matter, the Court shall take into consideration any sum which may have been paid under this section.

187. When the punishment of whipping is imposed, in addition to imprisonment, in a case which is subject to appeal, the whipping shall not be inflicted until fifteen days from the date of such sentence, or, if an appeal be made within that time, until the sentence is confirmed by the High Court; but the whipping shall be inflicted immediately on the expiry of the fifteen days, or, in case of an appeal, immediately on the receipt of the order of the High Court confirming the sentence.

Whipping, if imposed in addition to imprisonment in appealable case, when to be inflicted.

188. In the case of a person of or over sixteen years of age, the punishment of whipping shall be inflicted with such instrument, in such mode, and on such part of the person, as the Local Government directs; and, in the case of a person under sixteen years of age, it shall be inflicted in the way of school-discipline with a light ratan.

Mode of inflicting punishment of whipping.

In no case, if the cat-of-nine-tails be the instrument employed, shall the punishment of whipping exceed one hundred and fifty lashes, or, if the ratan be employed, shall such punishment exceed thirty stripes.

The punishment of whipping shall be inflicted in the presence of the officer in charge of the jail: provided that, in the case of a person under sixteen years of age, the Magistrate may order it to be inflicted in his own presence.

189. The punishment of whipping shall not be inflicted unless a medical officer, if present, certifies, or, if there is not a medical officer present, unless it appears to the officer or Magistrate present, that the offender is in a fit state of health to undergo such punishment.

If, during the execution of a sentence of whipping, a medical officer certifies, or it appears to the officer or Magistrate present, that the offender is not in a fit state of health to undergo the remainder of the sentence, the whipping shall be finally stopped.

Stay of execution.

Not to be executed by instalments.

190. No sentence of whipping shall be executed by instalments.

191. In any case in which, under section 189, a sentence of whipping is, wholly or partially, prevented from being executed, the offender shall be kept in custody till the Magistrate who passed the sentence can revise it; and the said Magistrate may, at his discretion, either remit such sentence, or sentence the offender, in lieu of whipping, or in lieu of so much of the sentence of whipping as was not executed, to

Procedure if punishment be prevented under section 189.

imprisonment for any period, which may be in addition to any other punishment to which he may have been sentenced for the same offence:

Provided that the whole period of imprisonment to which such offender is sentenced shall not exceed that to which he is liable by law, or that which the Magistrate is competent to inflict.

192. When sentence is passed under this Act on an escaped convict, such sentence, if of fine or whipping, shall take effect immediately, and, if of imprisonment, shall take effect after he has undergone the portion of his former sentence which remained unexpired at the time of his escape.

193. When a person already under sentence of imprisonment or transportation is sentenced under this Act to imprisonment, such imprisonment shall commence at the expiration of the imprisonment or transportation to which such person has been previously sentenced.

PART III.

CHAPTER XIV.—OF LUNATICS.

194. When any person accused before a Presidency Magistrate of an offence appears to such Magistrate to be of unsound mind and incapable of making his defence, the Magistrate shall enquire into the fact of such unsoundness, and shall cause the accused person to be examined by such medical officer as the Local Government directs, and thereupon shall examine such officer as a witness, and shall reduce the examination into writing.

If such Magistrate is of opinion that the accused person is of unsound mind, he shall stay further proceedings in the case.

195. When, from the evidence given before a Presidency Magistrate, there appears to be sufficient ground for believing that an accused person committed an act which, if he had been of sound mind, would have been an offence, and that he was at the time when the act was committed, by reason of unsoundness of mind, incapable of knowing the nature of such act or that he was doing what was contrary to law, the Presidency Magistrate shall, if such accused person appears to be of sound mind at the time of the inquiry or trial, proceed with the case.

196. Whenever an accused person is found to be of unsound mind and incapable of making his defence, the Presidency Magistrate, if the offence of which such person is accused be bailable, may release him on sufficient bail being given that he shall be properly taken care of, and shall be prevented from doing injury to himself or to any other person, and for his appearance when required before the Magistrate or such officer as the Magistrate appoints in this behalf.

If the offence be non-bailable, or if sufficient bail be not given, the Magistrate shall report the case for the order of the Local Government, and the accused person shall be kept in safe custody in such place as the Local Government directs.

197. Whenever proceedings are stayed under section 194, the Presidency Magistrate may at any time resume the inquiry or trial, and require the accused person to appear or to be brought before him.

When the accused person has been released under section 196, and the sureties for his appearance produce him to the officer whom the Magistrate appoints in this behalf, the certificate of such officer that the accused person is capable of making his defence shall be receivable as evidence.

198. If, when the accused person appears or is again brought before the Magistrate, such Magistrate considers him capable of making his defence, the inquiry or trial shall proceed.

If the Magistrate considers the accused person to be still incapable of making his defence, the Magistrate shall again act according to section 194.

199. Whenever any person is acquitted by a Presidency Magistrate upon the ground that, at the time at which such person is alleged to have committed an offence, he was, by reason of unsoundness of mind, incapable of knowing the nature of the act alleged as constituting the offence complained of, or that he was doing what was contrary to law, the order of acquittal shall state specially whether he committed the act or not.

200. Whenever such order states that the accused person committed the act alleged, the Presidency Magistrate before whom the trial was held shall, if such act would, but for the incapacity found, have constituted an offence, order such person to be kept in safe custody, in such place and manner as the Magistrate thinks fit, and shall report the case for the order of the Local Government.

The Local Government may order such person to be kept in safe custody in a lunatic asylum or other suitable place of safe custody.

201. When any person is confined under the provisions of section 196 or 200, the Inspector General of Prisons, if such person is confined in a jail, or the visitors of the lunatic asylums, or any two of them, if he is confined in a lunatic asylum, may visit him in order to ascertain his state of mind; and he shall be visited once at least in every six months by such Inspector General or by two of such visitors as aforesaid; and such Inspector General or visitors shall make a special report to the Local Government as to the state of mind of such person.

202. If such person is confined under section 196, and such Inspector General or visitors as aforesaid shall certify that, in his or their opinion, such person is capable of making his defence, he shall be taken before the Presidency Magistrate at such time as such Magistrate appoints, and such Magistrate shall deal with such person under the provisions of section 198; and the certificate of such Inspector General or visitors as aforesaid shall be receivable as evidence.

203. If such person is confined under the provisions of section 200, and

Procedure where lunatic confined under section 200 is declared capable of being discharged.

such Inspector General or visitors as aforesaid certify that, in his or their judgment, he may be discharged

without danger of his doing injury to himself or to any other person, the Local Government may thereupon either order him to be discharged, or to be detained in custody, or to be transferred to a public lunatic asylum, if he has not been already sent to such an asylum; and may appoint a commission, consisting of a judicial officer and two medical officers, whereof the chief medical officer attached to the lunatic asylum shall be one.

The said commission shall make formal inquiry into the state of mind of such person, taking such evidence as is necessary, and shall report to the Local Government, who may order his discharge or detention as it thinks fit.

204. Whenever any relative or friend of any

Delivery of lunatic to care of relative.

person detained under the provisions of section 200 is desirous that he shall be

delivered over to his care and custody, the Local Government, upon the application of such relative or friend, and on his giving security to the satisfaction of such Government that the person so detained shall be properly taken care of and shall be prevented from doing injury to himself or another, may order such person to be delivered to such relative or friend.

Whenever such person is so delivered over, it shall be upon condition that he shall be produced for the inspection of such officer as the Local Government appoints, and at such times as such Government directs.

The provisions of sections 201 and 203 shall, *mutatis mutandis*, apply to persons detained under the provisions of this section; and the certificate of the inspecting officer appointed under this section shall be dealt with as a certificate of the Inspector General of Prisons, or the visitors of lunatic asylums, under the said sections.

CHAPTER XV.—OF CONTEMPTS OF COURT.**205.** When any such offence as is described in

view or presence of a Presidency Magistrate, he may cause the offender to be detained in custody; and, at any time before the Magistrate leaves his Court on the same day, he may take cognizance of the offence, and sentence the offender to punishment by fine not exceeding two hundred rupees, and, in default of payment, by imprisonment in the civil jail for a period not exceeding one month, unless such fine be sooner paid.

In every such case, the Magistrate shall record the acts constituting the offence, with the statement (if any) made by the offender as well as the finding and sentence.

If the offence is under section 228 of the Indian Penal Code, the record must show the nature and stage of the judicial proceeding in which the Magistrate interrupted or insulted was sitting, and the nature of the insult or interruption.

206. If the Presidency Magistrate considers that

a person accused of any of the offences referred to in section 205 should be imprisoned otherwise than in default of payment of fine, or that a

fine exceeding two hundred rupees should be imposed upon him, such Magistrate, after recording the facts constituting the offence and the statement of the accused person, shall forward the case to another Presidency Magistrate, and shall require bail to be given for the appearance of such accused person before such other Magistrate, or, if sufficient bail be not given, shall forward such person under custody to such Magistrate.

Such other Magistrate shall proceed to try the accused person in the manner provided by this Act for trials before a Presidency Magistrate; and may sentence the offender to punishment, as provided in the section under which he is charged.

sault, or other breach of the peace, or with abetting the same, or with assembling armed men or taking other unlawful measures with the evident intention of committing the same, is convicted of such offence before a Presidency Magistrate,

and such Magistrate is of opinion that it is necessary to require such person to execute a personal recognizance for keeping the peace,

he may, in addition to any other order passed in the case, order the person so convicted to execute a personal recognizance for keeping the peace during such period as the Magistrate thinks fit to fix, not exceeding one year.

209. Whenever a Presidency Magistrate is of

Sureties for keeping the peace.

opinion that it is necessary to require sureties for keeping the peace, in addition to the personal recognizance of the person so convicted, such Magistrate may require him to give such sureties, and may fix the penalties which the sureties shall be respectively bound to discharge, and may direct that, if such bail be not given, he shall be imprisoned for such term not exceeding one year as the Magistrate thinks fit.

210. If the person so convicted be sentenced to

imprisonment, the period so fixed, and the term of imprisonment in default of executing the recognizance, shall commence on the expiration of his sentence.

Where the order to execute such recognizance is not made at the time of signing, or by the Magistrate who signs the judgment, the person so convicted must be produced before the Magistrate making such order.

211. Whenever it appears to a Presidency

Magistrate that it is necessary for the preservation of the peace that the term for

which any person is so bound should be extended, he may, before the expiration of the first year, record his opinion to that effect and the grounds thereof, and may refer the case for the orders of the High Court.

Such Court, after examining the proceedings of the Magistrate, and making such further inquiry as it thinks necessary, may, if it see cause, authorize him to extend such term for a further period not exceeding one year from the expiration of the first year.

EXPLANATION.—When the subject of dispute, or ground for apprehension, is the same as that on which the first order was passed, the Magistrate must proceed under this section if the first bond is still in force, and not under section 215.

B.—Security for Good Behaviour.

212. Whenever it is proved before a Presidency Magistrate that any person is lurking within the local limits of his jurisdiction, or that there is within such limits a person who has no ostensible means of subsistence, or who cannot give a satisfactory account of himself, the Magistrate may require such person to enter into such recognizance, with sureties, for his good behaviour for a period not exceeding six months, as the Magistrate thinks sufficient.

a robber, house-breaker or thief,
or a receiver of stolen property, knowing the same to have been stolen,
or of notoriously bad livelihood,
or of a dangerous character,
such Magistrate may require similar security for the good behaviour of such person for a period not exceeding one year.

Procedure where security required for more than one year.

213. Whenever it is proved before a Presidency Magistrate that any person is an habitual robber, house-breaker or thief, or an habitual receiver of stolen property, knowing the same to have been stolen, or of a dangerous character, and that his release without security, at the expiration of the limited period of one year, would be hazardous to the community, the Magistrate shall record his opinion to that effect, and make an order requiring similar security for the good behaviour of such person for a period not exceeding three years.

If such person does not comply with the order, the Magistrate shall issue a warrant directing his detention pending the orders of the High Court.

C.—Provisions as to both Kinds of Security.

215. Whenever a Presidency Magistrate receives information that any person is likely to commit a breach of the peace, or to do any act that may probably occasion a breach of the peace, or that

Summons to person to show cause why he should not give bond to keep peace or for good behaviour.

he is one of the persons referred to in sections 212, 213 and 214, he may summon such person to attend at a time and place mentioned in the summons, to show cause why he should not be required to execute a recognizance to keep the peace or for good behaviour, as the case may be.

EXPLANATION I.—A summons calling on a person to show cause why he should not execute such recognizance, may be issued on any report or other information which the Magistrate believes; but the Magistrate shall not require any person to

EXPLANATION II.—A Magistrate may, if he thinks fit, recall any summons issued under this section.

216. Such summons shall set forth the substance of the report or information on which it is issued, the penalty to be specified in the recognizance, and the term for which it is to be in force, and, if bail are to be taken, their number, the penalties which they shall be respectively bound to discharge, and the time and place at which the person summoned is required to attend.

When the person believed to be likely to commit a breach of the peace or to be one of the persons referred to in sections 212, 213 and 214, is present in Court, no summons is necessary, but the Magistrate may at once require him to show cause why he should not be required to execute the recognizance.

217. If the person summoned does not attend on the day appointed at the hour and place named in the summons, the Presidency Magistrate, if satisfied that the summons has been duly served, may issue a warrant for his arrest:

When warrant of arrest may issue.
Provided that, whenever it appears to such Magistrate, upon the report of a Police-officer or upon other credible information (the substance of which report or information shall be recorded by the Magistrate on the warrant), that there is reason to fear the commission of a breach of the peace, which may probably be prevented by the immediate arrest of any person, or that there is reason to think that any person is one of the persons so referred to, the Magistrate may at any time issue a warrant for his arrest.

218. The Magistrate may, if he sees sufficient cause, dispense with the personal attendance of the person informed against under section 215, and may permit him to appear and execute the required recognizance, or show cause against such requisition, by an advocate, attorney or pleader.

219. If on the appearance of the person so informed against or, if his attendance is dispensed with, of his advocate, attorney or pleader, the Magistrate is not satisfied that there is occasion to bind over such person to keep the peace, or to be of good behaviour, the Magistrate shall direct his discharge.

220. If the Magistrate is satisfied that it is necessary for the preservation of the peace or the maintenance of good behaviour that such person shall execute a recognizance, the Magistrate shall make an order accordingly.

The penalty specified in every recognizance executed under this chapter shall be fixed with due regard to the circumstances of the case and the means of the person bound.

The penalty which the sureties shall be jointly and severally bound to discharge shall not exceed the penalty which the principal debtor is bound to discharge.

221. If a person required to furnish security under section 214 does not furnish the same, or offers sureties whom the Magistrate rejects, the proceedings shall be laid, as soon as conveniently may be, before the High Court.

Such Court, after examining such proceedings and requiring any further information or evidence which it thinks necessary, may pass such orders on the case as it thinks fit, provided that the period

222. Whenever security is required under this chapter, the amount of the security, the number and description of sureties, and the period of time for which the recognizance is to remain in force, shall be stated in the order, and the recognizance shall be in the form (H) or (I), as the case may be, given in the third schedule hereto annexed or to the like effect.

223. In the event of any person required to give security under the provisions of this chapter failing to furnish the security so required, he shall be committed to prison until he furnish the same:

Provided that no such person shall be kept in prison for a longer period than that for which the security has been required from him.

Imprisonment under this section may be rigorous or simple, as the High Court or Magistrate in each case directs.

224. If any person required under this chapter to enter into a recognizance is under sentence of imprisonment, he shall, on or after the expiration of his sentence, be brought up before the Magistrate for the purpose of entering into such recognizance.

225. A Presidency Magistrate may at any time release any person imprisoned for failing to furnish security for good behaviour, whether by his own order or that of his predecessor in office, provided that the Magistrate is of opinion that such person may be released without hazard to the community.

Whenever a Presidency Magistrate is of opinion that any person imprisoned for failing to furnish security for good behaviour, as ordered by the High Court, may be safely released without such security, such Magistrate shall make an immediate report of the case for the orders of the High Court.

226. A surety for the peaceable conduct or good behaviour of another person may at any time apply to a Presidency Magistrate to discharge his recognizance.

On such application being made, the Magistrate shall issue his summons or warrant requiring the person for whom such surety is bound to appear or be brought before him.

When such person appears or is brought before the Magistrate, such Magistrate shall discharge the recognizance of the surety, and shall order such person to give a fresh surety.

227. The commission, or attempt to commit, or Commission, &c., of the abetment of, any offence, a breach. whatever, and wherever it may be committed, is a breach of the recognizance.

228. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter has been forfeited, he shall record the grounds of such proof, and call upon the person bound by such recognizance to pay the penalty thereof, or to show cause why it should not be paid.

If sufficient cause be not shown and the penalty be not paid, the Magistrate shall proceed to recover the same by issuing a warrant for the at-

Such warrant may be executed within the local limits of the jurisdiction of the Magistrate who issued it; and it shall authorize the distress and sale of any moveable property belonging to the person so bound without such limits, when endorsed by the Magistrate of the District in which such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, the person so bound shall be liable to imprisonment by order of the Presidency Magistrate in the civil jail for a period not exceeding six months.

The penalty shall not be enforced until the person so bound has had an opportunity of showing cause against the enforcement, and until the breach of the condition of the recognizance has been proved.

229. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter by a surety has been forfeited, the Magistrate may give notice to the surety to pay the penalty to which he has thereby become liable, or to show cause why it should not be paid.

If no sufficient cause is shown, and such penalty is not paid, the Magistrate may proceed to recover the penalty from such surety in manner provided by the last preceding section.

And in case such penalty cannot be so recovered, the Magistrate may sentence the surety to imprisonment in the civil jail for a period not exceeding six months.

230. Any previous conviction of the person to be bound may, in proceedings under this chapter, be proved in the manner prescribed in section 151.

231. Proceedings under this chapter may be taken in any district in which the breach of the peace is apprehended, or in which an offence has been committed in breach of the bond, or in which the person whom it is desired to bind may be.

232. The provisions of this chapter relating to security for good behaviour do not apply to European British subjects in cases where they may be dealt with under the European Vagrancy Act, 1874.

CHAPTER XVII.—OF RESTORING POSSESSION OF IMMOVEABLE PROPERTY.

233. Whenever any person is convicted by a Presidency Magistrate of an offence attended with criminal force, and it appears to such Magistrate that, by such criminal force, any person has been dispossessed of any immoveable property, the Magistrate may order such person to be restored to possession.

No such order shall prejudice any right over such immoveable property which any person may be able to show in a civil suit.

CHAPTER XVIII.—OF THE MAINTENANCE OF WIVES AND FAMILIES.

234. If any person, having sufficient means, neglects or refuses to maintain his wife, or his legitimate or illegitimate child unable to maintain itself, a Presidency Magistrate may, upon due proof thereof by evidence, order such person to make a monthly allowance for the maintenance of his said wife, or child, or both, at such monthly rate not exceeding fifty rupees in the whole, as such Magistrate thinks fit,

Such allowance shall be payable from the date of the order.

If any person so ordered wilfully neglects to comply with the order, a Presidency Magistrate may, for every breach of the order, issue a warrant for levying the amount due in manner hereinbefore provided for levying fines; and may sentence such person, for each month's allowance remaining unpaid, to imprisonment for any term not exceeding one month:

Provided that, if such person offers to maintain his wife on condition of her living with him, and his wife refuses to live with him, such Magistrate may consider any grounds of refusal stated by such wife; and may make the order allowed by this section notwithstanding such offer, if he is satisfied that such person is living in adultery, or that he has habitually treated his wife with cruelty.

No wife shall be entitled to receive an allowance from her husband under this section, if she is living in adultery, or if, without any sufficient reason, she refuses to live with her husband, or if they are living separately by mutual consent.

235. On the application of any person receiving, or ordered to pay, a monthly allowance under the provisions of section 234, and on proof of a change in the circumstances of such person, his wife or child, the Magistrate may make such alteration in the allowance ordered as he thinks fit, provided the monthly rate of fifty rupees be not exceeded.

236. A copy of the order of maintenance shall be given without fee to the person in whose favour it is made, or to his guardian (if any); and such order shall be enforceable by any Magistrate in any place where the person against whom it is made may be, on such Magistrate being satisfied as to the identity of the parties and the non-payment of the allowance due.

PART IV.

CHAPTER XIX.—MISCELLANEOUS.

237. The procedure prescribed by this Act shall be followed, so far as it can be, in all miscellaneous criminal cases and proceedings which are instituted in any Presidency Magistrate's Court.

238. All offences against the provisions of any law for the time being in force relating to Railways, Telegraphs, the Post Office, and Arms and Ammunition may be enquired into by a Presidency Magistrate, and may be tried according to the provisions of this Act.

239. The powers conferred on a Presidency Magistrate by section 238 may be exercised whether the offence is stated to have been committed within the local limits of his jurisdiction or not; but such powers shall only be exercised if the witnesses necessary for the prosecution of the offender are to be found within such limits.

240. A Presidency Magistrate may, if he thinks fit, refer for the opinion of the High Court any question of law which may arise in the hearing of any case in which he has jurisdiction; or may give judgment in any such matter, subject to the decision of the High Court on such reference; and, pending such decision by the High Court, may either commit the accused person to

241. When a question has been so referred, the High Court shall pass such order thereon as it thinks fit, and shall cause a copy of such order to be sent to the Magistrate by whom the reference was made, who shall proceed to dispose of the case conformably to the said order.

The High Court may direct by whom the costs of the reference shall be paid.

242. Whenever any person causes a Police-officer to arrest another person, and whenever a complaint of any offence is made before any Presidency Magistrate,

if it appears to the Magistrate by whom the case is heard that there was no sufficient ground for causing such arrest or for making such complaint, the Magistrate may award such compensation, not exceeding fifty rupees, to be paid by the person so causing the arrest or making the complaint, to the person so arrested or complained against, for his loss of time and expenses in the matter, as the Magistrate thinks fit.

In such cases, if more persons than one are arrested or complained against, the Magistrate may, in like manner, award to each of them such compensation, not exceeding fifty rupees, as such Magistrate thinks fit.

All compensation awarded under this section may be recovered as if it were a fine.

243. When the inquiry or trial before any Presidency Magistrate is concluded, he may make such order as he thinks fit for the disposal of any moveable property produced before him regarding which any offence appears to have been committed.

EXPLANATION.—In this section the term 'property' includes not only such property as has been originally in the possession or under the control of any party, but also any property into or for which the same may have been converted or exchanged, and anything acquired by such conversion or exchange, whether immediately or otherwise.

244. If any property alleged to be stolen or fraudulently obtained, is in the custody of any Police-officer by virtue of any warrant of a Presidency Magistrate, or in prosecution of any complaint of an offence in regard to the obtaining thereof, and the person accused of such offence is not found, or has been summarily dealt with and discharged, or has been tried and acquitted,

or if such person has been tried and found guilty, but the property so in custody has not been included in the charge upon which he has been found guilty, or if any property has been seized by a Police-officer under section 160,

any Presidency Magistrate may make an order for the delivery of such property to the person appearing to be the rightful owner thereof; or, in case the owner cannot be ascertained, may make such order with respect to the property as the Magistrate thinks fit:

Provided that no such order shall bar the right of any person to sue the person to whom the property is delivered, and to recover such property from him, so that the suit be instituted within six months next after such order has been made.

245. Subject to any rules that may be made by the Local Government, Expenses of complain- with the previous sanction

payment, on the part of Government, of the reasonable expenses of any complainant or witness attending for the purpose of any trial under this Act.

246. Every person aware of the commission within the local limits of the jurisdiction of a Presidency Magistrate of any offence made punishable under sections 121, 121A, 122, 123, 124, 124A, 125, 126, 130, 302, 303, 304, 382, 392, 393, 394, 395, 396, 397, 398, 399, 402, 435, 436, 449, 450, 456, 457, 458, 459 or 460 of the Indian Penal Code, shall, in

the absence of reasonable excuse, the burthen of proving which shall lie upon such person, give information of the same to the nearest Police-officer or Presidency Magistrate.

247. Within such local limits every person is bound to assist a Presidency Magistrate or Police-officer demanding his aid

All persons to assist Magistrate and Police in certain cases. in the prevention of a breach of the peace, or in the suppression of a riot or an affray, or in the taking of any other person whom such Magistrate or Police-officer is authorized to arrest.

SCHEDULE II.

TABULAR STATEMENT OF OFFENCES.

(SEE SECTION 4.)

EXPLANATORY NOTES.—1st.—The entries in the second and sixth columns of the schedule, headed respectively "Offence" and "Punishment under the Indian Penal Code," are not intended as definitions of the offences and punishments described in the several corresponding sections of the Indian Penal Code, or even as abstracts of those sections, but merely as references to the subject of the section, the number of which is given in the first column.

2nd.—The term "Whether bailable or not," in column 5, is to be taken in connection with the provisions of sections 70 and 71 of this Act.

3rd.—The High Court may try an offence entered in column 7 as triable by a Magistrate.

4th.—The last part of the schedule, headed "Offences against other Laws," shall not be taken to alter or affect any special provision contained in such laws regarding the procedure to be followed in the case of offences made punishable thereby.

5th.—The direction in column 4 is meant to indicate to Presidency Magistrates the manner in which the discretion vested in them by sections 34 and 35 is commonly to be used.

I. SUITS. II. APPEALS. III. APPLICATIONS.

A Bill for the Limitation of Suits, and for other Purposes.

WHEREAS it is expedient to consolidate and amend the law relating to the limitation of suits, appeals and certain applications to Courts; And whereas it is also expedient to provide rules for acquiring by possession the ownership of easements and other property; It is hereby enacted as follows:—

PART I.

PRELIMINARY.

1. This Act may be called 'The Indian Limitation Act, 1877,' and shall come into force on the first day of July 1877.

It extends to the whole of British India; but nothing contained in sections two and three or in Parts II

and III applies—

- (a) to suits under the Indian Divorce Act, or
- (b) to suits under Madras Regulation VI of 1831.

2. Act No. IX of 1871 (*An Act for the Limitation of Suits and for other purposes*) shall be repealed.

But all references to such Act shall be read as if made to this Act; and nothing herein or in that Act contained shall be deemed to affect any title acquired under that Act or under any enactment thereby repealed.

And notwithstanding anything herein contained, any suit mentioned in No. 143, No. 144 or No. 145 of the schedule hereto annexed, may be brought within five years next after the said first day of July 1877, unless where the period prescribed for such suit by the said Act No. IX of 1871 shall have expired before the completion of the said five years.

3. In this Act, unless there be something repugnant in the subject or context—

'minor' means a person who has not completed his age of eighteen years:

'plaintiff' includes also any person from or through whom a plaintiff derives his right to sue:

'easement' includes also a right, not arising from contract, by which one person is entitled to remove and appropriate for his own profit any part of the soil belonging to another, or anything growing in,

or attached to, or subsisting upon, the land of another:

'bill of exchange' includes also a hundí:

'trustee' does not include a benámsdár, a mortgagee remaining in possession after the mortgage has been satisfied, or a wrong-doer in possession without title:

'suit' does not include an appeal or an application:

'registered' means duly registered under the law for the registration of documents in force at the time and place of executing the document referred to in the context:

'foreign country' means any country other than British India;

and nothing shall be deemed to be done in 'good faith' which is not done with due care and attention.

PART II.

LIMITATION OF SUITS, APPEALS AND APPLICATIONS.

4. Subject to the provisions contained in sections five to twenty-six (inclusive), Dismissal of suits, &c., after every suit instituted, appeal instituted, &c., after every suit instituted, appeal presented, and application made after the period of limitation prescribed therefor by the schedule hereto annexed, shall be dismissed, although limitation has not been set up as a defence.

Explanation.—A suit is instituted in ordinary cases when the plaint, stamped in accordance with the law for the time being in force, is presented to the proper officer: in the case of a pauper, when his application for leave to sue as a pauper is filed; and in the case of a claim against a company which is being wound up by the Court, when the claimant first sends in his claim to the official liquidator.

Illustrations.

(a).—A suit is instituted after the prescribed period of limitation. Limitation is not set up as a defence and judgment is given for the plaintiff. The defendant appeals. The appellate court must dismiss the suit.

(b).—An appeal presented after the prescribed period is admitted and registered. The appeal shall, nevertheless, be dismissed.

5. If the period of limitation prescribed for any suit, appeal or application expires on a day when the Court is closed, the suit, appeal or application may be instituted, presented or made on the day that the Court re-opens:

Any appeal or application for a review of judgment may be admitted after the period of limitation prescribed therefor, when the appellant or applicant satisfies the Court that he had sufficient cause for not presenting the appeal or making the application within such period.

6. When, by any law not mentioned in the schedule hereto annexed and now or hereafter to be in force in any part of British India, a period of limitation differing from that prescribed by this Act is specially prescribed for any suits, appeals or applications, nothing herein contained shall alter the period so prescribed.

And nothing herein contained shall affect the periods of limitation prescribed for appeals from, or applications to review, any decree, order or judgment of a High Court in the exercise of its original jurisdiction.

Legal Disability.

7. If a person entitled to sue be, at the time from which the period of limitation is to be reckoned, a minor, or insane, or an idiot, he may institute the suit within the same period after the disability has ceased, as would otherwise have been allowed from the time prescribed therefor in the third column of the schedule hereto annexed.

When he is at such time affected by two disabilities, or when before his disability has ceased he is affected by another disability, he may institute the suit within the same period after both disabilities have ceased as would otherwise have been allowed from the time so prescribed.

When his disability continues up to his death, his representative in interest may institute the suit within the same period after the death as would otherwise have been allowed from the time so prescribed.

When such representative is at the date of the death affected by any disability, the rules contained in the former part of this section shall apply.

Nothing in this section shall be deemed to extend, for more than three years from the cessation of the disability or the death of the person affected thereby, the period within which the suit must be brought.

Illustrations.

(a). The right to sue for the hire of a boat accrues to A during his minority. He attains majority four years after such accrual. He may institute his suit at any time within three years from the date of his attaining majority.

(b). A, to whom a right to sue for a legacy has accrued during his minority, attains majority eleven years after such accrual. A has, under the ordinary law, only one year remaining within which to sue. But under this section an extension of two years will be allowed him, making in all a period of three years from the date of his attaining majority, within which he may bring his suit.

(c). A right to sue accrues to Z during his minority. After the accrual, but while Z is still a minor, he becomes insane. Time runs against Z from the date when his insanity ceases.

(d). A right to sue accrues to X during his minority. X dies before attaining majority and is succeeded by Y his minor son. Time runs against Y from the date of his attaining majority.

(e). A right to sue for an hereditary office accrues to A, who at the time is insane. Six years after the accrual A recovers his reason. A has six years, under the ordinary law, from the date when his insanity ceased within which to institute a suit. No extension of time will be given him under this section.

(f). A right to sue as landlord to recover possession from a tenant accrues to A who is an idiot. A dies three years after the accrual, his idiocy continuing up to the date of his death. A's representative in interest has, under the ordinary law, nine years from the date of A's death within which to bring a suit. This section does not extend that time.

8. When one of several joint creditors or claimants is under any such disability, and when a discharge can be given without the concurrence of such person, time will run against them all: but where no such discharge can be given, time will not run as against any of them until they all are free from disability.

Illustrations.

(a) A incurs a debt to a firm of which B, C and D are partners. B is insane and C is a minor. D can give a discharge of the debt without the concurrence of B and C. Time runs against B, C and D.

(b) A incurs a debt to the same firm. B and C are insane, and D is a minor. Time will not run against any of them until they are all free from disability.

9. When once time has begun to run, no subsequent disability or inability to sue stops it:

Provided that where letters of administration to the estate of a creditor have been granted to his debtor, the running of the time prescribed for a suit to recover the debt shall be suspended while the administration continues.

10. Notwithstanding anything hereinbefore contained, no suit against a person in whom property has become vested in trust for any specific purpose, or against his representatives, for the purpose of following in his or their hands such property, shall be barred by any length of time.

Explanation.—A purchaser in good faith for value from a trustee is not his representative within the meaning of this section.

11. Suits in British India on contracts entered into in a foreign country are subject to the rules prescribed by this Act.

12. No foreign rule of limitations shall be a defence to a suit in British India on a contract entered into in a foreign country, unless the rule has extinguished the contract, and the parties were domiciled in such country during the period prescribed by such rule.

PART III.

COMPUTATION OF PERIOD OF LIMITATION.

13. In computing the period of limitation prescribed for any suit, the day on which the right to sue accrues shall be excluded.

In computing the period of limitation prescribed for an appeal, an application for leave to appeal as a pauper, an application to the High Court for the admission of a special appeal, and an application for a review of judgment, the day on which the judgment complained of was pronounced, and the time requisite for obtaining a copy of the decree, sentence or order appealed against or sought to be reviewed, shall be excluded.

In computing the period of limitation prescribed for an application to set aside an award, the time requisite for obtaining a copy of the award shall be excluded.

14. In computing the period of limitation prescribed for any suit, the time

Exclusion of time of defendant's absence from British India. during which the defendant has been absent from British India shall be excluded, unless service of a summons to appear and answer in the suit can, during such absence, be made under the Code of Civil Procedure, section 60.

15. In computing the period of limitation prescribed for any suit, the time

Exclusion of time of suing bond file in Court without jurisdiction. during which the plaintiff has been prosecuting with due diligence another suit, whether in a Court of first instance or in a Court of appeal, against the same defendant or some person whom he represents, shall be excluded, where the last-mentioned suit is founded upon the same cause of action, and is instituted in good faith in a Court which from defect of jurisdiction, or other cause of a like nature, is unable to try it.

In computing the period of limitation prescribed for any application, the time during which the applicant has been making another application for the same relief, shall be excluded, where the last-mentioned application is made in good faith to a Court which from defect of jurisdiction, or other cause of a like nature, is unable to grant it.

Like exclusion in case of application.

Explanation 1.—In excluding the time during which a former suit or application was pending or being made, the day on which that suit or application was instituted or made, and the day on which the proceedings therein ended, shall both be counted.

Explanation 2.—A plaintiff resisting an appeal presented on the ground of want of jurisdiction, shall be deemed to be prosecuting a suit within the meaning of this section.

16. In computing the period of limitation prescribed for any suit, the time

Exclusion of time during which commencement of suit is stayed by injunction. of which has been stayed by injunction or order, the time of the continuance of the injunction or order, shall be excluded.

In computing the period of limitation prescribed for a suit proceedings in which have been stayed by order under the Code of Civil Procedure, section 19, the interval between the institution of the suit and the date of so staying proceedings, and the time requisite for going from the Court in which proceedings are stayed to the Court in which the suit is re-instituted, shall be excluded.

Like exclusion in case of order under Civil Procedure Code, s. 19.

17. In computing the period of limitation prescribed for a suit for possession

Exclusion of time during which judgment-debtor sues to set aside execution sale. by a purchaser at a sale in execution of a decree, the time during which the judgment-debtor has been prosecuting a suit to set aside the sale, shall be excluded.

18. When a person who would, if he were living,

Effect of death before right to sue accrues. have a right to sue, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative in interest of the deceased capable of suing.

When a person against whom, if he were living, a right to sue would have accrued, dies before the right accrues, the period of limitation shall be computed from the time when there is a representative whom the plaintiff may sue.

Nothing in the former part of this section applies to suits for the possession of immoveable property or of an hereditary office.

19. When any person having a right to sue has, by means of fraud, been kept

Effect of fraud. from the knowledge of such right or of the title on which it is founded,

or where any document necessary to establish such right has been fraudulently concealed,

the time limited for commencing a suit,

(a) against the person guilty of the fraud or accessory thereto, or,

(b) against any person claiming through him otherwise than in good faith and for a valuable consideration,

shall be computed from the time when the fraud first became known to the person injuriously affected thereby, or, in the case of the concealed document, when he first had the means of producing it or compelling its production.

20. If a promise or acknowledgment in res-

Effect of acknowledgment in writing. spect of any property or right has been made in writing signed, either personally or

through a duly authorized agent, by the party against whom such property or right is claimed, or by some person through whom he derives title or liability, a new period of limitation, according to the nature of the original liability, shall be computed from the time when the promise or acknowledgment was so signed.

When the writing containing the promise or acknowledgment is undated, oral evidence may be given of the time when it was signed. But oral evidence of its contents shall not be received unless it has been destroyed wrongfully by the person on whom the promise or acknowledgment would be binding.

Explanation 1.—For the purposes of this section a promise or acknowledgment may be sufficient, though it omits to specify the exact nature of the property or right, or avers that the time for payment, delivery or performance has not yet come, or is accompanied by a refusal to pay, deliver or perform or is coupled with a claim to a set-off, or is addressed to any person other than the person entitled to the property or right:

but it must amount to a substantial acknowledgment of liability in respect of the property, or right in question.

Explanation 2.—Nothing in this section renders one of several partners or executors chargeable by reason only of a written promise or acknowledgment signed by another of them.

Illustrations.

Z, a bond-debtor, himself writes a letter promising to pay the debt to his creditor A. Z affixes his seal, but does not sign the letter:

Z pays part of the debt and promises orally to pay the rest:

Z publishes an advertisement, requesting his creditors to bring in their claims for examination:

In none of these cases is the debt taken out of the operation of this Act.

21. When interest on a debt or legacy is, before the expiration of the prescribed period, paid as such by the person liable to pay the debt or legacy, or by his agent generally or specially authorized in this behalf,

Effect of payment of interest as such.

or when part of the principal of a debt is, before the expiration of the prescribed period, paid by the debtor or by his agent generally or specially authorized in this behalf,

Effect of part-payment of principal.

a new period of limitation, according to the nature of the original liability, shall be computed from the time when the payment was made:

Provided that, in the case of part-payment of principal, the debt has arisen from a contract in writing and the fact of the payment appears in the hand-writing of the person making the same, on the instrument, or in his own books, or in the books of the creditor.

Where mortgaged land is in the possession of the mortgagee, the delivery and receipt of the produce of such land shall be deemed to be a payment for the purpose of this section.

22. When, after the institution of a suit, a new plaintiff or defendant is substituted or added, the suit shall, as regards him, be deemed to have been instituted when he was so made a party:

Provided that, when a plaintiff dies, and the suit is continued by his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted by the deceased plaintiff:

Provided also, that, when a defendant dies, and the suit is continued against his representatives in interest, it shall, as regards them, be deemed to have been instituted when it was instituted against the deceased defendant.

23. In the case of a suit for the breach of a contract, where there are successive breaches, a fresh right to sue arises, and a fresh period of limitation begins to run, upon every fresh breach; and where the breach is a continuing breach, a fresh right to sue arises, and a fresh period of limitation begins to run, at every moment of the time during which the breach continues.

Nothing in the former part of this section applies to suits for the breach of contracts for the payment of money by instalments, where, on default made in payment of one instalment, the whole becomes due.

Illustrations.

(a).—A contracts to pay an annuity to B for his life by quarterly instalments. A fails to pay any of the instalments. Here upon every fresh failure, a fresh right to sue arises and a fresh period of limitation begins to run; and this Act may bar the remedy on the earlier breaches without affecting the remedy on the later breaches.

(b).—A, a tenant, covenants with B, his landlord, to keep certain buildings in repair. At every moment of the time during which the buildings continue out

of repair and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

24. In the case of a continuing wrong independent of contract, a fresh right to sue arises, and a fresh period of limitation begins to run, at every moment of the time during which the wrong continues.

Illustration.

A diverts B's watercourse. At every moment of the time during which the diversion continues and B retains his right of entry, a fresh right to sue arises and a fresh period of limitation begins to run.

25. In the case of a suit for compensation for an act lawful in itself which becomes unlawful in case it causes damage, the period of limitation shall be computed from the time when the damage accrues.

Illustration.

A owns the surface of a field. B owns the subsoil. B digs coal thereout without causing any immediate apparent injury to the surface, but at last the surface subsides. The period of limitation runs from the time of the subsidence.

26. All instruments shall, for the purposes of this Act, be deemed to be made with reference to the Gregorian calendar.

Illustrations.

(a).—A Hindú makes a promissory note bearing a Native date only, and payable four months after date. The period of limitation applicable to a suit on the note runs from the expiry of four months after date computed according to the Gregorian calendar.

(b).—A Hindú makes a bond, bearing a Native date only, for the repayment of money within one year. The period of limitation applicable to a suit on the bond runs from the expiry of one year after date computed according to the Gregorian calendar.

PART IV.

ACQUISITION OF OWNERSHIP BY POSSESSION.

27. Where the access and use of light or air to and for any building have been peaceably enjoyed therewith, as an easement, and as of right, without interruption, and for twenty years,

and where any way or watercourse, or the use of any water, or any other easement (whether affirmative or negative) has been peaceably and openly enjoyed by any person claiming title thereto as an easement and as of right, without interruption, and for twenty years,

the right to such access and use of light or air, way, watercourse, use of water, or other easement, shall be absolute and indefeasible.

Each of the said periods of twenty years shall be taken to be a period ending within two years next before the institution of the suit wherein the claim to which such period relates is contested.

EXPLANATION.—Nothing is an interruption within the meaning of this section, unless where there is an actual discontinuance of the possession or enjoyment by reason of an obstruction by the act of some person other than the claimant, and unless such obstruction is submitted to or acquiesced

in for one year after the claimant has notice thereof and of the person making or authorizing the same to be made.

Illustrations.

(a).—A suit is brought in 1871 for obstructing a right of way. The defendant admits the obstruction but denies the right of way. The plaintiff proves that the right was peaceably and openly enjoyed by him, claiming title thereto as an easement and as of right, without interruption, from 1st January 1850 to 1st January 1870. The plaintiff is entitled to judgment.

(b).—In a like suit also brought in 1871 the plaintiff merely proves that he enjoyed the right in manner aforesaid from 1848 to 1868. The suit shall be dismissed, as no exercise of the right by actual user has been proved to have taken place within two years next before the institution of the suit.

(c).—In a like suit the plaintiff shows that the right was peaceably and openly enjoyed by him for twenty years. The defendant proves that the plaintiff on one occasion during the twenty years had asked his leave to enjoy the right. The suit shall be dismissed.

28. Provided that, when any land or water

Exclusion in favour of upon, over, or from which reversioner of servient any easement has been enjoyment.

enjoyed or derived has been held under or by virtue of any interest for life or any term of years exceeding three years from the granting thereof, the time of the enjoyment of such easement during the continuance of such interest or term, shall be excluded in the computation of the said last-mentioned period of twenty years, in case the claim is, within three years next

after the determination of such interest or term, resisted by the person entitled, on such determination, to the said land or water.

Illustration.

A sues for a declaration that he is entitled to a right of way over B's land. A proves that he has enjoyed the right for twenty-five years; but B shows that during ten of these years C, a deceased Hindú widow, had a life interest in the land, that on C's death B became entitled to the land, and that within two years after C's death he contested A's claim to the right. The suit must be dismissed, as A, with reference to the provisions of this section, has only proved enjoyment for fifteen years.

29. At the determination of the period hereby limited to any person for Extinguishment of instituting a suit for, possession of any property, his right to such property shall be extinguished.

30. Where a series of trespassers adverse to one Possession by successive trespassers. another and to the rightful owner of any immoveable property or hereditary office take and keep possession thereof for several periods each less than the period so limited, but collectively exceeding such period, the person who is in possession of such property or office when the title of the rightful owner is extinguished shall have a right to such possession.

Nothing in this section shall operate to bar any right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him.

Description of application.	Period of limitation.	Time when period begins to run.
170.—For the execution of any such decree or order of which a certified copy has been registered under the Indian Registration Act.	Six years	made against any one or more of them, or against his or their representatives, shall take effect against them all. <i>Explanation II.</i>—"proper Court" means the Court whose duty it is (whether under sections 227 or 228 of the Code of Civil Procedure or otherwise) to execute the decree or order. The date of the decree or order, or (where there has been an appeal) the date of the final decree or order of the Appellate Court, or (where there has been a review of judgment) the date of the decision passed on the review.
171.—To enforce a judgment, decree or order of any Court established by Royal Charter in the exercise of its ordinary original civil jurisdiction, or an order of Her Majesty in Council.	Twelve years	When a present right to enforce the judgment, decree or order accrued to some person capable of releasing the right: Provided that when the judgment, decree or order has been revived, or some part of the principal money secured thereby, or some interest on such money has been paid, or some acknowledgment of the right thereto has been given in writing, signed by the person liable to pay such principal or interest or his agent, to the person entitled thereto or his agent, the twelve years shall be computed from the date of such revivor, payment or acknowledgment, or the latest of such revivors, payments or acknowledgments, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

1. The Limitation Act (IX of 1871) contains, directly or indirectly, numerous references to the Code of Civil Procedure. And therefore the revision of the Code, which the Indian Legislature has resumed and hopes soon to complete, entails the revision of the Limitation Act.

2. The object of the present Bill is primarily to adapt the law of limitation to the revised Code; but the opportunity has been taken to make certain amendments which the experience of nearly six years has shown to be desirable. Of these the following are the principal:—

Preliminary.

3. Titles acquired under the old Limitation Act (XIV of 1859) or the present Act (IX of 1871) will be saved.

'Easement' is defined so as to include what is technically called a *profit à prendre*.

Limitation of Suits, Appeals and Applications.

4. Suits will not be 'instituted' for the purpose of the Act, unless the plaints are stamped in accordance with law.

5. Section 7 has been extended so as to provide for supervenient and successive disabilities.

Computation of Period of Limitation.

6. To section 15 has been added a clause providing for the exclusion of the time during which an applicant has been making a *bond fide* application in a Court unable to grant it.

7. Section 20 (as to the effect of acknowledgments in writing as to debts and legacies) has been extended to promises or acknowledgments in respect of any property or right, and oral evidence of the contents of the writing containing the promise or acknowledgment will not be receivable, unless it has been wrongfully destroyed by the person on whom the promise or acknowledgment would be binding.

8. Section 21 (as to the effect of payment of interest or part-payment of principal) has been made to comprise the case of delivery and receipt of the produce of mortgaged land in the possession of the mortgagee.

9. Section 24 (as to continuing nuisances) has been extended so as to cover all cases of continuing wrongs independent of contract.

Acquisition by Possession of the Ownership of Easements, Land and Hereditary Offices.

10. The exception as to light and air has been struck out of section 28 (as to exclusion in favour of the reversioner of the servient tenement). This exception complicates the law, and the reasons which led to a like exception in the English Prescription Act do not seem to apply to India.

11. Provision has been made in section 30 for the case of a series of trespassers adverse to one another and to the rightful owner of any land or hereditary office, taking and keeping possession thereof for several periods, each less than the period limited by the Act, but collectively exceeding that period. The rule adopted is that the person who is in possession when the title of the rightful owner is extinguished shall have a right to such possession. But the right to possession which any earlier trespasser may have against any later trespasser who has illegally dispossessed him is expressly saved.

The Schedule.

12. The time when the period fixed for the following suits begins to run has been altered as follows :—

No.

9. For the price of lodging.

22 (=23 of Act IX of 1871). For a malicious prosecution.

33 (=38 of Act IX). Against one who, having a right to use property for specific purposes, perverts it to other purposes.

46 (=47, 48, of Act IX). For specific moveable property lost or acquired by theft or dishonest misappropriation or conversion, or for damages for wrongfully taking or detaining the same.

47 (=26, 33, 34, 35 of Act IX). For other specific moveable property, or for compensation for taking or injuring or wrongfully detaining the same.

83 (=87 of Act IX). For the balance due on a mutual, open and current account, where there have been reciprocal demands between the parties.

87 (=90 of Act IX). By a principal against his agent for moveable property received by the latter and not accounted for.

88 (=91 of Act IX). Other suits by principals against agents for neglect or misconduct.

89 (=92 of Act IX). To cancel or set aside an instrument not otherwise provided for.

109 (=112 of Act IX). For a call by a company registered under any Statute or Act.

111 (=114 of Act IX). For the rescission of a contract.

122 (=125 of Act IX). By a Hindú governed by the law of the Mitákshará to set aside his father's alienation of ancestral property.

123 (=127 of Act IX). By a Hindú excluded from joint family property to enforce a right to share therein.

When the price becomes payable.

When the plaintiff is acquitted or the prosecution is otherwise terminated.

When the perversion first becomes known to the person injured thereby.

When the owner of the property first learns in whose possession it is.

When the property is wrongfully taken or injured, or when the detainer's possession becomes unlawful.

The latest date at which any item is entered in the account by or on behalf of the defendant.

When the account is demanded and refused, or the agency terminates, whichever first happens.

When the neglect or misconduct becomes known to the plaintiff.

When the facts entitling the plaintiff to have the instrument cancelled or set aside become known to him.

When the call is payable.

When the facts entitling the plaintiff to have the contract rescinded become known to him.

When the alienee takes possession of the property.

The date of the exclusion.

13. The period of limitation has been altered in the case of the following suits :—

No.

39 (= 11 of Act IX). For infringing copyright or any other exclusive privilege : from one year to three years.

46 (= 26 of Act IX). For taking or detaining lost or wrongfully acquired moveable property : from one year to three years.

47 (= 48, 49 of Act IX). For wrongfully detaining other moveable property : from two years to three years.

143 (= 148 of Act IX). Against a mortgagee to recover possession of immovable property mortgaged : from sixty years to thirty years. •

144 (= 149 of Act IX). In a Charter Court by a mortgagee to redeem : from sixty years to thirty years.

145. Suits in the name of the Secretary of State in Council : from sixty years to thirty years.

14. The following classes of suits have been specially provided for :—

No.

40. To restrain waste.

41. To compel a legatee to refund.

42. By a ward who has attained majority to set aside a sale by his guardian.

124. By a Hindú for a declaration of his right to maintenance.

15. The following eight applications have also been provided for :—

No.

151. For an order under section 258 of the Code of Civil Procedure [No. IV] compelling a decree-holder to certify payment or adjustment.

152. For dismissal of a suit on the ground of the plaintiff's bankruptcy or insolvency.

153. For leave to appear and defend a summary suit on a negotiable instrument.

154. For an order under section 629 of the Code of Civil Procedure [No. IV] restoring to the file a rejected application for review.

160. Under sections 364 and 366 of the same Code, by a person claiming to be the representative of a deceased plaintiff.

162. By a purchaser at an execution-sale to set aside the sale on the ground that the person whose interest in the property purported to be sold had no legally saleable interest therein.

166. For payment of the amount of a decree by instalments.

171. To enforce an order of Her Majesty in Council.

16. On the other hand the Bill omits as useless the following numbers of the schedule to Act IX of 1871 :—

73. By the endorsee of a bill or promissory note against the endorser.

79. By payee against drawer, when the bill has been dishonoured by non-acceptance and afterwards by non-payment.

146. For a declaration of right to an easement.

17. In Nos. 144 and 145, the Bill provides for acknowledgments signed by the agent of a depositary, pawnee, mortgagee or some person claiming under him.

18. Lastly, in No. 169 it explains, in accordance with decided cases, when an application to execute a decree passed in favour of, or against, several persons enures in favour of, or against, them all, and when in favour of, or against, only those by, or against, whom the application is made.

FINANCIAL STATEMENT FOR 1877-78.

**PART I.—SPEECH IN THE LEGISLATIVE COUNCIL OF HIS EXCELLENCY
THE VICEROY, BY THE HONORABLE SIR JOHN STRACHEY, K.C.S.I.**

MARCH 15TH, 1877.

MY LORD; For the first time since 1872, a Statement regarding the ^{Pre} Finances of British India is made before the public, and in this Council. During the last five years, no legislation has been proposed in connection with the Budget, and, under those circumstances, no Statement could have been made in the Legislative Council, without infringing the provisions of the Act of Parliament by which the Council was constituted: the Government is glad, on the present occasion, to be able to return to the practice which formerly prevailed.

I do not, however, propose to submit to the Council the whole of the details which explain the accounts of the Revenue and Expenditure and Receipts and Disbursements of 1875-76, and the Regular Estimates for 1876-77. They are more than usually voluminous; and it seemed desirable to keep them separate from my present Statement. The first year for which your Excellency as Viceroy is financially responsible, is now about to commence, and this is the first opportunity which I have myself had, since I assumed my present office, of stating the opinions which I have formed: the time is especially fitting for making the examination of our existing financial position, and of the operations of the past and the present year, as complete as possible: but I could not do this without entering into a mass of details, which, however valuable and interesting they may be, would be out of place, and sometimes hardly intelligible, in a statement made orally to this Council. I have, therefore, thrown them into a separate Minute: it has been published to-day, and it is now in the hands of the Members of the Council: in it I have endeavoured to give the fullest information in my power regarding the Accounts and Estimates of the two years which are now about to close. I propose to give to the Council a brief summary only of some of the main results which that Minute shows, and to confine myself now for the most part to an explanation of the Estimates of the coming year; to a statement of the facts necessary for a clear understanding of our present position; to noticing some of the more important principles by which the Government of your Excellency proposes to direct its future financial policy; and to describing the measures by which we hope to improve the existing condition of affairs: some of those measures will require the sanction of this Council.

I must, before going further, quote from my Minute an explanation ^{CHANGE} which is there given at greater length. "The Abstract Statements of the ^{FORM O} Accounts of the Revenue and Expenditure of 1875-76 and the Estimates of ^{COUNTS} 1876-77 and 1877-78 differ in form from the Statements prepared during the last seven years.

"From the 1st April 1871, the Government of Lord Mayo entrusted to the

Preliminary.

services, with Consolidated Allotments from the Imperial Revenues for their support, and the revenues connected with these services were, at the same time, surrendered for provincial uses. It was thought inexpedient to retain in the Imperial Accounts and Estimates the details of the revenue and expenditure thus made over to the Local Governments: accordingly, since 1871-72, these transferred Heads of Revenue and Expenditure have been excluded from the General Estimates and Accounts, the whole transactions respecting them being represented there by a single net entry under the head *Allotments for Provincial Services*. The details thus omitted have been published in subsidiary Statements, and each Local Government has given due publicity to its own Provincial Estimates and Accounts.

"The Government of India now sees reason to regret the method then employed, because, by this method, figures of interest and importance are relegated to subordinate Statements; the General Accounts and Estimates become incomplete; and the character of the arrangements between the Imperial and the Local Governments is not truly represented, nor their operation sufficiently illustrated. The Government of India has, therefore, resolved to re-introduce into the Imperial Accounts and Estimates all the details omitted therefrom since 1871-72. Thus, henceforth, any one desiring to ascertain the gross revenue and expenditure of British India, under the several recognised Heads of Account, will be able to do so from the General Accounts and Estimates. It seems to me that this will be an advantage, and that the re-combination of the Accounts of the Imperial and Provincial Governments into one Imperial Account, will make the whole more intelligible, and enable both the Government of India to control the Revenue and Expenditure, and the public to criticise the Accounts, more effectually than heretofore."

I have one more preliminary remark to make. I ask the attention of the Council to the observations made in my Minute, regarding the use of Pounds Sterling in our Accounts and Estimates: for the reasons there given, I came to the conclusion that it was better to state all the figures in Rupees; and I have done this in my detailed review of the Accounts of 1875-76 and of the Regular Estimates of 1876-77. In spite of the apparent inconsistency, I shall to-day usually speak to the Council of Pounds sterling, on the old assumption that the English pound is equal to ten rupees, because I shall thus make myself more readily intelligible to my audience; and, as the figures which I shall have to give will, for the most part, represent estimates only, exact accuracy is less important: it must, however, always be borne in mind that, when I speak of Pounds sterling, I am really using a conventional term of account, and that the Pound sterling of my Statement means ten rupees, a very different thing from the English pound.

ACCOUNTS, 1875-76.

The Accounts of 1875-76 show a surplus on the ordinary account of £1,668,882. If the extraordinary expenditure on Public Works be included, this surplus becomes a deficit of £2,601,740.

REGULAR ESTIMATES, 1876-77.

In 1876-77 a deficit is expected on the ordinary account of £2,278,300. Including the extraordinary expenditure, the deficit is £6,078,300. The result on the ordinary account is worse than the original estimate by £2,422,300. This is due to the famine in Madras and Bombay, which is now expected to cost in loss of revenue and in direct expenditure £5,250,000. Of this sum, £3,100,000 belong to 1876-77, and £2,150,000 to 1877-78. If there had been no famine, there would be a surplus on the ordinary account of £624,800 which exceeds the original estimate by £480,800.

Estimates, 1877-78.

I come now to the Estimates of *Revenue and Expenditure* in 1877-78, and the *Ways and Means* whereby it is proposed to make provision for the service of the year.

GENERAL ESTIMATES OF REVENUE AND EXPENDITURE, RECEIPTS AND DISBURSEMENTS, 1878.

We estimate that the Revenues of 1877-78 will amount to £52,192,700, and the Expenditure to £56,442,400. Thus we expect a Deficit in 1877-78 of £4,249,700, of which, however, £3,628,000 has been granted for the construction of Extraordinary Public Works. Excluding this outlay, we expect a Deficit on the Ordinary Account of £621,700. We estimate the cost of the Famine in 1877-78 at £2,150,000.

EFFECT OF FAMINE ON ESTIMATES, 1878.

Thus it appears, *prima facie*, that, but for the Famine, our Estimates would show a Surplus of £1,528,300. I am obliged, however, at once to dispel the flattering impression that might be gathered from this state-

ment, by the observation that one of the indirect consequences of the Estimates, Famine is the reduction of the entry under the adjusting Head *Loss by 1877-78. Exchange* by an amount which I cannot estimate at less than £700,000: *Revenue.* there would, however, be a set-off to this, if there were no Famine, in a lower charge for interest by perhaps £100,000: thus I am led to think that, but for the Famine, our Estimates, as they stand, would have shown a surplus of £928,300. But this really represents the facts in too favorable a light, because the Expenditure on Extraordinary Public Works includes a sum of £1,206,300 to be spent on works which will not be remunerative, and which, as I shall explain further on, ought, therefore, in my opinion, to be looked on as ordinary: if these charges had been so treated, the estimated Surplus of £928,300 would have been converted into a Deficit of £278,028. It will also be seen, immediately, that I am estimating Opium at net £250,000 more than it was estimated for the current year; and also that the causes of apprehension in regard to the value of silver are, unhappily, by no means removed.

Still, making all allowances, these general results are decidedly encouraging: the expenditure on unremunerative public works has never been hitherto treated as an Ordinary Charge; and it is highly satisfactory that the Estimates of the year should give us reason to believe that our income will not only cover the whole of the charges which have always been classed as Ordinary, but will go far towards paying for those great public works which, although required for the service of the Empire, are not expected to be directly profitable.

The Famine is, altogether, so serious a disturbing cause, that it seems hardly worth while to make general comparisons; however, I place together the Revenue and Expenditure of the three years as follows:—

	Revenues.	Expenditure.	Deficit.	Excluding Public Works Extraordinary.	Excluding Public Works Extraordinary and Famine
	£	£	£	£	£
1875-76	52,515,789	55,117,536	2,601,747	Surplus 1,668,882	Surplus 2,177,437
1876-77, Regular Estimate	51,206,700	57,285,000	6,078,300	Deficit 2,278,300	624,800
1877-78, First Estimate...	52,192,700	56,412,400	4,219,700	Deficit 621,700	928,300

I. Land Revenue, shows an improvement, compared with the Regular Estimates, of £934,500, but is still below the Original Estimates of 1876-77 by £441,400. Elsewhere than in *Madras* and *Bombay*, there is a small improvement of £3,300 compared with last year's Estimates: the loss, therefore, is entirely caused by the Famine, which is expected by the Local Governments to affect their Land Revenue adversely, in 1877-78, by £495,100. LAND REVENUE.

II. Tributes.—Compared with the present year's Original Estimates, the decrease is only £2,100, which is owing to the postponement of the Nawanagar Tribute in Bombay on account of the Famine. TRIBUTES.

III. Forest, shows a decrease of Revenue, compared with the Regular Estimates, of £32,800, and a decrease of charge amounting to £20,600: the decrease of Net Revenue is thus £12,200. It occurs in *Burmah*, where we cannot depend upon a continuance of the high Revenue of the present year. FORESTS.

IV. Excise.—The increase of Revenue (£74,200) is due partly to the arrangements made with Local Governments, which I shall presently describe, whereby an increase of £15,000 is guaranteed to the Imperial Treasury in *Bengal*, the *North-Western Provinces*, and *Oudh*; but chiefly to the expectation that the Excise Revenue will not suffer in 1877-78 from the Famine so much as it is expected to suffer in 1876-77: the increase compared with the Original Estimates of 1876-77 is only £36,700; which is not nearly equal to a full year's normal growth of the revenue under this Head. EXCISE.

VI. Customs.—The small increase of £17,700 is in *Burmah*, where the Revenue is, this year, unusually low, owing to the export of rice being late. CUSTOMS.

VII. Salt.—Following the usual custom, I do not propose to estimate any increase of Salt Revenue. SALT.

VIII. Opium.—The recent Estimates under this important Head have been for net round sums, as follows:— OPIUM.

	Millions.
1874-75	5½
1875-76	5¾
1876-77	6

The details of the Estimates have, in fact, been adjusted to the total Net

Revenue.

we shall receive at least (net) £6,250,000 in 1877-78; and I have entered this sum. I am aware that it is important to those engaged in the trade to know the number of chests of Bengal Opium that the Government intends to sell in future; and that, at the present moment, a peculiar interest attaches to the intentions of the Government, owing to the large reserve of 35,315* chests which it already possesses, with the prospect of another good crop this year.

OPIMUM RESERVE.

This reserve has been accumulated in the pursuit of a policy long ago deliberately adopted, the object of which was to enable the Government to make the supply of Bengal Opium to the market as far as possible steady, and independent of calamities of season. The great crop of 1876 has placed the Government in a position to obtain this object earlier than there was any reason to expect; and we have been, for some time past, engaged upon an enquiry what number of chests we can, hereafter, offer to the market without risk of failure and without objection in other ways. It has been, once again, satisfactorily ascertained by the independent testimony of the Revenue Officers, that the cultivation of the poppy is a source of prosperity to the agricultural population in Behar and the North-Western Provinces, and is popular with them, and that it does not tend to any objectionable consumption of the drug by them. But the enquiries necessary to enable the Government of India to determine its permanent policy are not quite completed; and I regret that I can say, at present, nothing more definite than that, in the calendar year 1878, the Government will certainly not sell less than 50,000, or more than 54,000 chests of Bengal opium. We shall not leave the market in uncertainty as to our intentions for a day longer than is absolutely necessary.

STAMPS.

XX. Stamps.—It is usual to estimate no increase under this Head, although a normal increase is to be expected: the increase of £32,400 which I enter to-day, is the consequence of the engagements with the Local Governments of *Bengal*, the *North-Western Provinces*, and *Oudh*, which I shall presently describe, and is guaranteed to the Imperial Treasury by these Governments.

MINT.

XI. Mint.—The net revenue from the Mints is estimated to be about the same as this year, the decreased receipts being counterbalanced by decreased charges.

POST OFFICE.

XI. Post Office shows an increase of Revenue, £22,100, and a rather larger increase of charge, £30,600: this occurs in England, and is chiefly for the manufacture of the half-anna envelopes, the popularity of which is so great that we have been unable to supply the demand for them: the Government of India was aware that the concession of a labelled envelope for the price of the label only was a substantial reduction of the rate of postage: we may be well satisfied with the complete success of this measure, which will, I doubt not, eventually affect the revenue favorably.

TELEGRAPH.

XII. Telegraph.—The provision for this Service is £180,000 net: the Telegraph Department would have been very glad of a larger grant; but we could not, under the circumstances of the year, supply it: it has been arranged, however, that if the Revenue should, as is not improbable, grow during the year, the excess may be added to the grant for expenditure; in other words, we have made a quasi-contract with the Department for a net grant of £180,000 for the year.

GAIN BY
EXCHANGE.

XIX. Gain by Exchange.—The decrease of £74,800 follows the decrease in the Revenue from the *Guaranteed Railways*, which I shall presently explain.

MISCELLANEOUS.

XX. Miscellaneous.—The Regular Estimate contains an item of £49,500 for premium on Government shares sold to the Bank of Bengal: this will not be repeated; sundry exceptional receipts in England also are not expected to recur: hence the decrease of £97,900 under this Head.

PUBLIC WORKS—
ORDINARY RE-
CEIPTS.

Public Works Ordinary Receipts.—Of the increase (£65,400) £18,000 is in consequence of a contract to supply the Great Indian Peninsula Railway with 36,000 tons of coal from the Warora Colliery at Rs. 5 a ton. The rest is in Bombay, the Government of which Presidency has reserved for Provincial purposes certain tolls on roads estimated to yield £53,348, which have hitherto been recorded under Local Funds.

IRRIGATION RE-
VENUE.

Irrigation.—The improvement of £50,900 under *Irrigation* is the ordinary growth of this source of Revenue.

Provincial Contributions are expected to produce £415,100 : of this, the sum of £374,700 is contributions from the Governments of Bengal (£274,700) and the North-Western Provinces (£100,000) in discharge of the responsibility which, as I shall presently explain, the Government of India is about to impose upon them for the interest on the capital expended on Extraordinary Public Works : the Balance (£40,400) is the estimated draft upon separate provincial Resources in support of the Services administered by the Local Governments.

Including a further grant of £25,000 to Burmah, the *Balances of the Local Governments* are expected to increase by the net sum of £69,100.

BALANCES OF

MENTS.

On the EXPENDITURE Side, the sum of £101,700 has been retrenched, as will presently be explained, from the Grants to be made over to the Governments of Bengal, the North-Western Provinces, and Oudh, for the additional Services to be entrusted to them. This retrenchment has been *pro forma* thus shown in the Estimates ; but the Local Government may redistribute it at their discretion—

TOTAL ...	59,000	35,400	7,300	101,700

Interest shows an increase of £235,800, which will be explained by the proposed loan operations of the year.

The satisfactory decrease of £26,500 under *Interest on other Accounts*, is owing to the relief obtained by the Treasury from the charge for interest upon the Guaranteed Railway Revenue Balances ; the Government of India had never admitted the right of the Companies to this interest : Her Majesty's Government have acknowledged the force of the arguments used by the Government of India ; and the Railway Companies have acquiesced in the withdrawal of the privilege. The charge was only real when the Companies earned surplus Revenue ; in other cases, it went to swell the Net Traffic Earnings made over to the Government of India towards meeting the *Guaranteed Interest*, and so diminished the net charge upon the Revenues for that item ; therefore, in its bearing upon the Estimates of the year, this saving must be taken in connection with the estimated charge for *Guaranteed Interest, less Net Traffic Receipts*, which must show some corresponding increase. The measure is, however, calculated to save at least £6,000 a year.

3. *Refunds and Drawbacks*.—The Imperial portion of this Grant is always fixed at £300,000 ; the increase of £15,000 is the amount necessary to make up this sum.

4. *Land Revenue*.—The decrease of £20,600 is owing to the completion of settlements, and the retrenchment of £5,000 in the North-Western Provinces.

8. *Salt*.—The increase of £32,200 is nominal, the decrease in 1876-77 having been casual : it occurs chiefly in *Madras*, to provide for petty construction and repairs omitted this year.

14. *Administration*.—The decrease of £36,000 is estimated in the hope that the expenditure in 1876-77 may prove to have been abnormally high : the amalgamation of Oudh and the North-West Provinces has caused some saving under this Head.

15. *Minor Departments*.—The excess of £9,500 is for Chinchona operations in Darjeeling.

16. *Law and Justice*.—The excess of £37,300 would have been £52,300 but for the retrenchments in Bengal and the North-Western Provinces : the excess is to some extent balanced by excess receipts (£34,400) : the remainder is for a large increase to the establishment of Law Officers in Bengal, the result of the recommendations of an influential Committee under the presidency of

Estimates, 1877-78.	our colleague Sir Arthur Hobhouse, which recommendations have been approved by the Secretary of State for India.
Expenditure.	17. <i>Police</i> .—The decrease of £22,400 under <i>Police</i> is owing to the <i>pro forma</i> exhibition under this Head of part of the retrenchment from the Government of Bengal: that Government may, possibly, effect the retrenchment in some other way.
POLICE.	18. <i>Marine</i> .—There is a decrease of £21,700, which is partly counterbalanced by a decrease of £6,700 under Receipts.
NAVY.	19. <i>Education</i> .—Including the grant for <i>Education</i> from Local Funds (net £274,000) the net expenditure on education is estimated at £913,400.
EDUCATION.	20. <i>Ecclesiastical</i> .—Adding the Grant under this Head in the <i>Army</i> Estimates, the total Grant for <i>Ecclesiastical Services</i> is £196,600.
ECCELESTIASTICAL.	21. <i>Medical</i> .—The increase of £6,500 is almost entirely in the Provincial portion of this Grant, and does not, therefore, require explanation: adding the Grants for <i>Medical Services</i> in the <i>Army</i> , net £324,300, and from Local Funds, net £93,500, the total estimated expenditure under this Head in 1877-78 is £1,016,400.
MEDICAL.	22. <i>Stationery and Printing</i> .—The excess of £19,000, notwithstanding the retrenchment of £5,000, is in the Provincial portion of the Grant; it is evident that the expenditure in 1876-77 has been unusually low.
STATIONERY AND PRINTING.	23. <i>Political Agencies</i> .—The expenditure connected with the assumption of the Imperial Title in 1876-77 explains the decrease of £137,100 in 1877-78. In the review of the Regular Estimates for the current year, in my separate Minute, I have shown that the total charges incurred throughout the whole of India on this account, under all heads, will probably not exceed £100,000: the exact net cost of the Delhi Assemblage cannot now be stated, but, according to an estimate lately made, it will be about £50,000: considering the great political importance of the event, I think that this expenditure was very moderate.
POLITICAL AGEN- CIES.	24. <i>Superannuations</i> .—The excess of £12,200 is for the most part in England, where the payments on account of the Military Funds and of the annuities of Covenanted Civil Servants are still increasing.
SUPERANNUATIONS.	25. <i>Loss by Exchange</i> .—I have already said that the large diminution under this Head is connected with the loan operations of the year. The estimate here is that the Secretary of State will raise 12½ millions Sterling by Bills for Rs. 13,85,00,000: any one can, of course, calculate that these figures involve an estimate that our Bills will yield 1s. 9-23d. the rupee; but it is uncertain how much will really be drawn; and the estimate is not intended to indicate that the Government expects that its remittances will be effected at any particular rate. Either by bills, or by borrowing, the Secretary of State must get £16,000,000 for the Home Treasury in 1877-78; and I cannot say, with certainty, how much he will raise by bills and how much by borrowing.
LOSS BY EXCHANGE.	The rate for the adjustment of transactions with the Imperial Government and of furlough allowances and family remittances during the year is fixed at 1s. 9½d.
ADJUSTING RATE, 1877-78.	26. <i>Miscellaneous</i> .—The expenditure on account of the visit of His Royal Highness the Prince of Wales, which is recorded in the Accounts of 1876-77, will be absent in 1877-78: this is the chief item of the decrease of £40,100 under this Head: the remainder is in the provincial portion of the Estimates.
MISCELLANEOUS.	<i>Famine Relief</i> .—Is expected to cost £486,000 less in 1877-78 than in 1876-77. I have given in my review of the Regular Estimates for 1876-77, in the Minute now before the Council, details showing the estimated charges for the famine in the current and in the coming year. The gross estimated cost is £3,735,400 in Madras and £1,809,700 in Bombay, making a total of £5,545,100, of which £2,209,100 is loss of revenue and excess cost of army supplies, and £3,336,000 is direct expenditure on measures of relief. Deducting the estimated addition to the earnings of the railways, consequent on the famine, the total estimated net cost of the famine is £5,250,000, of which 3,100,000 will fall on this year, and £2,150,000 on 1877-78.
FAMINE RELIEF.	The <i>Army</i> shows no improvement in 1877-78 as compared with 1876-77; but, on the contrary, an increase of net charge amounting to £49,500. The other items in the Statement which I have explained in the review of the Regular Estimates for 1876-77, in the Minute now before the Council, are,
ARMY.	

however, more favorable; and the true net cost of the Army, according to Estimates, that Statement, will be £145,907 less in 1877-78 than in 1876-77. I have entered at some length in that Minute into the question of Army expenditure, and have shown how extremely serious the question is.

Public Works Ordinary.—The decrease of £70,000, as will be apparent upon reference to the Table given in the review of the Regular Estimates, is partly nominal, and partly in the *Irrigation Grant*.

The entire Grants for expenditure on Public Works in India during 1877-78 aggregate £11,489,774, as follows:—

		At Home.	In India.	Total, converting Pounds into Rupees at the average rate of exchange for the year.

State Railways show a net improvement of £87,600, the Net Revenue of the year being estimated at £191,800, a satisfactory improvement: as I have shown in reviewing the Regular Estimates for 1876-77, the growth of the revenue from these lines is highly encouraging.

Land and Supervision.—Decrease, £13,200: this item must now diminish as the Guaranteed Railways approach completion: but the charge for supervision alone is upwards of £50,000.

The *Guaranteed Interest* payable by the Government is expected to increase by £580,700, and the Gain by Exchange to diminish by £74,300; altogether the Estimate for 1877-78 shows a burden of £610,700 in excess of that of 1876-77. The true burden is, as I have shown in my remarks upon the Regular Estimates, £1,392,496, and the true excess, owing to a more favorable estimate of exchange, only £413,260. Some portion of the decrease of the Net Traffic Earnings is nominal: the half-yearly Accounts of the Railway Companies are made up on the 30th June and 31st December, when any surplus found due to the Companies is paid to them: but the Finance and Revenue Accounts of the Government of India do not, in this respect, follow the contracts, but record the transactions of the financial year: thus the Estimates which I have presented for 1876-77 include all the earnings of the Railways to the 31st March 1877. Moreover, it takes some time to complete and audit the Accounts of the Railway Companies and to send them to England; and the surplus due to the Companies is not paid until they have been examined and accepted there. Thus it happens that the large surplus of £400,000 due to the Railway Companies in respect to the period embraced in our Regular Estimates will not be paid till next year, when it will appear in reduction of the Net Traffic Receipts recorded in the Finance Accounts of that year. The surplus payments recorded in the Finance Accounts in 1876-77 are estimated at £299,400, so that the Estimates of 1877-78 are adversely affected by this item to the extent of £100,600.

I beg to call the special attention of the Council and of the public to the facts and figures regarding these railways which are given in the review of the Regular Estimates for 1876-77 in my separate Minute; I will not repeat them here; but they possess the highest importance and interest; the increase in the traffic, the decrease in the working expenses, and the diminution of the burden imposed on the Revenues of the Empire, are most satisfactory; and I look upon the progress of these Railways as one of the most hopeful and important facts connected with the future of our finances.

Expenditure.

PUBLIC WORKS
EXTRAORDINARY.

The Delhi Assemblage is estimated to have added a sum of £90,000 to the Net Traffic Earnings of 1876-77, and lastly, the chief part of the Famine Traffic will, it is believed, fall into 1876-77.

Public Works Extraordinary.—The Grant is £3,628,0000, of which £128,000 is to cover a payment at Home postponed from 1876-77 to 1877-78: the effective Grant is thus only 3½ millions, of which £2,728,000 is for Railways, and £900,000 for Canals. We are most anxious not to check the progress of these beneficial works, and we shall be glad to grant a little more money in the course of the year, if we find ourselves in a position to do so. Of the present Grant of £3,628,000, £1,206,300 is for expenditure on the *Punjab Northern* and *Indus Valley* State Railways. There will still remain the sum of £1,487,800 to be spent before these Railways, which are not reproductive works (although we hope to reap a small revenue from them) are completed. The programme of State Railway construction operations during the year is as follows:—

	£		£
Rajputana line	... 150,000	Northern Bengal	... 290,300
Western Rajputana	... 100,000	Tirhoot	... 95,600
Neemuch	... 196,000	Rangoon	... 158,500
Holkar	... 100,000	Punjab Northern	... 272,500
Warda Valley	... 22,700	Indus Valley	... 933,800
Sindhia	... 205,400		

I am very glad that the Government is at last able to commence the important work of connecting the lines from Northern India and Rajputana with those of the Bombay Presidency, by Ahmedabad and Neemuch; and I trust that it may be found possible to push the work forward rapidly to completion.

IRRIGATION
WORKS.

The total grant for Irrigation Works in 1877-78 is as follows:—

		Grant, 1877-78.
		£
Ordinary		900,600
Extraordinary		900,000
TOTAL	...	1,800,600

Of the Ordinary grant £143,808 is to be spent on Works, £101,579 on Repairs, £342,292 on Maintenance, Conservancy Establishment, and Establishment for collection of revenue, and the balance on tools and plant and State expenditure on guaranteed Irrigation Works. The Extraordinary expenditure (£900,000) is to be incurred principally on the following projects:—

Ways and
Means, 1877-78.

I have now to explain the *Ways* and *Means* whereby it is proposed to make provision for the service of the year 1877-78: in doing so, I must invite attention to the Abstract Tables in the right-hand corner at foot of Statements IV, V, and VI, which contain the figures of which I have now to speak.

LIABILITIES.

I have stated that the Expenditure of the year is expected to exceed the Revenue by the sum of £4,249,700; £283,300 must be provided from the remaining Balances of the Military Funds to supply the difference between the subscriptions to the Funds recorded under XVIII, *Receipts in aid of Superannuation Allowances*, and the payments to the beneficiaries of the extinct Funds for which the State is now liable: £500,000 is required for *Loans to Native States and Public Bodies*, such as Municipal Corporations, Port Trusts, and the like: the *Guaranteed Railway Companies* will draw upon us for £618,900.

It is expected that the Balances of these Companies in our Treasuries on Ways and the 31st March will be only £421,000: it is satisfactory to observe that we now owe the Companies little; and that, in the course of a few months, we shall owe them nothing.

The *Deposit and Remittance Accounts* are estimated to result in the net withdrawal of £470,900 from the Public Treasury.

Lastly, we want the sum of £823,400 in order to raise our Balances to the lowest amount necessary for carrying on the service of the year. The Government of India is not responsible for the management of the Home Treasury by the Secretary of State in Council; but I remark that the transactions of that Treasury during the year are expected to end in a reduction of the Secretary of State's Balances by £136,900, leaving them at only £1,011,200. With reference to the large transactions of the Home Treasury (aggregating £34,000,000 a year), and to past experience, this amount cannot but be considered moderate.

The amount of the working balance that the Government of India ought to have at its credit or in its treasuries in India at the beginning of the financial year, has been the subject of frequent discussion: like the balances which any private individual keeps ready at his command, the amount which the Government of India requires must obviously depend upon the sum of its transactions and upon their geographical distribution, and upon various other considerations: if transactions are concentrated in one or two treasuries, a much smaller aggregate working balance will suffice than if they are spread over a multitude of treasuries scattered over vast distances.

The following Statement of the public Receipts and Disbursements since 1869-70 will be useful in an investigation of the proper amount of the working balance of the Government of India:—

There are in India 233 treasuries, besides 1,048 revenue sub-divisions of districts, at many of which there is some kind of a treasury, and besides out-lying treasure-chests.

A preponderating share of the land revenue is received in India in the spring; but the expenditure and the bills of the Home Government go on, more or less evenly, all the year round: the result of this peculiarity is that the balances of the Government in India, if not recruited by loans, or sustained by interruptions of the Secretary of State's drafts, subside rapidly from about June, till they reach their lowest point about the end of October, the balances at the end of which month may be expected to fall at least £3,000,000 below the balances at the end of March.

Having regard to the magnitude of the transactions at our Public Treasuries, (aggregating upwards of £200,000,000 a year), the vast extent of the territories administered by the Government of India, the numerous separate receptacles of public money scattered over the country, and the unequal distribution of the revenues over the year; remembering also the liability of the Government of India to sudden demands upon its treasury for war, famine, or other public necessities, and the scanty resources of the Indian money market, Lord

ays and
eans, 1877-78.

Northbrook's Government determined, a year ago, that it was only prudent to provide for balances at the end of the year aggregating £13,500,000 for ordinary purposes, besides a reserve which Lord Northbrook thought should be substantial: but, under the present financial pressure, we must put up with the inconvenience of a smaller balance, and I propose, therefore, to provide for a closing balance of only £12,500,000. Enquiries are now in progress as to the smallest working balance necessary in each Province: when these investigations are completed, and further experience is gained of the working of the Reserve Treasury, the Government of India will be in a position once more to consider what is the proper amount of balance, altogether, to provide at the beginning of each financial year.

CHARACTER OF
PUBLIC BALANCES.

Before leaving the subject of the balances of the Government of India, I wish to make a few remarks upon some of the misapprehensions that often prevail concerning them. Some people seem to suppose that the Government of India can spend money from the public balances without entering the transactions in the Public Accounts, and that these balances are a mysterious hoard from which we can help ourselves without the inconvenience of justifying or explaining our proceedings: others have gone the length of gravely proposing that the Government of India should credit its balances, or a slice of them, as revenue.

But there is really no mystery at all about these balances, which do not differ in character from the balances at credit of any private individual: not a rupee of public money can be spent, or is spent, which does not come from the public balances; and not a rupee can be taken from these balances without the fact being recorded and brought to account. The plain truth is, that the Accounts and Estimates which it is my duty to review and explain to-day, exist only for the purpose of recording what money has passed, or is expected to pass, into and out of these balances, and to explain and justify every addition to, and every reduction of, these balances: if the disbursements recorded in the Accounts of the year exceed the receipts, the balances are reduced; if the receipts exceed the disbursements, the balances are increased. Thus, by submitting to a reduction of the public balances, the Government of Lord Northbrook was able to pay some part of the cost of the Bengal famine, without borrowing; but this did not enable the Government to keep a single item of the expenditure out of the Public Accounts: it seems almost absurd that I should gravely say this; but the strange misconceptions that often appear seemed to demand some such explanation.

TOTAL LIABILITIES.

Our liabilities in excess of the produce of our revenues aggregate £6,946,200.

ASSETS

Of this sum we expect to receive £81,000 from the *Civil Service Funds*, £50,000 from *Savings Bank Deposits*, £139,700 *Surplus of Local Revenues*, and £175,500 from certain other deposits called *Sundry Obligations*, which include the Nizámat Stipend Fund, the Bahu Begam's Stipend Fund, and certain Guaranteed Railway Funds.

AMOUNT TO BE
BORROWED.

The balance is £6,500,000, and this is the net sum which I now estimate that we may have to borrow in the course of the year. I do not forget that the ten year debentures of 1867, the outstanding balance of which amounts to £458,100, are due and payable on the 1st June 1877; but I am not yet prepared to make any special announcement regarding them.

Of the net sum of £6,500,000 which the Government thus estimates that it may have to borrow in the course of the year, £250,000 is expected from His Highness the Maharájá Sindhiá for the Gwalior Railway: our present hypothesis is that of the residue, $3\frac{3}{4}$ millions sterling will be borrowed by the Secretary of State in England and $2\frac{1}{2}$ millions in India.

But I must here give an important warning: upon the face of the Statements Nos. IV, V, and VI will be found, for the first time, the following note—

GOVERNMENT
CANNOT PLEDGE
ITSELF IN REGARD
TO LOAN
OPERATIONS.

The estimates in this Statement of the amounts to be borrowed, and to be supplied to the Home Treasury by bills in 1877-78, are the best that can now be made; but they are subject to modification as the year goes on; the Government must not be understood to pledge itself that the Secretary of State in Council will raise by bills the exact amount stated; or that the exact amount stated will be borrowed during the year; or that it will be borrowed in India or in England, as the case may be.

This note is added under instructions from the Secretary of State. In order to make these *Estimates of Ways and Means* for the Service of the coming year, it is necessary to set down the amount that it is proposed to borrow, and to frame a hypothesis whether the money will be borrowed in India or in England: but the Government of India is not authorised to commit the Secretary of State to borrow or not to borrow any particular sum during the year: and it is not usually possible to communicate the prospects of the year to the Secretary of State with sufficient fullness to enable him to decide, finally, upon the proposals of the Government of India.

These important Statements must, therefore, be understood henceforth to be, so far as prospective loan operations are involved, only provisional forecasts; and must not be held in any way to commit the Government of India or the Secretary of State to borrow for the service of the year, either the particular sum set down, or in particular proportions in India and England.

Moreover, the Secretary of State for India can borrow no money in London without first obtaining authority from Parliament: and at the present moment he has no such authority, having exhausted the statutory powers granted to him on the occasion of the Bengal Famine. It is obviously quite impossible for the Government of India to say that Parliament will authorise the Secretary of State to borrow more money in London; and the Government of India is not even at liberty to pledge the Secretary of State to make application to Parliament for fresh powers to borrow. What I have said, therefore, must be distinctly understood as expressing only the views and intentions of the Government of India, and must not be construed as implicating the Secretary of State, or pledging him to any course of action. I am afraid that this will not be considered altogether satisfactory; but the Government of India is not now in a position to state more definitely how provision will be made for the service of the year.

The Government of India is fully alive to the importance of satisfying its requirements in India without resorting to the London market more than is absolutely necessary; and if, in the course of the year, circumstances should favor such an arrangement, and the Government of India is in a position to act upon its own judgment, a larger share of the whole amount than £2,500,000 may be offered to the market in India. On the other hand, the Governor General in Council will not, so far as the decision rests with him, submit to any unreasonable terms; and, if the conditions acceptable to the money market in India should appear too unfavorable, he will not hesitate to recommend to the Secretary of State to endeavour to obtain power to borrow in England as much more than 3½ millions sterling as is found to be really wanted.

Supposing that the Secretary of State borrows 3½ millions sterling in England, it will be necessary for him to raise by bills upon India 12¼ millions sterling. To effect this, it is calculated that he must sell bills for about 26½ lakhs of rupees a week throughout the year: the Government of India is accordingly authorised to announce that bills for 26½ lakhs of rupees will, according to present intentions, be offered for sale, weekly, during April and May.

I will begin what I have now to say to the Council with a brief review of the results of the financial administration of the last seven years, ending with 1875-76, the last year for which the Accounts are completed. I think that this will be useful in enabling us to form a correct judgment of our present position; and the period which I have taken is a convenient one, because, while it was one of general peace and prosperity, a serious famine occurred in it, and a large expenditure took place on unremunerative public works: the results of the seven years may be fairly assumed to contain few elements of a specially abnormal character. In saying this I do not forget the great expenditure on the Bengal famine; but, on the other hand, it must be remarked that, since this period of seven years closed, we have already to meet another famine which will not cost much less; nor have we any right to assume that we shall escape more easily in future.

The gross revenues during the seven years ending with 1875-76 aggregated £357,573,100, and the total expenditure amounted to £370,555,000. Thus the expenditure exceeded the revenues by £12,981,900.

Seven years'
Accounts.

EXAMINED.

During the seven years the sum of £19,654,000 was spent upon works classified as extraordinary, and £6,500,000 was spent from the imperial revenues, on the relief of the famine in Bengal.

Out of the sum spent on Extraordinary Public Works, £4,771,000 was expended on the construction of the Punjab Northern and Indus Valley State Railways. These railways belong to a class of works of which I shall again speak; they were not undertaken as reproductive works; and, although it is anticipated that they may yield a net return of 2 per cent. on their capital cost, I shall, in a review which I wish to be severe, exclude their cost from the extraordinary head of account, and treat it, as I think strictly speaking it ought to have been treated from the first, as ordinary expenditure. This correction will leave the sum of £14,883,700 as fairly representing extraordinary expenditure on reproductive public works; and, if there had been no famine, we should have been able to pay for the whole of these unremunerative works, and there would have been a surplus in the seven years, according to the Accounts as they are now constructed, of £8,401,700.

But, in order to obtain a true conception of the financial results of the seven years, some further adjustments are necessary; included in the Gross Revenues is the sum of £2,443,300 transferred from the Book Capital of the extinct Military Funds: great doubts are felt whether it is right to reckon these transfers as Revenue at all, unless, indeed, interest be charged *per contra* as if the Funds were still in existence; and, for my present purpose, I prefer to exclude them. I will also exclude the sum of £986,900 by which the financial results of the seven years are estimated to appear better than they really are, owing to the peculiar mode in which the sterling transactions of the Home Treasury are combined with the rupee transactions of the Indian Treasuries.

If these two disturbing causes be eliminated, the true financial result of the seven years, including the cost of unremunerative public works, and excluding the cost of famine relief, would be a surplus of £4,971,500. But it has to be remembered that during the same period, the income tax, which has ceased to be one of our sources of revenue, yielded, net, £4,364,900: if, therefore, there had been no income tax, there would have been a surplus of £606,500, after meeting the charges for unremunerative public works, but excluding the charges for famine.

Another consideration favourable to the finance of these seven years deserves mention: we accumulated a reserve stock of 35,315 chests of Bengal opium, the cost of which will be recovered in future years, with the profit or revenue yielded at auction: the cost of these 35,315 chests may be reckoned at £1,412,600, of which about £850,000 is included in the recorded expenditure of 1869 to 1876.

On the other hand, a substantial benefit accrued to the revenues upon the redemption, on the 30th April 1874, of the capital stock of the East India Company. The Sinking Fund created by Act 3 and 4, William IV, Cap. 85, Sec. 12, amounted, on that date, to £7,876,439, and its appropriation towards the redemption of the stock relieved the Revenues from the payment of about £315,000 a year.

Upon the whole, it may be said that this retrospect is satisfactory. From the 1st April 1869 to the 31st March 1876, not only was no addition made to the debt of the country, except for reproductive works, but a substantial portion of the money invested for these works was really provided from current revenue.

If we look at details, we shall find further encouragement: the growth of the Net Revenue under its main Heads was as follows:—

TABLE.

NET REVENUE.

	1869-70.	1875-76.	Improvement.
	£	£	£
Land Revenue	19,603,000	20,142,800	539,800

Total	37,586,100	39,666,400	2,080,300

The Net Yearly Imperial Expenditure during the same period was as follows:—

						Seven years' Accounts.
Civil, except Famine Relief.	Famine Relief.	Military.	Grand Total.	Total, excluding Famine Relief.	Total, excluding Loss by Exchange.	
£	£	£	£	£	£	NET EXPENDIT

Thus the net revenue increased during the seven years by more than £2,000,000, or at the average rate of nearly £300,000 a year, while the net expenditure, excluding famine relief, showed no tendency to increase at all, and was actually less in 1875-76 than in 1869-70. Excluding also *Loss by Exchange*, an element which may be said to be practically altogether beyond our control, the net expenditure in 1875-76 was less than the net expenditure in 1869-70, by £2,254,400, of which about £1,000,000 was in the Army, and the rest in the Civil Department: I wish to call special attention to this fact, for it is very important and very encouraging, and reflects great credit on the past administration of our finances.

Notwithstanding the large amount borrowed during this period, the net charge for *Interest* rose only from Rs. 4,60,67,220 in 1869-70, to Rs. 4,61,69,190 in 1875-76. This favourable result is due to the redemption of the East India Company's Stock already explained; to various successful operations for the reduction of the rate of interest on our Loans; and to the progress of the investment of the Reserve of the Paper Currency Department.

I think that the facts and figures which I have given for these seven years* show that the finances were administered during this period with great care, economy, and success: I look upon them as highly honourable to the Governments Lord Mayo and Lord Northbrook, and to my predecessors Sir Richard Temple and Sir William Muir: nor must I omit to give due credit to Mr. Chapman, who, during the whole of this period, was Financial Secretary, and who, fortunately for the Government and for me, still holds that post. It is not now my object to enter into a detailed review of the Financial Administration of past years; but if I were to do so, I might say much more to show the extreme care with which it has been directed. It must be remembered, also, that during this period considerable reductions in taxation were effected; besides the abolition of the Income Tax, which for my own part I regret, the Customs Tariff was revised, and some of its most objectionable features removed: a great portion of the duties on exports have been swept away; the general rate of import duty has been reduced from 7½ to 5 per cent.; and the whole of the tariff valuations have been carefully corrected.

It is no doubt very encouraging to find that since 1869-70 we should have paid our way so well: we must not, however, deceive ourselves into supposing that the facts which I have stated prove that the Finances are in a condition which leaves nothing to be desired: it ought clearly to be understood that, if such charges as those for famine and for unremunerative public works cannot be provided out of the ordinary revenues, the state of our finances must be unsound.

* The following abstract shows how Ways and Means were provided for the Public Service during these seven years. It will be seen that besides the *Deficit of Imperial Revenue*, Rs. 12,98,20,550, we had to find Rs. 1,52,03,280 for the several *Service Funds*, Rs. 5,20,04,100 for *Loans to Native States and Public Bodies* (including Rs. 2,01,27,802 for the purchase from the Bombay Port Trust of the Elphinstone Company's Property), and Rs. 1,66,20,930 for the *Guaranteed Railways*. Moreover, we raised the *Balances in our Treasuries at Home and in India* from Rs. 13,20,17,840 by Rs. 4,67,06,090 to Rs. 17,87,23,930. Thus altogether our obligations in excess of our Revenues amounted to Rs. 26,03,54,950. Of this amount, the *Surplus of Provincial and Local Revenues* yielded Rs. 51,96,530. *Savings Bank Deposits* supplied Rs. 88,28,280; the net result of the *Deposit and Remittance* transactions was in our favour by Rs. 1,79,07,790 (chiefly repayments by Her Majesty's Government of advances made in India for the Abyssinian Expedition), and we borrowed Rs. 22,84,22,350.

present Financial Condition.

These questions are so serious that I wish to refer to them before going further; for, unless we have clear conceptions regarding them, it will be impossible to understand what our financial position really is.

MINE AN ORDINARY CHARGE.

It cannot be too distinctly stated that charges for the relief of famine must be looked upon as ordinary charges; they are so shown in the Accounts of the present year, and in the Estimates now before the Council; and they were shown in the same way for the Bengal famine by the Government of Lord Northbrook. In the Financial Statement for 1874-75, Lord Northbrook showed very clearly that, whatever means we may take to obviate or mitigate these calamities, famines cannot, under present circumstances, be looked upon as occurrences of an extraordinary character; he said that, in the ten years which had elapsed before 1874, there had been three serious famines in India—the Orissa famine in 1866, the famine in Northern India in 1869, and the famine in Behar in 1874. We have now, unhappily, to add a fourth to the list, that from which a vast tract of country is now suffering, and which will, I fear, prove a not less serious calamity than those which preceded it. Such being the facts with which we have to deal, we cannot, as Lord Northbrook stated, safely depend upon loans for meeting the charges on account of famine. "It is necessary," he said, "that, besides a fair surplus of income over ordinary expenditure, such a margin should be provided, in addition, in ordinary times, as shall constitute a reasonable provision for meeting occasional expenditure upon famines:" if this condition, he said, were fulfilled, and a sufficient surplus secured in years of prosperity, deficit might be endured with less objection in occasional years of adversity. The Government of India, it was stated, had, therefore, resolved to use its best endeavours to maintain for the future a considerable surplus of income over ordinary expenditure, and thus to make provision beforehand for any calls which were likely to arise on account of famines. This resolution on the part of the Government was undoubtedly wise; but, since the charges for unremunerative public works cannot rightly be excluded, the conditions laid down in 1875 have not, in my judgment, been fulfilled: and considering that we have lost the income tax, it is impossible to anticipate that they will be fulfilled in future, unless we take some further steps for ensuring a larger surplus of income over ordinary expenditure.

UNREMUNERATIVE PUBLIC WORKS SHOULD BE EXTRAORDINARY.

I must now mention the other great Head of expenditure regarding which, if we wish to form a correct idea of our real financial position, it is essential that there should be no misunderstanding: I refer to those great public works undertaken to meet the political and military necessities of the empire, but which are not expected to be directly remunerative.

As an illustration of the kind of works to which I now refer, I will take the railways already mentioned, which are under construction in the Punjab and on the Sindh Frontier: these works will doubtless be very beneficial to the country through which they pass; but they are not undertaken on such grounds as this, but because they are considered, for political and military reasons, to be essential to the service of the Empire; there is no profession that they will be directly remunerative; and, if we have borrowed money for them, we have done so simply because it was held impossible to construct them in any other way; such works cannot properly be called Extraordinary in the technical sense in which we now use that term. They differ only in magnitude, and not in kind, from the works which we pay for out of the ordinary revenues, such as barracks, or fortifications, or other works which involve a heavy outlay and give no direct return. I am afraid that it can hardly be denied that the system which has hitherto been followed, under which these necessary, but not directly remunerative works have been mixed up with works which we expect to be directly profitable, has tended to make us less chary in spending money, than we should have been if the expenditure had been shown, as the famine expenditure is shown, among the ordinary charges of the year: our public Accounts ought to give a complete statement of the actual facts of our financial position, with no reservations or evasions, however unpleasant the appearance of the facts may be.

I wish it had now been practicable to remove altogether from the Extraordinary head of account all the works of the class which I have

been describing: it has, however, been decided that we cannot now do this, and that we had better not attempt to correct past errors of classification: for the future, it has been resolved, in communication with the Secretary of State, that no work shall, under any circumstances, be classed as Extraordinary, unless we are satisfied that it will yield a net income sufficient to cover the interest upon its capital cost: it has also been decided, in respect to future works, that, if a work has been classed as Extraordinary, and it be ascertained, subsequently, that the estimates of profit were fallacious, any further expenditure upon it shall not be treated as Extraordinary, but entered among the ordinary charges. I think, for my own part, that there is very much to be said in favour of the view that we might, with propriety, go much further, and do away with all distinction between Ordinary and Extraordinary expenditure: this would involve no change in our policy; we should still borrow money for useful works; and, although our Budget Statements might usually close with the announcement of a deficit instead of a surplus, and would have a less agreeable appearance, the deficits would have no more real or serious existence than they have now: this, however, is a matter which I need not now discuss: the decision which I have now stated, and on which the Government is resolved to act, will, at any rate, place matters on a sounder basis in future.

The figures which I have given show that, during the past seven years, we should have just managed, after meeting all charges for unremunerative Public Works, to bring our expenditure within our income, if there had been no income-tax and no famine: but we cannot omit famine from our calculations; and we have now no income-tax: it therefore follows, judging by the experience of these seven years, that our ordinary revenues are just sufficient to meet all ordinary charges excepting those for the relief of famine, for which we may consider that no provision is now made: I think that the estimates of the current and coming years tend to confirm this general conclusion.

LARGER MARGIN OF
SURPLUS WANTED.

What, therefore, we now have to do, is to establish a sufficient margin of annual income over ordinary expenditure, to enable us to meet with certainty not only the charges for famine relief, according to the principle laid down by Lord Northbrook, and charges for unremunerative public works, but for other demands which cannot be foreseen, but which will inevitably occur: this is the more important because, in India, we have, under present circumstances, almost no means, such as those which can always be applied in England for temporarily increasing the public income to meet a temporary necessity.

Our financial position also requires improvement to enable us to carry out measures necessary for the regular progress and better administration of the country: there are administrative improvements which are very necessary; and, above all, there are urgent fiscal reforms, closely affecting the economical and commercial interests of India, which, for want of means, have hitherto been hardly touched. It is easy to give illustrations of my meaning: there are the duties on cotton goods, of which I shall have to speak again; and, independently of them, I do not think that any one will maintain that our Customs Tariff is in a satisfactory condition. Then, there are the Inland Sugar duties, to which also I shall refer again presently: six years ago I heard them called, in this Council, the most discreditable relic of the dark ages of taxation that exists in India: every one agrees in this judgment; but the Sugar duties still exist. Take, again, the system under which we levy our Salt revenue in Northern India: no one denies that it is a positive disgrace to a civilized Government; but it remains unaltered. The time is perhaps hardly come for talking of the repayment of debt as a practical object to be aimed at, or for hoping that we may be able to dispense with borrowing even for reproductive public works: for works which are not reproductive we ought not, except under the pressure of extreme necessity, to borrow a sixpence: the increase of debt is so serious an evil, that we must strive to reduce our borrowing to a minimum even for remunerative works, and provide as much money as possible for them from ordinary revenues; so always that we do not allow this determination to check the progress of necessary great works of public improvement, or to interfere with the execution of great fiscal reforms such as those which I have mentioned.

FISCAL REFORMS
URGENTLY
WANTED.

Present Financial Condition.

UNCERTAINTY OF VALUE OF SILVER.

There is another matter which obviously has a most important bearing on this subject—the question of the future value of silver: I am afraid that we cannot, with any confidence, expect to avoid serious loss hereafter from disturbances in the relative values of the precious metals; and no one can now measure the future deranging effect upon our finances of these disturbances. In connection with this subject, I must mention the great importance of sparing no efforts to prevent the increase of the sum which we have to pay annually in England in gold. I have referred to this subject in my separate Minute, and have said that, although I do not now wish to give opinions in regard to the measures, if any, which ought to be adopted, the subject is receiving, and will continue to receive, all the attention which the Government can give it.

In asserting that our financial position must be improved, I by no means desire to see the improvement pushed to an extreme: I wish for no such surplus of income over expenditure as would involve the necessity of imposing heavy burdens on the country or might tempt the Government to launch out into extravagancies: I ask, only, for such a reasonable margin on the right side of the account, as will enable us to pay our way honestly, to avoid increasing the burden of debt, and to carry out, at a reasonable and moderate rate, necessary measures of administrative and economical progress.

DESIRED IMPROVEMENT CANNOT BE EFFECTED THIS YEAR.

Now it is certain that we cannot bring about in the coming year any such improvement as I desire: with famine in a large part of India it is obvious that no time could be so inopportune as the present, not only for imposing fresh burdens on the people who are suffering, but even for measures involving serious administrative changes: we could not, at such a time as this, ask the Governments of Madras or Bombay even to undertake the examination of new financial schemes: all that we can now attempt is to lay down, as fully as we can, the principles by which the Government of India intends to be guided, and to take such steps as may be practicable for carrying out our programme in those provinces which are in a prosperous condition.

The only means by which the necessary improvement in our financial position can be gained are fresh taxation, or reduction of expenditure, or increased productiveness of existing sources of revenue, or a combination of these means.

NO NEW IMPERIAL TAXATION.

It will be understood, from what I have already said, that I have no measures to propose at present for the imposition of any general taxation: it may be a cause of special relief to some of my audience to learn that the rumours which we have heard from time to time about the re-imposition of an income-tax have no foundation. As to the income-tax, I freely confess that I regretted its disappearance; but there has been no thought of restoring it. The Government is obliged to propose some other taxation, of which I shall speak further on.

PROVINCIAL TAXATION.

REDUCTION OF EXPENDITURE.

MILITARY EXPENDITURE.

In regard to reduction of expenditure, the only head under which there has, lately, been any serious increase of charge is the Army; I have mentioned this in the Minute now before the Council as a cause of grave anxiety, over which the Government of India has comparatively little control: in regard to the possibility of future reductions of Military Expenditure, all I can say is that the Government of India will do everything that it properly can do to effect them. It is only in the great Imperial Services that we can now hope to see much done in this direction; for there is comparatively little room for saving on the ordinary charges of the Civil Administration carried on, for the most part, by the Local Governments: we have, however, every reason to believe that, under the system of provincial assignments established in 1871, and which we are now further developing, these charges will bring no fresh burdens in future on the Imperial Treasury; and the actual reductions of Imperial Expenditure, for which we are able to take credit in our Estimates for the coming year, in consequence of the extension of that system, are, as I shall presently show, not unimportant.

IMPROVEMENT OF EXISTING REVENUES.

I believe that much may be done to increase the productiveness of existing sources of income, and I will explain the measures by which the Government hopes that this may be effected.

We all remember the schemes which a great Englishman put forth, some twenty years ago, for the better government of India. He told us, with an

eloquence which he alone possesses, of the folly of supposing that so vast a country, with its twenty different nations and its twenty languages, could ever be bound up into a single State. "What you want," he said, "is to decentralize your Government: what would be thought if the whole of Europe were under one Governor who knew only the language of the Feejee Islands?" Now, much as I respect Mr. Bright—and no one has a sincerer respect for him than I have—I am not going to defend the projects by which he would have abolished the Governor-General-in-Council and would have established half a dozen separate Governments in India, having no connection with each other, and each of them directly subordinate to the Secretary of State at home: I believe that, sooner or later, the result of such a plan, if it were put in operation, would be the destruction of our Indian Empire; and I am not one of those people, who unfortunately are not wanting now-a-days, who can look with complacency on such a prospect; nor will I accept it as even a possible contingency.

If there be one thing more essential than another in India, it is, in my opinion, a strong Central Government; and I utterly disbelieve that we can ever get such a Government out of India itself. Nevertheless, there was a basis of truth and wisdom in Mr. Bright's proposals: it is, in many respects, quite true that what we want is to decentralize our Government; although I dislike the term decentralize, because it conveys to many people the false notion that we desire to diminish the central authority of the Supreme Government: on the contrary, we desire to see that authority increased, and made the strongest possible reality; and I am convinced that we can only maintain true imperial control by refusing to meddle with details which the local authorities can alone understand and with which they alone can intelligently deal: no Government, whether it be Imperial or Provincial, can ever really deserve to be called strong, unless it be conducted on these principles.

As Your Excellency told us the other day, on a very different occasion from this, we have been far too much disposed to disregard the fact that India is no homogeneous country, but a continent containing many nations, the differences between which are at least as great as those which exist between the nations of Europe: it is farther from Lahore to Calcutta than from London to Naples; and, wide as the difference is between England and Italy, there is probably far less difference between those two countries in all their physical conditions, and far less difference between their inhabitants, than there is between the Punjab and Bengal. Nor is it at all true that our existing Indian Provinces are merely artificial divisions: there are, no doubt, varieties of race and language and customs to be found within a single Province; but Bengal, Madras, Bombay, the North-Western Provinces, and the Punjab have, nevertheless, each of them, a fairly well-defined and distinct character.

I believe that the views which I have now been stating, and which Your Excellency has, on more than one occasion, publicly declared, are especially true in regard to measures of taxation and finance; we should think it very unreasonable to suppose that the same plans of taxation and financial administration are applicable to all the countries of Europe; and it is just as unreasonable to suppose that the same plans are applicable throughout India; a system which may be excellent in one Province may be as bad as possible in another.

Now, the Government is not so foolish as to imagine that there is any essential distinction between provincial and imperial taxation, or between provincial and imperial expenditure: when we talk of throwing upon the Local Governments new responsibilities for increasing the public revenues; or of relieving our finances by making provincial certain obligations which have hitherto been imperial; we are not so ostrich-like, or so dishonest, as to imagine or to profess, that, by any juggle of names, we can alter the nature of new taxation and make it less burdensome to the people; or that the actual expenditure of the Empire is diminished, when we say that charges for certain classes of works, which have hitherto been imperial, shall henceforth be provincial; indeed, in the Accounts as now remodelled, no distinction whatever is made between imperial and provincial revenue and expenditure. I have, nevertheless, a strong conviction that decentralization, leading, as I believe it, infallibly, will do, to improved administration, will bring about a great increase in the productiveness of existing sources of revenue, great diminution of the evils of fresh taxation if fresh taxation becomes necessary, and great economy in expenditure.

CENTRAL GOVERNMENT MUST BE STRONG.

NO DISTINCTION BETWEEN IMPERIAL AND PROVINCIAL TAXATION.

DECENTRALIZATION.

Lord Mayo's
Measure, 1870.

In regard to expenditure, an important step was taken by Lord Mayo six years ago. I will ask Your Excellency, although I am afraid I have no better object than that of saving myself a little additional trouble which would be entailed by explaining my views over again to the Council, to allow me to read a passage from an old paper of my own, in which I endeavoured to describe the reasons for the measures taken by the Government of India in 1870: a clear conception of those reasons is essential to the proper understanding of the plans which are now proposed.

QUOTATION FROM
SIR JOHN
STRACHY'S
MINUTE ON LORD
MAYO'S ADMINIS-
TRATION.

"Under the system which Lord Mayo found in force when he became Viceroy, the Local Governments, which practically carry on the whole administration of the country, had almost no powers of financial control over the affairs of their respective provinces, and no financial responsibility: everything was rigorously centralized in the Supreme Government, which took upon itself in detail the provision of funds for every branch of the public service throughout India. The business of supervising in a central office all the details of the receipts and expenditure of the empire had become so enormous, that its proper performance was impossible: 'I do not think,' wrote Sir Henry Maine in 1867, 'that anybody can have observed the recent workings of our system of financial control, without coming to the conclusion that, if it be not on the point of an inevitable collapse, it is, at all events, in great danger of going to pieces unless the strain be lightened somewhere.'

"For many years before Lord Mayo became Viceroy, the ordinary financial condition of India had been one of chronic deficit; and one of the main causes of this state of affairs was the impossibility of resisting the constantly increasing demands of the Local Governments for the means of providing every kind of improvement in the administration of their respective Provinces: their demands were practically unlimited, because there was almost no limit to their legitimate wants: the Local Governments had no means of knowing the measure by which their annual demands upon the Government of India ought to be regulated: they had a purse to draw upon of unlimited, because unknown, depth; they saw, on every side, the necessity for improvements; and their constant and justifiable desire was to obtain for their own Provinces and people as large a share as they could persuade the Government of India to give them out of the general revenues of the empire; they found by experience that the less economy they practised, and the more importunate their demands, the more likely they were to persuade the Government of India of the urgency of their requirements: in representing those requirements, they felt that they did what was right; and they left to the Government of India, which had taken the task upon itself, the responsibility of refusing to provide the necessary means.

"The Government of India had totally failed to check the constant demands for increased expenditure: there was only one remedy—to prevent the demands being made; and this could only be done by imposing on the Local Governments a real and effectual responsibility for maintaining equilibrium in their local finances: there could be no standard of economy until apparent requirements were made absolutely dependent upon known available means: it was impossible for either the Supreme or Local Governments to say what portion of the Provincial revenues was properly applicable to local wants: the revenues of the whole of India went into a common Fund, and to determine how much of this Fund ought fairly to be given to one Province and how much to another, was impracticable. 'The distribution of the public income,' General Strachey wrote, 'degenerates into something like a scramble, in which the most violent has the advantage, with very little attention to reason: as local economy leads to no local advantage, the stimulus to avoid waste is reduced to a minimum: so, as no local growth of the income leads to an increase of the local means of improvement, the interest in developing the public revenues is also brought down to the lowest level.'

"The unsatisfactory condition of the financial relations between the Supreme and the Local Governments led to still more serious evils: constant differences of opinion about petty details of expenditure, and constant interference of the Government of India in matters of trivial importance, brought with them, as a necessary consequence, frequent conflicts with the Local Governments regarding questions of provincial administration, of which they were the best judges, and of which the Government of India could know little: the relations between the Supreme and Local Governments were altogether inharmonious; and every attempt to make financial control more stringent, increased an antagonism, the mischief of which was felt throughout the public service.

"To Lord Mayo belongs the honour of applying the only effectual remedy for these serious evils: he resolved to give to the Local Governments the economical standard which they required; to make over to them a certain income by which they must regulate their local expenditure; and to leave to them, subject to certain general rules and conditions, the responsibility of managing their own local affairs.

"From the commencement of the official year 1871-72 the financial control of the following services was transferred to the Local Governments: Jails, Police, Education, Registration, Medical Services, Printing, Roads, and Civil Buildings.

"The views of Lord Mayo were stated by himself in the Legislative Council on the 18th March 1871, as follows:—'Under these eight heads it is proposed to entrust the administration, under a few general conditions, to the Provincial Governments, and a fixed contribution will be made from Imperial Revenue every year. * * It is impossible to prophesy or say, at present, what can be done in the far future; but I should be misleading the Local Governments if I were not to say that it is our opinion that these sums are now fixed at an

amount which cannot be exceeded for at least a number of years: I think it desirable that this should be perfectly understood; because one of our objects is the attainment of as great an amount of financial certainty as is possible. * * But, in addition to the increased power of administration which it is proposed to give to the Local Governments, an administrative change will take place, which I think they will be able to exercise with advantage: they will have a large sum to devote to local objects; the power of allotment will be left absolutely to them; and they will be able to vary their grants for roads, civil buildings, education, and other heads, from year to year, as they may think most desirable; in some Provinces it may be desirable in one year to spend a larger sum on roads; in others it may be desirable to fill up some shortcomings with regard to education or other objects. The Local Governments will thus be able to exercise that power of allotment with much greater satisfaction to themselves and to the public, than they did under the old system, when they were obliged to consult the Supreme Government, not only as to the allotments that were made in the beginning of the year, but also with regard to any appropriations that were thought desirable within the year, provided that those appropriations exceeded a certain amount.

* * I have heard it stated that, by the proposals which we make, there may arise a separation of interests between the Supreme and Local Governments; I fail to perceive any strength whatever in this assertion: I believe that, so far from there being a separation of interests, the increased feeling of responsibility and the feeling of confidence which is reposed in them will unite and bind together the Supreme and Local Governments to a greater extent than before. * * I believe that we shall see, in place of greater uncertainty, greater certainty; we shall see works and objects carried on with more vigour, enthusiasm, and with less hesitation, when these works and these objects are effected under the immediate responsibility of those who are most interested in them.

“The gross sum made over to the Provincial Governments for these services, and some few others transferred since the scheme was first introduced, amounted, including receipts given up, to about £5,600,000.”

After nearly six years' experience, we can confidently say that the results of the new system have been thoroughly satisfactory. Objections have been made to some of the details; and Local Governments have often said that the change did not go nearly far enough; but, in regard to the main principle and the general success of the new arrangements, I believe that neither the Government of India nor any Local Government has ever felt a doubt. Every object with which the change of system was made has more or less been gained: the old friction between the Supreme and Local Governments has been greatly diminished; the authority of the Supreme Government and its powers of general control, instead of being weakened, have become stronger and more real, since the attempt to interfere in all sorts of petty details was abandoned; the Local Governments have been able to carry out many measures of improvement which would otherwise have been impracticable; and, so far as I know, there has not been a single counterbalancing disadvantage.

The most important object of all, so far as the Imperial finances are concerned, that of economy and preventing increase of expenditure, has been completely gained, as I think the following figures will show. The charges which were made over to the Provincial Governments were selected because they were especially liable to increase. In 1863-64 the net expenditure for the services afterwards transferred to the Provincial Government was £5,112,000; and, during the four following years, it continued to rise, until in 1868-69 it amounted to £6,030,000; in 1869-70 it was nearly the same, but a little less. In 1870-71, before the new system was introduced, a determined and successful effort was made by Lord Mayo's Government to reduce the charges which had been growing at so alarming a rate; and they fell, in that year, to £5,197,000. The new system of which I have been speaking was then introduced; and, after it had worked for five years, the result, in 1875-76, was that the charges for the assigned services were £5,305,000: there was practically no increase of expenditure; the total charges were only about £200,000 more than they were in 1863-64; they were less by £700,000 than they were in 1868-69. It is true, as I have just shown, that the great reduction took place before the change was actually made; but, if we may judge from what had happened before, the demands of the Local Governments for larger grants to carry out administrative improvements would certainly have gone on increasing; and I believe they would have been as irresistible as before.

I will not take up the time of the Council with details showing the manner in which the charges for each of the assigned services have varied; but it may

be said generally that there has been no growth of expenditure under any heads, excepting *Education* and *Medical*: these charges, which were £158,000 in 1863-64, and £909,000 in 1870-71, rose to £1,007,000 in 1875-76: in other words, the people have got more Schools, and Hospitals, and Dispensaries, although less money has been spent on Jails and Police. The financial results of the new system have, thus, been entirely satisfactory; the constantly recurring demands, and the consequent embittering controversies between the Supreme and Local Governments have ceased; and, I repeat, that, not only has all this been attained without any sacrifice of financial authority on the part of the Government of India, but there can be no question that this authority is stronger and more efficient than before. From the time in which the new system was introduced until now, I do not believe that one single authority who has seen how it has worked has expressed anything but confident approval of the principles on which it was based.

AL TAXATION.

When the measures of 1870 were taken, there was a great deal of talk about local taxation; and it was loudly asserted that new burdens were being imposed on the country which were none the less serious for being called local. There was no foundation for this statement, nor did the Local Governments obtain any powers of taxation beyond those which they previously possessed: the truth is that, excepting in the Punjab and Oudh, where new rates for local purposes were imposed on land by Acts of the Imperial Legislature, and to a very small extent in Bombay, the measures of 1870 led to no fresh taxation whatever. The estimated revenue, throughout the whole of India, from local taxes, rates, and cesses in 1877-78 is only £2,233,000.

The weak point in those measures was this, that, while they transferred to the Local Governments the responsibility for meeting charges which had an undoubted tendency to increase, the income of which the Local Governments had to dispose, although not quite a fixed amount, had little room for development: the difficulty has perhaps not, hitherto, been generally felt to a serious extent, because it has been met by economy and good management: it must, however, be felt hereafter; and, for this and for still more important reasons, I have always maintained that the system of Provincial Assignments established in 1871 ought to be applied not only to expenditure but to income. What we have to do is, not to give to the Local Governments fresh powers of taxation, but, on the contrary, to do all that we can to render fresh taxation unnecessary, and to give to those Governments direct inducements to improve those sources of existing revenue which depend for their productiveness on good administration.

ANSFER OF
VENUES.

ICISE AND
AMPS REVENUES.

I will take as an example the two great heads of income, Excise and Stamps (including the items under Law and Justice hitherto reserved as Imperial Revenue), which are estimated to yield together, this year, net, £5,393,800. The whole of this goes into the Imperial Treasury: the increase or decrease in the receipts depends entirely, in the long run, on good or bad management; and bad management means the wasteful throwing away of revenue without any relief to the country. The administration, although centralized in the Government of India, has to be carried on by the officers of the Local Governments, and I doubt whether there is a single Province in which great improvement in the administration is not possible: throughout a large part of India the evasion of the Excise and Stamp duties is notorious; and, although I will make no guesses about the amount of revenue which we are thus losing, my belief is that it is very large. I have a strong conviction of the financial importance of this matter; and the importance is not merely financial, if I am right in believing that better administration would give us a large additional revenue of a thoroughly unobjectionable character, without the country feeling that any new burdens had been imposed upon it.

URRENDER OF
REVENUES TO
LOCAL GOVERN-
MENTS.

How is this better administration to be obtained? The answer seems to me simple: it can be obtained in one way only; not by any action which gentlemen of the Financial Department, or any other Department of the Supreme Government, can take while sitting hundreds or thousands of miles away in their offices in Calcutta or Simla; not by examining figures and writing circulars; but by giving to the Local Governments, which have in their hands the actual working of these great branches of the revenue, a direct and, so to speak, a personal interest in efficient management. It may

be very wrong, but it is true, and will continue to be true while human nature remains what it is, that the local authorities take little interest in looking after the financial affairs of that abstraction, the Supreme Government, compared with the interest which they take in matters which immediately affect the people whom they have to govern. When Local Governments feel that good administration of the Excise and Stamps and other branches of revenue will give to them, and not only to the Government of India, increased income and increased means of carrying out the improvements which they have at heart, then, and not till then, we shall get the good administration which we desire; and with it, I am satisfied, we shall obtain a stronger and more real power of control on the part of the Central Government than we can now exercise.

CENTRAL
AUTHORITY NOT
WEAKENED.

We have not yet been able to work out in detail all the arrangements for carrying out this policy; and it is only with the Governments of Bengal, the North-Western Provinces, and Oudh, that it has hitherto been possible even to communicate officially on the subject. Although there will be nothing in the proposed measures requiring legislation, their importance is so great that I will give to the Council some account of the plans which have been, in all points of importance, settled with the complete and cordial concurrence of the Local Governments which I have named.

Arrangements

Governments
about income
and ordinary
expenditure.

I will explain first the measures taken for the North-Western Provinces. We propose to transfer to the Local Government the Revenues derived from Excise, Stamps, Law and Justice, Collections from the Tarai and Bhábar and Dúdhiestates, and some miscellaneous items: the total amount which the Local Government will make good to the Imperial revenues on these accounts will be £698,400: this sum exceeds by £4,700 the amount estimated to have been actually received in the present year. The most important of the revenues transferred are Excise, Stamps, and the hitherto reserved revenues under Law and Justice: the net revenue assigned under these heads is £640,600; and the transfer has been made subject to certain conditions. These sources of revenue have gone on pretty steadily increasing throughout India; and it is not proposed to surrender to the Local Governments any part of that normal growth of income which might have been expected to continue if no change of system had been made. On the other hand, while we desire that the Local Governments shall share largely in any increase of revenue to which their own improved administration may lead, it is evidently reasonable and necessary that the Imperial revenues should share in this increase also. In the North-Western Provinces, however, these particular sources of revenue have grown less, and fluctuated more, than elsewhere, and it is proposed that, for the two next years, the Local Government shall pay to the Imperial Treasury one-half of any net increase which may result under its management, the Government of India undertaking on its part to bear half of any deficit: two years hence, the arrangement will be open to revision. If there should be any new legislation intended to increase or reduce any of the assigned revenues, the amount due to the Imperial Treasury will have to be reconsidered.

SERVICES
TRANSFERRED TO
MANAGEMENT AND
RESPONSIBILITY OF
GOVERNMENT OF
N. W. PROVINCES.

The reasons for the reservation will, in most cases, be self-evident; and I need not trouble the Council with them: I will only say, in regard to one of the heads, "Forests," that the question remains to be considered whether this ought not also to be transferred to local management. The amount provided for these reserved services in the Estimates of 1877-78 is altogether £396,100.

The principal remaining services are Land Revenue, Excise, Stamps, Administration, Stationery, and Law and Justice. These and some others were estimated to cost, in 1877-78, £736,300: the existing provincial allotment for Police, Jails, Education, and the other services transferred under the arrangements of 1870, is £651,100: the total charges for which the Local Government will be responsible amounts, therefore, to £1,387,400. The Local Government, however, is satisfied that it can undertake those services with a somewhat smaller consolidated grant; and the sum of £35,400 will, therefore, be deducted from the total assignment, and will be a saving to the Imperial Treasury, leaving as the net amount to be actually granted £1,352,000. The revenues made over being £698,400, the net expenditure from the reserved Imperial revenues will be £653,600: subject to the conditions on which the transfer is made, the Local Governments will be entitled to add to its Balance in the Imperial Treasury any sum by which the provincial income in any year exceeds the provincial expenditure, and must, on the other hand, make good any sum by which that expenditure exceeds the income.

CONDITIONS OF
TRANSFER.

It will be incumbent upon the Local Government, in managing its finances, never to exhaust the Balance at its credit with the Government of India; the Government of India will not accept any Estimates or allow any transactions which involve the expenditure of more money than is at credit of the Local Government in the Imperial Treasury; and it will be the duty of the Accountant General, on behalf of the Government of India, to take care that this condition is never infringed; to enable the Government of India to enforce this condition, the Local Government, when submitting its yearly estimates, will always state its opening Balance, and the effect thereon of the estimates presented. Subject to this condition, and to the other rules and restrictions which have been laid down, the Local Government may spend at its own discretion the funds placed at its disposal. I need not describe these rules and restrictions in detail; but the most important of them provide that, without the previous sanction of the Government of India, no fresh taxation can be imposed, or any change made in any system of revenue management; no new general service can be undertaken; no appointment with pay exceeding Rs. 250 a month can be created, or reduced, or abolished; and no class or grade of officers can be created or abolished or its pay altered; that no standing order or rule of the Supreme Government shall be changed, and that returns and accounts shall be submitted in the forms prescribed. Full power is reserved to the Supreme Government to modify, add to, or repeal any of these restrictions and conditions. The liberty of action thus conceded will not affect the duty of the Local Government to keep the Governor General in Council, in the several Departments, fully informed of its executive and financial proceedings: the Government of India will continue to exercise its general powers of supervision and control in all Departments; but it will, as far as possible, avoid interference with the details of the local administration, and everything which might lead to embarrassment of the provincial finances.

BENGAL AND
ODDH.

I will not take up the time of the Council by describing in detail the arrangements made for carrying out a similar change of system in Bengal and in Oudh, because they are, in all matters of principle, similar to those adopted in the North-Western Provinces. The scale, however, of the whole settlement with Bengal is much larger; the exact figures are not yet quite fixed; but the total amount of the revenue surrendered in 1877-78 for provincial uses will not be less than £1,910,000, and the total expenditure transferred for the same year will not be less than £2,430,000. A retrenchment of £59,000 from the existing grants has been made, with the consent of the Local Government; and the existing Imperial expenditure will consequently be reduced by this sum.

Altogether, the immediate saving to the Imperial Treasury by the arrangements entered into with Bengal, the North-Western Provinces, and Oudh, is

£101,700, besides the guarantee of normal increments to the transferred revenues, Arrangements amounting to £41,000: the estimates of the year are thus better by £145,700 with Local Government than they otherwise would have been. I hope that when it becomes possible to enter into similar arrangements in other Provinces, equally satisfactory results may be obtained.

vernments
about Extra-
ordinary
Expenditure.

The measures of which I have hitherto spoken will, we confidently hope, lead to improvement in administration, to economy in expenditure, and to increase of revenue, while they involve no fresh taxation. There are other measures, closely connected with them, which the Government proposes to adopt, which cannot, I am sorry to say, be carried into effect without an increase to existing burdens, an increase which, although it involves no fresh imperial taxation, will not, on that account, be less real. We propose, so far as it may be practicable, to make each Local Government responsible not only for the management of many of the great public works which we are constructing with borrowed money, but for meeting the charges which these works entail.

Extraordinary
Works.
LOCAL GOVERN-
MENTS TO GUA-
RANTEE INTEREST
ON EXTRAORDIN-
ARY EXPENDITURE.

I must now refer to the system under which our so-called Extraordinary public works are carried on.

SYSTEM OF EXTRA-
ORDINARY EXPEN-
DITURE.

No one is more alive than I am to the importance of providing the railways and works of irrigation which India requires; and, for my own part, nothing would induce me to support a policy which interfered with their progress. Our railways have, in my opinion, been constructed on a scale more expensive than was necessary, and the system of guaranteeing interest on the capital expended has led to extravagance: I believe that the money which has been actually spent on our railways would have been sufficient, if it had been spent in a more economical way, to cover India with a net-work of railway communication sufficient for all the commercial and political requirements of the country, if not for all the luxuries of locomotion: but it is easy to be wise after the event; the Government of the day had practically to choose between having these expensive railways, and having none at all; and its choice was perfectly right. Although the system of borrowing under which India has had to pay for these works has entailed very serious burdens, the benefit which they have conferred upon the country has been literally incalculable: I will say nothing of the enormous increase of wealth and prosperity which they have given us; I will only ask you to reflect on what would, at this moment, be happening through a vast extent of country in Western and Southern India if we had no railways: but for them, the people would probably be now dying of starvation by hundreds of thousands; and it would have been beyond the power of the Government to save them, if it had devoted to the task all the resources of the Empire. With such facts as these, and those which I have narrated regarding these railways in my review of the Regular Estimates, staring us in the face, the statements which we sometimes hear that these works ought not to have been constructed with borrowed money, and that we ought to have waited until we could provide the necessary funds from the surplus resources of the year, seem to me to deserve no serious consideration.

IMPORTANCE OF
RAILWAYS AND
CANALS.

VALUE OF GUAR-
ANTEED RAILWAYS

We may say the same of the great works of irrigation: the works already in operation have enormously enriched great tracts of country, and have provided for many millions of people security against famine: no one who has seen, for example, as I have, the irrigated districts of the North-Western Provinces, and who remembers what they were before the canals were constructed, can doubt the priceless value of the benefits which they have conferred. I will not now enter into the causes, arising, in my opinion, mainly from defective systems of financial management, which, in many instances, have prevented these great and admirable works from giving as speedy and as large direct returns as they ought to have given; but I have no doubt that these causes are removable.

AND OF CANALS.

Although the value of our railways and canals is so immense, and the necessity of going on with their construction so obvious, I have always felt that the system under which we are incurring, on this account, a heavy load of debt is attended with very serious evils; and I hope that it will not be imagined

that in proposing the changes of policy of which I am about to speak, the Government intends to relax the stringency of the rules which the Secretary of State and the Government of India have prescribed in regard to the construction of public works with borrowed money: we desire, on the contrary, to make these rules more stringent, and to obtain more complete security that, except under special circumstances, and for the necessary protection of great imperial interests, no money shall be borrowed for any works in respect of which we cannot say, with certainty, that the direct receipts will, at the very least, cover the interest on the capital expended.

The system under which our so-called Extraordinary works are now carried on was described in the Resolutions of the Government of India in the Public Works Department, published in July 1873 and in June 1875: the conclusion arrived at by the Government of India in the former of these Resolutions was that we might continue, without fear of financial embarrassment, to borrow annually a sum of $4\frac{1}{2}$ millions sterling for the extension of Railways and Irrigation works in India. The grounds of this belief were stated in the Resolution of 1875, in the following words:—

“In the year 1872-73, after deducting the net receipts derived from works in operation, there remained a sum of £2,378,140 charged to revenue for the interest of money borrowed, whether directly by Government or indirectly through Guaranteed Companies, for the construction of reproductive public works: the term reproductive is meant to imply, not that all these works are likely to be in themselves remunerative as an investment of capital, but that their effect will be to add to the general wealth of the country. The condition of the finances was such as to satisfy the Government of India that a similar charge of £2,378,140 might be met in future years without increased taxation. As works under progress are completed, and as those lately completed are brought into fuller work, fresh receipts will come in: some increase is also to be expected from old works: in the forecast of 1873 the rate of expenditure upon works in progress and new works was so adjusted for five years, that the estimated additional annual charge upon revenue for the interest of money to be borrowed should be met by the estimated additional receipts, and no increased annual charge upon revenue should be incurred.”

The Resolution goes on to say that the forecast of 1873 had been more than justified by the facts; but that it was deemed expedient to limit to four millions sterling, the annual outlay on reproductive public works classed as extraordinary, for the prosecution of which money might be borrowed,

“New tables,” the Resolution continues, “have been prepared on this basis; they include the operations of 1872-73 and 1873-74 taken from the accounts of actual outlay, and those of 1874-75 taken from the Regular Estimates; the operations for 1875-76 are taken from the Budget Estimate, and those of the following four years from the best estimate that can be formed of probable operations. The new forecast extends to the financial year 1879-80; the excess of interest charges over net receipts is estimated to decrease from £2,357,696, the actual charge in 1872-73, to £1,939,803 in 1879-80: this charge is expected to average £20,203,126 per annum from 1875-76 to 1879-80: the result is on the whole much the same as in the calculations of 1873. No allowance has been made for the probability that surplus revenue will be applied to the construction of reproductive works: it will thus be seen that a considerable margin has been allowed for safety in these calculations. The result of the new forecast is satisfactory: it appears that, taking a moderate estimate of the growth of income from existing railways and irrigation works, and very small returns from the new works, an annual capital outlay of four millions for the next five years on State Railways and Irrigation works charged with interest at $4\frac{1}{2}$ per cent. is not likely to lead to any increase of annual charge on the Revenues of India.”

The appendices to the Resolution of 1875 show in detail the works which it was proposed to construct with borrowed money: for State Railways it was estimated that the total outlay from extraordinary funds up to the end of 1879-80 would be £22,183,675; for irrigation works up to the same date, the estimate of outlay was £14,125,363; making a grand total to be borrowed of £36,309,038: these figures include sums expended up to 1875. According to the Forecast, the net charge on the Revenues at the end of 1879-80 would be, as before stated, £1,939,806, and this sum was distributed as follows:—

	£
Guaranteed Railways	1,215,000
State Railways	568,265
Irrigation Works	156,541

FORECAST SYSTEM
SET DOWN.

I believe that these forecasts were made with excellent care and judgment; and there is no reason for supposing that the anticipations of Lord Northbrook's

Government in regard to the growth of the income from the Railways Extraordinary and Canals will prove at all too sanguine; upon this subject I ask the Works. attention of the Council to the facts stated in the review of the Regular Estimates for 1876-77 in my separate Minute. Nevertheless, in the last Financial Statement made by my predecessor, Sir William Muir, about a year ago, the Government was obliged to admit that the difficulty of carrying on the existing system had become extremely great: it was explained that, in consequence of the fall in the price of silver, the situation had become so grave, and the future so uncertain, that the Government of India had felt bound to review its position in respect of the expenditure on reproductive works from funds raised by loans: the Government, it was said, felt that it was not justified in adding to our future obligations by incurring any avoidable debt, even for the construction of works admitted to be beneficial to the country and in themselves remunerative: and it would, therefore, if it had been practicable, have altogether refrained, under the existing aspect of affairs, from borrowing for this purpose: such a course, however, could not have been taken without great loss, and it was necessary to complete the works which were in course of construction, not only to prevent waste, but in order that the capital already expended might bring in a return of revenue.

"But," it was added, "the Government of India, though thus unable immediately to stop the expenditure from borrowed funds, are resolved at once to contract the sphere of operations. * * * So long as the present adverse prospects continue, this class of expenditure will be gradually diminished, so as, in the end, if need be, entirely to obviate borrowing for the purpose."

The whole question of our policy of borrowing money for public works POLICY RE-OPENED has thus been, to some extent, re-opened. The truth, I think, is that it is impossible to foresee so confidently the financial conditions of the future that we can pledge ourselves to go on borrowing money, for a number of years, at the charge of the Imperial Treasury, without any fear that difficulties will arise. The progress of great works of improvement which, if carried out at all, ought to be carried out in a regular and systematic manner, thus becomes liable to interruption at any time by any temporary financial embarrassment: last year, our embarrassment was the depreciation of silver; this year, it is famine; next year, it may be something else.

Lord Mayo, in his speech in this Council on the 31st March 1871, made some observations on this subject which seem to me very true and very much to the point:—

"Unless," he said, "the Government is supported in organizing a system by which these works can be constructed without placing further serious charges upon Imperial Revenue, I greatly fear that many of these important operations may not be undertaken at all; or, if they are undertaken, they may run the risk of being stopped before they are finished."

And he went on to express his apprehension that we might otherwise have, in a few years, to witness either financial difficulty or the stoppage of some of these great and beneficial works. This anticipation has been exactly verified.

I am not so foolish as to imagine that there is any panacea for dealing with the difficulties with which this subject is surrounded; but I think that it is possible to diminish them.

The works which have hitherto been classed as Extraordinary may be IMPERIAL UNRE-
MUNERATIVE EX-
TRAORDINARY
WORKS. divided into three great classes:—*First*, there are works of the class which I have already mentioned, which, although they are not expected to be directly remunerative, are undertaken because they are necessary for Imperial purposes. I have said all that I have to say at present regarding them; and have explained that, if any new works of this kind are undertaken, they will be treated as Ordinary, and not Extraordinary works.

Between the *second* and *third* classes of Extraordinary Public Works, of REMUNERATIVE
EXTRAORDINARY
WORKS. which I have now to speak, there is no broad and distinct line of separation. They are, in both cases, works of improvement for developing the resources of the country, and for meeting its necessary requirements; and, in respect of them, it is anticipated that, besides the indirect advantages to the country arising from their construction, they will yield, within a moderate time, a direct income at least equal to the interest of the capital expended on them. Some of these works which I put into my *second* class are undertaken for objects of such general utility, that they may be fairly called

Ordinary Imperial: the great trunk lines of railway, for instance, like those which connect Calcutta with Bombay, Madras and Lahore, or that which we hope before long will be completed from Ajmere to the Bombay and Baroda Line, are works which not only confer immense benefits on the Provinces and Districts through which they pass, but are essential to the wealth and prosperity of the Empire: the cost of constructing them falls, properly, so long as private enterprise is not forthcoming, on the Empire at large.

Ordinary But there is another class, which I call the *third class* of great works of improvement, which are, primarily, works of provincial or local utility, undertaken for the special benefit of certain districts or places, with the object of increasing their wealth, or protecting them against famine, or for some other purpose: the Orissa canals, for instance, have afforded to that Province an insurance against famine; the Ganges Canal has given absolute immunity from famine to many districts of the North-Western Provinces; the Northern Bengal and the Tirhoot railways will be works of immense local value. There is, as I said before, no broad line of difference between such works as these and works of Imperial utility; Imperial works confer great local benefits; and works of local utility enrich the Empire; but, although the two classes of works thus run into one another, the distinction is, nevertheless, a real one, and it has not been sufficiently recognized.

Not be con- It has been frequently said, and I suppose no one denies it, that it is impossible to meet from the Imperial Revenues the obligation of providing all the works of local improvement which India requires; but we still go on as if we believed this to be false, and continue to take in hand, at the charge of the Imperial Treasury, all sorts of works of little imperial importance, and the value of which is mainly and primarily local: these are the undertakings which cause so much financial difficulty.

I will give a few examples of the practical results of the system which we have been following.

Local Rail- The total capital outlay on Irrigation works in Lower Bengal up to the end of 1875-76 was £4,072,742; and not less than £1,494,000 will be required to complete the works that are in progress: the gross income from these works in 1875-76 was £23,013, and the working expenses were £5,949; there was a dead loss on the year's operations, independently of interest on borrowed capital, of £29,906: the net loss in interest and working expenses during the year was £203,700; and the total accumulated loss up to 31st March 1876 was £878,100.

Canal Projects. The Orissa and Midnapore Projects had cost, up to 31st March 1876, £2,482,039; and are so far completed that water for irrigation on a large scale has been obtainable for several years past: in 1875-76, these canals yielded an income of £17,953, while the working expenses were £41,406: including interest, the net loss on these canals was £122,567, and the total loss up to 31st March 1876, was £666,131. The further works which it is proposed to undertake in Orissa will cost about £368,000 more; and no one, I believe, pretends that, within any time which can now be foreseen, there is the remotest chance, if things are left as they are, that we shall get any adequate return from this great expenditure.

Canals. The Sône Canals in Northern Bengal had cost, to the end of 1875-76, £1,521,366; and more than £1,185,000 will be required to complete them: they will be, in the highest degree, beneficial; but I am confident that there is not, under the present system, any probability that they will, for many years to come, pay the interest on the capital outlay: the income in 1875-76 was £5,090, and the working expenses were £11,543. I do not lay stress on these figures, because the works are not finished; but it is a curious and most significant comment on them to be told, as we have been on the highest official authority, that the value of the crops saved by these unfinished canals in the single year of drought, 1873-74, was estimated at £480,000.

Canals and Rail- The lowest sum at which it is possible to estimate the capital outlay in Bengal on canals and local railways now in operation or in progress, exceeds £8,000,000. After expending £4,072,742 on canals, there was, as just shown, a dead loss to the Imperial Revenues in the year 1875-76 of £203,700. I do not wish to speculate on the results that would probably be obtained under the existing system when the total expenditure reached £8,000,000; but the prospect could hardly be more unsatisfactory: and in spite of all this, the works themselves are most useful and beneficial to Bengal.

I might give similar, although less extravagant, examples from the works in other Provinces; but I think that enough has been said to show that there must be something radically unsound in our existing policy.

I come now to the consideration of the remedies for the state of things which I have been describing.

Six years ago, there was much discussion on the subject of compulsory water-rates; and I wish to refer to that question, before going further, because it is more or less connected with the proposals which I am about to make. So much has been said and written in past times about it (and I am afraid that my own share in the discussion would fill a small volume), that I can hardly say anything which has not been said before: the question, it will be remembered, was one in which Lord Mayo took a deep interest; his views on the subject are well known, and I believe them to have been thoroughly sound. I must explain that, in what I am now about to say regarding compulsory rates for irrigation, I express my own opinions only, and in no way commit the Government at large. The practical measures which are now proposed may, however, be consistently approved by those who disagree with the views which I hold regarding compulsory water-rates; and, if I refer to this subject now, I do so chiefly because I wish to guard myself, personally, against the charge which might otherwise have been brought against me, that I was introducing a measure which I hoped would lead to results very different from those which were apparent on its face.

The proposals which were made, some years ago, to impose compulsory rates for meeting the charges for works of irrigation, took a definite shape in certain Sections of the Punjab Canals Act, which were passed, after much discussion, in 1871, but were subsequently vetoed by the Duke of Argyll, who was then Secretary of State: I should be sorry to see those Sections re-enacted now: their only merit, in my estimation, was that they recognised a true and important principle; but they could not have been worked in practice, and I do not regret their loss.

The principle for which I contend is simple: under our existing system, almost the only direct returns which we obtain from our canals are those derived from the voluntary payments of the cultivators who take water for irrigating their fields: I assert that this system is wrong and irrational. In a country like India, exposed not to the chance, but to the certainty, of periodical drought and famine, the construction of works of irrigation is often an absolute necessity: it is a necessity, whether the people in ordinary seasons take the water or not, and whether the canals pay or not.

I take as an illustration the case of the Orissa Canals, to which I have just referred: there has been an immense expenditure of money; and the result is that an insurance has been provided against the recurrence of any such terrible calamity as the famine which happened some years ago: but, in ordinary years, when the rainfall is sufficient, the people will not pay for the canal water; they know that, in case of necessity, the water is there, and that they can get it; but, under ordinary circumstances, they think they can manage well enough without it: the result is that, although the Province of Orissa is secured against famine, the canal gives no direct return on the great sum of money borrowed for its construction, and does not pay even its working expenses; and the whole burden of the charge falls, not on the people really benefited, but on the Imperial Revenues, or, in other words, on the tax-payers of the Empire.

I have just given similar figures for the Sône Canals in Behar; the Province is rich and prosperous, and well able to pay for the great local benefits conferred upon it; but, for some reasons which I, for my part, have never been able to understand, or in the least degree to appreciate, we choose to give these advantages to the people of Behar at the cost of the people of India: the people who are to get the benefit are to pay as little as they please; the people are to pay who get almost no benefit at all.

What I want to know is why irrigation works, which, in many parts of India, are, incomparably, the most beneficial works which it is possible to undertake, and the works which have the greatest possible local utility, are to be singled out as the only local works for which the people immediately benefited are to pay nothing: why are districts and towns to pay for their

ty for inter-

own roads, and schools, and hospitals, for the paving and drainage of their streets, and their supply of drinking water; and why is it wrong that they should pay something for the irrigation works on which the actual existence of the people depends?

It is idle to say that, in the one case, the people are themselves consulted before the expenditure is incurred, whereas, in the other case, the works are undertaken without any reference to their wishes; every one knows perfectly well, that, whatever may be the theory, the fact is, putting aside some altogether exceptional cases, that the people at large have no more to do with the regulation of local and municipal expenditure than with the expenditure on canals and railways; and that, for many years to come, this must continue to be true.

As it cannot be denied that we cannot go on, for ever, constructing at the expense of the Imperial Revenues, works which will not pay, although those works may be absolutely necessary as a protection against famine, it comes virtually, under our present system, to this, that the question whether we are or are not to make canals, and whether we are or are not to save millions of people from misery and perhaps from actual starvation, is to depend on the views which certain ignorant peasants may hold in regard to their own personal interests.

Almost everything that I have been saying about canals is, in regard to some parts of India, just as applicable to railways: there are many districts in which irrigation works are not wanted or cannot be made, and where cheap local lines of railway are the proper and only effectual means for preventing or relieving famine.

I will not now discuss this subject further, because the Government of India has no propositions to bring forward in regard to it: all that we now desire is to enforce provincial responsibility for works of provincial utility; and it will be left to the Local Governments to take, if they should think fit to do so, the initiative in proposing the adoption of more complete measures under which a really local responsibility shall be enforced for meeting local wants: I do not disguise my own opinion; and it is my hope that the system which we now desire to introduce, will lead to results in the direction which I have indicated.

Our present plan is this: we desire to throw upon every Province, so far as this is now practicable, the responsibility for meeting the cost of its own local requirements.

It will be objected that to enforce strictly local responsibility in such a matter may be right; but that it is quite another thing to throw such a responsibility on a whole Province: this, it may be said, is, in principle, as bad as making the responsibility Imperial. Now, I fully admit that, in my own opinion, our proposed measures, if they be taken by themselves, are imperfect; and that they ought to be supplemented by others in the manner which I have suggested: but, under existing circumstances, it is not possible for the Government of India to do more than distribute between the various Provinces the burden which now improperly rests on the Imperial Revenues; and, in doing this, and obliging each Province to meet the charges for its own works of local utility, it will have taken a great step in the right direction. It is, for instance, at any rate, less unfair that the cost of the Ganges Canal should fall upon the people of the North-Western Provinces than upon the people of Madras and Bombay.

When Local Governments find that this responsibility has been imposed upon them, and that the only means of obtaining, without fresh taxation, the works of improvement which they require, is the wise and economical management of the works themselves, and the development of the income which they yield, they, and their officers, will take an altogether different interest in these matters from that which they feel now, when the only apparent practical result of careless financial administration is diminished profit to the distant treasury of the Empire. When new proposals to construct works of improvement with borrowed money are brought forward, the incentives to economy and care on the part of the Local Governments will be especially strong, and a powerful check will be placed on extravagant projects and enthusiastic estimates of profit. Under the present system, every Province desires to get for its own useful works as large a share as possible of borrowed money, knowing that, whether the anticipations of future income prove to be accurate or not, there will be certain gain to the Province, and loss to the Imperial treasury alone.

VANTAGES ANTI-
ATED.

The principle on which we base our proposed measures is strictly just: we start with the fact that each of our great Indian Provinces has an individuality of local responsibility of its own; that it is something more than a mere geographical expression; and that its people have, in a great measure, common wants and common interests. I will take as an illustration of my meaning, and of the manner in which our plans will work, the North-Western Provinces and the Ganges Canal: the people who actually take the water to irrigate their fields are the first who profit; the people who, although they do not take the water, can do so whenever they choose, and for whom an insurance against drought has been provided, are those who profit next: but these are not the only people who derive a positive benefit from the canal; it not only gives protection against famine to a great agricultural and non-agricultural population in the tract through which its immediate influence is felt, but, now that the country is intersected with railways and roads, there is hardly any part of the North-Western Provinces which does not receive from it more or less advantage, or which may not fairly be expected to contribute something towards the cost of its construction and its maintenance: in times of drought, it provides food not only for the districts through which it passes, but for those which are less fortunately situated, and it prevents the price of grain from rising to a point which would cause privation and suffering to the poorer classes of the population.

So far, therefore, as the Government of India is now concerned, the unit with which we shall deal will be the Province which is benefited: it will be the duty of the Local Governments to endeavour, so far as may be practicable, to distribute the charges imposed upon them, so that the burden on any district, or any class of people, shall be proportionate to the benefits received.

These plans cannot be carried out without imposing fresh taxation in the Bengal Presidency: they will scarcely affect Madras and Bombay, except in regard to new works which it may be proposed to construct hereafter; and the application of these principles to those Presidencies must be reserved for future consideration: it may be added that the present time would obviously be inopportune for imposing fresh burdens in Provinces suffering from famine.

FRESH TAXATION
BENGAL PRESIDENCY.

I do not assert that it will now be possible to apply these plans strictly to all cases in which canals and railways of local utility have, in past times, been constructed at the expense of the Imperial Revenues: all that we say is that they shall be applied, so far as this can now be done, without unwisely and unjustly throwing fresh burdens on provincial resources, and always bearing in mind that there is, as I have said before, no real distinction between imperial and provincial taxation.

I can do little more, now, than explain the general principles of the policy which the Government proposes to adopt; and I can only describe in detail the plans for carrying it out in the North-Western Provinces: they are the only measures which it has been possible to bring to completion in concert with the Local Government; and they alone will at present require legislation in this Council.

ARRANGEMENTS
WITH N. W. PROVINCES.

The capital expended on canals in the North-Western Provinces and classed as "Extraordinary," will amount, at the end of 1876-77, to £5,291,000, and, at the end of 1877-78, to £5,560,000: these figures do not include anything on account of the accumulated interest paid in past years in excess of the net income derived from the works: for our present purpose, there is no propriety in making such an addition to the capital, because the interest has in fact been discharged, from year to year, as it became due, and no longer constitutes any burden on the Revenues.

The revenue of these canals from water rates, navigation, and other direct returns, in 1877-78, is estimated at £310,100; and the indirect revenue, consisting of land revenue due to the works, at £92,300; so that the estimated gross revenue derived from the canals in 1877-78 is £402,400: the working expenses are estimated at £146,100: thus the Net Revenue will be £256,300 or £164,000, according as the indirect revenue is or is not taken into account. One year's simple interest at $4\frac{1}{2}$ per cent. on the capital hitherto expended is estimated to be £244,000; according to these calculations, therefore, the works will, in 1877-78, after providing for interest on the capital, and taking credit for the indirect Revenue, yield a surplus profit of £12,300.

agements These figures do not really exhibit any close approximation to a real profit and loss account: on the one hand, the sum shown as Capital Expenditure includes no interest during construction, nor does it, or the sum shown as Local Gov- ents about includes any provision for Absentee Allowances and Pensions, or for incidental charges, such as Stationery, Printing, Medical Stores, Imperial Supervising Offices, &c., which are not recorded in the Public Accounts, as expenditure on Public Works, but under other heads. On the other hand, the amount shown as Capital Expenditure includes a large outlay on works not yet in operation, and therefore not yielding revenue.

The following statement shows the estimated Capital Expenditure on the works completed to the end of 1876-77, and the Net Revenue expected to be derived from those works in 1877-78:—

Canals.	Capital expended. Rs.	Gross estimated Earnings, 1877-78. Rs.	Working Expenses. Rs.	Net Revenue. Rs.
Ganges	2,80,00,000	(a) 22,16,000	9,71,000	12,45,000
Eastern Jumna	24,24,000	6,34,000	2,17,000	4,17,000
Dhoon	6,14,000	51,000	32,000	19,000
Rohilkhand and others	14,62,000	88,000	68,000	15,000
TOTAL ...	3,25,00,000	29,84,000	12,88,000	16,96,000

(a) Including Rs. 48,000 from Owners' Rate.

It appears from this Statement that out of the total capital expended to the end of 1876-77, no less than £2,040,700 has been spent on works still in course of construction, or which are not yet producing Net Revenue, and that the interest on the capital yielding revenue, *viz.*, £3,250,000, is, at $4\frac{1}{2}$ per cent., £146,250. These completed works are thus estimated to yield, in 1877-78, a net profit, over and above the interest on their capital cost, of £115,650, including the indirect revenue, or £23,350 if we exclude it: making all allowances for the omissions from the Capital Expenditure and Working Expenses above noticed, there can be no doubt that these results are very satisfactory: it must, however, be remembered that they were only arrived at after the canals had been in operation for a long period of years.

The exigencies of the Supreme Government will not admit of the surrender of any part of the Net Revenue which it now receives from these works: it has been decided that the most convenient way of adjusting this claim of the Government of India will be, in the first instance, to reserve to the Imperial Treasury the indirect returns from the canals, which are now credited as Land Revenue: they amounted last year to £92,300: this leaves a further sum of £23,350 to be made good; but, as some of the items of the calculation are uncertain, the Government of India will be satisfied with a fixed contribution of £20,000 in addition to the indirect revenue. It must be remembered that the Imperial treasury, in thus claiming the entire profits on capital hitherto expended, only claims what it receives already; and that it foregoes, at the same time, all claims for returns on the large indirect expenditure before referred to. The Local Government will thus be responsible for making good to the Imperial treasury every year the interest on the whole capital expended, plus the sum of £20,000; and to meet these charges the Local Government will receive the whole of the Net Revenue from the works, excepting that portion of it which is credited as Land Revenue: some special arrangements, with which I need not trouble the Council, have been made regarding that portion of the Canal receipts known technically as *Owners' Rate*.

The amount which will thus be due from the Local to the Imperial Government in 1877-78 may be estimated at £100,000: subject to this payment, and to certain further conditions which I shall notice presently, the Government of India will make over the whole of these works to provincial management, and the whole of the revenue derived from them to provincial uses. The Government of India will advance from the Public Treasury the funds required for completing the irrigation works now in progress or proposed, and for the construction of Railways for local purposes. During the next three years, the account between the two Governments will, it is proposed, be settled in the manner that has been described: the arrangements will then be open to revision.

It must rest with the Supreme Government to determine how much Arrangements money it can place at the disposal of the Government of the North-Western with Local Gov Provinces, each year, for the construction of these works. The Governor ernments about General in Council will endeavour in this matter, as far as possible, to meet Extraordinary the wishes of the Local Government, and to supply the necessary funds Works. at such a rate that the works shall go on regularly to completion with no avoidable delay: the amount, however, that it is expedient to GOVERNMENT OF INDIA MUST DETERMINE RATE OF FUTURE EXPENDITURE. borrow for the whole of India, in each year, must be determined upon general considerations; and the Government of India alone must decide how the available funds can be most profitably distributed among the several Local Governments: the demands upon the Public Treasury, ordinary and extraordinary, are too uncertain for it to be possible for the Imperial Government to promise, absolutely, to supply a fixed sum to any Local Government for a succession of years.

It is understood that the capital cost of the canals and local railways now in existence, under construction, or contemplated in the North-Western Provinces, is estimated at about £8,500,000; so that, to complete the whole, there will still be £3,000,000 to spend after the year 1877-78. Assuming it to be possible to provide £400,000 annually for this expenditure during the next five years, the liabilities of the Local Government for interest and Imperial profits would increase from their present amount of £264,000 to £345,000 at the end of the fifth year; on the other hand, it is anticipated that the receipts will increase, during the same period, at an average rate of £20,000 a year, or from the present amount of £164,000 to about £264,000. On this assumption the amount to be contributed from other sources, which is now £100,000, would have fallen to a little over £80,000 at the close of the five years: the prospective burden undertaken by the Local Government is, therefore, never likely to become formidable. It is no doubt possible that the estimate of £3,000,000 for future expenditure may be increased; but this will not materially affect the calculation, since, in that case, the term for spending the money would no doubt be extended also. FORECAST OF RESULTS IN N. W. PROVINCES.

As the burden imposed upon the Local Government becomes reduced by the growth of the net direct revenue, it is necessary that the Local Government should contribute to the Imperial Treasury a share of the advantage: it would be premature now to define what may ultimately be an equitable settlement between the Imperial and Local Government; but, as a temporary arrangement, open to revision at the end of three years, the Local Government will surrender to the Imperial Treasury one-half of any reduction that it may be able to effect in the charge of £100,000 which it now undertakes. For instance, supposing that the interest plus the profits of the Imperial Treasury payable by the Local Government should increase to £300,000, and the net revenue received by the Local Government should increase to £240,000, the sum to be provided from other sources would fall from £100,000 to £60,000, and, if no further condition were imposed, the Local Government would be in a better position by the difference, viz., £40,000. The Government of India will concede to the Local Government one-half of this future advantage, reserving to itself the other half only, instead of the entire profits which it would keep for the Imperial Treasury if it were to apply to the profits of the future the same rule which has been applied to past profits accruing prior to the transfer now proposed: it is the expectation of the Governor General in Council that this arrangement will be profitable to both Governments; because it is hoped that the change of system will lead to better administration and to increased advantage from the works. IMPERIAL TREASURY TO SHARE FURTHER PROFITS.

I must add that some of the figures which I have now given may be somewhat modified before final arrangements are made; but in this case the changes will tend to diminish, and not to increase, the burden placed on the Local Governments.

Although I hope that the Local Government will endeavour to secure from the land more or less directly benefited by the canals, larger returns than those which are obtained under the existing system, several years must elapse before the completion of the great irrigation works now in progress; and, until they begin to yield income, some general contribution from the Province will be unavoidable.

arrangements As a matter of principle, I think that the larger portion of charges such as those of which I am speaking, ought to fall on the owners of land, rather than on other classes, because the benefit conferred by these works will be permanent: the whole community, however, derives great advantage from them, and it is equitable that the non-agricultural class should contribute also: it is not thought desirable, at present, to impose fresh burdens on the land in the North-Western Provinces; and, without doing this, we can obtain what we want.

PROPOSED LEGISLATION.

I will now give a sketch of the plans which are proposed, leaving it to my Honorable friend, Mr. Bazett Colvin, who may now be held to represent the North-Western Provinces in this Council, to describe, hereafter, the details of the measures which will require legislative sanction.

DEFINITION OF LOCAL RATES ACT, 1871.

The first of the proposed measures will be a not very extensive amendment of Act XVIII of 1871, which provides for the levy of rates on land for local purposes. Although these rates were only placed on a strictly definite and legal basis in 1871, they have been levied, for many years past, in the greater part of the North-Western Provinces: every estate in which the settlement of the Land Revenue is subject to revision, is liable to the payment of a local rate, not exceeding five per cent., on the annual value of the land: in permanently settled estates, rates are levied for the same purposes at an amount not exceeding annually two annas for each acre under cultivation. All these rates are, in the first instance, credited to a General Provincial Fund, from which the Lieutenant-Governor is bound to assign amounts to be applied in each district for certain specified purposes: these are the construction and maintenance of Roads and Communications; Rural Police; District Post; Education; Hospitals; Lunatic Asylums; Markets; Wells and Tanks; and other local works likely to promote the public health, comfort, or convenience: the annual assignment made to each district must not be less than the total amount of local rates levied in it; but any portion of such assignment which remains unexpended at the end of the year may be spent in any way which the Lieutenant-Governor thinks beneficial to the North-Western Provinces generally.

The principle is thus recognized, that these rates may, in part at least, be expended on objects of provincial utility; and, as a matter of fact, a large portion of them has been so expended. As it is not now wished to increase the burdens on the land, all that is proposed is to authorise the Local Government to make assignments from the local rates for the purpose of meeting charges on account of Irrigation works and Railways of provincial utility: it is proposed to fix the maximum amount of such assignments at 10 per cent. of the total sum levied under the Act, leaving 90 per cent. to be spent as at present; but I see no reason for anticipating that the actual proportion of the rates so assigned will amount to this maximum. The total amount of the local rates levied annually in the North-Western Provinces is about £430,000, and the proposed amendment of the law will not seriously diminish the existing grants for local purposes.

LICENSE TAX ON TRADES AND DEALINGS.

The second measure now proposed is the imposition of a light License Tax on trades and dealings in the North-Western Provinces. The Bill that will be laid before the Council is taken, in great measure, from a Bill proposed by Sir William Muir when he was Lieutenant-Governor in 1871, under the belief that it would be necessary to impose fresh taxation for provincial purposes: that Bill was introduced into this Council by Mr. Inglis, and passed through Committee; but the Lieutenant-Governor came to the conclusion that additional taxation was after all not necessary, and the Bill was dropped. The original Bill imposed small duties on certain specified trades, and the amount of the duties in no way depended on any trader's means: although, in this respect, the new Bill will not be so satisfactory as the old one, which would not yield as much money as we require, and the estimated receipts from which are admitted to have been greatly over-rated, no inquisition will be made into any man's actual profits, and the measure will not be an income tax in disguise: it will be similar to the License Taxes actually imposed for local purposes in many large Indian towns, and to the Pándhri tax, which has long been levied in the Central Provinces. The principal trades, as the Council will see from the Bill

which I hope to be allowed to introduce to-day, have been classified and graded, Arrangements and a specific sum is put down against each class and grade: the highest with Local Gov. license fees proposed are those on Bankers and Wholesale dealers in country-ernments about produce, and they vary from Rs. 16 to Rs. 64 a year: other traders will have Extraordinary to pay smaller sums, which are in some cases as low as Rs. 2; and in no case Works. exceed Rs. 32. It is extremely difficult to say what this measure will probably yield, but, for my present purpose, I will assume it to be £50,000 a year.

If the plans which I have described are carried into effect, the first step for the Local Government to take will be to look thoroughly into its Public Works Establishments, and to consider whether the existing system under which the canals are managed, and under which the canal revenue is collected, cannot be improved and made less costly: it will then have to consider what means can be taken for increasing the income yielded by the existing canals: there will, therefore, I hope, be no necessity for depending only upon new taxation and on the assignments from local rates, for the means of meeting new charges. OTHER MEASURES.

The measures which I have thus described will, it is believed, enable the Government of the North-Western Provinces to satisfy, without difficulty, the obligations imposed upon it.

The whole of these arrangements have been settled in communication with Sir George Couper, the Lieutenant-Governor, and have received in all respects his cordial approval.

In the imposition upon Bengal of similar responsibilities for meeting the charges for extraordinary public works, similar principles will be applied; but, as the existing works are at present unprofitable, the sum to be made good annually by the province will be larger than in the North-Western Provinces: it will amount at present to about £275,000. ARRANGEMENTS WITH BENGAL.

The Government of India is in communication with the Local Government on this subject: the Lieutenant-Governor will consider what portion of the whole burden can be recovered from the people who are primarily benefited by the works which have been constructed, and what portion must be raised by fresh taxation upon the province at large: I hope that, so far as the immediate demands of the Supreme Government are concerned, there may be no necessity for throwing on the Province generally the whole of this new demand; but, on the other hand, it must be remembered that the obligations which have been placed on the Local Government will, unless the income from the works be rapidly developed, have an undoubted tendency to increase. It must also be remembered that there are new works of extreme importance urgently required in the interests of the people of Bengal for which, under the system we are now inaugurating, the Government of India will not make itself responsible. Whatever legislation may be necessary will take place, not in this Council, but in that of the Lieutenant-Governor, and it would be improper in me to refer in detail to the measures which His Honor may think fit to initiate: any schemes for new taxation must of course first receive the sanction of the Supreme Government. It is hoped that the Government of Bengal will avail itself, as far as possible, of existing modes of raising revenue, and endeavour to extend and expand them, rather than have recourse to new and unfamiliar systems of taxation, and that it will be able to carry out all necessary measures through its present establishments: even if it were possible to devise new forms of taxation theoretically better than the forms which already exist, it would still be wiser to adhere to systems understood by the people, rather than adopt innovations which might cause dissatisfaction and apprehension, and which might lead to oppression through the creation of new collecting and assessing machinery. Although the amount to be raised is in itself considerable, the increase of taxation which it involves will really be very small, when distributed over an enormous population: I have no doubt that the Local Government will be able to adapt successfully its present system to meeting this increased demand: I am sure that it will be the universal feeling, not only of this Council, but of the public, that the initiation of the necessary measures could not be in better hands than in those of my honorable friend Mr. Eden; and in regard to this matter the views of the two Governments are completely in accord.

PUNJAB.

In regard to the Punjab, I can say nothing definite at present: it is thought desirable to wait until the Government arrives at Simla, when it will have the advantage of the presence and co-operation on the spot of the Lieutenant-Governor and some of his most experienced officers: meanwhile, I have the satisfaction of knowing that my honorable friend and present colleague, Mr. Egerton, who will, before long, assume charge of the office of Lieutenant-Governor, will give his cordial support to the principles which have been laid down, and that he anticipates no serious difficulty in their application to the Punjab.

The total amount of the contributions thus made to the Imperial Treasury for Bengal and the North-Western Provinces is estimated to be, in 1877-78, £375,000.

The combined result of the arrangements made with the Local Governments in regard to both Ordinary and Extraordinary income and expenditure is that the estimates of the coming year have been improved to the extent of £520,000: it will be understood, from what I have already said, that it is not now possible to state exactly what portion of this amount will be provided by new taxation; but it will not exceed £325,000, and will probably be less.

VICE OF FA-
RELIEF.

LOCAL RESPONSIBI-

The questions of which I have been speaking are closely connected with another subject of great importance. In a despatch to the Government of India, dated the 25th November 1875, the Secretary of State called attention to the question of the proper incidence of the charges which have to be incurred for the relief of famine: he said that, however plain may be the primary obligation of the State to do all that is possible towards preserving the lives of the people, it would be most unwise to overlook the great danger of tacitly accepting, if not the doctrine, at least the practice, of making the General Revenues bear the whole burden of meeting all local difficulties or of relieving all local distress, and of supplying the needful funds by borrowing in a shape that establishes a permanent charge for all future time. The Secretary of State fully admitted the difficulty of a satisfactory solution of the question of how local resources can be applied to aid in meeting local wants; but he said that this difficulty ought not to be allowed to obscure the perception of the vital importance of such a solution to the future well-being of the country, and the necessity for establishing some system under which shall be suitably recognized the undoubted responsibility which rests on the people themselves to provide for their own support.

PRACTICAL CON-
ON YET
ED.

In the instructions lately issued by the Government of India to Sir Richard Temple, in respect of the inquiries which he is now conducting with signal ability and success in the famine-stricken districts of Madras and Bombay, the same doctrine of the necessity for enforcing some system of local responsibility for providing local relief was recognized by the Government of India; and I wish that it were now in my power to inform the Council that some practical conclusions had been arrived at. This I cannot do; but the question will receive the careful consideration of the Government, and I hope that a useful solution of it may be found, by which, while the Imperial revenues are duly protected, no unjust or excessive burdens shall be imposed upon local or provincial interests: this last condition is obviously essential. Meanwhile, the measures which I have been explaining are a step in the direction which I have mentioned; by throwing upon each province the responsibility for meeting the charges necessary for providing the canals and railways required to protect its own people against famine, we give practical recognition to the principle on which the Secretary of State has insisted, and we obtain, to a certain extent, though far from completely, that safeguard for the Imperial Revenues which he thought so necessary. This at least is certain, that the relief of famine must be looked on as an ordinary charge to be met from revenue, and not from borrowed money.

OF STATE TO
HAVE LIFE
3.

The question has often been raised of late, whether it is really possible for the State to undertake the responsibility of preserving the lives of the people during famines, the periodical recurrence of which in India must unhappily be looked upon as certain: for my own part I do not think the answer difficult: it seems to me idle to discuss whether the Government of India, on account of

financial considerations, can deliberately allow people to die of starvation: it is quite clear that it can do nothing of the kind: it is a fact which has to be accepted that life must be saved, whatever be the cost. It is conceivable that the performance of such a task might become impossible; but I can conceive many other causes which would make the Government of India by the English impossible; and I see no use in speculating on what may happen, in consequence of financial or other ruin, in some distant future, under circumstances which cannot now be foreseen.

I have tried to read for myself the lessons of the past, and they appear to me to show that if we treat this great famine question in a rational way, and base our measures on true principles, we shall find no insuperable difficulty in dealing with it. The first thing to be distinctly declared is that, while the State fully accepts the necessity of saving life, and of preventing extreme distress, it refuses to attempt to take upon itself, in time of famine, more than in any other time, the impossible task of preventing and relieving all human suffering; and that we will not allow the strong and natural desire to provide immediate remedies against present misery, to blind us to the duties which we owe to the people of the Empire at large, and to future generations. The task of giving relief to all those who suffer, offers the noblest opportunities of doing good to well-applied private charity and intelligence and zeal; but it cannot be undertaken by the State.

CAN BE DISCHARGED
WITHOUT RISK OF
INSOLVENCY.

So far from the experience of past and present famines showing that the performance by the Government of its proper duties in regard to the relief of famine is, on financial grounds, impossible, all the facts seem to me to point to an opposite conclusion: it is not only in the relief of famine that it is easy to throw away millions; and, whenever there has been a very heavy expenditure on famine relief, it has (such at least is my belief) resulted from causes which, we can now see, might have been avoided, and which we ought to be able to avoid in future.

I earnestly hope that we shall not allow the present famine to pass away, without learning from it the necessity of adopting a clear and definite policy for dealing with such calamities in future: I believe that we can undertake to do everything that a Government ought to do, without any of the ruinous consequences which are sometimes predicted. Very serious obligations are undoubtedly imposed upon us: we must, and will, take measures for guarding against the dangers with which these periodical famines threaten our finances; and, although I cannot now say what those measures will be, the Government of India will not shrink from the duty which rests upon it.

When, my Lord, only a few months ago, I accepted my present office, I looked forward confidently to proposing, in my first Financial Statement, several fiscal reforms of extreme importance: I hoped, among other things, that we should have been able to undertake measures which it has long seemed to me are more urgently required than almost any that can be named; measures for the reform of the system under which the salt duties are levied throughout India; for enabling the people, through vast tracts of country, to obtain what they cannot obtain now—plentiful supplies of cheap salt; for abolishing that opprobrium of our Government, the Inland Customs Line; and for getting rid, at the same time, of one of the very worst taxes ever levied by a civilised Government, the transit duty on sugar the produce of our own territories. I hoped, at the same time, that it would have been possible to take a really practical and decisive step towards redeeming the pledges given by the Secretary of State for the removal of the Customs duties on cotton goods: those pledges were, in my opinion, wisely given; and I looked forward with the greatest satisfaction to being able to take an active part in carrying out the policy which Her Majesty's Government has approved. Unfortunately these hopes have been disappointed: the terrible famine, from which so large a portion of India is now suffering, and which causes such unceasing anxiety to the Government and imposes such serious burdens upon the finances, has rendered it impossible to deal with these questions. The next best thing, however, to bringing great measures into effect, is to prepare the way for their execution hereafter; and I desire to tell the Council and the public what the policy is which

the Government is firmly resolved to carry out: the Government has a distinct programme which it intends to keep constantly in view.

Salt Duties

There is, perhaps, no great Indian question which has provoked so much discussion as that of salt, and no question on which high authorities have come to more opposite conclusions: it has been declared, on the one hand, that among all the main sources of the existing income of the State, the tax upon salt is one of the best, and one of those least felt by the people, and that by means of it, we raise a great revenue with the least possible objection: it has been frequently declared, on the other hand, that of all taxes this is the worst and wickedest.

If I were to attempt to repeat to the Council all that has been said in support of these contending views, I should not get through my Financial Statement to-day: all that I can do is to state the conclusions of the Government, and the reasons for them: having, for many years past, given to this subject a large share of my attention, I feel great confidence that the policy is right which the Government, with the approval of the Secretary of State, intends to pursue.

UNOBJECTION- IN PRINCIPLE.

It is unnecessary now to discuss the question whether salt is or is not a proper subject for taxation in India; we, obviously, cannot do without the revenue which it gives us: for my own part, however, I believe the tax to be, on principle, open to no objection; and this is the view which was laid down by the Secretary of State when the question was before him some years ago. I will read to the Council an extract from a despatch from the Duke of Argyll on this subject, dated the 21st January 1869, not only because it appears to me to express, with great clearness, views which are statesmanlike and true; but because it contains, I believe, the last authoritative statement of opinion on this subject given by Her Majesty's Government to the Government of India:—

“On all grounds of general principles, salt is a perfectly legitimate subject of taxation: it is impossible, in any country, to reach the masses of the population by direct taxes: if they are to contribute at all to the expenditure of the State, it must be through taxes levied upon some articles of universal consumption. If such taxes are fairly adjusted, a large revenue can be thus raised, not only with less consciousness on the part of the people, but with less real hardship upon them than in any other way whatever: there is no other article in India answering this description upon which any tax is levied: it appears to be the only one which at present, in that country, can occupy the place which is held in our own financial system by the great articles of consumption from which a large part of the imperial revenue is derived. I am of opinion, therefore, that the Salt tax in India must continue to be regarded as a legitimate and important branch of the public revenue.

“It is the duty, however, of the Government to see that such taxes are not so heavy as to bear unjustly upon the poor, by amounting to a very large percentage upon their necessary expenditure.

“The best test whether an indirect tax is open to this objection is to be found in its effect upon consumption.

“I observe that several of those officers whose opinions upon this question have been given in the papers before me, found that opinion upon what they have heard, or what they have not heard, in the way of complaint among the native population: but this is a very unsafe ground of judgment: it is one of the great advantages of indirect taxation, that it is so mixed up with the other elements of price, that it is paid without observation by the consumers: even at home, where the people are so much more generally educated, and more accustomed to political reasoning, the heavy indirect taxes formerly levied upon the great articles of consumption were seldom complained of by the poor: they were not themselves conscious how severely they were affected by those taxes, and how much more of the articles they would consume if the duties were lower. But whilst this peculiarity of indirect taxation makes it a most convenient instrument of finance, it throws additional responsibility upon all Governments which resort to it, to bring the most enlightened consideration to bear upon the adjustment of taxes which may really be very heavy and very unjust, without the fact being perceived or understood by those on whom they fall.”

The Government has endeavoured to give to this great question the consideration which the Secretary of State thus referred to: Does the Salt tax press heavily and unjustly on the people?

I must state, in the first place, that, although the Government of India has adopted the conclusions which I shall presently describe, it must not be supposed that the Government is committed to every opinion which I am about to express: I do not know that, in fact, any difference of opinion exists among the members of the Government; but, on a question of so much difficulty, there may be many matters of detail in which unanimity can hardly be expected.

The circumstances under which the Salt duties are levied vary greatly in different parts of India. Bengal and Assam, with sixty-seven millions of people, get nearly the whole of their salt supply from Cheshire, a resource of salt mainly of the fact that the exports which India sends to Europe greatly exceed the imports which she receives: salt comes virtually as ballast. Almost the only local source within easy reach, from which Bengal can obtain salt, is the sea, and the natural facilities for making salt on the Northern coasts of the Bay of Bengal are not great: the climate is so damp that salt cannot easily be obtained by the cheap process of solar evaporation; and owing to the vast quantities of fresh water poured in by the Ganges and Brahmaputra, the sea is less salt than on the other shores of India. THE SALT DUTIES
RESOURCES OF SALT
SUPPLY.
BENGAL.

In Madras and Bombay, on the other hand, containing together about forty-seven millions of people, the manufacture of salt from the sea is cheap and easy; and, for these Presidencies, as well as for the greater part of the Central Provinces and the Native States of Southern India, the sea is the great source of supply. MADRAS AND
BOMBAY.

Coming to Northern India we find that the Punjab possesses inexhaustible supplies of rock-salt, which is consumed by about fourteen millions of people. Throughout the North-Western Provinces and Oudh, and a portion of the Central Provinces and of the Punjab, on the other hand, although there are many places where more or less impure salts can be produced, the home sources for the supply of good salt could never be sufficient: forty-seven millions of our own subjects depend almost entirely for their salt on the Native States of Rajputana or on places on the confines of those States. NORTHERN INDIA

The system under which the duty is levied, and the rate of duty, vary in the different provinces. In Madras and Bombay the rate of duty is Re. 1-13 per maund (82 lbs): in Madras, this is collected under a monopoly by which all salt is manufactured on behalf of the Government, and sold to the people at a price which gives a profit equivalent to the duty: in Bombay the duty is levied as an excise. In Lower Bengal the tax is Rs. 3-4 per maund, and is levied chiefly in the form of a Sea Customs Import duty. In the Upper Provinces of this Presidency the rate is Rs. 3 per maund: in the Punjab, this is included in the selling price of the rock-salt, which is the property of the Government; in the rest of the Upper Provinces, the duty is levied when the salt is imported from Rajputana. VARYING RATES OF
DUTY.

For this purpose, and to prevent the ingress of salt taxed at lower rates, a Customs Line is maintained, extending from a point north of Attock to near the Berar Frontier, a distance of more than fifteen hundred miles: similar lines, some hundreds of miles in length, are established in the Bombay Presidency, to prevent untaxed salt from Native States entering British territory. Along the greater part of this enormous system of Inland Customs Lines, which, if they were put down in Europe, would stretch from London to Constantinople, a physical barrier has been created, comparable to nothing that I can think of except the great wall of China: it consists principally of an impenetrable hedge of thorny trees and bushes, supplemented by stone walls and ditches, across which no human being, or beast of burden, or vehicle, can pass without being subjected to detention and search: it is guarded by an army of some eight thousand men, the mass of whom receive as wages six or seven rupees a month. The bare statement of these facts is sufficient to show the magnitude of the evil. THE INLAND
CUSTOMS LINE.

Although I believe that every thing is done, which can be done under such circumstances, to prevent abuses, it may be easily imagined what inevitable and serious obstruction to trade, and annoyance and harassment to individuals, must take place: I remember a graphic account by Sir George Campbell, in which he described the evils of the system, and the instruments of the nature of cheese-tasters which are thrust into the goods of every one whose business takes him across the line. The interference is not confined to the traffic passing into British territory; for, owing to the levy of the export duty on sugar, to which I have still to refer, the same obstructions are offered to the traffic passing in the other direction. In spite, however, of the evils inseparable from the existence of an Inland Customs Line, it is practically impossible to dispense with it so long as we levy our Salt tax at different rates in different Provinces, and have no means of controlling the manufacture and

Salt Duties. taxation of salt produced in Native States until the salt reaches the British Frontier.

THE GREAT OBJECT
OF A
PLentiful
SUPPLY.

The great object at which the Government ought to aim is to give to the people, throughout India, the means of obtaining, with the least possible inconvenience, and at the cheapest rate consistent with financial necessities, a supply of salt, the quantity of which shall be limited only by the capacity of the people for consumption.

EQUALITY OF
THE SUPPLY
IN THE NORTH-WEST-
ERN PROVINCES.

Although much has been done, during the last six or seven years, towards this object, we are still far from its attainment: a comparison between the average consumption of salt per head in different parts of India proves, incontrovertibly, that, where salt is cheap and abundant, the consumption is much larger than where it is dear, and where the supply is restricted. In Madras, for instance, the recent inquiries of the Salt Commission show an average annual consumption of more than 12 lbs. per head; and, in the greater part of the Bombay Presidency, the rate does not fall much short of this: in Bengal the consumption is about 9½ lbs. per head; while in the North-Western Provinces and Oudh, although it is very difficult to speak positively on the subject, the rate can hardly exceed, if indeed it amounts to, 6 lbs. per head.

THE EXISTING SYSTEM
IS NOT PROFITABLE.

The existing system in Northern India has not even the merit of being financially profitable: for instance, the Madras Salt Commission show that thirty-four millions of people in that Presidency pay Salt duty at Re. 1-13 per maund, amounting to £927,000: if these people, instead of consuming more than 12 lbs. a head, consumed, like the people of Northern India, less than half that amount, and paid a duty of Rs. 3 per maund, the revenue would be only £750,000. There can be no doubt that, in the interests of the revenue, the best system would be that under which we should levy throughout India a low rate of duty on unrestricted consumption.

I have a strong belief that more than a hundred millions of people fail now to obtain a full supply of salt: I do not for a moment assert, nor do I believe, that the actual supply is insufficient for the preservation of health; nor do I at all agree with those who maintain that the salt tax presses with extreme severity on the poorer classes: but, however this may be, it is a great evil that the supply of this necessary of life should be restricted; and the restriction is not only mischievous in respect of human consumption, but in this way also, that there is little salt for the cattle, and little for any of the manufacturing processes in which it would be useful.

IT DEPENDS
ON THE AMOUNT OF TRANS-
PORT AS WELL AS

It must not be forgotten, however, that the price of salt depends not only on the amount of the duty imposed, but on other charges: for example, as I have said elsewhere, the North-Western Provinces depend practically for their salt on the inexhaustible supplies which exist in the Native States of Rajputana: for a long time, the British Government acted as if it were its object to aggravate by artificial obstructions, the natural difficulties in bringing the salt into its own territories; we placed between our markets and the salt sources a great Customs Line; imposed on all salt crossing it a heavy duty; and ignored everything on the other side of that line: thus, for example, salt from Sámblhar had to find its way two hundred miles through Native States, with no roads or bridges, and subjected to imposts, and exactions, and hindrances of every kind, until, at last, it came to the greatest hindrance of all, our own preventive line.

For such a state of things it was obvious that the mere reduction of the duty would do little or no good: the salt dealers, and not the consumers, would have been the chief gainers: with the existing means of communication, it was a physical impossibility to bring from Rajputana the salt required for some fifty millions of people: that task was one that could not be performed by any number of carts, and camels, and ponies which it was possible for the country to furnish; and these were the only means of transport: therefore it was that I have sometimes asserted that there was a salt famine in Northern India, meaning thereby, not only that salt was dear, but that sufficient salt could not be provided. For such a condition of things reduction of duty would no more afford a remedy than it would be a remedy in a food famine to give money to the people when no food existed in the markets: Lord Mayo saw

that there were two essential conditions to be fulfilled before relief could be found: it was necessary to provide cheap means of transport, to a practically unlimited extent, between the salt of Rajputana and our own markets; and also to make arrangements by which the price of salt to our people should be freed from influences outside our territory. The Salt Duties.

The first condition could only be provided by making railways into Rajputana; the second condition rendered it necessary that our Government should obtain complete control over the manufacture and supply of salt at the chief places of production. The first of these two conditions has recently been fulfilled by the extension of Railway communication from Agra and Delhi to the Sambhar salt lake: towards the second a great step was made when we obtained, under Lord Mayo's Administration, from the States of Jaipur and Jodhpur, the lease of this lake, the most important of the salt sources of Rajputana, and acquired, by an amicable arrangement, which was as profitable to the Native Chiefs as to the British Government, the complete control over the local manufacture of salt. RAJPUTANA RAILWAYS.
LEASE OF SAMBHAR LAKE.

The practical result of these measures has already been, not only to facilitate the supply of salt to the Upper Provinces, but greatly to reduce its price: salt which, before 1869, was sold at Agra for Rs. 5-12 per maund, is now procurable for Rs. 4, and the price is still diminishing. REDUCTION EFFECTED IN PRICE.

During the Administration of Lord Northbrook, another important step in advance was taken: in 1874 about 800 miles of the Customs Line in the Central Provinces, maintained for the purpose of levying the difference between the duty on salt levied in the Central Provinces and that levied in the Bombay and Madras Presidencies, was abolished: at the same time, the difference between the rates of duty levied in the Bengal and Madras Presidencies was shaded off by a sliding scale down the Orissa and Ganjam Coast: the result of these measures has been greatly to reduce the price of salt in the Central Provinces and in Orissa, with practically no financial loss to the Government. ABOLITION OF SOUTHERN LINE.

Recently the extension of the Northern State Railway to Jhelum has stimulated the sale of rock-salt at the Government mines in the neighbourhood, and decreased its price to the people. PUNJAB NORTHERN RAILWAY.

We are, at present, engaged in further negotiations with the Native States of Rajputana, which, when completed, will enable us to abolish the greater part of the Inland Customs Line, and to establish, instead of it, a system of local management at the places of production: the measures now in progress will benefit not only the British Government, but the Native Chiefs also: there is no antagonism between our interests; and I confidently anticipate a successful issue. It will not, however, be possible to abolish the Inland Customs Line simultaneously with our obtaining the control over the manufacture of salt at the places of production: there will be, for some time, in Rajputana and Central India, large quantities of salt which have left the places of production and are scattered about in the hands of traders: if the Customs Line were removed, this salt might be brought into British Territory; and, if it could not be taxed, a corresponding loss would be occasioned to our Salt Revenue. Although, therefore, establishments on the Line may be, to some extent, reduced, the line will not be removed, or the pass system abolished, until the Government is satisfied that there do not exist outside the Line large stocks of salt which has not been taxed, and which cannot be otherwise prevented from entering British Territory until it is taxed. Nor would it be safe to abolish the Customs Line until we learn by experience whether our arrangements for controlling the salt manufacture are efficient or not. NEGOTIATIONS WITH RAJPUTANA CHIEFS.

Moreover, before these objects can be accomplished, it will be necessary to take steps towards the equalization of the duties on salt; and this is also an indispensable preliminary to their general reduction: I had hoped on this occasion to have been able to announce some immediate measures in this direction; but, as I have already stated, this is rendered impossible by the famine. I should have been glad, had it been possible, to have seen an immediate reduction in the rate of duties in the Bengal Presidency to that in force in Madras and Bombay: but there is reason to fear that, before this point can be reached, it will be necessary that some temporary mea- EQUALIZATION AND REDUCTION OF DUTIES ON SALT.

Sugar Duties. Measures should be taken for raising the lower rates of duties while lowering the higher.

SUGAR DUTIES.

I have alluded to the duties levied on sugar exported across the Inland Customs Line: these are one rupee per maund on refined sugar, and six annas per maund on unrefined sugar, or saccharine produce. Except where the line runs along the left bank of the Indus, exports across it are taken to Native States; but, when it passes the Indus, the sugar is merely taken from one part of British territory to another. This sugar is all the produce of our own people in the North-Western Provinces, Oudh, and the Punjab: it is one of the most important agricultural staples of those provinces; and it is important not only to the agriculturists and manufacturers and consumers, but directly to the Government, which looks greatly to sugar cultivation for its irrigation revenue.

**PROTECTION OF
MAURITIUS SUGAR.**

While we are taxing heavily our own sugar grown on the east of the Customs Line, for the supply of the country beyond it, we admit into the same country the Mauritius sugar, which is imported largely to Bombay, taxed at a much lower rate. It is calculated that the Inland Customs duty is equivalent to 10 per cent. on the value; but the incidence of the duty varies considerably, particularly on refined sugar: on the cheaper kinds the duty is equivalent to more than 20 per cent. on its value: the sea import duty on Mauritius sugar is 5 per cent. *ad valorem*. I do not assert that there is, at present, any great competition between the sugar of the Upper Provinces of this Presidency and foreign sugar; but, so far as competition exists, the Inland Customs duty acts as a protective duty in favour of foreign and against our own sugar: to this extent, the duty must fall on the producer within the Customs Line. The competition will be more apparent and severe when the connection of the Rajputana State Railway with the Bombay and Baroda Line is completed.

Little or no sugar is grown in Rajputana or Central India; and the increase of price caused by the Inland Customs Line must tend to diminish consumption, and so, still further, to injure the producer: it is impossible to estimate the injury to the people and the Government caused by placing artificial obstructions on the export of one of the great agricultural staples of the country; and such obstructions obviously affect not only the export but the import trade as well: the Government of India has repeatedly urged upon Native States the policy of abolishing their transit duties; but it is difficult to see with what consistency we can do this, so long as we retain our Sugar duties. They yield about £165,000 a year: this is my only excuse for not proposing their instant abolition: they will, at any rate, disappear with the abolition of the Inland Customs Line.

Cotton Duties.

My Lord, I have reserved to the end of my Statement the remarks which I wish to make regarding the Customs duties on cotton goods. I do not now wish to re-open the discussion which was finally closed last year by the Secretary of State: it was then decided by Her Majesty's Government that "the interests of India imperatively require the timely removal of a tax which is at once wrong in principle, injurious in its practical effect, and self-destructive in its operation." The Secretary of State, while leaving to the judgment of the Government of India the mode in which the policy thus laid down should be carried out, declared his opinion that measures for the abolition of these duties should have priority over every other form of fiscal relief to the Indian taxpayers. Financial embarrassments arising from the depreciation of silver prevented any practical steps being taken, last year, in this direction: it was thought unwise to give up any revenue at such a time; and the Secretary of State concurred in this decision. It is with great regret that I have to announce that, for reasons similar to those which prevailed a year ago, it has been decided that nothing can be done, at the present moment, towards the abolition of these duties: the financial difficulties caused by the famine are so serious that we cannot sacrifice any source of income.

**NOT BE RE-
CED THIS YEAR.**

I regret this, not only because we are thus unable to carry out the orders of Her Majesty's Government, to which this Government owes a loyal and unhesitating obedience, but I regret it, personally, because, as the Council are aware, I am no recent convert to the policy which has been laid down, but have been, for many years past, one of those who have advocated the abolition of these duties at the earliest possible opportunity.

I altogether disbelieve that there is, in this matter, any conflict between Indian and English interests: I am satisfied that these interests are identical, and that they alike require the abolition of this tax. I will not speculate on what ought to have been done if the case had been different; but there is one thing which I wish to take this opportunity of saying: we are often told that it is the duty of the Government of India to think of Indian interests alone, and that if the interests of Manchester suffer it is no affair of ours: for my part, I utterly repudiate such doctrines: I have not ceased to be an Englishman because I have passed the greater part of my life in India, and have become a member of the Indian Government. The interests of Manchester, at which foolish people sneer, are the interests not only of the great and intelligent population engaged directly in the trade in cotton, but of millions of Englishmen: I am not ashamed to say that, while I hope that I feel, as strongly as any man, the duties which I owe to India, there is no higher duty in my estimation, than that which I owe to my own country. I believe that our countrymen at home have a real and very serious grievance, and that it is no imaginary injury against which they complain: I know that Your Excellency has resolved that the Government of India shall not shirk this business; and there need be no fear that it will be regarded in any half-hearted spirit. Your Excellency took the earliest opportunity which could be found, after you had assumed the office of Viceroy, to declare publicly your views upon this subject; and if I say no more regarding it now, it is mainly because I feel sure that Your Excellency will not lose the present opportunity of publicly declaring those views again: for myself personally, if I had not confidently expected to take part in this great reform, I doubt whether anything would have induced me to accept my present office; and I trust that I may still have a share in the performance of a task which I look upon as one of the most important which this Government has before it.

Cotton Duties.
THE GOVERNMENT
PLEDGED TO THE
ABOLITION HERE-
AFTER.

It is important, in my opinion, not only on its own account, but for the results which may follow hereafter. The net Sea Customs Revenue proper of India amounted in 1875-76 to £2,475,530, of which the duties on cotton goods yielded £850,000: when the cotton duties are removed, there will remain export duties on rice, indigo, and lac yielding together £620,000; and import duties on a multitude of articles yielding £930,000. Excluding the duties on cotton goods, the export and import duties together give £1,550,000: many of these duties are so objectionable that it is impossible that they can last: and can it be supposed that we should long continue to maintain huge establishments for the purpose of levying the small remnant of revenue that might survive? The truth is that cotton goods are the sole article of foreign production which the people of India largely consume, and there is no possibility of deriving a large customs revenue from anything else: I do not know how long a period may elapse before such a consummation is reached; but, whether we see it or not, the time is not hopelessly distant when the ports of India will be thrown open freely to the commerce of the world.

POSSIBLE FUTURE
ABOLITION OF ALL
CUSTOMS DUTIES
IN INDIA.

I feel, my Lord, that the Statement which I have made to-day is open to this general objection, that I have said comparatively little of what has actually been done, and a great deal of what may be done in the future: I may be told that it is seldom wise for a Government to go out of its way to pledge itself to Measures which it intends to adopt hereafter, and which may turn out, after all, to be impracticable. Under our present circumstances, I do not think that this is applicable to us: a distinct conception having been formed of some at least of the great objects at which our financial policy ought to aim, it seems to me highly desirable that a clear and public avowal of those objects should be made: the Government may thus hope to obtain the greatest advantage which an honest Government can desire,—a full examination and discussion of its proposed policy: such discussion will either help it to carry that policy into effect, or will enable it to avoid errors into which it might otherwise fall.

I have now, my Lord, finished my Statement: I have endeavoured to place before the Council and the public all the facts which it seemed to me might help them to form an accurate judgment on our financial position and on our

proposed policy : I have not attempted to keep out of sight anything which was unpleasant ; but have perhaps rather been inclined to err in the other direction, and to bring almost too prominently into notice the weak points of our financial administration.

The final result which seems to me to come out very clearly is that the finances of India are, on the whole, in a prosperous and satisfactory state ; and, that although there are some serious defects of system, they can certainly be removed : while I do not disguise from myself the fact that there may be grave difficulties before us, I look forward to the future not only with hope but with confidence.

*FINANCIAL STATEMENT FOR 1877-78.

PART II.—MINUTE. DATED 15TH MARCH 1877, BY THE HON'BLE SIR JOHN STRACHEY, K.C.S.I., ON THE ACCOUNTS OF THE REVENUE AND EXPENDITURE AND RECEIPTS AND DISBURSEMENTS OF BRITISH INDIA IN 1875-76, AND THE REVISED ESTIMATES FOR 1876-77.

I PROPOSE, in this Minute, to review the Accounts of Revenue and Expenditure and Receipts and Disbursements, which are now completed for the year 1875-76, and the Revised Estimates for 1876-77, the year which is now about to close. My explanation of the Budget Estimates for the ensuing year, 1877-78, will, on this occasion, be made in the Legislative Council. Preliminary.

I must, in the first place, explain that the Abstract Statements of the Accounts of the Revenue and Expenditure of 1875-76 and the Estimates of 1876-77 and 1877-78 which I have now the honor to place before the Council, differ in form from the Statements prepared during the last seven years. CHANGES IN THE FORMS OF THE ACCOUNTS.

From the 1st April 1871, the Government of Lord Mayo entrusted to the management of the Local Governments and Administrations certain important services, with Consolidated Allotments from the Imperial Revenues for their support; and the revenues connected with these services were, at the same time, surrendered for provincial uses. It was thought inexpedient to retain in the Imperial Accounts and Estimates the details of the revenue and expenditure thus made over to the Local Governments: accordingly, since 1871-72, these transferred Heads of Revenue and Expenditure have been excluded from the General Estimates and Accounts, the whole transactions respecting them being represented, there, by a single net entry under the Head *Allotments for Provincial Services*. The details thus omitted have been published in subsidiary statements, and each Local Government has given due publicity to its own Provincial Estimates and Accounts.

The Government of India now sees reason to regret the method then employed, because, by this method, figures of interest and importance are relegated to subordinate statements; the General Accounts and Estimates become incomplete; and the character of the arrangements between the Imperial and the Local Governments is not truly represented, or their operation sufficiently illustrated. The Government of India has, therefore, resolved to re-introduce into the Imperial Accounts and Estimates all the details omitted therefrom since 1871-72.

Accordingly, in the Abstract Statements which I now present to the Council, the heads of *Police* and *Education* appear again on each side of the Account, and the head *Allotments for Provincial Services* disappears, its elements being distributed among the several Heads of Revenue and Expenditure from which they were originally subtracted. Moreover, the Statements contain three new Adjusting Heads which are necessary in consequence of the arrangements between the Imperial and Local Governments, and which will, I believe, usefully illustrate the practical working of these arrangements.

The Local Governments are entitled to keep for provincial uses any surplus, while they must make good from provincial resources any deficit, upon their Provincial Accounts as a whole; such surplus is added to, and such deficit, in the first resort, supplied from, the Balances of the Local Governments in the hands of the Imperial Government. These additions and subtractions will henceforth be recorded under the Heads *Balances of the Local Governments Increased* and *Balances of the Local Governments Decreased*. NEW ADJUSTING HEADS.

reliminary.

It may happen, however, that the balance at credit of a Local Government does not suffice to cover a deficit in its Provincial Accounts; or, for other reasons, a Local Government may think it right to contribute funds from its separate provincial resources in support of the Imperial services which it administers. Whenever such contributions are made, they will be recorded under the Head *Provincial Contributions*. It is not deemed expedient to open on the expenditure side a corresponding account of *Contributions to Local Funds*, because, although such contributions are frequent, and might be found to counterbalance some substantial part of the *Provincial Contributions*, their object and destination can always be classified under some Service Head, and it is considered better thus to classify them, than to show them under a mere Transfer Head, which would give no information as to the nature of the service for which they are made.

Taking the three Adjusting Accounts *Provincial Contributions, Balances of the Local Governments Decreased, and Balances of the Local Governments Increased* together, a very good idea can be formed of the financial working of the arrangements with the Local Governments.

THE AMALGAMATION
OF PROVINCIAL
AND IMPERIAL
ACCOUNTS.

The engagements between the Imperial and Local Governments will no longer affect the form of the Imperial Accounts and Estimates, except through the adjusting accounts which I have described. The Revenue and Expenditure under all other Heads will be recorded without any reference to the several responsibilities of the Imperial and the Local Governments, which will be matter for arrangement altogether apart from the Accounts. Thus, henceforth, any one wishing to ascertain the total imperial revenue and expenditure of British India, under the several recognised Heads of Account, will be able to do so from the General Accounts and Estimates. It seems to me that this will be an advantage; and that the re-combination of the Accounts and Estimates of the Imperial Revenues and Expenditure, whether immediately administered by the Imperial or by the Local Governments, into one Imperial Statement, will make the whole more intelligible, and enable both the Government of India to control the Revenue and Expenditure, and the public to criticise the Accounts, more effectually than heretofore.

It will be necessary for the Local Governments to excerpt, for their own information, the items of Revenue and Expenditure for which they are primarily responsible: they will be required to publish the Accounts and Estimates thus compiled, which will be of great local interest; but such local Accounts will not form a part of the Accounts of British India.

TRANSACTIONS OF
GUARANTEED
COMPANIES.

A change is made in the manner in which the transactions of the Guaranteed Railway and Madras Irrigation Companies are exhibited in Statements Nos. IV, V, and VI. Hitherto these transactions have been there shown net after elimination of the effects of the conditions of the contracts as to the rate at which, in the accounts between the Government and the Companies, Rupees are converted into sterling. Henceforth these transactions will be shown gross, in Rupees, just as they occur.

ABSTRACT
STATEMENTS
PREPARED IN
RUPEES.

I ask a passing notice for another change of importance in the character of the Abstract Statements. For the last ten years, these Statements have been prepared, ostensibly, in Pounds Sterling, on the hypothesis that the English Pound is equal to the Rupee. Since the Revenue and Expenditure and Receipts and Disbursements of the Government of India, in India, are really calculated in Rupees, the value of which, compared with the English money of account, varies from time to time, it is plain that the Pound Sterling used in these Statements was not a real Pound Sterling, but a conventional money of account peculiar to this purpose. So long as the value of Rs. 10 did not much vary, as for many years it did not, from £1, there was a certain convenience in this arrangement; and the figures conveyed to English readers a meaning not very far from the truth: but, of late years, there has ceased to be any close or normal relation between Rs. 10 and £1, and Statements prepared upon the hypothesis of such a relation, are now untrue and misleading. I shall, therefore, revert to the use of Rupees in the Abstract Accounts and Estimates appended to the Financial Statement: the Secretary of State will use his own discretion as to the money of account in which the Accounts and Estimates presented to Parliament shall be stated. In combining the Sterling Receipts and Disbursements under each Head, at the

Home Treasury, with the Rupee Receipts and Disbursements under the same Provincial Heads at the Indian Treasuries, it is only a degree less incorrect to call the Accounts, totals, under each Head, Rupees, than it is to call them Sterling: the consequent 1871-76. errors of detail, which, under the existing system, cannot be avoided, and which, as will appear in the course of this Minute, are often highly inconvenient, are neutralised in the Grand Totals by the entry of the sum of them under the adjusting Head *Loss by Exchange*; the errors do not involve some of the most important Heads or the Grand Totals; and, although I am unable at present to eliminate them, I prefer to state the Accounts and Estimates in Rupees, as, on the whole, much less misleading than if I were to state them in Pounds Sterling.

PROVINCIAL ACCOUNTS, 1871-76.

It would have been interesting to compare the Accounts of the Local Governments for 1875-76 as now re-incorporated in the Imperial Accounts, with the corresponding portions of the last Accounts (for 1870-71), before the introduction of the system of Consolidated Allotments for Provincial Services; I shall attempt such a comparison in my Statement before the Legislative Council; but I fear that it cannot be made quite completely.

COMPARISON OF
PROVINCIAL
ACCOUNTS, 1870-71
AND 1875-76.

As already explained, it is possible that a portion of the expenditure for Education and Public Works now recorded as Imperial in 1875-76, would have been treated as Local in 1870-71 and *vice versa*. In any case, the growth of the expenditure upon these important Services in the five years was trifling; and the Imperial Government has been, certainly, set free from importunate claims upon its resources.

It will be remembered that the Governments of India inaugurated the Provincial system by granting to the Local Governments balances aggregating Rs. 20,00,000. Their receipts in the five years, apart from *Provincial Contributions*, have aggregated Rs. 29,57,31,568, and the sum of Rs. 55,93,660 has been contributed to the Delegated Services from Provincial Resources. The expenditure upon the Delegated Services has amounted to Rs. 30,03,76,338, and the balances of the Local Governments on the 31st March 1876 were Rs. 29,48,890. Of the whole expenditure, Rs. 15,27,296 is recorded as Contributions to Local Funds; but I am doubtful whether this can be accepted as accurately representing the relief to Local Funds by the transfer of expenditure from the Local to the Imperial category; the net burden upon separate Provincial Resources cannot, in any case, have been very heavy. Of the gross sum of Rs. 55,93,660 shown as *Provincial Contributions*, Rs. 8,98,431 is on account of *Famine Relief* in Bengal, and explains the abnormal amount recorded under this Head in 1875-76. The Abstract Account of the five years is as follows:—

districts or localities, and can be expended only for their benefit; but, in each Province, there is a more or less considerable residuum at the disposal of the Local Government for use, at its discretion, throughout the Province. When the system of Consolidated Allotments of Imperial Revenue for certain Delegated Services was adopted, it was, at first, thought convenient to amalgamate the Accounts of the Transferred Services and Revenues with those of the Local Funds at the disposal of the Local Governments for general provincial purposes, and unnecessary to maintain any separation between these two Accounts. But this amalgamation was found to be inconvenient; as it made it difficult for the Government of India to ascertain, from time to time, all the financial consequences of the new system as compared with the old. The Government of India determined, therefore, some time ago, to arrange for as complete a re-separation as possible of the transactions which would, under the old system, have been recorded in the Imperial Accounts, from those which would have been treated as transactions of Local Funds.

The abandoned system had made such progress that it is doubtful whether this separation can be completely effected as regards the past, or, even, whether it is, as yet, perfectly accomplished as regards recent and current expenditure. For this reason it cannot be said with confidence that the revenue hitherto recorded as *Provincial Contributions* is all of the nature of a demand upon separate Provincial Resources which would not have occurred under the old system. Indeed, it is certain that some considerable portion of these contributions is balanced by the record as imperial of expenditure which would, under the old system, have been a charge upon Local, or separate Provincial Resources. I hope, however, that the means will gradually be found of altogether removing from both sides of the Imperial Accounts, in future, all transactions which, under the old system, would, directly or indirectly, have been recorded under "Local Funds:" when this is effected, the demands upon local resources for imperial purposes will, I believe, be found to be, as yet, inconsiderable.

It will be seen from Statement No. VII that the whole sum raised in India in 1875-76 by Local Taxes, Rates, and Cesses was only Rs. 2,03,83,620: the estimated amount in 1876-77 is Rs. 2,07,32,000, and in 1877-78 Rs. 2,23,29,000. This last amount is, however, exclusive of new taxation to be imposed under the measures which I shall this day describe in the Legislative Council.

ACCOUNTS OF REVENUE AND EXPENDITURE, 1875-76.

COMPARISON
BETWEEN REGULAR
REVENUE AND
EXPENDITURE, 1875-76.

I proceed to explain the differences between the Regular Estimates of the Revenue and Expenditure of 1875-76 made by the Hon'ble Sir William Muir on the 31st March last, and the Accounts of that year as since completed.

Sir William Muir estimated that the Grand Total Revenue would be Rs. 50,99,10,000, and the Grand Total Expenditure Rs. 53,88,70,000; and that there would be a Deficit of Rs. 2,89,60,000; or (the Extraordinary Expenditure being estimated at Rs. 4,14,30,000), a Surplus on the Ordinary Account of Rs. 1,24,70,000. The completed Accounts show the Revenue to have been Rs. 52,51,57,587, the Expenditure Rs. 55,11,75,355, and the Deficit Rs. 2,60,17,468, being less than the estimate by Rs. 29,42,532: the Extraordinary Expenditure having been Rs. 4,27,06,290, the Surplus on the Ordinary Account was Rs. 1,65,88,822, being more than the Estimate by Rs. 42,18,822.

The Revenue has exceeded the Estimate by Rs. 1,52,47,887, and the Expenditure by Rs. 1,23,05,355. Of these excesses, Rs. 97,23,653 on each side of the Account is due to the re-incorporation, in gross, of the transactions of the Local Governments, which were represented in the Regular Estimates, by a single net entry; if this disturbing cause be abstracted, there remains an excess Revenue of Rs. 55,24,234, and an excess Expenditure of Rs. 25,81,702, of which Rs. 13,05,412 is in the Ordinary Section of the Account, and Rs. 12,76,290 is Extraordinary. This latter excess is due to the purchase of certain stores from the Guaranteed Railway Companies for the State Railways, a transaction not anticipated when the Regular Estimates were closed.

It is not necessary now to make any minute comparison between the Accounts, details of Sir William Muir's Estimates and the Accounts, and I shall content myself with mentioning only the principal items of difference. Only two of the Heads of Revenue yielded, in a noteworthy degree, less than the estimate, *viz.*, *Salt*, Rs. 4,15,850, the clearances of Foreign Salt during March having been abnormally deficient, and *Irrigation*, Rs. 1,12,800, an old Account having been adjusted: all the other important Heads of Revenue show improvement, the chief items being as follows:

Land Revenue, Rs. 13,17,420, occurred in Bengal, where unexpected arrears were collected, and in Madras. So large a portion of the Land Revenue is collected at the close of the year, that it is impossible to secure absolute correspondence even between the Regular Estimates and the Accounts of Land Revenue.

Forest, net improvement Rs. 6,88,598, which occurred chiefly in British Burmah, and might perhaps have been foretold.

Marine, net improvement Rs. 5,35,639, chiefly in Bengal, where there was an unexpected transfer entry.

The only important failure in the Estimates of Expenditure is under *Refunds*, under which Head it became necessary to adjust a large erroneous credit of Land Revenue in Bombay.

The expenditure on *Famine Relief* was considerably less than the sum shown in the Regular Estimates. The Imperial Expenditure was, indeed, only Rs. 50,85,550, being less than the Regular Estimate by Rs. 14,74,450. But, under the new system of combining the two Accounts, the Provincial Expenditure, in 1875-76, upon the Famine, Rs. 8,72,243, is added to the Imperial Expenditure, and the whole becomes Rs. 59,57,793.

In the Original Estimates of Revenue and Expenditure for 1875-76 provision was made for a Surplus upon the Ordinary Account of Rs. 50,60,000. The actual Surplus was Rs. 1,66,88,822; and this, notwithstanding a revision of the Customs Tariff, in the middle of the year, with an estimated effect of Rs. 26,60,000 adverse to the Estimates; notwithstanding, also, an unestimated adjustment from the Imperial Revenues of Rs. 50,85,550 for *Famine Relief*.

COMPARISON OF
THE ORIGINAL
ESTIMATES WITH
THE ACCOUNTS,
1875-76.

The Revenues exceeded the Original Estimates by Rs. 1,72,34,234, and the Expenditure exceeded the Estimates by Rs. 56,05,412. The principal items of improvement are *Opium*, Rs. 50,28,600, and *The Army*, Rs. 51,31,540: minor improvements are *Land Revenue*, Rs. 12,47,420; *Forest*, Rs. 10,30,080; *Excise*, Rs. 12,63,770; and *Customs* (notwithstanding the revision of the Tariff), Rs. 4,46,580. The chief items of deterioration are *Famine Relief*, Rs. 50,85,550, and *Public Works Ordinary*, Rs. 19,05,530.

Of the Extraordinary Expenditure, Rs. 3,16,51,840 was spent upon Railroads, chiefly as follows:—

	Rs.		Rs.
Rajputana ...	33,69,370	Punjab Northern ...	32,69,800

and Rs. 1,10,54,450 on Canals, principally as follows:—

	Rs.		Rs.

CAPITAL EXPENDITURE
TO THE END OF
1875-76.

The Total Capital Expenditure on Irrigation Works in India, to the end of 1875-76, amounted to Rs. 16,55,44,070, of which Rs. 8,70,80,510 was classified as Extraordinary as follows:—

MEANS AND
EXTRAOR-
INARY EXPENDI-
TURE IN 1875-76.

Of the Rs. 4,27,06,290 classified as Extraordinary Expenditure, Rs. 1,66,88,822, or 39 per cent., appears from the Accounts to have been provided from the Revenues of the year, leaving only 61 per cent. to be met from borrowed money. The financial results of the year 1875-76 would thus have been highly satisfactory if all the Extraordinary Expenditure had been on really reproductive works. Unfortunately, however, no less than Rs. 1,33,25,923 was expended under this head on the Punjab Northern and Indus Valley Railways in 1875-76, and, as I shall have occasion to explain elsewhere, the direct returns which we shall get from these Railways will be very small.

The expenditure for the relief of the Famine of 1874 in Northern Bengal. Accounts, may now be said to have been completely brought to account: there may be still 1875-76. some outlying items; but they will not be important. The total is as follows:—

	Rs.	COST OF FAMINE RELIEF, BENGAL.
In 1873-74	3,86,46,730	
In 1874-75	2,23,78,600	
In 1875-76 (including Expenditure from Provincial Funds)...	59,57,793	
Total	6,69,83,123	

of which Rs. 8,98,434 was provided from Provincial Resources, and Rs. 6,60,84,689 from the Imperial Revenues. There was a set-off in increased Net Traffic Receipts on the *Guaranteed Railways* estimated by Sir William Muir, last year, at Rs. 17,00,000; but, on the other hand, there was some loss of *Excise* and other revenue, and a substantial expenditure from Local Funds. The whole net cost of the measures for the relief of the Bengal Famine cannot now be stated at less than 6½ crores of Rupees.

If there had been no Imperial Expenditure for Famine Relief, the Surplus Imperial Revenue of the three years on the Ordinary Account would have been—

	Rs.	HOW FAR MHT FROM CURRENT REVENUES.
1873-74...	2,05,70,050	
1874-75...	2,55,70,575	
1875-76...	2,17,74,370	
Total	6,79,14,995	

Thus, according to the Accounts, the Revenues of the three years bore the whole cost of the Famine, and even yielded a Surplus of Rs. 9,31,872. If we add to this the sum of Rs. 8,98,434 contributed from Provincial Resources, the net Surplus of the three years on the Imperial Ordinary Account would be Rs. 15,30,306. This apparently happy result is marred by the fact that there was, during these three years, an expenditure of Rs. 3,35,26,565 upon the Railways which I have just mentioned, which, although treated as Extraordinary Works, cannot be expected to be, in any sufficient degree, reproductive. In speaking of the arrangements proposed for the coming year, 1877-78, I shall refer more particularly to this subject, and shall explain the resolution of the Government to treat, hereafter, expenditure of this kind as ordinary.

ACCOUNTS OF WAYS AND MEANS, 1875-76.

I have still to examine the Ways and Means by which provision was made for the service of the year 1875-76, and to compare them with the Regular Estimates. The figures which I am about to quote will be found, in a convenient shape, in little tables at foot of the page in the left hand corner of Statements Nos. IV, V, and VI. Those with which they are to be compared are in the corresponding little tables in the centre of the same Statements appended to Sir W. Muir's Financial Statement of 31st March last. If any one wishes for more details than these little abstracts contain, they are to be found in the body of the Statements themselves.

We have seen that the deficit of Imperial Revenue in 1875-76 was altogether Rs. 2,60,17,470, being an improvement upon the Estimate of Rs. 29,42,530. We lent, during the year, to Native States and Public bodies Rs. 38,74,876 more than we received: the sum is smaller by Rs. 7,40,124 than was expected. The Guaranteed Railway and Irrigation Companies withdrew from our Treasuries the sum of Rs. 1,04,31,836, being less than was expected by Rs. 19,86,164. The disbursements from the balances of the Military Funds were Rs. 41,36,267, being Rs. 733 less than Estimate: the amount is abnormal, being due to the refund of their subscriptions to a large number of the members of the Bengal Medical Retiring Fund. The Local Governments drew for separate provincial and local purposes Rs. 40,22,930, being more by Rs. 60,930 than was estimated. Altogether we had to make good from other sources than the public Revenues the sum of Rs. 4,84,83,379, being less than Sir William Muir estimated by Rs. 74,16,621.

Statistics,
1875-76.
ASSETS.

Towards meeting this obligation we borrowed the net sum of Rs. 4,10,95,219, being more by Rs. 20,68,219 than was expected; the excess was in England. The money deposited in our Savings Banks exceeded the money drawn out by Rs. 8,40,206, being less by Rs. 1,22,794 than was estimated: the deposits of the Covenanted and Uncovenanted Civil Service Funds were Rs. 11,18,471, being more by Rs. 85,471 than the Estimate, and the balance on the Deposit and Advance Account was in our favour by Rs. 20,18,538, being less by Rs. 30,25,462 than was expected. The remaining transactions yielded to the Treasury the net sum of Rs. 23,93,032, while it was estimated they would withdraw from the Treasury Rs. 18,08,000.

Thus it happened that, instead of the estimated reduction of Rs. 98,33,000, the actual reduction of the cash balances during the year was only Rs. 10,17,913, an improvement of Rs. 88,15,087, of which Rs. 70,93,000 was in India and the rest in the Home Treasury.

<i>Net exports</i>	21,18,00,000	20,14,00,000	19,20,00,000

The excess net imports of silver, and the reduction of the Council Bills, in 1874-75, are due to the large amount borrowed in that year for the campaign against the Bengal Famine, and for Railways and other Public Works.

In 1873-74, for the first time for 23 years, the average price of an ounce troy of standard silver in London fell below 60d.: the continuous fall in 1874-75 and 1875-76 marks the course of a phenomenon that has already caused, and must, I fear, for some time to come, cause, grave anxiety to all interested in India: I shall have to refer to the subject hereafter.

The value of commodities (other than treasure) exported in 1875-76 exceeded the exports of 1874-75 by Rs. 1,73,00,000: but the value of Imports grew by the still larger sum of Rs. 2,67,00,000: consequently, the Net Exports of India (excluding treasure) fell off by Rs. 94,00,000.

Including treasure, the Net Exports of the three years were—

1873-74.	1874-75.	1875-76.
Rs.	Rs.	Rs.
17,33,00,000	13,63,00,000	16,10,00,000

So that the Net Exports of 1875-76 altogether, though less than those of 1873-74 by Rs. 1,23,00,000, exceeded those of 1874-75 by Rs. 2,47,00,000.

The most important of our exports is *Cotton, Raw*, the statistics of which are as follows:—

	1873-74.	1874-75.	1875-76.
Cwts.	45,00,000	56,00,000	50,10,000
Value (in Rupees) ...	13,21,22,000	15,25,73,000	13,27,90,000

The great exports of 1874-75 were thus not maintained in 1875-76: Statistics, this is attributed, partly, to an abundant crop in the United States, and, 1875-76, partly, to increasing demands for this important staple for home consumption. In correspondence with this latter influence, the exports of *Manufactures of Cotton*, including twist and yarn, show an important development, as follows:—

1873-74.	1874-75.	1875-76.
Rs.	Rs.	Rs.
52,26,000	51,24,000	66,31,000

The imports of Cotton Goods, including twist and yarn, were:—

1873-74.	1874-75.	1875-76.
Rs.	Rs.	Rs.
17,78,46,000	19,42,13,000	19,25,87,000

The value of the imports of Cotton Manufactures, excluding twist and yarn, has not decreased. The figures are—

1873-74	1874-75.	1875-76.
Rs.	Rs.	Rs.
15,15,57,000	16,26,36,000	16,46,39,000

There was, indeed, a decrease in the value of grey (unbleached) goods imported, on private account in 1875-76, as compared with 1874-75, amounting to Rs. 73,58,240; but it was more than counterbalanced by increases under other descriptions in both quantities and values. It should be mentioned here that the values of grey goods returned in 1873-74 and 1874-75 were tariff values, which were above the market values; while, in 1875-76, their recorded values have been the actual market values, exclusive of duty.

The following table contains the Statistics of our most important Exports PRINCIPAL EXPORTS. for the three years:—

This table shows a healthy condition of our export trade. The augmented exports of *Coffee, Hides, Seeds, Tea, Wheat, and Wool* are especially noteworthy. It is interesting to find that, as with *Cotton*, so with *Hides* and *Jute*, the export of manufactured articles is, in an important degree, superseding the export of the raw material; our chief customers for gunny bags are, *Australia* for wool packs, *California* for grain-sacks, and the *Eastern Asiatic Countries* for grain-bags, &c. The serious decline in the silk trade is

Regular Estimates, 1876-77.

compensated by the growth of other items. I hope that the nascent demand for Indian wheat will not be checked by malpractices in India, or by the carelessness of exporters. There are complaints of the admixture in Indian wheats of barley, gram, and other grains; and, should this continue, India will fail in her competition with the United States, Austro-Hungary, Southern Russia, Egypt, and other wheat-producing countries.

PRINCIPAL PORTS.

The following table contains statistics of our most important imports besides *Cotton Manufactures*. The growth of the imports of *Metals* and *Woollens* is interesting. The *Salt* figures indicate a serious decrease in the value of that staple, by which, however, consumers must have profited.—

Upon the whole, the trade of India, at the end of 1875-76, seems to have been in a satisfactory condition.

REGULAR ESTIMATES, 1876-77.

REGULAR ESTIMATES, 1876-77, COMPARED WITH ORIGINAL ESTIMATES.

I come now to the present prospects of the current year, 1876-77, which I will first compare with the Estimates of Sir William Muir published on the 31st March 1876. As those Estimates have been recast in the form that I propose henceforth to use, I shall be able to enter into any detail that seems expedient.

Sir William Muir estimated that the Grand Total Revenue would be Rs. 50,48,00,000; that the Grand Total Expenditure would be Rs. 54,09,50,000; and, thus, that there would be a Deficit of Rs. 3,61,50,000. These same Estimates recast in the new form are as follows:—

	Rs.
<i>Expenditure</i> ...	55,11,04,000
<i>Revenue</i> ...	51,49,54,000
<i>Deficit</i> ...	3,61,50,000

In both cases alike, the Deficit is converted into a Surplus of Rs. 14,40,000 if the Extraordinary Expenditure (Rs. 3,75,90,000) is excluded from consideration.

The present Estimates are—

GENERAL RESULT.

That the Expenditure will be Rs. 57,28,50,000, exceeding the Original Estimates by Rs. 2,17,46,000.

That the Revenue will be Rs. 51,20,67,000, or less than the Original Estimates by Rs. 28,87,000.

And, thus, that the Deficit will be Rs. 6,07,83,000, or more than Sir W. Muir's Estimates by Rs. 2,46,33,000.

If the estimated Extraordinary Expenditure be excluded from the Account, the Deficit is reduced to Rs. 2,27,83,000, being a result worse than Sir William Muir expected by Rs. 2,42,23,000.

These Estimates may be compared thus :—

This untoward result is due entirely to the Famine in the Madras and Bombay Presidencies. Without describing afresh the extent and severity of this calamity, I will, here, simply state its effects upon the Estimates of Revenue and Expenditure, both for the current and the coming year, so far as they can now be traced. This will be most conveniently done in the following tabular form :—

Effects of the Famine in the Presidencies of Madras and Bombay, upon the Estimates, 1876-77 and 1877-78.

1876-77	Loss of Land Revenue.	Loss of Excise Revenue.	Loss of Forest Revenue.	Direct Outlay for Famine Relief.	Excess charges in the Army.	Total.

The gross estimated cost of the Famine altogether is—

	Rs.
In Madras ...	3,73,54,000
In Bombay ...	1,80,97,000
TOTAL ...	5,54,51,000

of which Rs. 2,20,91,000 is loss of revenue and excess charges in the Army, and Rs. 3,33,60,000 is direct expenditure on measures of relief. From this gross sum of Rs. 5,54,51,000 must be deducted the gain to the Revenues from the increased earnings of the Guaranteed and State Railways; and this I find it at present impossible to estimate with any accuracy. I shall presently have to speak of a very gratifying improvement in the net traffic earnings of these Railways; but how much precisely of the improvement is due to the Famine, it is impossible, as yet, to say. Perhaps, on the whole, as near an estimate as can now be made of the net cost of the Famine is five and a quarter crores of Rupees, of which Rs. 3,10,00,000 falls on this year, and Rs. 2,15,00,000 on next year.

The eventual cost of this Famine will depend upon how far it is found necessary wholly to remit the Land Revenue of which the collection is, for the present, suspended. The Hon'ble Sir Richard Temple is strongly of opinion that, if favorable seasons follow, the people will, hereafter, be able to pay at least Rs. 1,29,50,000 of the Rs. 1,87,96,000 Land Revenue which must for the time be left uncollected: but the Governor General in Council has considered it right to leave to the Governments of Madras and Bombay an unfettered discretion in this matter. These Governments will doubtless receive Sir Richard Temple's recommendations with all the deference which they deserve; and I may perhaps be permitted to express a hope that, without any undue harassment of the people, the Local Governments may yet find themselves able to recover, for the benefit of the general tax-payers, from those on whose behalf this great expenditure is being incurred, more than they now think possible.

Regular Estimates, 1876-77.

I cannot quit this part of my Statement without calling again to mind the zeal, energy, and ability with which Sir Richard Temple, abandoning a distinguished position of comparative ease and comfort, has devoted himself to those important public duties which he is now performing with admirable success.

If there had been no Famine, there would have been no Deficit in 1876-77, but, on the contrary, if the Estimates of the cost of the Famine are trustworthy, a Surplus on the Ordinary Account of Rs. 62,48,000,* that is to say, an improvement upon the Original Estimate of Rs. 48,08,000. Here, however, it must again be remembered that the sum of Rs. 1,38,58,850 was expended on works classed as extraordinary, but which cannot be called reproductive. *

DETAILED
COMPARISONS.

The following are the explanatory remarks which seem called for regarding the various increases and decreases shown in the Abstract Statements.

LAND REVENUE.

I. Land Revenue.—The whole of the decrease, Rs. 1,37,59,000, is due to the Famine, but for which there would have been a small net improvement of Rs. 86,000.

TRIBUTES.

II. Tributes.—The improvement of Rs. 50,000 is due to arrear payments by Banswara and Udhaypur.

FOREST.

III. Forest.—The Original Estimates were for a Net Revenue of Rs. 18,26,000; the Regular Estimates are for a Net Revenue of Rs. 17,31,000, being less by Rs. 95,000. The failure is in the *Bombay* and *Madras* Presidencies, and is attributed to the Famine, which is estimated to have reduced the Net Revenue from *Forests* by at least Rs. 2,00,000.

EXCISE.

IV. Excise.—The Net Revenue from this source is now expected to be only Rs. 2,37,92,000, instead of Rs. 2,43,80,000. The decrease of Rs. 5,88,000 is much more than accounted for by the loss of Revenue from the Famine in Madras. But for the Famine, there would have been a considerable improvement. The Net Revenue from *Excise* in recent years (deducting Refunds) has been as follows :—

	Rs.		Rs.
1869-70 ...	1,99,20,810	1873-74 ...	2,19,12,340
1870-71 ...	2,07,93,600	1874-75 ...	2,25,44,140
1871-72 ...	2,23,24,660	1875-76 ...	2,40,70,560
1872-73 ...	2,19,09,070	1876-77, Regular Estimates	2,37,33,000

The steady improvement is satisfactory.

CUSTOMS.

VI. Customs show a serious decrease as compared with the Original Estimates of Rs. 15,08,000; the loss is generally distributed. It seems probable that the Original Estimates, which were based upon last year's Regular Estimates, were too sanguine. The net *Customs* Revenue of the last few years (deducting Refunds and Drawbacks) has been as follows :—

	Rs.		Rs.
1869-70 ...	2,16,63,020	1873-74 ...	2,37,36,730
1870-71 ...	2,35,11,350	1874-75 ...	2,42,17,380
1871-72 ...	2,34,05,590	1875-76 ...	2,47,00,620
1872-73 ...	2,40,11,230	1876-77, Regular Estimates	2,20,77,000

The net yearly Revenue sacrificed by the revision of the Tariff on the 5th August 1875 was estimated at Rs. 30,84,000: this sum deducted from the Net Revenue of 1874-75, the most productive recent year before 1875-76, would leave only Rs. 2,11,33,380, from which point the Revenue of 1876-77 shows a satisfactory recovery of 9½ lakhs of rupees. The *Customs* Revenue of 1875-76 was evidently abnormal; we cannot expect so speedy a recovery from the standard of 1874-75 as was estimated in March last.

SALT.

Salt.—The Net Revenue was estimated at Rs. 5,77,40,000: it is now estimated at Rs. 5,85,65,000, being a gross improvement of Rs. 8,25,000. The

so that the Net Revenue of 1876-77 will, if the present Estimates are realised, be the largest yet obtained

VIII. Opium.—The Net Revenue was estimated at 6 crores of Rupees ; it is now expected to be Rs. 6,37,50,000, an improvement of Rs. 37,50,000. The Gross Revenue has only once before been exceeded ; and the Net Revenue would have been much larger than is now expected, but for the unprecedently large crop of 1876. The cost of this great crop fell upon the Revenues of the year, its surplus yield being added to the reserve store in the possession of the Government, which now amounts to 35,315 chests more than the quantity which will be sold during the calendar year 1877. The recent figures of the Opium Revenue are as follows :—

		Gross Revenue.	Expenditure.	Net Revenue.	
1869-70	...	7,95,15,570	1,82,06,830	6,13,08,740

1875-76	...	8,47,14,250	2,21,85,650	6,25,28,600	
1876-77	...	9,17,68,000	2,80,18,000	6,37,50,000	Great crop.
		68,46,52,990	16,60,92,130	51,85,59,860	

The average yearly Net Revenue for these eight years has been Rs. 6,48,19,982, the Net Revenue of particular years depending much upon the outturn of the crop paid for. The Net Revenue of 1876-77 is rather below the average of the eight years, but compares favorably with all but two of these years. Bengal Opium is now expected to yield net less than the Estimate by Rs. 1,60,000, the excess expenditure being, by this amount, larger than the large excess revenue. Malwa opium is expected to yield Rs. 38,90,000 more than the Estimates.

On the 19th December 1876, the Opium Act (No. XXIII of 1876) received the assent of the Governor General. This much-needed Law will enable the Government to regulate and supervise the growth of the poppy and all transactions with Opium throughout India : hitherto, in many parts of the country, either there has been no law, or the law has been doubtful.

IX. Stamps.—The Net Revenue from *Stamps* and *Law and Justice* (the portion now Imperial) is now expected to be Rs. 3,09,25,000 instead of Rs. 3,05,00,000, as at first estimated, an Improvement of Rs. 4,25,000. The Net Revenues from *Stamps* and the existing imperial items under *Law and Justice* (deducting Refunds) show a steady improvement as follows :—

	Rs.		Rs.
1871-72	2,68,40,230	1874-75	2,88,44,860
1872-73	2,84,31,580	1875-76	2,97,10,000
1873-74	2,89,55,410	1876-77, Regular Estimates	3,02,05,000

X. Mint.—Sir W. Muir estimated the Net Revenue from the Mints at Rs. 3,00,000 ; it is now expected to be Rs. 8,46,000, the excess (Rs. 5,46,000) being due to a large coinage of silver.

XIII.—The decrease of Rs. 3,37,000 under *Law and Justice* is in the Provincial portion (*Jails* and *Registration*), and is partly set off by a saving of Rs. 1,75,000 under the corresponding Heads of Expenditure.

XIX. Gain by Exchange.—The large improvement in the Net Traffic Earnings of the Guaranteed Railway Companies entails the improvement of Rs. 11,57,000 here shown.

XX. Miscellaneous.—The improvement of Rs. 2,91,000 occurs mainly in England, the chief items being £9,600 for Cinchona bark sold, £6,400 from the exhibition of the presents taken home by His Royal Highness the Prince

Regular
Estimates,

of Wales, and £5,000 fines on contractors subsequently remitted, and shown under the corresponding Head of Expenditure. A curious item in India is the State share of nine ingots of gold, valued at Rs. 53,240, discovered in the Kistna District.

IRRIGATION.

Irrigation.—The small decrease of Rs. 2,63,000 is due to the favorable season in the Punjab causing a loss of Rs. 1,37,200, and to disappointments in Bengal.

The probable Extraordinary outlay on Canals in 1876-77 is Rs. 1,01,20,000, as follows :—

	Rs.		Rs.
Madras	3,75,000	North-Western Provinces	33,00,000
Bombay	6,49,000	Punjab	20,00,000
Bengal	37,50,000	In England	46,000

In 1876-77 the total direct receipts from Irrigation Works are estimated to amount to Rs. 50,06,750. Of this sum, the amount expected to be derived from the completed Canals on which the Capital Outlay has been Rs. 10,07,23,280 is Rs. 47,01,000 : the estimated amount of Land Revenue due to or dependent on the works is Rs. 20,20,340 : thus the Gross Revenue is estimated at Rs. 67,21,340. The working expenses from which this Gross Revenue is derived is estimated to amount to Rs. 33,78,060 : so that the expected Net Revenue is Rs. 33,43,280, or 3·3 per cent.

STATE RAILWAYS.

State Railways.—The Net Revenue from State Railways was estimated at Rs. 11,80,000 ; it is now expected to be only Rs. 10,42,000 ; the decrease of Rs. 1,38,000 is owing to slackness of trade, especially on the Holkar Line, and also to the Northern Bengal and Indus Valley Lines not having been opened for traffic so soon as was expected.

The growth of the revenue from State Railways is, however, encouraging : as follows :—

	Gross Earnings.	Working Expenses.	Net Traffic Earnings.
	Rs.	Rs.	Rs.
1872-73	1,65,330	1,79,140	— 13,811
1873-74	3,99,140	7,28,240	— 3,29,100
1874-75	13,09,860	18,38,830	— 5,28,970
1875-76	28,95,120	21,47,130	7,47,990
1876-77, Regular Estimates ...	36,96,000	26,54,000	10,42,000
1877-78, Original Estimates ...	67,48,000	48,80,000	19,18,000

The Capital Expenditure on State Railways to the end of 1875-76 was Rs. 11,78,34,920 ; the Expenditure in 1876-77 is estimated at Rs. 2,95,80,970 ; and that in 1877-78 at Rs. 2,60,00,000, making the total Capital Expenditure to the end of 1877-78 Rs. 17,84,15,990.

CONTRIBUTIONS AND PROVINCIAL BALANCES, 1876-77.

Provincial Contributions and Balances of the Local Governments.—According to the Estimates, the Local Governments were to supplement their Assigned Revenues from separate Provincial Resources by Rs. 3,07,000, and from their balances by (net) Rs. 14,82,000 ; total Rs. 17,89,000. It is now expected that they will have to draw upon local resources for only Rs. 1,85,000, and upon their balances for only Rs. 7,84,000, i. e., for (net) Rs. 9,69,000 in all : the amount would have been larger, but for a special grant of Rs. 2,50,000 from Imperial Funds to British Burmah, the rapid expansion of which Province makes such assistance indispensable. The Punjab draws from its local resources more than any other Province ; it seems probable that some expenditure may still be classed there as Imperial, which, under the old system, was local.

INTEREST.

I pass now to EXPENDITURE. The net charge for *Interest* is now expected to be larger than was estimated by Rs. 3,42,000. The excess is entirely in the Estimates of the Home Treasury, where a larger sum was borrowed than was intended in March last. The Estimate then was that £2,640,000 would be

borrowed; the actual sum raised was £4,600,000, besides £500,000 borrowed temporarily. Regular Estimates, 1876-77.

The following Government Securities were purchased by the Government of India early in the year, before any cause of anxiety had arisen respecting the crops :—

		Capital. Rs.	Premium paid. Rs.
Bearing interest at 5½ per cent.	..	35,65,000	1,23,000

" " 4 " "	..	17,20,000	14,000
		1,25,40,000	2,38,000

These Securities have been cancelled, and will not be re-issued: the premium has been written off under the Head of *Interest*.

The Debt of the Government of India is estimated to be on the 31st March 1877 as follows :—

(Debt of India; combining Sterling and Rupees on the assumption that £1=Rs. 10.)

Rate of Interest.	Capital amount outstanding.			A year's Interest thereon.
	England. £	India. Rs.	Total. Rs.

	54,397,000	71,82,74,000	1,26,22,44,000	5,45,38,000

Thus, the average yearly rate of interest upon the Registered Debt of India at the end of the current year is estimated to be 4½ per cent. The Capital of the Railway and Madras Irrigation Companies, interest upon which is guaranteed from Indian Revenues, is £96,946,907, the interest thereon being £4,716,100. The total Debt of British India, therefore, of all kinds is £151,343,907, and Rs. 71,82,74,000, and the interest thereon is £7,063,104, and Rs. 3,10,68,600: if a Rupee is worth 1s. 9½d., the entire Debt of India is Rs. 2,40,76,94,357, or £215,689,286, and the interest thereon, Rs. 10,99,12,551, or £9,846,333. The average interest upon the whole Debt of India, including the Guaranteed Capital, is 4.56 per cent.

The proportion of the Rupee Debt held by Natives of India on the 30th of December is estimated, from the distribution of the actual payments of interest, to have been as follows :—

1869	...	22,50	1873	...	25,29
1870	...	20,25	1874	...	25,23
1871	...	24,74	1875	...	24,34
1872	...	22,76	1876	...	25,87

The excess over the Grant under *Land Revenue* (Rs. 2,19,000) occurs chiefly in *Bombay*, and is nominal, being an increase in Village Allowances set off by increased Revenue under *I, Land Revenue*.

The excess of Rs. 2,13,000 under *Excise* is for stores (probably hydro-meters for Madras) from England.

The saving under *Salt*, Rs. 3,95,000, is in the item Petty Construction and Repairs in *Madras*.

Post Office.—The estimated Net Expenditure on this Service was Rs. 9,11,000; it is now only Rs. 5,99,000, an improvement of Rs. 3,12,000. The following are recent figures of the Post Office :—

POST OFFICE.

		Expenditure. Rs.	Revenue. Rs.	Net Expenditure. Rs.
1873-74	...	80,86,840	68,81,980	12,04,860
1874-75	...	80,75,960	73,94,000	6,81,960
1875-76	...	82,20,790	76,35,970	5,84,820
1876-77	...	86,37,000	80,38,000	5,99,000

It is to be borne in mind that the Post Office carries the correspondence of the State at a reduced rate. It is satisfactory to find that the loss from the reduction of the Overland Postage (from 8 annas to 6 annas *viâ* Brindisi, and from 6 annas to 5 annas *viâ* Southampton) has been almost made good already.

TELEGRAPHS.

13. Telegraphs.—The estimated Net Cost of this Service was Rs. 19,80,000; it is now only Rs. 15,97,000. The improvement of Rs. 3,83,000 occurs chiefly in India, and is due to increased traffic. The following are the figures for the past eight years :—

		Expenditure. Rs.	Revenue. Rs.	Net Expenditure. Rs.
1869-70	...	55,34,000	25,71,340	29,62,660
1870-71	...	50,54,310	24,70,100	25,84,210
1871-72	...	44,99,110	22,83,680	22,15,430
1872-73	...	48,29,750	24,98,020	23,31,730
1873-74	...	41,18,180	25,06,380	16,11,800
1874-75	...	43,20,300	28,64,790	14,55,510
1875-76	...	49,06,210	30,90,400	18,15,840
1876-77, Regular Estimates	...	49,18,000	33,21,000	15,97,000

The improvement since 1872-73 is satisfactory.

ADMINISTRATION.

14. Administration.—The increase of Rs. 6,52,000 is due, for the most part, to an insufficient provision having been made for tour and staff expenses in India; but partly to increased charges at Home.

LAW AND JUSTICE.

16. Law and Justice.—The saving (Rs. 1,75,000) is in the Provincial portion (*Jails and Registration*). The Imperial portion, which constitutes, as yet, the greater portion of this Grant, shows an increase of Rs. 6,16,000, the largest item in which is for the Convict Establishments on the Andaman and Nicobar Islands.

POLICE.

17. Police.—This grant is entirely under the control of the Local Governments, and the small excess (Rs. 1,56,000) does not require explanation from me. There is a corresponding excess receipt, amounting to Rs. 1,28,000.

EDUCATION.

19. Education.—This service, too, is entirely under the Local Governments. The net saving of Rs. 3,57,000 is generally distributed: it seems probable that some economies may have been effected in consequence of the warning given by His Excellency the Viceroy in July last, to which I shall have occasion hereafter to refer.

STATIONERY AND
PRINTING.

22. Stationery and Printing.—This resuscitated Head shows an increase of Rs. 4,25,000, some portion of which occurs in the Central Press of the Government of India, the work of which is constantly increasing; but the greater portion is for Stores from England.

POLITICAL
AGENCIES.

23. Political Agencies.—Of the excess of Rs. 18,39,000, the sum of Rs. 13,71,000 is for the ceremonies throughout the country attending the assumption by Her Majesty the Queen of the title of Empress of India. There are other items of increase which need not be explained.

COST OF CEREMONIES ON
ASSUMPTION OF
IMPERIAL TITLE.

The gross cost of the ceremonies throughout India on the 1st of January is Rs. 13,71,000 under this Head; Rs. 2,83,000 in the Public Works Department; and Rs. 3,00,000 under the Army: total Rs. 19,54,000: there was also an inconsiderable outlay in England, the particulars of which we do not yet know. Against the gross outlay is to be set the increased revenue from the Railways (estimated at, at least, net Rs. 9,00,000), and under Telegraphs and other Heads: upon the whole, it does not seem likely that the net cost exceeded Rs. 10,00,000. It will be understood that these charges are by no means on account of the Delhi Assemblage only, but include the gift of a day's pay to the Army, and the cost of the ceremonies at the Presidency towns and at

every large station throughout India: such charges as these had no connection with the Assemblage. The net cost of the Assemblage itself cannot at present be exactly ascertained; but, in an estimate sent last month to the Secretary of State, it was calculated at about Rs. 5,00,000, a sum which must be looked upon as extremely moderate. Regular Estimates, 1876-77.

24. *Allowances, &c., under Treaties.*—The decrease of Rs. 1,71,000 is owing to sundry lapses. ALLOWANCES, &c.

25. *Furlough Allowances in England.*—The increase of Rs. 1,76,000 is attributed to an increase in the number of Officers on furlough, and, to some small extent, to the privilege of drawing furlough pay at 2s. the Rupee, which has been granted, with retrospective effect, to those Military Officers who, before 1st July 1871, elected, under the option given to them, the Furlough Rules of 1868. The charges under this Head have been as follows:— FURLOUGH ALLOWANCES IN ENGLAND.

	£
1873-74	260,556
1874-75	216,704
1875-76	229,199
1876-77, Regular Estimates	210,600

27. *Loss by Exchange.*—The present Exchange Estimates may be compared with the Original Estimates as follows:— LOSS BY EXCHANGE.

	Loss by Exchange.	Gain by Exchange.	Net Loss.
	Rs.	Rs.	Rs.
1872-73	76,51,090	30,14,360	46,36,733
1873-74	98,65,300	39,51,680	59,13,620
1874-75	89,78,780	39,53,350	50,25,430
1875-76	1,42,97,220	39,53,650	1,03,43,570
1876-77, Original Estimate	2,33,20,000	34,70,000	1,98,50,000
1876-77, Present Estimate	2,13,51,000	46,27,000	1,67,24,000

Thus, the whole improvement compared with the Estimates is Rs. 31,26,000, of which Rs. 11,57,000 has been already explained as due to improved Guaranteed Railway Receipts. Almost the whole charge entered under 27, *Loss by Exchange*, is incurred upon the Bills upon the Government of India, by which the Secretary of State supplies the Home Treasury with funds. The Estimate was that the sum thus raised in London would be £13,660,000, and that, to produce this amount, Bills would be sold for Rs. 15,99,20,000, being at the rate of Re. 1=1s. 8½d. It is now estimated that we shall pay Bills for Rs. 14,53,96,000, which will yield to the Home Treasury £12,418,000, the rate realised being still estimated at Re. 1=1s. 8½d. The cost now estimated of the £12,418,000 thus supplied to the Home Treasury is only Rs. 16,310 more than it would have been at the precise rate originally estimated: that the Original and Revised Estimates should thus precisely correspond, is only a curious coincidence; for no one could, in March last, have foretold what the average rate of exchange during the year would be, and the Government of India had certainly little confidence in its own Estimate. The gross saving of Rs. 19,69,000 under this Head is wholly due to our having paid for £1,242,000 less than we expected; and this, again, is due to the Secretary of State having borrowed more than was, at first, proposed: the reason for this excess borrowing was chiefly the state of the exchanges between England and India during the early part of the year.

This brings me to speak of the fall in the price of silver, which began to alarm the Government of India and all those interested in the prosperity of the country long before the last Financial Statement was made, and which, during the year, assumed formidable proportions. It is impossible for me, in making this Statement, to avoid reference to a subject so intimately affecting the interests of India: at the same time, I desire, on this occasion, to treat the matter historically only, and not to express any opinion of my own upon the causes of the divergence of the value of the two metals, or upon the remedies, if any, which ought to be adopted. FALL IN THE PRICE OF SILVER.

The fall in the value of silver dates from November 1872. For 22 years before that date, the price in London of an ounce Troy of standard silver had never been below 60d., and for 18 years more, it had never been below 59d. In the calendar year 1873, the average price was 59·22d., the lowest price (13th November) being 57½d. In 1874, the average price was

58·37*d.*, the lowest price (*31st December*) being 57½*d.* In 1875, the average price was only 56·76*d.*, the lowest quotation being (*on the 3rd June*) 55½*d.* In 1876, the average price fell to 53·08*d.*, the lowest quotation being (*8th July*) 47*d.*; sales were reported even as low as 46*d.*: the recovery from this depression was rapid; the highest point since attained being (*18th January 1877*) 58½*d.*, the highest price quoted since 23rd July 1874: there has since been, again, a downward re-action, the latest quotation being 55*d.*

On the 17th July 1876 the Secretary to the Bengal Chamber of Commerce transmitted, for the consideration of the Governor General in Council, the following two Resolutions adopted at a Special General Meeting of the Chamber held on Saturday, the 15th July :—

RESOLUTIONS.

1*st.*—“That the continued depreciation in the value of silver is a question most seriously affecting the political and financial interests of the Country; and that, in view to its very great importance, the Committee be requested to address the Government in order to obtain such information as they may be able to give, in regard to the policy which they propose to pursue under the circumstances.

2*nd.*—“That the Chamber approves of the suggestion of the Committee that it is expedient, in view of any ultimate measures that the Government may adopt, that Clause 19 of Act XXIII of 1870, making it obligatory on the Mints in India to receive all silver tendered for coinage, and also section 11, clause (b) of Act III of 1871, making it obligatory on the Currency Department to issue Notes against silver bullion sent in, be temporarily suspended, at the discretion of Government; and that, during such suspension, or till further notice, it be not lawful to import coined rupees from any foreign port.”

On the 22nd July, the Secretary to the same Chamber forwarded, for the consideration of the Government, a copy of the Proceedings of the Chamber.

In this letter, the Committee of the Chamber, while recognising the difficulty of the position of the Government of India, remarked that the uncertainty which had hitherto shrouded the action of Government had been attended with serious consequences to merchants and bankers, and would continue to embarrass their transactions so long as they were kept in ignorance of the course of action the Government proposed to take. The Committee, therefore, expressed a hope that His Excellency the Viceroy would, in the interests of commerce and of the country generally, accede to the prayer of the first Resolution of the meeting, and make public the intentions of the Government.

As to the second Resolution, the Committee pointed out that its object was not to prohibit coinage altogether; for that would be likely to bring about a collapse of credit; but to place all coinage in the hands of the Government to be exercised at its discretion. It appeared to the Committee suicidal for the Secretary of State to allow the competition of bar silver with the rupees which he has to offer to those requiring money in India, and that to suspend the free conversion of silver bullion into legal-tender coin was not only a wise and reasonable; but a necessary precaution for the Government of India to take, for the preservation of its own currency, and to support the credit of its own loans, as well as to prevent the country from being swamped by silver sent in by foreign nations.

The Committee argued that the fact that the Government of India was compelled to put their Mint Stamp to all silver sent to India had given an artificial and fictitious value to silver, which would cease as soon as the law was suspended. Bar silver would then, gradually, fall to its own intrinsic value; and the extent to which it was depreciated would be soon gauged; whereas, as things were, it was impossible to say how much its value was appreciated by our ‘open coinage system.’

When all Europe was closing its doors against the import of silver with the avowed object of having as little of the metal as possible, should the depreciation be found permanent, it seemed most impolitic, the Committee thought, to keep ours wide open for the reception of an unlimited quantity, costing the country, through our coinage laws, far more than its real intrinsic value. The Committee could see no valid reason against the immediate adoption by the Government of the second Resolution of the Meeting, and considered that the objections brought against it were based either on a misconception of its real scope, or on abstract principles ignored by other States; whereas the position of affairs was altogether exceptional, and ordinary rules did not apply. The Committee represented that the measures recommended in the Resolution were not more

stringent than, in fact, scarcely so stringent as, those which the first financiers in Europe had found it necessary to adopt.

Lastly, the Committee pointed out that there was a third proposition put before the Meeting, recommending the adoption of a gold standard, which, in deference to the feeling apparent among members present, was temporarily withdrawn; and they referred the Government to the debate at the Meeting upon this proposal.

On the 31st July the Government of India published a Resolution inviting attention to the immediately probable financial consequences of the fall in the gold-price of silver, and insisting upon the necessity for the utmost economy of the public resources.

On the 1st August the Secretary to the Calcutta Trades' Association forwarded a Memorial from the Master, Wardens, and Committee of the Association to His Excellency the Viceroy and Governor General of India in Council.

In this document the Memorialists represented that they had, for many months past, been suffering great loss from the low rate of exchange which bid fair to paralyse trade. The Memorialists joined earnestly with the Bengal Chamber of Commerce in urging on the Government the importance of declaring the policy it intended to pursue for the remedy of this evil, and prayed that the policy of a temporary suspension of the compulsory coinage of silver might receive the early consideration of Government.

The Memorialists further expressed great satisfaction at the desire manifested by the Government to encourage local manufactures, and suggested a relaxation of the rules against the purchase of imported stores for the Government in India.

On the 22nd September 1876, after considering the "Report by the Select Committee of the House of Commons on the depreciation of silver, with the Proceedings of the Committee, ordered by the House of Commons to be printed on the 5th July 1876," the Government of India published a Resolution (No. 3044) upon the suggestions of the Bengal Chamber of Commerce and the Calcutta Trades' Association. The following is a summary of its arguments and conclusions.

1. The recent change in the value of silver measured in gold may be due to changes in the value of one metal or the other, or of both: before a fit remedy can be applied, it is essential to ascertain what exactly has happened, whether gold has risen or silver fallen, and how much the value of each metal has changed. It cannot be assumed, without decisive proof, that the divergence of the two metals is due wholly, or even chiefly, to the fall in the value of silver.

2. The prices of commodities and of the precious metals, in London and in India, witness to a considerable rise in the value of gold since March 1873, and especially since December 1875, and do not show any fall in the value of silver measured in commodities other than gold: using these prices with all reserve, it must still be said that they afford evidence of this fact at least that a rise in the value of gold is one of the causes which has disturbed the equilibrium of the two metals.

3. The divergence of the values of the two metals seems due to three principal causes, of which the first appears to be the most efficient:

(1).—The substitution of gold as the standard of value, in Germany, the Netherlands, and the Scandinavian Kingdoms, for silver; and, in the countries of the Latin Convention, for their customary alternative or compensatory standard of silver and gold.

(2).—The increased production of silver in the United States of America.

(3).—The decreased demand for silver in India.

4. The value of gold and silver, like that of any other commodities, depends, on the one hand, upon the supply, on the other, upon the demand for them; and this again depends upon the uses made of them: the long-continued equilibrium between the value of gold and that of silver is due to the two metals having shared, without material change of conditions, the only great field for the employment of either of them, *i. e.*, the supply of legal-tender metallic money: this equilibrium has been disturbed by the rapid supersession of silver by gold in Europe and America as the standard of value, and there-

OF INDIA, 22ND

fore as the material of legal-tender metallic money: this supersession is calculated, *a priori*, to raise the value of gold no less than to lower the value of silver.

5. Excessive importance is not, *per se*, attached to the increased production of silver in the United States of America.

6. When India is in a normal condition, *i. e.*, when there is no abnormal demand for any of her staples, and she is not borrowing large sums from abroad, the amount of treasure required to settle her accounts with the world is not considerable; and a substantial proportion of the treasure received has always been gold: the large imports of treasure into India since 1850 are due to abnormal circumstances, as follows:

- (1).—The Crimean War transferred to India large demands for produce theretofore obtained from Russia.
- (2).—The American Civil War exaggerated temporarily the value of Indian cotton.
- (3).—Great sums of money have been borrowed for—
 - (a) the suppression of the mutiny;
 - (b) the construction of railroads (Guaranteed and State) and canals;
 - (c) the Bengal famine.

It would be altogether misleading to treat the great imports of treasure in the last 25 years as normal, or to expect that they will, or can, continue: there is, therefore, no reason to expect that silver will be poured into India, although, of course, if it falls in value, a greater weight of it must come to represent the same value.

7. To suspend the free coinage of legal-tender metallic money, as advocated by the Bengal Chamber of Commerce, would give a monopoly value to the existing stock of rupees, and so reduce prices; whereas prices are not yet risen.

8. The value of no substance can serve as a standard-measure of value unless its use as the material of legal-tender currency is freely admitted: if, therefore, the free coinage of silver on fixed conditions were disallowed in India, silver would no longer be the standard of value of India, but another standard would be substituted, *viz.*, the monopoly value of the existing stock of rupees, tempered by any additions made to it by the Government, or illicitly: if no such additions were made, the value of the rupee would gradually, but surely, rise, owing to the supply being cut off.

9. The stamp of a properly regulated mint, such as the Indian Mints, adds nothing, except the cost of manufacture and seignorage, to the value of the metal on which it is impressed; but only certifies to its weight and purity.

10. A sound system of currency must be automatic or self-regulating: no civilised Government can undertake to determine from time to time by how much the legal tender currency should be increased or decreased; nor would it be justified in leaving the community without a fixed metallic standard of value even for a short time: it is a mistake to suppose that any European nation has rejected silver as a standard of value without substituting gold.

11. For all these reasons, the Government of India rejected as inadmissible the proposal that the Mints should be closed to the free coinage of silver for the public on fixed conditions, unless they were, at the same time, opened to the free coinage of gold as legal-tender money on fixed conditions.

12. The Government of India further concluded that there was nothing, as yet, demanding recourse to a measure so costly, and of which all the conditions were so uncertain, as the adoption of a gold standard.

Thus, the conclusions stated in the Resolution were:

1stly.—That the divergence of the values of gold and silver is not necessarily attributed only to a diminution in the value of silver; that there are strong reasons for believing that gold may have increased, as well as that silver has decreased, in value; and that this consideration must have an important bearing on the action of Government in reference to the present disorder.

2ndly.—That although it is most desirable, in the interests of trade, that the standard of value in India should be the same as the standard of value in the chief countries with which India inter-

changes commodities, yet trade will not be permanently injured Regular by a fall in the value of the rupee measured in gold, provided Estimates, only that a fresh stable equilibrium of the precious metals be 1876-77. attained.

3rdly.—That, up to the present moment, there is no sufficient ground for interfering with the standard of value.

This Resolution of the Government of India was issued some time before I took charge of my present office, and I do not now wish to offer any comments on its conclusions.

The only other representations received upon the subject by the Government of India have been complaints by various European officers in its service of the loss which they are suffering from the fall of the sterling-value of the rupee, and prayers for assistance from the State: some of these memorials are still under consideration: the Government feels much sympathy with its officers; but I cannot at present say whether it will be possible to help them. MEMORIALS FROM GOVERNMENT OFFICERS.

I am afraid that we cannot, by any means, conclude that the partial recovery of the value of silver which we have lately witnessed is permanent, and that our exchange with countries whose standard is gold will not be again, seriously, and perhaps frequently, disturbed. I can only say that the Government of India is devoting, and will continue to devote, anxious attention to the subject.

The representation of the Trades' Association in regard to stores is still receiving attention: it is the present policy of the Government of India and the Secretary of State to allow much greater freedom of resort to the local markets than heretofore. PURCHASE OF STORES IN INDIA.

I may mention, here, that the amount of Government Promissory Notes enfaced for the payment of Interest in London by drafts upon India decreased, during the year, from Rs. 14,20,23,120 to Rs. 12,94,59,526, or by Rs. 1,25,63,594, and that the price of our Four per cent. Rupee securities fell, at one time, in India (13th January) to Rs. 96½, and in London (16th July) to Rs. 77. Our Four per cent. Rupee securities had not been at a discount in India since March 1873, and had not fallen below 90 in London since May 1868; they are now again quoted there at 88½: our Sterling bonds did not share the depression of the Rupee paper in London, which was doubtless due entirely to the fall in the price of silver. In India, our Rupee paper did not fall to a discount till the 3rd October, and the fall since then may doubtless be partly attributed to the apprehension that the Government may have large demands to make upon the money-market on account of the Famine, and to the scarcity of money in India. PROMISSORY NOTE ENFACED FOR PAYMENT OF INTEREST IN LONDON BY DRAFT UPON INDIA. PRICE OF GOVERNMENT SECURITIES.

28. *Miscellaneous*.—The excess of Rs. 4,15,000 is accounted for by some charges connected with the visit to India of His Royal Highness the Prince of Wales having escaped record in the Accounts of 1875-76, and by the refund of £5,000 fines levied upon contractors in England and credited under the corresponding Head of Revenue. MISCELLANEOUS.

The item of Rs. 1,91,10,000 for *Famine Relief* requires no further explanation. FAMINE RELIEF.

net expenditure of 1875-76 by no less than Rs. 1,05,29,640: if we use the true rate of exchange for converting the Home Expenditure into Rupees, this excess over 1875-76 rises to Rs. 1,39,48,878: if all the items entered in the preceding Statement are counted, the excess is Rs. 1,30,46,948.

It appears from this Statement, which does not quite exhaust the public expenditure upon the *Army*, that even its net cost in 1876-77, Rs. 17,24,97,497, exceeds one-third of the entire gross expenditure of British India, excepting the charge for Famine relief: the importance of our Military Finance is therefore pre-eminent; and I think it necessary to examine carefully the causes of the alarming growth of the cost of the *Army*.

The *Army* Receipts in 1875-76 were accidentally swollen by about Rs. 15,00,000, so that the increase to be explained upon the accounts of the *Army*, as recorded, is really the increase of gross expenditure (Rs. 89,92,410). Of this amount, again, it will be found that £300,000 is nominal, being due to the accidental transfer of payments at Home, amounting to £150,000, from 1875-76 to 1876-77.

I proceed then to compare the Revised Estimates of expenditure for 1876-77 with the Accounts of 1875-76, in order to ascertain how the residue of that increase, *viz.*, £764,505 in England and Rs. 13,47,360 in India, has arisen. The following table brings out clearly the causes to which this increase is due:—

	EFFECTIVE.				NON-EFFECTIVE.				GRAND TOTAL, TAKING £1 = Rs. 10.

It will be observed that the excess in 1876-77 over 1875-76 is about equally divided between the Effective and Non-effective branches as follows:—

	Rs.
Increase in Effective ...	45,41,490
„ in Non-effective ...	44,50,920
	89,92,410

The Effective increase is divided between India and England thus:—

England	...	...	...	...	£306,767
India	...	...	...	...	Rs. 14,73,820

The *Home* increase is mainly in the *Home charges of Her Majesty's Regiments serving in India*, including *Furlough Allowances of Officers of the British Service*. The charges under these two Heads have been as follows:—

			£				£
1869-70	...	...	725,233	1874-75	...	...	509,407
1870-71	...	...	658,710	1875-76	...	...	453,812
1871-72	...	...	590,805	1876-77, Regular Estimates...			750,000
1872-73	...	...	659,774	1877-78, Original Estimates...			700,000
1873-74	...	...	567,012				

Of the increase in 1876-77, £180,000 is attributed to the accidental transfer of certain payments, amounting to £90,000, from 1875-76 to 1876-77, but for which transfer the figures would have been—

1875-76	...	£547,953	1876-77	...	£660,000
---------	-----	----------	---------	-----	----------

Still even this residue of increase which continues in 1877-78 is formidable: it is the result of much negotiation with the War Office at Home, and does not seem susceptible of definite explanation in India.

An increase of £7,655 in the *Furlough Allowances of Indian Officers* is Regular doubtless due to the concession of the privilege of drawing Furlough Pay at Estimates, 2s. the rupee, with retrospective effect, to Officers who elected the Furlough 1876-77. Rules of 1868 before the 1st July 1871.

The net cost of the passages of officers and troops and of the Overland Troop Transport Services has been as follows :—

				At Home.	Altogether at Home and in India, counting £1 = 10 Rupees.	FURLOUGH ALLOWANCES. PASSAGE AND TRANSPORT.
				£	Rs.	
1869-70	...	...	...	278,132	42,76,430	
1870-71	...	...	...	311,652	82,56,750	
1871-72	...	...	...	271,373	38,42,010	
1872-73	...	...	...	329,395	44,22,090	
1873-74	...	...	...	381,506	46,11,760	
1874-75	...	...	...	292,849	47,04,140	
1875-76	...	...	...	266,734	33,44,700	
1876-77	} Estimates	...	...	316,600	35,61,000	
1877-78		...	...	241,100	28,74,500	

This charge has of late years been somewhat diminishing, but the cost of the transports is still great.

The recent charges for stores, the yearly cost of which has been stated already, have been very heavy : this is owing to the supply of Snider Rifles to the Native Army, of new rifled guns to the Artillery, and of Martini-Henry Rifles to the European troops.

Of the Effective charges in India the following items show, on the whole, till lately, no important increase of cost ; *Army and Garrison Staff, Regimental Pay and Allowances, Ordnance Establishments, Stores and Camp Equipage, Ecclesiastical, Education and Volunteer Corps.*

The total expenditure for these items is as follows .—

Rs.			Rs.		
1869-70	...	7,79,97,350	1874-75	...	7,62,55,820
1870-71	...	7,58,73,910	1875-76	...	7,65,58,510
1871-72	...	7,63,10,110	1876-77	} Estimates	{ 7,69,86,000
1872-73	...	7,58,66,690	1877-78		
1873-74	...	7,57,65,150			7,85,99,400

The growth in 1876-77, and still more in the coming year, is in the item *Regimental Pay and Allowances*, and is due to increased allowances to Native Troops (estimated in all at Rs. 14,22,840 a year) and to Non-Commissioned Officers of British Troops (estimated to cost Rs. 4,00,000 a year): only a small part of these new burdens falls on 1876-77.

The *Administrative Staff, Commissariat, Clothing and Medical Establishments and Services* also show rather a saving than an increase :—

Rs.			Rs.		
1869-70	...	3,19,24,510	1874-75	...	2,71,28,750
1870-71	...	2,91,67,380	1875-76	...	2,64,75,270
1871-72	...	2,66,86,370	1876-77	} Estimates	{ 2,66,56,000
1872-73	...	2,75,12,120	1877-78		
1873-74	...	2,79,07,690			2,81,56,310

The increase in 1876-77 and 1877-78 is chiefly in Commissariat supplies due to the Famine, which is estimated to add, in the two years, Rs. 18,00,000 to the cost of the Army, and to the purchase of malt liquor in India instead of in England, to the relief of the account there. Contracts have been made for 18,714 hogshheads of beer brewed at Murree, Kussowlie and other stations; and it is estimated that, in 1877-78, Rs. 3,62,220 will be thus transferred from the Home Accounts to India. Improved pay to British Medical Officers is calculated to cost Rs. 2,24,000 a year.

The remaining Heads are *Remounts and Cattle, Barrack Establishments, Martial Law, Sea Transports and Miscellaneous Services*, and they show a nominal diminution as follows :—

Rs.			Rs.		
1869-70	...	1,20,11,010	1874-75	...	74,27,710
1870-71	...	1,41,02,470	1875-76	...	75,81,400
1871-72	...	1,10,88,310	1876-77	} Estimates	{ 84,47,000
1872-73	...	1,00,86,070	1877-78		
1873-74	...	87,65,850			73,74,180

Regular
Estimates,
1876-77.

The decrease, as compared with earlier years, is, to a great extent, nominal, owing to the establishment of the Troop Transports, the cost of which is recorded in the Home Accounts, and to the transfer of Barrack Establishments to the Public Works Department. The excess in 1876-77 is in the item *Miscellaneous Services*, and is due to a charge of Rs. 10,00,000 awarded under revised instructions from the Secretary of State as compensation for loss of sums paid, up to the 1st February 1861, for the purchase of promotion; to the charges throughout India connected with the assumption of the Imperial Title (Rs. 3,00,000); and to compensation for dearness of provisions in Madras and Bombay (Rs. 4,00,000) included in the sum of Rs. 18,00,000 already stated.

Thus, of the increased Effective charges, £180,000 is due to accidental transfers of payments, amounting to £90,000, from 1875-76 to 1876-77, and the remaining Rs. 27,41,480 appear to be essentially due to the increased charges at Home for Her Majesty's Troops serving in India, and to the improved pay and allowances granted to the Native Troops and to British Non-Commissioned and Medical Officers.

NON-EFFECTIVE
CHARGES.

I will now examine the increases in the *Non-effective* charges, which increases all occur at Home.

The first item is *Payments to the Imperial Government on account of the Retired Pay, &c., of Troops serving or having served in India*, the charges for which have been as follows:—

		£			£
1869-70	...	217,000	1874-75	...	318,388
1870-71	...	239,562	1875-76	...	350,000
1871-72	...	479,974	1876-77	} Estimates	{ 605,500

1873-74	...	288,300			598,500

RETIRED PAY OF
H. M.'s TROOPS.

This item shows an increase in 1876-77 of £255,500, of which £120,000 is attributed to the postponement of payments, amounting to £60,000, from 1876-77 to 1877-78. But for this postponement, the figures would have been—

1875-76	...	£410,000		1876-77 Estimate	...	£545,500
---------	-----	----------	--	------------------	-----	----------

the increase being £135,000. Like the *Home Charges of Her Majesty's Regiments serving in India*, these charges are the result of long negotiations with the War Office, and are beyond the control of the Government of India. The item *Deferred pay to discharged or deceased soldiers for service in India subsequent to 1st April 1876*, which is entered at £2,000 in 1876-77 and £40,000 in 1877-78, is expected to rise to £200,000 a year.

The next item appears for the first time in 1876-77, *viz.*, *Payments to the Imperial Government on account of the capitalised value, from 1st April 1874, of the proportion chargeable to Indian Revenue of the pensions granted between 18th February 1861 and 31st March 1870 to soldiers transferred from the Indian Local Army to the British Army*. This charge, which we do not expect to recur, is estimated to be in—

RETIRED PAY OF
INDIAN OFFICERS.

The third item is *Retired Pay of Officers of the Indian Service, including Colonels' Allowances and including also the capitalised value of pensions granted to Indian Officers on retirement, representing the estimated value of the proportionate claim to the Colonels' Allowances*. The charges for this item, which accounts for £119,086 of the increase, are as follows:—

		£			£
1869-70	...	759,867		1874-75	982,209
1870-71	...	754,347		1875-76	982,114
1871-72	...	750,575		1876-77, Estimates	1,101,200
1872-73	...	765,004		1877-78 Do.	1,120,000
1873-74	...	816,598			

of which the capitalised payments, which are calculated to prevent a still larger increase hereafter, are:—

			£			
1874-75	...	...	147,040	1876-77	} Estimates	... {
1875-76	...	...	75,775	1877-78		
						100,000

The pensions from Lord Clive's Fund are diminishing, thus :—

£			£			Estimates, 1876-77.	
1869-70	...	204,384	1874-75	...	133,462	LORD CLIVE'S FUND.	
1870-71	...	131,478	1875-76	...	121,908		
1871-72	...	131,535	1876-77	} Estimates	... { 108,500		
1872-73	...	132,730	1877-78				108,000
1873-74	...	133,167					

Thus it appears that, of the whole increase of £457,738 in the Home non-effective charges, £120,000 is due to an accidental transfer of payments from 1875-76 to 1876-77, £119,086 to the growing charge for *Retired Pay of Indian Officers, including Colonel's Allowances*, and £218,652 to increased demands by the Imperial Government for the retired pay and deferred pay of the troops serving or having served in India.

In concluding this Review of the Army Expenditure I have only to add that the Government of India must certainly endeavour to find the means of meeting the increased military charges, some of which are apparently inevitable, by economies in other Departments of the Military Service: their endeavours must be largely dependent for success upon the support of Her Majesty's Government. I do not assert that the whole of the additional expenditure on the Army has not been incurred for excellent objects, or that it could have been avoided; but that the Indian Revenues are liable to have great charges thrown upon them without the Government of India being consulted, and almost without any power of remonstrance, is a fact the gravity of which can hardly be exaggerated.

Guaranteed interest less net traffic receipts shows the gratifying improvement of Rs. 84,07,000.

The last table which I shall give is the following comparison of the true cost of these undertakings to our Revenues compared with the results shown in our Accounts:—

	Net cost to Indian Revenues according to Finance Accounts.	True net cost.	More.	Less.	COMPARISON OF TRUE NET COST WITH THE ACCOUNTS.

1876-77, Revised ...	11,82,000	94,92,361	83,10,361		
1877-78 ...	72,89,000	1,39,24,964	66,35,964		

Although the true estimated net cost, this year, of these undertakings thus exceeds the amount shown in our Accounts by Rs. 83,10,361, still it is by far the smallest burden that has resulted from them to our Revenues for many years; and the relief of Rs. 96,37,128 compared with the Original Estimates is most acceptable: the particulars of this improvement are as follows:—

	Better. Rs.
Net traffic Receipts applicable to relief of Indian Revenues ...	89,66,000
Exchange on Capital transactions ...	2,61,530
Reduction of Interest on Capital ...	4,03,598
Land and supervision ...	18,000
TOTAL ...	96,49,128
Interest on Revenue Balances, worse ...	12,000
Net improvement ...	96,37,128

Of the improvement in the Net Traffic Receipts, about 9 lakhs of Rupees is attributed to the Delhi Assemblage, and about 29 lakhs to the Famine; the remainder is said to be due to a great traffic in seeds, wheat, and other produce, corresponding with the increased exports which we shall presently observe: the saving in interest is owing to the discharge of some debentures and to the renewal of others at lower rates.

The fact that the gross traffic earnings are expected, for the first time, to exceed ten crores of Rupees, appears to me to be full of promise, and to be a signal demonstration of the services which these Railways already perform for India: there can be no question that multitudes will owe their lives to them this year. The gross traffic earnings of 1876-77 exceed those of 1869-70 by no less than Rs. 3,25,93,680, or 46 per cent., and the Net Traffic Receipts applicable to the relief of Indian Revenues in 1876-77 exceed the amount so applicable in 1869-70 by Rs. 1,80,73,770, or 46 per cent. The decrease in the percentage of working expenses is highly creditable to the management of these great undertakings, and to the supervision of the Government in the Public Works Department. Altogether, I have found nothing so gratifying in my present review of our finances as the progress of these Railways.

Their net financial result is burdened by the inclusion of the operations of the Madras Irrigation Company, which is, as yet, an absolute failure and a dead weight upon the Revenues, not nearly even paying its way.

The true cost of the Madras Irrigation Company's Works to the Revenues in 1876-77 is estimated to be Rs. 6,77,729, so that the whole cost of the Guaranteed Railway system (5,866 miles) to India in 1876-77 is now estimated at Rs. 88,14,632.

The following is the Net Revenue earned (including Companies' Surplus) by each line:—

PUBLIC WORKS
ORDINARY.

Public Works Ordinary.—The excess over the Net Grant in the Imperial portion of this Head is Rs. 9,28,000; but savings in the Provincial portion reduce the net excess to Rs. 5,57,000. The following figures show the Imperial expenditure of recent years compared with the present Estimates; they include the Estimates for 1877-78, which I shall presently explain :

	Original Estimate, 1876-77.	Regular Estimate, 1876-77.	Original Estimate, 1877-78.	1875-76.	1874-75.	1873-74.

The excesses over the Grant are as follows : *Military Works*, Rs. 1,85,000, attributed to expected saving not being realised; *Other Services*, Rs. 2,54,000, of which Rs. 2,00,000 is for the new Government House and other Offices at Simla, and the rest is more than accounted for by the transfer of certain Light Houses from Provincial to Imperial Funds with a grant of Rs. 64,000; *Furlough Allowances*, Rs. 50,000; *Irrigation Works*, Rs. 1,88,000. It has been found necessary to grant, in all, Rs. 3,47,350 for urgent irrigation works not provided for in the Estimates; of this sum, Rs. 1,59,350 is made good by savings on items included in the grant; the excess of Rs. 1,88,000 remains. The only important item remaining is Rs. 2,83,000, which I have included in the Estimate given under the Head of *Political Services* of the total cost of the ceremonies of the 1st January 1877 throughout India.

WORKS
ORDINARY.

Public Works Extraordinary.—The Grant was increased in the middle of the year by Rs. 20,00,000; that the excess now expected is only Rs. 4,10,000 is owing to the accidental transfer, at the last, of a payment in England of £128,000 for stores from 1876-77 to 1877-78. Of the whole Grant, Rs. 2,83,00,000 is being spent upon Railways and the rest on Canals.

The Railway expenditure is as follows :—

	Rs.		Rs.
Rajputana ...	13,99,000	Sindhia ...	18,90,000
Western Rajputana ...	84,000	Northern Bengal ...	42,69,000

ORDINARY.

This completes my review of the Revenue and Expenditure of 1876-77 as now estimated. Compared with the Original Estimates, the general result is that, but for the Famine, the Original Estimates, although they were in some respects more sanguine than is usual, would have been more than made good. In the midst of the gloom that the Famine casts upon the financial situation to-day, we must not forget that this result was, at one time, little expected: in July 1876 the Government was justly so alarmed at the continued fall in the price of silver, that the Viceroy deemed it right to issue a general warning to all authorities throughout India that every possible economy was called for: I am hardly prepared to say that the comparatively favorable results which, apart from the Famine, I have

now set forth, can be directly traced to that warning; but I know that, in Regular some cases, it led to vigorous measures of retrenchment, which have already Estimates, facilitated certain important financial measures which I shall describe in 1876-77. speaking to the Legislative Council of the arrangements proposed for the coming year.

WAYS AND MEANS, 1876-77.

I must next compare the Regular Estimate of *Ways and Means* for WAYS AND MEANS, 1876-77 with the Original Estimate, using, as before, the abstract tables in State- 1876-77. ments IV, V, and VI.

The *Deficit of Imperial Revenue* has grown, as we have seen, from LIABILITIES. Rs. 3,61,50,000 to Rs. 6,07,83,000. The *Deficit of Provincial and Local Revenue* is now estimated at Rs. 28,77,000, being more than the Estimate by Rs. 1,07,000. The payments on account of the *Military Service Funds* are now estimated at Rs. 27,69,000, being Rs. 89,000 more than we expected. The net *Loans to Native States and Public bodies* are expected to be Rs. 61,30,000, being Rs. 16,50,000 more than was expected.

As these transactions possess considerable interest, I present the following LOANS TO NATIVE STATES AND PUBLIC BODIES. account of them :—

Loans to Native States and Public bodies.

		Advanced.	Recovered.	Net advances.
1872-73	...	48,88,360	17,89,690	25,98,670
1873-74	...	58,08,490	12,36,850	45,71,640
1874-75	...	80,16,540	19,00,270	61,16,270
1875-76	...	55,87,980	17,13,110	38,74,870
1876-77	...	75,10,000	13,80,000	61,30,000
TOTAL	...	3,13,11,370	80,90,920	2,32,91,450

During these five years, the sum of Rs. 2,32,91,450 has been for the most part (the loans to Native States being inconsiderable) invested, by the agency of various public bodies, in works of local improvement. The Grand Total outstanding due to the Government of India on this account, on the 31st of March 1876, was Rs. 5,67,78,790, full details of which are given in the 70th Account appended to the Finance and Revenue Accounts of India for 1875-76. The largest items are Rs. 2,14,75,860, due from the *Bombay Port Trust*; Rs. 92,05,560 from the *Calcutta Municipal Corporation*; Rs. 59,83,420 from the *Calcutta Port Fund and Port Trust*; Rs. 57,51,000 from the *Bombay Municipality*; and Rs. 21,26,670 for the *Hooghly Bridge*.

The Guaranteed Railway Companies were expected to withdraw NET GUARANTEED CAPITAL WITHDRAWN. Rs. 10,43,000: they will, it is believed, actually withdraw Rs. 1,21,42,000. Deposits and Remittances shew an adverse balance of Rs. 78,00,000, being more than Estimate Rs. 53,70,000. Thus, we now expect to have to provide, otherwise than from the Revenues, Rs. 9,25,01,000, being more than Sir William Muir's Estimate by Rs. 4,19,08,000.

Of this large sum, the Covenanted and Uncovenanted *Civil Funds* will ASSETS. yield Rs. 11,40,000, being more than was estimated by Rs. 2,50,000. *Savings CIVIL FUNDS. Banks Deposits* are expected to supply Rs. 10,60,000 instead of Rs. 5,00,000.

This item is not important financially; but it has so much interest of its SAVINGS BANKS. own, that I will state the past figures :—

Savings Banks.

		Deposited.	Withdrawn.	Net Deposits.
		Rs.	Rs.	Rs.
1872-73	...	89,89,940	65,75,820	24,14,120
1873-74	...	1,17,73,520	91,86,580	25,86,940
1874-75	...	73,08,730	72,09,370	99,360
1875-76	...	73,75,390	65,35,180	8,40,210
1876-77	...	57,60,000	47,00,000	10,60,000
		4,12,07,580	3,42,06,950	70,00,630

The balances in the hands of the Government on the 31st March 1876 are shown in the 65th Account appended to the Finance and Revenue Accounts for 1875-76 to have been Rs. 1,83,08,140, of which Rs. 1,45,19,370 were in the

Statistics,
1876-77.

Presidency Savings Banks (Rs. 93,86,040 in Bombay alone); Rs. 17,13,540 were in Regimental Savings Banks; and Rs. 20,75,230 in District Savings Banks. It was ascertained in 1873 that the Presidency Savings' Banks were being used, especially at Bombay, for purposes for which they were not intended; and means were taken to prevent the abuse. The *District Savings Banks* have made some progress during the year, but they are still quite in their infancy.

DEBT INCURRED,
1876-77.

The net amount borrowed in 1876-77 is Rs. 3,72,40,000, being more by Rs. 74,60,000 than was estimated by Sir William Muir: the excess of £1,960,000 borrowed in England was, so far, neutralised by operations in India, chiefly by the purchase of securities already described.

REDUCTION OF
BALANCES.

If some unimportant items are omitted, the rest of our requirements for the year have been supplied from the Balances in our treasuries, which have been reduced by Rs. 5,41,27,937 in India, and raised by £228,200 in England. Sir William Muir calculated upon a reduction of only Rs. 1,76,23,000: he expected the Government of India to reduce its Balances by Rs. 2,69,06,000, and the Secretary of State to increase his Balance by £928,300. I have shown that the Opening Balances proved to be larger by Rs. 88,16,000 (*viz.*, Rs. 70,93,000 in India, and £172,300 in England) than was at that time expected. But making allowances for this, the net reduction amounts to the formidable sum of Rs. 2,54,07,000 in excess of Sir W. Muir's estimate, of which Rs. 2,01,29,000 is in India, and £527,800 in England. I cannot speak for the Secretary of State as regards the Balances in the Home Treasury, but the estimated Balances in India on the 31st March next (Rs. 11,53,97,000) are decidedly too low; and we have only submitted to them under the pressure arising out of the Famine.

COMMERCIAL STATISTICS, 1876-77.

COMMERCIAL
STATISTICS,
1876-77.

The Exports and Imports of Merchandise (including Government stores but excluding treasure) during the ten months from April to January, in the years 1872-73 to 1876-77, were—

The Gross Exports of commodities (other than treasure) in the ten months of 1876-77 exceeded those in the corresponding period in 1875-76 by nearly 2 crores, whilst the imports were 58 lakhs less: the Net Imports of treasure in the ten months of 1876-77 were 276 lakhs more than in the corresponding period in 1875-76.

The increase in exports of *Wheat*, *Seeds*, and *Tea* is very considerable ; and, after three years of depression below the amount in 1872-73, the export of *Sugar* in 1876-77 has greatly exceeded that in 1872-73.

The following table of imports of principal articles during the ten months from April to January in 1872-73 to 1876-77 shows a slight improvement in *Cotton Goods* and a material improvement in *Metals*, which two classes of goods form the bulk of the imports. Grey cotton goods, of which the quantities in 1875 declined below the imports in 1874, show an improvement in the ten months, compared with the corresponding period in 1875-76. In the remaining articles there is, on the whole, a falling off in comparison with 1875-76 :—the decline of machinery and mill-work being considerable : woollen manufactures, though less than in 1875-76, are in advance of the corresponding amounts in 1872-73 to 1874-75. I reserve for my Statement in the

28, Legislative Council the remarks which I have to make regarding the import duties levied on cotton goods.

The Net Imports of gold and silver were as follows :—

April to January.	Net Imports of Gold.	Net Imports of Silver.	Total Net Imports of Treasure.
	Rs.	Rs.	Rs.
1872-73 ...	2,18,65,723	72,31,657	2,90,97,380

1876-77 ...	-41,02,337*	5,62,87,643	5,21,85,306

The condition of Trade in 1876-77 is understood to have been flourishing : doubtless the expansion of the Net Imports of Silver and the fact of there having been, for the first time, a Net Export of Gold, are closely connected with the fall in the gold-price of silver, and the consequent depression of the sterling exchange.

The Bank of Bengal's rate of interest on loans payable on demand has varied from 11 per cent. (from the 13th to the 27th April) to 5 per cent. (from 4th August to 21st September.) Money has thus been scarce and dear, a fact which may be attributed, partly, to the contraction of the Government Balances and the creation of a separate Government Reserve Treasury, but, to a much greater degree, probably, to the apprehensions felt by banks and capitalists as to the future value of silver. There is reason to believe that much capital was for a time, and may again be, withdrawn from the East in consequence of these apprehensions.

The Government Securities held by the Presidency Banks have fallen from Rs. 2,44,71,000 on the 1st April and (by the latest returns) Rs. 1,64,73,000. The largest amount held by these institutions was at the end of June Rs. 2,69,15,000, since which date they have sold securities for Rs. 1,04,42,000. The following Statistics of the transactions of these Banks at the close of the 8th week (the latest date for which we have complete Statistics) of each calendar year are interesting.

* Net Exports.

The public Deposits fell at one time (second week of January 1877) to Rs. 2,54,66,000. Their depletion is due to the decrease of the general Balances of the Government, and, latterly, to the demands for money for the operations against the famine in the Presidencies of Madras and Bombay. Statistics, 1876-77.
PUBLIC DEPOSITS.

The Presidency Banks' Act No. XI of 1876 came into operation on the 1st of May 1876, and is understood to have worked satisfactorily. New agreements have been completed, under this Act, between the Government and the Banks for the conduct of the public business at the Presidency Towns, and at the Branches of the Presidency Banks at country towns; and these agreements, too, have worked smoothly and well. PRESIDENCY BANKS' ACT, 1876.

A Government Reserve Treasury was opened in Calcutta on the 11th May 1876. The largest Balance accumulated in this Treasury was Rs. 1,66,25,677 (on the 1st November): this amount rapidly decreased; and, since the middle of December, the contents of the Reserve Treasury have been nominal. Local revenue is not received at this Treasury, which is supplied only by remittances from the Calcutta Mint and from the interior of the country. It is considered important to concentrate the spare resources of the State, as far as possible, in one Government Reserve Treasury, in order that they may be more readily available for use, in case of need, than they would be if they were deposited, as heretofore, in the Presidency Banks and employed in their ordinary business. The Government intends always, in ordinary times, to leave with each Presidency Bank a balance calculated upon a liberal scale with reference to the public transactions at each Bank. GOVERNMENT RESERVE TREASURY.

The rates of exchange at which the Secretary of State sold his bills upon the Government of India have ranged from 1s. 6.57d. the rupee on the 5th July to 1s. 10.33d. on 24th January, following, of course, the Sterling price of silver: the average rate, as we have seen, is 1s. 8½d. EXCHANGE, 1876-77.

The rate fixed for the adjustment during the year of transactions with the Imperial Treasury is 1s. 9¾d: this rate is fixed once a year, according to the state of the exchanges in London on the date on which the calculation is made: hitherto, no forecast of the probable course of the exchanges during the year has influenced the determination of the rate: this year, the rate has been so much above the market rate that the Treasury has lost heavily by it. The amount to which the rate applies, directly, in 1876-77 (apart from furlough allowances, the proportion of which affected by the rate I cannot exactly calculate) is estimated to be net £1,371,000. At the average rate of the year we should have received in India, in exchange for this sterling sum, Rs. 1,60,52,236; by the operation of the adjusting rate we have received only Rs. 1,51,28,275; the difference (Rs. 9,23,961) is loss to the Indian Treasury arising from the adjusting rate; and perhaps Rs. 1,50,000 may be added for loss on furlough allowances. The furlough allowances of our civil and military officers and the family remittances of military officers are affected by the adjusting rate; and, in so far as the high rate of the year has mitigated the loss sustained from the depreciation of silver, by our military officers and by our poorer civil officers, the Government does not grudge its loss. One consequence of the advantage enjoyed, this year, by these officers is to be observed in the remittance by them to their families through the India Office of £275,000 more than was expected. ADJUSTING RATE, 1876-77.

The Paper Currency circulation during the first ten months of 1876 was only marked by the ordinary fluctuations due to season: towards the close of the year the circulation was increased by the issue of notes against bullion,—a measure authorised by the law but not hitherto adopted. The lowest point of the circulation, Rs. 10,53,22,945, occurred, as in 1875, in May: the recovery, however, which is observable in the dull season, took place earlier and more rapidly than in 1875: this agrees with the movements of the money-market; in 1875, the highest point of the Bank of Bengal's rates of discount was reached on the 13th May, and the first reduction took place on the 27th May; in 1876, the highest point was reached on the 13th April, and the first reduction took place on the 27th April. At the close of 1876, the amount of the circulation was almost exactly 12 crores of rupees. The largest circulation, Rs. 12,27,36,080, was on the 15th December. PAPER CURRENCY, 1876-77.

Statistics,
1876-77.

The Money Orders issued by the Government fell to a lower number and amount than has been reached for several years, as follows :—

MONEY ORDERS,
1876-77.

			No. of Orders issued.	Amount.	Average amount of each Order.			Profit.
				Rs.	Rs. A. P.			Rs.
1869-70	...	.	210,781	1,16,63,338	55	5	4	60,894
1870-71	...	.	242,702	1,30,55,924	53	12	8	64,891

1875-76	...	.	231,907	91,26,625	39	5	8	55,664

The low average amount of each order is satisfactory, as showing that these orders are being used for the purpose for which they were intended, *viz.*, to make small remittances: the diminishing use of the orders seems to show that the means of remitting money in the interior are becoming cheaper.

TELEGRAPHIC ABSTRACT.

Financial Statement by the Honorable Sir John Strachey, K.C.S.I., published this day.

Accounts, 1875-76 : Revenue, £52,515,789 ; Expenditure, £55,117,536, of which £595,779 for Famine relief, and £4,270,629 for Public Works Extraordinary : Deficit, £2,601,747 : Surplus, excluding Public Works Extraordinary, but not famine, £1,668,882.

Regular Estimates, 1876-77 : Revenue, £51,206,700 ; Expenditure, £57,285,000, of which £3,800,000 for Public Works Extraordinary : Deficit, £6,078,300, or, excluding Public Works Extraordinary, £2,278,300 : Estimated cost of Famine, including loss of Revenue, £3,100,000 : Surplus on Ordinary Account, excluding Famine, £621,800.

Budget Estimates, 1877-78 : Revenue, £52,192,700 ; Expenditure, £56,442,400, of which for Public Works Extraordinary, £3,628,000 : Deficit, £4,249,700, reduced to £621,700 if Extraordinary Works be excluded. Estimated cost of Famine, £2,150,000, making £5,250,000 in the two years ; Surplus on ordinary account, excluding famine, £928,300.

Net Amount borrowed in 1876-77, £3,724,000.

Loans in 1877-78, £6,500,000, of which £250,000 from Sindhia for Gwalior Railway : of the remaining £6,250,000, the Government of India proposes to raise £2,500,000 in India. Government of India is not authorized to pledge the Secretary of State as to loans in England, but will recommend him to ask Parliament for power to borrow £3,750,000 in England.

No fresh Imperial taxation ; but Bengal and the North-Western Provinces required to guarantee £375,000 interest on money spent on Canals and local Railways, which are made over to Provincial management, and for maintenance and completion of which provincial responsibility will be enforced. This will necessitate fresh Provincial taxation, the maximum amount of which is estimated at £325,000, of which £275,000 in Bengal and £50,000 in North-Western Provinces. Measures for raising amount in Bengal not yet actually settled, but extension of existing system of Provincial taxation proposed, and no tax of novel character. For North-Western Provinces light license tax on trades ; and authority given to assign for canals and railways ten per cent. of existing local rates. Large extension in Bengal, North-Western Provinces, and Oudh of system inaugurated by Lord Mayo of making over revenues and expenditure to Provincial uses and management : further development promised in other Provinces hereafter.

Programme for the future : unremunerative public works and famine to be classed as ordinary and provided from revenue ; special measures for meeting famine charges under consideration ; abolition of Inland Customs Lines and Sugar duties ; equalisation and reduction of Salt duties ; Government pledged to abolish import duties on Cotton goods with least possible delay. All measures of fiscal relief postponed this year on account of famine. Financial position considered satisfactory and future promising.

Estimated bills upon India in 1877-78, Rs. 13,85,00,000. Present intention of Secretary of State to sell bills for 26½ lakhs a week during April and May.

Estimated Balances at credit of Government of India : at end of 1876-77, £11,539,700 ; at end of 1877-78, £12,500,000.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The first part of the "Indian Law Reports," published under the authority of the Governor General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER, VINING AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, AILAHABAD.

The publication of the Bengal Law Reports and the Madras, Bombay, and N. W. P. High Court Reports will cease on the completion of the volumes now in course of publication.

Subscribers to the Bengal Law Reports, who have already paid their subscriptions to the end of June 1876, will be supplied with the complete set of Reports for the first half of 1876 in lieu of the volume of the Bengal Law Reports which they would otherwise have received.

THE THIRD SCHEDULE—FORMS.

An Act to regulate the procedure and increase the jurisdiction of the Courts of Magistrates in the Presidency Towns.

WHEREAS it is expedient to consolidate and amend the law regulating the procedure of the Courts of Magistrates in the Presidency towns and to

increase the jurisdiction of such Courts; It is hereby enacted as follows:—

PART I.

CHAPTER I.—PRELIMINARY.

1. This Act may be called "The Presidency Magistrates' Act, 1877":
- Short title.

Commencement. And it shall come into force on the first day of April 1877.

2. On and from that day the Acts mentioned in the first schedule hereto annexed shall be repealed to the extent specified in the third column of the said schedule.
- Repeal of Acts.

3. Nothing in this Act shall be deemed to restrict any power conferred by any special or local law.
- Saving of powers under local laws.

4. The Court by which an offence is triable under this Act is indicated by the seventh column of the second schedule hereto annexed and by the third explanatory note prefixed to such schedule.
- Matters indicated in second schedule.

The cases in which the Police may arrest without warrant or not, in the case of each offence under the Indian Penal Code or any law referred to in section 14,

whether a warrant or a summons shall ordinarily issue in the first instance, and

whether the offence is bailable or not, are indicated respectively by the third, fourth and fifth columns of the same schedule.

The punishment for each offence under the Indian Penal Code is indicated by the sixth column of the same schedule.

5. Cases pending when this Act comes into force in any of the Courts of Police Magistrates, or in the town of Bombay in the Court of Petty Sessions, shall be dealt with, as far as may be, according to the procedure herein provided.
- Pending cases.

6. In this Act, unless there be something repugnant in the subject or context:—
- Definitions.

"writing" includes print, lithography, photography and engraving:

"bailable offence" means an offence for, and "bailable case" means a case in, which bail may be taken under any law in force for the time being:

"non-bailable offence" means an offence for, and "non-bailable case" means a case in, which bail may not be taken under any law in force for the time being:

"non-bailable offence or case."

"chapter." "chapter" means a chapter of this Act:

"place." "place" includes also house, building and vessel: and

Words referring to acts done. words which refer to acts done extend also to illegal omissions.

CHAPTER II.—CONSTITUTION AND POWERS OF THE PRESIDENCY MAGISTRATES' COURTS.

Establishment of Presidency Magistrates' Courts.

7. The Local Government may, with the sanction of the Governor General in Council,

(a) constitute within the towns of Calcutta, Madras and Bombay, respectively, so many divisions as the said Government thinks fit,

(b) define the extent thereof respectively,

(c) from time to time alter the number of such divisions and their respective extents, and

(d) establish a Presidency Magistrate's Court for each of such divisions.

8. The Local Government may also from time

Appointment of Presidency Magistrates. to time appoint a sufficient number of fit persons to be Magistrates for the said towns, respectively, and may suspend or remove any person so appointed.

Any such person may sit and act as a Magistrate in any of the said Courts, and any two or more of such persons may (subject to rules made under section 9) sit together as a Bench.

All persons appointed under this section shall be called Presidency Magistrates.

Every such person shall, by virtue of his office, be a Justice of the Peace for the town of which he is a Magistrate,

and shall exercise jurisdiction in all places within the local limits of the ordinary original criminal jurisdiction of the High Court, and within the limits of the port of such town and of any navigable river or channel leading thereto as such limits are defined under the law for the time being in force for the regulation of ports and port-dues.

The area comprised within such local limits shall be deemed to be a district within the meaning of the Code of Criminal Procedure and of this Act.

Every Presidency Magistrate in the town of Bombay shall exercise all powers and jurisdictions which, under any law in force immediately before the passing of this Act, may be exercised by the Court of Petty Sessions, and such Court is hereby abolished.

9. In each of the said towns the Local Government shall appoint one of the Presidency Magistrates to be Chief Magistrate. Such Magistrate shall exercise in such town all the powers which by any law or rule are required to be exercised by any Senior or Chief Magistrate, and may, with the previous sanction of the Local Government, make rules, consistent with this Act, to regulate

(a) the conduct and distribution of business and secure uniformity of practice in the Courts of the Magistrates of the Town:

(b) the times and places at which Benches of Magistrates shall sit:

(c) the constitution of Benches:

(d) the mode of settling differences of opinion which may arise between Magistrates in session.

Notwithstanding the last paragraph of section 8, appeals under the law for the time being regulating the municipality of Bombay shall lie to the Chief Magistrate only.

10. All existing Magistrates of Police shall be deemed to be Presidency Magistrates under this Act, and all references in any Act now in force to Magistrates of Police shall be deemed to be made to Presidency Magistrates.

Sentences which Presidency Magistrates may pass.

11. Any Presidency Magistrate may pass the following sentences:—

Imprisonment not exceeding the term of two years (including such solitary confinement as is authorized by law):

Fine not exceeding one thousand rupees:

Whipping.

A Presidency Magistrate may pass any lawful sentence, combining any of the sentences which he is authorized by law to pass.

EXPLANATION.—A Presidency Magistrate may award imprisonment in default of payment of fine, in addition to the full term of imprisonment which, under this section, he is competent to award. But no punishment inflicted under this section shall exceed the punishment provided for the offence by the Indian Penal Code or any special or local law.

12. In every case punishable under any law in force for the time being with imprisonment as well as fine, in which the offender is sentenced to a fine, whether with or without imprisonment, the Presidency Magistrate shall be guided by the provisions of sections 64 and 65 of the Indian Penal Code in fixing the period of imprisonment in default of payment of the fine

Provided that, in no case decided by a Presidency Magistrate, where imprisonment has been inflicted as part of the substantive sentence, shall the period of imprisonment inflicted in default of payment of the fine exceed one-fourth of the period of imprisonment which he is competent to inflict as punishment for the offence otherwise than as imprisonment in default of payment of the fine.

Where a person is sentenced to fine only, the Presidency Magistrate may fix such term of imprisonment in default of payment of fine as is allowed by law, provided the term does not exceed two years.

13. When a person is convicted, at one trial, of two or more offences punishable under the same section or different sections of any law, the Presidency Magistrate may sentence him, for the offences of which he has been convicted, to the several penalties prescribed by such law which such Magistrate is competent to inflict; such penalties, when consisting of imprisonment, to commence the one after the expiration of the other:

Provided that the punishment shall not in the aggregate exceed twice the amount of punishment which the Magistrate is, by his ordinary jurisdiction competent to inflict.

14. Offences punishable under any law, other than the Indian Penal Code, containing no distinct provision as to the Court or officer before which or before whom they are to be tried, may be inquired into and tried, according to the provisions hereinafter contained, by a Presidency Magistrate. But no such Magistrate shall pass any sentence in excess of his powers.

15. When any offence is committed in the presence of a Presidency Magistrate, he may order any person to arrest the offender, and when the offender is arrested may commit him to custody or, if the offence is bailable, may admit him to bail.

16. A Presidency Magistrate may record any confession or other statement made to him at any place within the local limits of his jurisdiction by any person with reference to any offence.

Such confessions shall be recorded in the manner provided by section 84, and such statements shall be recorded in the manner prescribed in section 115, clauses 3, 4 and 5, and such statements and confessions shall, when recorded, be forwarded to the Magistrate by whom the case is inquired into or tried.

No Presidency Magistrate shall record any such confession unless, upon inquiry, he has reason to believe that it was made voluntarily; and on recording any such confession, he shall make a

memorandum at the foot thereof to the following effect:—

"I believe that this confession was voluntarily made. It was read over to the person making it and was admitted by him to be correct."

(Signed) A. B.,

Presidency Magistrate.

17. Upon complaint made to a Presidency Magistrate on oath of the abduction or unlawful detention of a woman, or of a female child under the age of fourteen years, for any unlawful purpose, he may make an order for the immediate restoration of such woman to her liberty, or of such female child to her husband, parent, guardian or other person having the lawful charge or government of such child, and may compel compliance with such order, using force if necessary.

PART II.

CHAPTER III.—THE PLACE OF INQUIRY AND TRIAL.

18. Every offence shall ordinarily be inquired into, and, if triable by a Magistrate, shall be tried, in the district in which it was committed. If triable by a High Court, it shall (subject to the provisions of section 64A of the Code of Criminal Procedure) be tried by the High Court to which the Magistrate commits.

EXPLANATION.—Offences created by local and special laws may be inquired into and tried in any place where the inquiry or trial might be held under the provisions of those laws or of this Act.

19. When a person is accused of the commission of any offence by reason of anything which has been done, and of any consequence which has ensued, such offence may be inquired into or tried in any district in which any such thing has been done, or any such consequence has ensued.

Illustrations.

(a.) A is wounded in district X and dies in district Z. The offence of the culpable homicide of A may be inquired into and tried either in X or Z.

(b.) A is wounded in district X, and is, during twenty days, unable to follow his ordinary pursuits in district Y, where he is being treated. The offence of causing grievous hurt to A may be inquired into and tried either in X or Y.

(c.) A is put in fear of injury in district X, and is thereby induced, in district Y, to deliver property to the person who put him in fear. The offence of extortion committed on A may be inquired into and tried either in X or Y.

20. When an act is an offence by reason of its relation to any other act which is also an offence, a charge of the first-mentioned offence may be inquired into and tried, either in the district in which it was committed, or in the district in which the other act was committed.

Illustrations.

(a.) A charge of abetment may be inquired into and tried, either in the district in which the abetment was committed, or in the district in which the offence abetted was committed.

(b.) A charge of receiving or retaining stolen goods may be inquired into and tried, either in the district in which the goods were stolen, or in the district in which any of them were at any time dishonestly received or retained.

(c.) A charge of wrongfully concealing a person known to have been kidnapped may be inquired into and tried in the district in which the wrongful concealing, or in the district in which the kidnapping, took place.

(d.) A, B, C and others combine together to abet the waging of war against the Queen. Any of the conspirators may be tried in any district in which acts were done by any one of the persons with whom he or they conspired, in pursuance of their original concerted plan and with reference to their common object.

21. When it is uncertain in which of several districts an offence was committed; or

where an offence is committed partly in one district and partly in another; or

where an offence is a continuing one and continues to be committed in more districts than one; or

where an offence consists of several acts done in different districts

it may be inquired into and tried in any of such districts.

An offence committed on a journey or voyage

or offence is committed on journey or voyage,

may be inquired into and tried in any district through or into which the person by whom the offence was committed, or the person against whom, or the thing in respect of which, the offence was committed, passed in the course of that journey or voyage.

22. The offence of being a thug, or of having belonged to a gang of dacoits, or of having escaped from custody, may be inquired into and tried wherever the accused person happens to be when the complaint is made.

The offence of criminal misappropriation, or of criminal breach of trust,

may be inquired into and tried either in the district in which the property which is the subject of the offence was received by the accused person, or in any other district in which the offence was committed.

The offence of murder as a thug, dacoity or dacoity with murder, may be inquired into and tried wherever the person accused happens to be when arrested, or in any other district in which he might be tried under any other provision of this Act, or any other law relating to the trial of such offence.

The offence of stealing an animal may be inquired into and tried either in the district in which such animal was stolen, or in any other district through or into which it was conveyed.

23. Whenever any doubt arises as to the district in which any offence should be inquired into or tried, the High Court within whose jurisdiction the offender is apprehended may decide in which district the offence shall be inquired into or tried.

24. No sentence or order of any criminal Court shall be liable to be set aside merely on the ground that the inquiry or trial was held in a wrong district, unless it is proved, or appears, that the accused person in his defence, or the prosecutor in his prosecution, was actually prejudiced by such error, in either of which cases a new trial may be ordered.

CHAPTER IV.—OF THE COGNIZANCE OF OFFENCES.

When Presidency Magistrate may take cognizance of offences.

25. A Presidency Magistrate may take cognizance of any offence—

(a) upon receiving a complaint by a private person,

(b) upon information or report by a Police officer,

(c) upon information received under section 246,

(d) if committed in his presence,

(e) upon application under chapter V.

26. Any person acquainted with the facts of a case may make a complaint.

27. On receipt of a complaint a Presidency Magistrate may, if the person complained of be not already in custody, proceed by summons or warrant to compel his appearance;

and in the cases mentioned in section 25, clauses (b), (c), (d) and (e), the Presidency Magistrate may proceed as if he had received a complaint.

28. A complaint gives jurisdiction to a Presidency Magistrate—

(a) to inquire into or try (as the case may be) any offence covered by the facts complained of, or disclosed on such inquiry or trial,

(b) to try or commit for trial (as the case may be) any person not complained against, but who, at the time when the complaint is made, or subsequently, appears to have committed any offence so disclosed, and

(c) to issue process for the arrest or to compel the appearance of such person.

29. Nothing in section 27 or 28 shall be held to authorize a Presidency Magistrate to take cognizance, without complaint, of any offence falling under chapters XIX, XX or XXI of the Indian Penal Code; nor without sanction to receive a complaint, or to take cognizance without complaint of any offence, where such complaint or offence, by any law in force for the time being, may not be received or taken cognizance of without sanction.

30. Whenever a complaint is made to a Presidency Magistrate, such Magistrate, if he has jurisdiction in the case, shall examine the complainant; and such examination may be on oath or affirmation, or not, as the Magistrate in each case thinks fit:

Provided that the Magistrate, if he thinks fit, may, before the matter of the complaint is brought before him, require it to be reduced to writing.

31. Where the complaint has been made by petitioner, and the Magistrate neglects to examine the complainant, the trial of the person accused shall not be set aside on this ground.

32. The Magistrate before whom the complaint is duly made may, if, after examining the complainant, there is in his judgment no sufficient ground for proceeding, dismiss the complaint.

The dismissal of a complaint shall not prevent subsequent proceedings against the person complained against.

33. If it appears to such Magistrate that there is sufficient ground for proceeding, he shall issue his summons or his warrant (as the case may be) for causing the accused person to appear before him.

34. When a complaint is made before a Presidency Magistrate having jurisdiction in the case, that any person has committed, or is suspected of having committed, any offence triable by such Magistrate and punishable with fine only, or with imprisonment for a period not exceeding six months, or with both, the Magistrate may (subject to the provisions of section 4) issue his summons directed to such person, requiring him to appear to answer the complaint, at a certain time and place, before such Magistrate as may then be there.

If the Magistrate believes that the accused person is about to abscond, he may, instead of issuing a summons, issue a warrant in the first instance for the arrest of such person.

35. When a complaint is made before a Presidency Magistrate having jurisdiction in the case that any person has committed, or is suspected of having committed—

(a) any offence triable by such Magistrate and punishable with imprisonment for a period exceeding six months, or

(b) any offence triable exclusively by the High Court, or which, in the opinion of such Magistrate, ought to be tried by the High Court,

such Magistrate may (subject to the provisions of section 4) issue his warrant to arrest such person, or, if he thinks fit, his summons directed to such person, requiring him to appear to answer the complaint at a certain time and place before such Magistrate as may then be there.

36. If the person served with a summons does not appear before the Magistrate at the time mentioned in such summons, and the Magistrate is satisfied that such summons was duly served in what he deems a reasonable time before the time therein appointed for appearing pursuant thereto,

or if it appears to the Magistrate that, after due diligence, the summons could not be served according to the provisions of this Act,

the Magistrate may issue his warrant to apprehend the accused person.

37. Whenever the Magistrate issues a summons, he may, if he sees sufficient cause, dispense with the personal attendance of the accused person, and permit him to appear by his advocate, attorney or pleader.

But such Magistrate may in his discretion, at any stage of the proceedings, direct the personal attendance of the accused person, and, if necessary, enforce such attendance by issuing a warrant to arrest him.

CHAPTER V.—OF PROSECUTIONS IN CERTAIN CASES.

38. A complaint of an offence punishable under chapter VI of the Indian Penal Code, except section 127, or punishable under section 294A of the same Code, shall not be received by any Presidency Magistrate, unless it be made by order of, or under authority from, the Governor General in Council or the Local Government, or some officer empowered by the Governor General in Council or the Local Government to order or authorize such complaint, or unless it be made by the Advocate General.

39. A complaint of an offence of which any Judge or any public servant not removable from his office without the sanction of the Government, is accused as such Judge or public servant, shall not be received by any Presidency Magistrate, except with the previous sanction or under the direction,

(a) of the Government, or

(b) of some officer empowered in this behalf by the Government, or

(c) of some Court or other authority to which such Judge or public servant is subordinate, and whose power so to sanction or direct such complaint has not been limited by the Government.

No such Judge or public servant shall, unless with the previous sanction of the Government, be prosecuted for any act purporting to be done by him in the discharge of his duty.

The Government may, in any case or class of cases, prescribe the person by whom, and the manner in which, the prosecution is to be conducted, and may specify the Court before which the trial shall be held.

In this section, the expression "Government" means either the Local Government or the Governor General in Council, and the expressions "Judge" and "public servant" have the meaning assigned to them respectively by the Indian Penal Code.

40. A complaint of any offence described in chapter X of the Indian Penal Code, not falling within section 175, 178, 179, 180 or 228 of that Code, shall not be received by any Presidency Magistrate, except with the sanction or on the complaint of the public servant concerned, or of his official superior.

41. A complaint of an offence against public justice, described in section 193, 194, 195, 196, 199, 200, 205, 206, 207, 208, 209, 210, 211 or 228 of the Indian Penal Code, when such offence is committed before or against a civil or criminal Court, shall not be received by any Presidency Magistrate, except with the sanction of the Court before or against which the offence was committed, or of some other Court to which such Court is subordinate.

42. A complaint of an offence relating to documents, described in section 463, 471, 475 or 476 of the Indian Penal Code, when the document has been given in evidence in any proceedings in any civil or criminal Court, shall not be received against any party to or witness in such proceedings, by any Presidency Magistrate, except with the sanction of the Court in which the document was given in evidence, or of some other Court to which such Court is subordinate.

43. The sanction referred to in sections 40, 41 and 42 respectively may be expressed in general terms, and need not name the accused person, and may be given at any time. But it shall, so far as practicable, specify the Court or other place in which, and the occasion on which, the offence is alleged to have been committed.

A sanction under any one of the three last preceding sections shall be deemed sufficient authority for the Presidency Magistrate to alter the charge (if any) to one of an offence coming within either of the two remaining sections, if the facts disclose such offence.

44. When any civil, criminal or other Court inferior to a High Court is of opinion that there is sufficient ground for inquiring into any complaint mentioned in section 40, 41 or 42, such Court may either itself inquire into and commit the case for trial before the High Court, or may send the case for disposal to any Presidency Magistrate having jurisdiction.

The Court may send the accused person in custody, or take sufficient bail for his appearance, before such Magistrate; and may bind over any person to appear and give evidence in the case.

Nothing in this section shall prevent a Presidency Magistrate from disposing of cases under sections 172, 173, 174 and 175 of the Indian Penal Code where he himself is the public servant concerned.

45. A complaint of an offence under section 497 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the other person (if any) under whose care she was living at the time when the adultery was committed.

A complaint of an offence under section 498 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the person (if any) having the care of her on behalf of her husband at the time when the offence was committed.

46. The application of the public servant or Court to a Presidency Magistrate to inquire into or try any case under this chapter shall be deemed a sufficient complaint.

CHAPTER VI.—OF THE SUMMONS AND WARRANT.

47. Every summons issued by a Presidency Magistrate to an accused person shall be in writing signed by such Magistrate, and shall be in the form (A)

given in the third schedule to this Act, or to the like effect.

48. If the accused person can be found, the summons shall be served on him personally, wherever he may be, by delivering or tendering the summons to him.

Every person to whom a summons is delivered or tendered under this section shall, if required by the person delivering or tendering the same, sign a receipt therefor, or countersign a copy thereof.

49. If the accused person cannot be found, the summons may be served by leaving it for him with some adult male member or servant of his family residing with him; and the person with whom the summons is so left shall, if so required by the serving officer, sign a receipt therefor, or countersign a copy thereof. If there is no such member or servant with whom the summons can be left, the serving officer shall fix it on some conspicuous part of the house in which the accused person ordinarily resides, and thereupon the summons shall be deemed to have been duly served.

When the person summoned is in the service of Government or of any Railway Company, the Magistrate issuing the summons may send it to the head of the office in which the person summoned is employed; and such head shall thereupon cause the summons to be served in manner hereinbefore provided.

50. When a summons issued by a Presidency Magistrate is to be served at any place outside the local limits of his jurisdiction, he may send the summons in duplicate to the Magistrate of the place where the accused resides or is, to be there served.

51. When a summons issued by a Presidency Magistrate is served outside such local limits as aforesaid, and also in cases where the person who has served the same is not present at the hearing of the complaint, the service may be proved—

(a) by a solemn declaration, purporting to be made before a Magistrate, that such summons has been served, and such declaration may be endorsed on the duplicate summons and returned to the Magistrate who issued the summons, or

(b) by a copy of the summons purporting to be countersigned by the person to whom it is addressed, or

(c) by a receipt under section 48.

52. The provisions relating to a summons, its issue and service, contained in sections 47 to 51 (both inclusive), shall be applicable to every summons issued under this Act.

53. A Presidency Magistrate may, notwithstanding the issue of a summons under this chapter, either before the appearance of the accused person as required by such summons, or after he fails so to appear, issue a warrant of arrest against him.

54. A Presidency Magistrate may issue a summons for the attendance, or a warrant for the apprehension, of any person within the local limits of his jurisdiction, in respect of any

Summons or warrant for apprehension of person within jurisdiction for offence committed beyond.

offence alleged or suspected to have been committed by such person in a different district, or on the high seas, or in a foreign country : provided that if the offence were committed within such local limits, the Magistrate might issue a summons or warrant.

55. On the attendance or apprehension of such person, if the Presidency Magistrate has not jurisdiction in the case, he shall either send such person to the Magistrate within the

Magistrate's procedure on arrest, under his own warrant, for offence committed out of his jurisdiction.

local limits of whose jurisdiction the offence is alleged to have been committed, or if the offence is bailable, take bail for his appearance before such Magistrate.

When the Presidency Magistrate cannot satisfy himself as to the Magistrate to whom the person so attending or arrested should be sent, he shall report the case for the orders of the High Court.

56. Every warrant issued by a Presidency Magistrate shall be in writing under his hand, shall be directed to one or more Police-officers,

Form, and direction of warrant.

and shall be in the form (B) given in the third schedule to this Act, or to the like effect.

A warrant issued under this Act remains in force until it is cancelled by the Magistrate who issued it, or until it is executed.

Continuance of warrant.

57. A fee of eight annas shall be paid for every summons or warrant issued by a Presidency Magistrate, except in the case of a summons to attend and give evidence or to produce documents, in which case there shall be paid a fee of four annas :

Fees for summonses and warrants.

Provided that such Magistrate may in any case remit any such fee, if he is satisfied that the complainant is unable to pay the same, and shall remit it when the complaint is made by a public servant in the execution of his duty.

Power to remit fees.

58. A Presidency Magistrate, in issuing a warrant for the arrest of any person, may in his discretion direct by endorsement on the warrant, that if such person give sufficient bail as therein mentioned for his appearance before the Magistrate on a specified day to answer the complaint, the officer to whom the warrant is directed shall take such bail, and shall release such person from custody.

The endorsement shall state (a) the number of sureties, (b) the amount in which they and the accused person are to be respectively bound, and (c) the day on which he is to appear before the Magistrate.

If bail be taken, the officer to whom the warrant is directed shall forward the recognizance to the Presidency Magistrate.

Recognizance to be forwarded.

59. When a warrant is directed to more Police-officers than one, it may be executed by all, or by any one or more, of such officer.

Warrant to several persons.

60. A warrant directed to any Police-officer may also be executed by any other Police-officer whose name is endorsed upon the warrant by the officer to whom it is directed or endorsed.

Execution of warrant by Police-officer other than the one addressed.

61. Any Presidency Magistrate who issues a warrant of arrest may attend personally for the purpose of seeing that the warrant is duly executed.

Magistrate issuing warrant may superintend its execution.

62. Any such Magistrate may also at any time direct the arrest, in his presence, of any person for whose arrest he may issue a warrant.

Arrest in presence of Magistrate.

63. A warrant issued by a Presidency Magistrate shall ordinarily be executed within the local limits of his jurisdiction.

Where warrant may be executed.

But if the person against whom the warrant is issued goes into, or is in, any place outside such limits, the warrant may be executed in such place.

64. A Presidency Magistrate may direct a warrant to be executed outside the local limits of his jurisdiction, either with or without endorsement by a Magistrate within the local limits of whose jurisdiction it is to be executed.

Execution of warrant outside issuing Magistrate's jurisdiction.

Such warrant shall ordinarily be endorsed by the Magistrate within the local limits of whose jurisdiction it is to be executed.

The warrant may be forwarded to such Magistrate for endorsement, either by post or by any Police-officer to whom it is directed.

The Magistrate to whom such warrant is forwarded by post shall endorse his name thereon and cause it to be executed within the local limits of his jurisdiction.

If the warrant is forwarded by a Police-officer to whom it is directed, he may take it either to a Magistrate, or to a Police-officer not below the rank of an officer in charge of a station, within the local limits of whose jurisdiction the warrant is to be executed.

Such Magistrate or Police-officer shall endorse his name thereon, and such endorsement shall be sufficient authority to the Police-officer to whom the warrant is directed to execute the same within such limits, and the local police shall be bound to assist such officer in executing the warrant.

Whenever there is reason to believe that the delay occasioned by obtaining the endorsement of the Magistrate or Police-officer within the local limits of whose jurisdiction the warrant is to be executed will prevent such execution, the Police-officer to whom it is directed may execute the same without such endorsement in any place beyond the local limits of the jurisdiction of the Magistrate who issued it.

65. If a warrant is executed, whether with or without endorsement, outside the district in which it was issued, the person arrested shall, unless the Presidency Magistrate who issued the warrant be within twenty miles, or be nearer than the Magistrate in whose local jurisdiction the arrest was made, or unless bail be taken under section 58, be brought before the Magistrate within the local limits of whose jurisdiction the arrest was made.

Procedure on execution of warrant outside issuer's jurisdiction.

Such Magistrate shall, if the person arrested appears to be the person intended by the Presidency Magistrate, direct his removal in custody to such Magistrate, unless such person is then ready and willing to give the bail (if any) required under section 58, in which case the Magistrate before whom he is so brought shall accept such bail and forward the recognizance to the Presidency Magistrate.

66. Every Magistrate or Police-officer to whom a warrant under this Act is directed for execution shall execute the same, or cause it to be executed.

67. If a Presidency Magistrate having jurisdiction in the case has reason to believe that any person accused of an offence not coming within section 34 is absconding or concealing himself, so that a warrant issued against him under this Act cannot be executed, such Magistrate may issue a written proclamation, requiring him to appear to answer the complaint within a fixed period not less than thirty days from the date of publishing the proclamation.

Proclamation how published. Such proclamation shall be published as follows—

(a) it shall be publicly read in some conspicuous place of the town or village in which the accused person usually resides ;

(b) it shall be affixed to some conspicuous part of his ordinary place of abode, or some conspicuous place of such town or village ; and

(c) a copy thereof shall be affixed to some conspicuous part of such Magistrate's Court-house.

A statement by the Magistrate to the effect that the proclamation was duly published shall be conclusive evidence of compliance with the requirements of this section.

68. A Presidency Magistrate may order the attachment of any property, moveable or immovable, belonging to any person believed to be absconding or concealing himself.

Such order shall authorize the attachment of any property within the local limits of the jurisdiction of the Magistrate making the order ; and it shall authorize the attachment of any property without such local limits when endorsed by the Magistrate of the district in which such property is situate.

If the property ordered to be attached be immovable, the attachment under this section shall, in the case of land paying revenue to Government, be made through the Collector of the district in which the land is situate, and, in all other cases, (a) by seizure under the order of the Magistrate having jurisdiction ; or (b) by the appointment of a manager and receiver ; or (c) by an order prohibiting the payment of rent to the absent person ; or by all or any two of such processes as such Magistrate deems proper.

If the person so believed to be absconding or concealing himself does not appear within the time specified in the proclamation, the property under attachment shall be at the disposal of Government, but shall not be sold until the expiration of six months from the date of the attachment, unless it is of a perishable nature, or such Magistrate considers that the sale would be for the benefit of the

owner, in either of which cases the Magistrate may cause it to be sold whenever he thinks fit.

69. When any person whose property is or has been at the disposal of Government under the last paragraph of section 68 appears or is found within two years from the date of the attachment, and proves to the satisfaction of the Magistrate by whose order the property was attached that he did not abscond or conceal himself for the purpose of evading justice, such property, or, if the same has been sold, the nett proceeds of the sale, or if part only thereof has been sold, the nett proceeds of the sale and the residue of the property, shall, after satisfying thereout all costs incurred in consequence of the attachment, be delivered to him.

CHAPTER VII.—OF BAIL.

70. Every person arrested under this Act shall be kept in custody until he is discharged by the order of a competent Court, or until he is admitted to bail.

When a person appears or is brought before a Presidency Magistrate accused of any bailable offence, such person shall be admitted to bail: Provided that, in cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, the Magistrate may discharge him on his binding himself by a personal recognizance in such sum of money as the Magistrate thinks sufficient, to appear and attend at the time and place therein mentioned, and to continue so to attend until otherwise directed by the Magistrate.

71. When any person accused of any non-bailable offence appears or is brought before a Presidency Magistrate, such person shall not be admitted to bail, if there appear reasonable grounds for believing that he has been guilty of the offence of which he is accused.

If the evidence given in support of the complaint is, in the opinion of the Magistrate, not such as to afford such grounds,

or if such evidence is adduced on behalf of the accused person as, in the opinion of the Magistrate, weakens the presumption of his guilt,

but there appears to the Magistrate, in either of such cases, to be sufficient ground for further inquiry into his guilt, the accused person shall be admitted to bail pending such inquiry.

But if the Magistrate decide not to admit the accused person to bail, he shall commit him to custody by a warrant in the form (C) given in the third schedule hereto annexed, or to the like effect.

Any Presidency Magistrate may, at any subsequent stage of any proceeding under this Act, cancel the admission under this section of any accused person to bail, and may commit him to custody, or may admit to bail any person who has been committed to custody under this section.

72. When any person accused before a Presidency Magistrate of any offence is admitted to bail, a recognizance, in such sum

of money as the Magistrate thinks sufficient, shall be entered into by the person so accused and one or more sufficient sureties, conditioned that such person shall attend at the time and place mentioned in the recognizance, and shall continue so to attend until otherwise directed by the Magistrate, and, if required, shall appear when called upon at the High Court, to answer the charge.

It is the duty of the Presidency Magistrate or other officer accepting bail to satisfy himself that every surety entering into such recognizance is a person of whom it may reasonably be presumed that he can, if necessary, satisfy its terms.

Every such recognizance shall be in the form (D) given in the third schedule hereto annexed, or to the like effect.

73. After the recognizance has been entered into, the Presidency Magistrate, in case the accused person has appeared voluntarily or is in the custody of some officer, shall thereupon release him; and in case he is in some jail, shall issue a warrant of release to the officer in charge of the jail, and such officer shall thereupon release him.

74. If the accused person cannot find sufficient bail when permitted so to do, after failure in first instance, he may, if the Presidency Magistrate thinks fit, be admitted to bail upon finding the same at any time afterwards before conviction.

75. If, through mistake or fraud, insufficient bail have been taken, or if the bail become afterwards insufficient, the Presidency Magistrate may issue his warrant of arrest directing that the accused person be brought before him and may order such person to find sufficient bail, and on his failing so to do may commit him to prison.

76. The sureties for the attendance and appearance of an accused person admitted to bail may, at any time, apply to a Presidency Magistrate to discharge their recognizance.

On such application being made, the Magistrate shall issue his warrant of arrest, directing that the accused person be brought before him.

On the appearance of such person pursuant to the warrant, or on his voluntary surrender, the Magistrate shall direct the recognizance of the sureties to be discharged, and shall call upon the accused person to find other sufficient sureties, and if he fail to do so, may commit him to prison.

77. Whenever, by reason of default of attendance or appearance of the person bailed, a Presidency Magistrate is of opinion that proceedings should be had to recover the penalty mentioned in the recognizance into which such person has entered, he shall proceed to recover the same, by issuing a warrant for the attachment and sale of the moveable property belonging to such person, which may be found within the local limits of the jurisdiction of such Magistrate.

Such warrant may be executed within such limits, and it shall authorize the distress and sale of any moveable property belonging to the accused person without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

78. Whenever, by reason of default of attendance or appearance of the person bailed, the Presidency Magistrate is of opinion that proceedings should be had to recover from the sureties the penalty mentioned in the recognizance, he shall give them notice to pay the same, or to show cause why it should not be paid.

If such penalty be not paid, and if no sufficient cause for its non-payment be shown, the Presidency Magistrate shall proceed to recover the penalty from such sureties, by issuing a warrant for the attachment and sale of any moveable property belonging to them, or either of them, which may be found within the local limits of the jurisdiction of such Magistrate. Such warrant may be executed within such limits; and it shall authorize the attachment and sale of any moveable property belonging to the sureties, or either of them, without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, such sureties shall be liable to confinement, by order of the Presidency Magistrate, in the civil jail, during a period not exceeding six months.

79. The powers given by sections 77 and 78 may be exercised by every Presidency Magistrate in every case in which a recognizance has been given for the appearance of any person, if default is made by the non-appearance of such person before such Magistrate, according to the conditions of the recognizance:

Provided that the Magistrate may, at his discretion, remit any portion of the penalty mentioned in any such recognizance and enforce payment in part only.

80. When any person is required by a Presidency Magistrate to give bail, such Magistrate may permit him to deposit a sum of money or Government promissory notes to such amount as the Magistrate may fix in lieu of such bail.

CHAPTER VIII.—OF INQUIRY INTO CASES TRIABLE BY THE HIGH COURT.

81. Cases, triable by a High Court in the exercise of its ordinary original criminal jurisdiction, or which, in the opinion of the Presidency Magistrate before whom the accused person is brought, ought to be tried by such Court, shall be inquired into by a Presidency Magistrate; and in such inquiry he shall adopt the following procedure.

82. When the accused person appears or is brought before the Magistrate, or if his personal attendance is dispensed with, after reasonable notice to his advocate, attorney or pleader, the Magistrate shall, at such time as he thinks fit, take the evidence of the complainant and of such persons as are stated by the complainant to have any knowledge of the facts which form the subject-matter of the accusation and the attendant circumstances.

Such evidence shall be recorded in the manner described in clauses 3, 4 and 5 of section 115.

83. The complainant and the witnesses for the prosecution shall be examined in the presence of the accused person, or, when his personal attendance is dispensed with, of his advocate, attorney or pleader (if any).

The Magistrate may, in his discretion, summon or examine any witness offered on behalf of the accused person to answer or disprove the evidence against him.

84. Whenever an accused person is examined in the course of a preliminary inquiry into a case triable by the High Court, the whole of such examination, including every question put to him and every answer given by him, shall be recorded in full, and shall be shown or read to him, and he shall be at liberty to explain or add to his answers.

When the whole is made conformable to what he declares is the truth, the examination shall be attested by the signature of the Magistrate, who shall certify under his own hand that it was taken in his presence and in his hearing, and contains accurately the whole of the statement made by the accused person.

85. The Magistrate may, at any stage of the proceedings, summon and examine any person whose evidence he considers essential to the inquiry, and recall and re-examine any person already examined.

86. If, from the absence of a witness or from any other reasonable cause, it becomes necessary or advisable to adjourn the inquiry, the Magistrate may, by a written order, from time to time adjourn the inquiry on such terms as he thinks fit and remand the accused person for a reasonable time, not exceeding fifteen days.

EXPLANATION.—After commencing the inquiry, if sufficient evidence has been obtained to raise a suspicion that the person accused may have committed an offence, and it appears likely that further evidence may be obtained by a remand, this is a reasonable cause for a remand.

87. When a Presidency Magistrate finds that there are not sufficient grounds for committing the accused person for trial before the High Court, or for remanding him, he shall discharge him, unless it appears to the Magistrate that such person should be tried before himself, in which case he shall proceed accordingly.

EXPLANATION I.—The absence of the complainant, except when the offence may lawfully be compounded, shall not be deemed sufficient ground for a discharge, if there appear other evidence of a nature rendering a trial desirable.

EXPLANATION II.—A discharge is not equivalent to an acquittal, and does not bar the revival of a prosecution for the same offence.

EXPLANATION III.—An order of discharge shall not ordinarily be made until the evidence of the witnesses named for the prosecution has been taken.

88. When evidence has been given before a Presidency Magistrate, which appears to justify him in committing the accused person for trial for an offence triable exclusively by the High Court, or which, in the opinion of the Magistrate, ought to be tried by such Court, the accused person shall be committed for trial accordingly.

89. When the Magistrate determines to commit the accused person for trial before the High Court, he shall, after the evidence has been recorded, frame a charge under his hand, declaring with what offence the accused person is charged, and (subject to the provisions of the High Courts' Criminal Procedure Act, 1875) committing him for trial by such Court on such charge.

All such charges shall be drawn up in accordance with the provisions of chapter IX.

Pending such trial, the Magistrate may commit the accused person to custody by warrant in the form (E) given in the third schedule hereto annexed, or to the like effect, or may in case of a bailable offence release him on bail; and the charge, the record of the enquiry, and any weapon or other article necessary to produce in evidence shall be sent to the Clerk of the Crown or other officer appointed in this behalf by the High Court.

When the accused person is committed for trial before the High Court, the Magistrate shall issue an order to such person as may be appointed by the Local Government in this behalf, notifying the commitment, and stating the offence in the same form as the charge, unless the Magistrate is satisfied that such person is already aware of the commitment and the form of the charge.

90. As soon as the charge on which the accused person is to be tried has been prepared, it shall be read and explained to him; and a copy thereof shall be furnished to him, if he so require.

91. The accused person shall be required at once to give in, orally or in writing, a list of the persons whom he wishes to be summoned to give evidence on his trial before the High Court.

The Magistrate may, if he thinks proper, summon all or any such persons to attend and give evidence at the enquiry; and if he does so, the commitment shall not be considered to have been made until such evidence has been taken.

The Magistrate may in his discretion allow the accused person to give in any further list of witnesses at a subsequent time.

The Magistrate may summon and examine supplementary witnesses after commitment and before the commencement of the trial. Such examination shall, if possible, be taken in the presence of the accused person.

Nothing in this section shall be deemed to preclude the accused person from giving at any time before his trial before the High Court to the

Clerk of the Crown a further list of the persons whom he wishes to be summoned to give evidence on such trial.

92. When the person accused has been committed for trial, and has given in any list of the persons referred to in section 91, the Magistrate may either summon such persons to appear before the High Court, or leave them to be summoned by the Clerk of the Crown.

93. Complainants and witnesses for the prosecution and defence, whose attendance before the High Court is necessary, and who appear before the Presidency Magistrate, shall execute before him recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon at the High Court, to prosecute or to give evidence, as the case may be.

If any complainant or witness refuses to attend before the High Court, or to execute the recognizance above directed, the Presidency Magistrate may detain him in custody until he executes such recognizance, or until his attendance at the High Court is required, when the Magistrate shall send him in custody to the High Court.

CHAPTER IX.—OF THE CHARGE.

Form of Charges.

94. Every charge under this Act shall state the offence with which the accused person is charged.

If the law which creates the offence gives it any specific name, the offence may be described in the charge by that name only.

If the law which creates the offence does not give it any specific name, so much of the definition of the offence must be stated as to give the accused person notice of the matter with which he is charged.

The law and section of the law against which the offence is said to have been committed shall be mentioned in the charge.

The fact that the charge is made shall be equivalent to a statement that every legal condition, necessary by law to constitute the offence charged, was fulfilled in the particular case.

The charge shall be written in English. If English is not understood by the accused person, the charge shall be interpreted to him in a language which he understands.

If the accused person has been previously convicted of any offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, or of any other offence mentioned in section 3 or section 4 of Act No. VI of 1864 (to authorize the punishment of whipping in certain cases), and if it is intended to prove such previous conviction for the purpose of affecting the punishment which is to be awarded, the fact of the previous conviction must be stated in the charge. If such statement is omitted, it may

be added at any time before sentence is passed, but not afterwards.

Illustrations.

(a.) A is charged with the murder of B.

This is equivalent to a statement that A's act fell within the definition of murder given in sections 299 and 300 of the Indian Penal Code; that it did not fall within any of the general exceptions of the Penal Code; and that it did not fall within any of the five exceptions to section 300, or that, if it did fall within exception 1, one or other of the three provisos to that exception applied to it.

(b.) A is charged, under section 326 of the Indian Penal Code, with voluntarily causing grievous hurt to B, by means of an instrument for shooting. This is equivalent to a statement that the case was not provided for by section 335 of the Indian Penal Code, and that the general exceptions did not apply to it.

(c.) A is accused of murder, cheating, theft, extortion, adultery or criminal intimidation, or using a false property-mark. The charge may state that A committed murder, or cheating, or theft, or extortion, or adultery, or criminal intimidation, or that he used a false property-mark, without reference to the definitions of those crimes contained in the Indian Penal Code; but the sections under which the offence is punishable must, in each instance, be referred to in the charge.

(d.) A is charged, under section 184 of the Indian Penal Code, with intentionally obstructing a sale of property offered for sale by the lawful authority of a public servant. The charge should be in those words.

95. The charge shall contain such particulars as to the time and place of the alleged offence and the person against whom, or the thing in respect of which, it was committed, as are reasonably sufficient to give notice to the accused person of the matter with which he is charged.

96. When the nature of the case is such that the particulars mentioned in sections 94 and 95 do not give sufficient notice to the accused person of the matter with which he is charged, the charge shall also contain such particulars of the manner in which the alleged offence was committed as will be sufficient for that purpose.

Illustrations.

(a.) A is accused of the theft of a certain article at a certain time and place. The charge need not set out the manner in which the theft was effected.

(b.) A is accused of cheating B at a given time and place. The charge must set out the manner in which A cheated B.

(c.) A is accused of giving false evidence at a given time and place. The charge must set out that portion of the evidence given by A which is alleged to be false.

(d.) A is accused of obstructing B, a public servant, in discharge of his public functions at a given time and place. The charge must set out the manner in which A obstructed B in the discharge of his functions.

(e.) A is accused of the murder of B at a given time and place. The charge need not state the manner in which A murdered B.

(f.) A is accused of disobeying a direction of the law with intent to save B from punishment. The charge must set out the disobedience charged and the law infringed.

97. The charge may be in the form given in the third schedule to this Act or to the like effect.

98. No error, either in the way in which the offence is stated, or in the particulars required to be stated in section 96, and no omission to state the offence, or to state those particulars, shall be regarded at any stage of the case as material, unless the person accused was in fact misled by such error or omission.

Illustrations.

(a.) A is charged, under section 242 of the Indian Penal Code, with "having been in possession of counterfeit coin, having known at the time when he became possessed

thereof that such coin was counterfeit;" the word "fraudulently" being omitted in the charge. Unless it appears that A was in fact misled by this omission, the error shall not be regarded as material.

(b.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge, or is set out incorrectly. A defends himself, calls witnesses, and gives his own account of the transaction. The Court may infer from this that the omission to set out the manner of the cheating is not material.

(c.) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge. There were many transactions between A and B, and A had no means of knowing to which of them the charge referred, and offered no defence. The Court may infer from such facts that the omission to set out the manner of the cheating was, in this case, a material error.

(d.) A is charged with the murder of Khodá Baksh on the 21st January. In fact, the murdered person's name was Haidar Baksh, and the date of the murder was the 20th January. A was never charged with any murder but one, and had heard the inquiry before the Magistrate, which referred exclusively to the case of Haidar Baksh. The Court may infer from these facts that A was not misled, and that the error in the charge was immaterial.

(e.) A was charged with murdering Haidar Baksh on the 20th January and Khodá Baksh (who tried to arrest him for that murder) on the 21st January. When charged for the murder of Haidar Baksh, he was tried for the murder of Khodá Baksh. The witnesses present in his defence were witnesses in the case of Haidar Baksh. The Court may infer from this that A was misled, and that the error was material.

99. Any accused person may apply to a Presidency Magistrate for an amendment of the charge made against him; and in considering whether any error in a charge did in fact mislead the accused person, the Magistrate shall take into account the fact that he did or did not make such an application.

100. A Presidency Magistrate may, upon the application of the accused person, or of the complainant, or upon his own motion, alter any charge at any stage of the proceedings before judgment is pronounced.

Every such alteration shall be read and explained to the accused person.

101. If the alteration is such that proceeding immediately with the trial is not likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may in his discretion, after making such alteration, proceed with the trial as if the altered charge had been the original charge.

102. If the alteration is such that proceeding immediately with the trial is likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may either direct a new trial, or suspend the trial for such period as may be necessary to enable the accused person to make his defence to the altered charge; and, after hearing his defence, the Magistrate may further adjourn the trial, to admit of the appearance of any witness whose evidence the Magistrate may consider to be material to the case, or whom the accused person may wish to be summoned in his defence.

103. In all cases of alteration of a charge, the complainant and accused person shall be allowed to recall and examine with refer-

Recall of witnesses when charge altered.

once to such alteration any witness who may have been examined.

104. If the offence stated in the altered charge be one for the prosecution of which previous sanction is necessary, the case shall not be proceeded with until such sanction is obtained, unless sanction has been already obtained for a prosecution on the same facts as those on which the altered charge is founded.

Joinder of Charges.

105. There must be a separate charge for every distinct offence of which any person is accused, and every such charge must be tried separately, except in the cases hereinafter excepted.

Illustration.

A is accused of a theft on one occasion, and of causing grievous hurt on another occasion. A must be separately charged and separately tried for the theft and the causing grievous hurt.

106. When a person is accused of more offences than one of the same kind, committed within one year of each other, he may be charged with, and tried at the same time for, any number of them not exceeding three.

107. I.—If in one series of acts, so connected together as to form the same transaction, more offences than one are committed by the same person, he may be charged with and tried for every such offence at the same time.

II.—If the acts alleged constitute an offence falling within two or more separate definitions of any law in force for the time being, by which offences are defined or punished, the person accused of them may be charged with each of the offences so committed; but he must not receive a more severe punishment than could be inflicted for any of such offences.

III.—If several acts, of which one or more than one would by itself constitute an offence, form, when combined, a different offence, the person accused of them may be charged with every offence or any of the different offences, which he may have committed; but he must not receive for such offences, collectively, a punishment more severe than that which might have been inflicted for any one of such offences.

Illustrations

to paragraph I—

(a) A rescues B, a person in lawful custody, and in so doing causes grievous hurt to C, a constable in whose custody B was. A may be separately charged with, convicted of, and punished for, offences under sections 225 and 333 of the Indian Penal Code.

(b) A has in his possession several seals knowing them to be counterfeit and intending to use them for the purpose of committing several forgeries punishable under section 466 of the Indian Penal Code. A may be separately charged with, convicted of, and punished for, the possession of each seal, under section 473 of the Indian Penal Code.

(c) A, with intent to cause injury to B, institutes a criminal proceeding against him, knowing that there is no just or lawful ground for such proceeding. A also falsely accuses B of having committed an offence, knowing that there is no just or lawful ground for such charge. A may be separately charged with, convicted of, and punished for, two offences under section 211 of the Indian Penal Code.

(d) A, with intent to cause injury to B, falsely accuses him of having committed an offence, knowing that there is no just or lawful ground for such charge. On the trial A gives false evidence against B, intending thereby to cause B to be convicted of a capital offence. A may be separately charged with, convicted of, and punished for, offences under sections 211 and 194 of the Indian Penal Code.

(e) A, knowing that B, a female minor, has been kidnapped in order that she may be subjected to grievous hurt, wrongfully confines her and detains her against her will as a slave. A may be separately charged with, convicted of, and punished for, offences under sections 368 (read with 367) and 370 of the Indian Penal Code.

(f) A, with six others, commits the offences of rioting, grievous hurt, and of assaulting a public servant endeavouring, in the discharge of his duty as such, to suppress the riot. A may be separately charged with, convicted of, and punished for, offences under sections 147 and 325 and 152 of the Indian Penal Code.

(g) A threatens B, C and D at the same time with injury to their persons with intent to cause alarm to them. A may be separately charged with, convicted of, and punished for, each of the three offences under section 506 of the Indian Penal Code.

(h) A intentionally causes the death of three persons by upsetting a boat. A may be separately charged with, convicted of, and punished for, each of the three offences under section 302 of the Indian Penal Code.

The separate charges referred to in illustrations (a) to (h) respectively may be tried at the same time.

to paragraph II—

(i) A wrongfully strikes B with a cane. A may be separately charged with, and convicted of, offences under sections 352 and 323 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 323 only.

(j) A wrongfully kills a buffalo worth sixty rupees belonging to B, and then moves the carcase in order to take it dishonestly out of B's possession without B's consent. A may be separately charged with, and convicted of, offences under sections 429 and 379 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 429 only.

(k) Several stolen sacks of corn are made over to A and B who know they are stolen property. A and B thereupon voluntarily assist each other to conceal the sacks at the bottom of a grain-pit. A and B may be separately charged with, and convicted of, offences under sections 411 and 414 of the Indian Penal Code; but the Presidency Magistrate who tries them may not inflict a severer punishment than if he had convicted them under one of those sections only.

(l) A dishonestly uses a forged document as genuine evidence, in order to convict B, a public servant, of an offence under section 167 of the Indian Penal Code. A may be separately charged with, and convicted of, offences under sections 471 (read with 466) and 196 of the same Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under one of those sections only.

to paragraph III—

(m) A commits house-breaking by day with intent to commit adultery, and commits, in the house so entered, adultery with B's wife. A may be separately charged with, and convicted of, offences under sections 454 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

(n) A commits robbery on B, and, in doing so, voluntarily causes hurt to him. A may be separately charged with, and convicted of, offences under sections 323, 392 and 394 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 392 or 394 only.

(o) A entices B, the wife of C, away from C, with intent to commit adultery with B, and then commits adultery with her. A may be separately charged with, and convicted of, offences under sections 198 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

108. If a single act or series of acts is of such

Where it is doubtful a nature that it is doubtful what offence has been committed, the facts which can be proved will constitute, the accused person may be charged with having committed all or any of such

offences; and any number of such charges may be tried at once, or he may be charged in the alternative with having committed some one of the said offences.

Illustration.

A is accused of an act which may amount to theft, or receiving stolen property, or criminal breach of trust, or cheating. He may be charged with theft, receiving stolen property, criminal breach of trust, and cheating, or he may be charged with having committed theft, or receiving stolen property, or criminal breach of trust, or cheating.

109. If, in the case mentioned in the last pre-

ceding section, one charge When a person is charged with one offence, only is brought against an accused person, and it appears in evidence that he committed a different offence, for which he might have been charged under the provisions of that section, he may be convicted of the offence which he is shown to have committed, although he was not charged with it.

Illustration.

A is charged with theft. It appears that he committed the offence of criminal breach of trust, or that of receiving stolen goods. He may be convicted of criminal breach of trust, or of receiving stolen goods (as the case may be), though he was not charged with such offence.

110. When a person is charged with an offence,

When offence proved and part of the charge is included in offence not proved, but the part charged, which is proved amounts to a different offence, he may be convicted of the offence which he is proved to have committed, though he was not charged with it.

Illustrations.

(a) A is charged, under section 407 of the Indian Penal Code, with criminal breach of trust in respect of property entrusted to him as a carrier. It appears that he did commit criminal breach of trust under section 406 in respect of the property, but that it was not entrusted to him as a carrier. He may be convicted of criminal breach of trust under section 406.

(b) A is charged with murder. He may be convicted of culpable homicide, or of causing death by negligence.

111. When more persons than one are accused

of the same offence, or of different offences committed in the same transaction, or when one person is accused of committing any offence, and another of abetment of, or attempt to commit, such offence, they may be charged and tried together, or separately, as the Presidency Magistrate thinks fit, and the provisions contained in the former part of this chapter shall apply to all such charges.

Illustrations.

(a) A and B are accused of the same murder. A and B may be charged and tried together for the murder.

(b) A and B are accused of a robbery, in the course of which A commits a murder with which B has nothing to do. A and B may be tried together on a charge, charging both of them with the robbery, and A alone with the murder.

(c) A and B are both charged with a theft, and B is charged with two other thefts committed by him in the course of the same transaction. A and B may be both tried together on a charge, charging both with the one theft, and B alone with the two other thefts.

112. When more charges than one are made

against the same person, and when a conviction has been had on one or more of them, the complainant, or the Government Solicitor or other

officer conducting the prosecution, may, with the consent of the Presidency Magistrate, withdraw, or such Magistrate of his own accord may suspend, the inquiry into, or trial of, the remaining charge or charges.

Previous Acquittals or Convictions.

113. A person who has once been tried for an offence and convicted or acquitted of such offence, shall, while such conviction or acquittal remains in force, not be liable to be tried again for the same offence, nor on the same facts for any other offence for which a different charge from the one made against him might have been made under section 108, or for which he might have been convicted under section 109.

A person convicted or acquitted of any offence may be afterwards tried for any offence for which a separate charge might have been made against him on the former trial under section 107, paragraph one.

A person acquitted or convicted of any offence constituted by any act causing consequences which, together with such act, constituted a different offence from that for which he was acquitted or convicted, may be afterwards tried for such last-mentioned offence, if the consequences had not happened; or were not known to the Court to have happened, at the time when he was acquitted or convicted.

A person acquitted or convicted of any offence constituted by any acts may, notwithstanding such acquittal or conviction, be subsequently charged with, and tried for, any other offence constituted by the same acts, which he may have committed if the Court by which he was first tried was not competent to try the offence with which he is subsequently charged.

Illustrations.

(a) A is tried upon a charge of theft as a servant and acquitted. He cannot afterwards be charged with theft as a servant, or, upon the same facts, with theft simply, or with criminal breach of trust.

(b) A is tried upon a charge of murder and acquitted. There is no charge of robbery; but it appears from the facts that A committed robbery at the time when the murder was committed: he may afterwards be charged with, and tried for, robbery.

(c) A is tried for an assault and convicted. The person assaulted afterwards dies. A may be tried again for culpable homicide.

(d) A is tried, under section 270 of the Indian Penal Code, for maliciously doing an act likely to spread the infection of a disease dangerous to life, and is acquitted. The act so done afterwards causes a person permanently to lose his eyesight. A may be charged, under section 325 of the same Code, with voluntarily causing grievous hurt to that person.

(e) A is charged by a Presidency Magistrate with, and convicted by him of, voluntarily causing hurt to B. A may not afterwards be tried for voluntarily causing grievous hurt to B, on the same facts, unless the case comes within paragraph three of this section.

(f) A is charged by a Presidency Magistrate with, and convicted by him of, theft of property from the person of B. A may be subsequently charged with, and tried for, robbery on the same facts.

(g) A, B and C are charged by a Presidency Magistrate with, and convicted by him of, robbing D. A, B and C may afterwards be charged with, and tried for, dacoity on the same facts.

CHAPTER X.—OF THE TRIAL OF CASES BY PRESIDENCY MAGISTRATES.

114. The following procedure shall be observed in the trial of cases by Presidency Magistrates.

In every such case the Magistrate shall record the following particulars:

- (a) the serial number,
- (b) the date of the commission of the offence,
- (c) the name of the complainant,
- (d) the name of the accused person,
- (e) the offence complained of or proved,
- (f) the prisoner's plea,
- (g) the final order,
- (h) the date of such order.

115. No Presidency Magistrate shall impose a fine exceeding two hundred rupees or imprisonment for a term exceeding six months, unless he has recorded the evidence of the witnesses.

Sentences passed under section 13 on the same occasion shall for the purposes of this section be considered as one sentence.

Where the Magistrate records such evidence, it shall be sufficient either to take it down with his own hand or to cause it to be taken down in writing from his dictation in open Court. All evidence so taken down shall be signed by the Magistrate and shall be part of the record.

Evidence so taken down shall ordinarily be taken in the form of a narrative, but the Magistrate may in his discretion take down, or cause to be taken down, any particular question or answer.

Every Magistrate recording the evidence of a witness shall record such remarks as he thinks material respecting the demeanour of such witness while under examination.

116. In cases punishable with fine only, or with imprisonment for a term not exceeding six months, or with both, no formal charge need be made against the accused person; and the Magistrate may convict him of any offence punishable with fine only or with imprisonment for a term not exceeding six months, or with both, and which, from the facts proved, he appears to have committed.

In cases in which the Magistrate has power to impose imprisonment for a term exceeding six months, there shall be a formal charge against the accused person.

All charges under this section shall be drawn up by the Magistrate in accordance with the provisions of chapter IX.

117. Neither the complaint nor the process issued thereon shall be regarded otherwise than as notice to the accused person of the facts to be inquired into. No defect in the complaint or process shall invalidate the proceedings, unless it appears that the accused person was actually misled by such defect; and, in considering whether or not he was so misled, the Magistrate shall have regard to the manner in which the accused person conducted his defence.

118. If upon the day appointed for the appearance of the accused person, or any day subsequent thereon, the complainant does not appear, the Magistrate shall dismiss the complaint, unless he thinks fit to adjourn the hearing of the same to some other day. Such adjournment shall be made upon such terms as the Magistrate thinks fit.

119. On the appearance of both parties on the day fixed for the trial, the substance of the complaint shall be stated to the accused person, and he shall be asked if he has any cause to show why he should not be convicted.

120. If the accused person admit the truth of the complaint, his admission shall be recorded, and if he shows no sufficient cause why he should not be convicted, the Magistrate may convict him accordingly.

121. If the accused person does not admit the truth of the complaint, the Magistrate shall proceed to hear the complainant and such witnesses as he produces in support of his complaint, and also to hear the accused person and such witnesses as he produces in his defence.

122. Whenever any charge is drawn up under this Act, it shall be drawn up as soon as the Magistrate is of opinion that a *prima facie* case has been established against the accused person, and shall be read and explained to the accused person, and he shall be asked whether he is guilty or has any defence to make.

123. If the accused person be examined, the procedure prescribed in section 84 shall be followed.

124. Before or during the hearing of any complaint, the Magistrate may, in order to secure the attendance of witnesses or for any other reason, adjourn the hearing, on such terms as he thinks fit, to a day to be then appointed and stated in the presence of the parties.

If on the day to which such hearing or such further hearing has been so adjourned, the accused person does not appear, the Magistrate may issue his warrant for the arrest of such person.

If on such day the complainant does not appear, the Magistrate may dismiss the complaint.

125. If a complainant, at any time before a final order is passed in any case punishable with fine only or with imprisonment for a term not exceeding six months, or with both, satisfies the said Magistrate that there are sufficient grounds for permitting him to withdraw his complaint, the Magistrate may permit him to do so.

The withdrawal under this section of a complaint shall operate as an acquittal of the accused person.

126. If the Magistrate, in any case tried under this chapter, finds the accused person not guilty, he shall record an order of acquittal.

If the accused person is convicted, the Magistrate shall pass sentence upon him; and, in all cases in which the Magistrate inflicts imprisonment, or fine exceeding two hundred rupees, or both, he shall add to the final order mentioned in section 114, clause (g), a brief statement of the reasons for the conviction.

When the personal attendance of the accused person during the trial has been dispensed with,

the sentence of the Magistrate shall be pronounced in his presence, except where the sentence is for fine only, in which case it may be pronounced in the presence of the accused person's advocate, attorney or pleader.

127. If in the course of any trial before a Presidency Magistrate, it appears that the case is one which he has not jurisdiction to try, or one which, in his opinion, ought to be tried by the High Court, he shall stop further proceedings under this chapter, and shall either forward the case to the Magistrate having jurisdiction, or commit the accused person, in accordance with the provisions of chapter VIII, to the High Court for trial.

128. Whoever, having been convicted of an offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, is again accused of any offence punishable under either of those chapters with imprisonment for a term of three years or upwards, shall ordinarily, if the Presidency Magistrate considers him an habitual offender, be committed to the High Court.

General Provisions as to Inquiries and Trials.

129. A Presidency Magistrate inquiring into or trying any case may permit any person to conduct the case as prosecutor; but no person other than the Advocate-General, Standing Counsel, Government Solicitor or other officer generally or specially empowered by the Local Government in this behalf shall be entitled to do so without such permission.

Any person conducting the case may do so personally or by an advocate, attorney or pleader.

130. Every person accused before a Presidency Magistrate of an offence, may of right be defended by any advocate, attorney or pleader.

131. If an accused person, though not insane, cannot be made to understand the proceedings, the Magistrate may proceed with the inquiry or trial; and if such inquiry results in a committal, or if such trial results in a conviction, the proceedings shall be forwarded to the High Court, with a report of the circumstances of the case, and the High Court shall pass thereon such order as it thinks fit.

132. The place in which the Court of a Presidency Magistrate is held for the purpose of inquiring into or trying any offence, shall be deemed an open Court, to which the public generally may have access, so far as the same can conveniently contain them:

Provided that the Magistrate may, if he thinks fit, order at any stage of any inquiry into or trial of any particular case, that the public generally, or any particular person, shall not have access to, or be, or remain in, the room or building used by the Magistrate.

133. In the case of offences which may lawfully be compounded, the injured person may compound the

offence out of Court, or in Court with the permission of the Presidency Magistrate. Such composition shall have the effect of an acquittal of the accused.

CHAPTER XI.—OF EVIDENCE.

A.—Of securing the Attendance of Witnesses.

134. Any Presidency Magistrate may, at any stage of any proceeding, inquiry or trial under this Act, summon, in manner provided by chapter VI, any witness, or examine any person in attendance though not summoned as a witness; and the Magistrate shall summon and examine such person if his evidence appears essential to the just decision of the case.

135. If a Presidency Magistrate has reason to believe that any witness, whose attendance is required will not attend to give evidence without being compelled to do so, he may, instead of issuing a summons, issue a warrant of arrest in the first instance.

136. If any person summoned under this Act to give evidence neglects or refuses to appear at the time and place appointed by the summons, and no reasonable excuse is offered for such neglect or refusal, the Presidency Magistrate, upon proof of the summons having been duly served, may issue a warrant under his hand to bring such person before him to testify as aforesaid.

137. If such warrant cannot be executed, and the Magistrate has reason to believe that the witness absconds or conceals himself for the purpose of preventing the execution thereof, he may issue a notice, requiring the attendance of such witness to give evidence at a time and place to be named therein, and such notice shall be affixed to some conspicuous part of such witness' ordinary place of abode, or, if he has no such abode, of the Magistrate's Court.

If the witness does not attend at the time and place so named, the Magistrate may order the attachment of any moveable property belonging to such witness, equal in value, as nearly as may be, to the amount of the costs of attachment and of any fine to which the witness may be liable under the provisions of section 172 of the Indian Penal Code.

138. The provisions of section 68 and section 69 as to the attachment, sale and restoration of moveable property shall apply to all property ordered to be attached under section 137.

139. Notwithstanding anything contained in the Prisoners' Testimony Act, 1869, any Presidency Magistrate desirous of examining, as a witness or accused person, in any case pending before him, any person confined in any jail within the local limits of his jurisdiction, may issue an order to the officer in charge of the said jail requiring him to bring such prisoner in proper custody, at a time to be therein named, to the Magistrate for examination.

The officer so in charge, on receipt of such order, shall act in accordance therewith, and shall provide for the safe custody of the prisoner during his absence from the jail for the purpose aforesaid.

140. The Presidency Magistrate may require complainants and witnesses for the prosecution and defence whose attendance before him is necessary, to execute recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon to prosecute or give evidence, as the case may be.

141. If any witness summoned or brought before a Presidency Magistrate refuses to answer such questions as are put to him, without offering any reasonable excuse for such refusal, such Magistrate may sentence him to simple imprisonment, or commit him to the custody of an officer of the Court, for any term not exceeding seven days, unless in the meantime such person consents to be examined and to answer; after which, in the event of his persisting in his refusal, he may be dealt with according to the provisions of section 205 or 206.

B.—Of Witnesses.

142. In the case of offences punishable with fine only or with imprisonment for a term not exceeding six months, or with both, it shall ordinarily be the duty of the complainant and accused to produce their own witnesses. But the Presidency Magistrate may in his discretion—

- (a) summon any person who appears to him likely to give material evidence on behalf of the complainant or the accused;
- (b) summon any witness named by the complainant of the accused:

Provided that the Magistrate may, before summoning a witness, require that his reasonable expenses incurred in attending for the purposes of the trial be deposited in Court.

143. In the case of all other offences, the Magistrate shall ascertain from the complainant, or otherwise, the names of any persons likely to be acquainted with the facts of the case and to be able to give evidence for the prosecution, and shall summon to give evidence before him such of them as he thinks necessary.

The Magistrate shall also summon any witness, and take any evidence that may be offered, in behalf of the accused person, to answer or disprove the evidence against him.

C.—Of Securing Documentary Evidence.

144. Whenever a Presidency Magistrate considers that the production of any document or other thing is necessary or desirable for the purposes of any inquiry trial, or other proceeding under this Act, he may issue a summons to the person in whose possession or power such document or thing is believed to be, requiring him to attend and produce it at the time and place stated in the summons.

145. Where there is reason to believe that the person to whom the summons is addressed will not produce the document or

other thing as directed in the summons, the Magistrate may issue a warrant to search for such document or thing in the first instance.

146. If any letter in the custody of the Postal

Procedure as to letters in custody of Postal Department or telegraph officer.

Department is wanted for the purpose of any inquiry or trial by a Presidency Magistrate, the Magistrate may, if he is the Chief

Magistrate, direct the postal authorities to deliver such letter to such person as the Magistrate directs, and if he is not the Chief Magistrate, may apply to the Chief Magistrate, who may, if he thinks fit, give such direction.

The letter referred to in any direction given under this section shall be delivered accordingly.

147. Any Presidency Magistrate may, if he

Power to impound document produced.

thinks fit, impound any document or other thing produced before him, or may, at

the conclusion of the proceedings, order it to be returned to the person who produced it.

D.—Of the Examination of Accused Persons.

148. At any stage of any inquiry or trial under

Examination of accused.

this Act, the Magistrate may, without previously

warning the accused person, put such questions to him as he considers necessary.

The accused person shall not render himself liable to punishment for refusal to answer such questions, or for giving false answers to them, but the Magistrate shall draw such inference as may to him seem just from such refusal or false answers.

EXPLANATION.—The answer given by an accused person may be put in evidence against him, not only in such inquiry or trial, but also in any other inquiry into, or trial for, any other offence which such answer may tend to show he has committed.

149. Except as is provided in section 150, no

No influence to be used to induce disclosures.

influence, by means of any promise or threat or otherwise, shall be used to an

accused person to induce him to disclose or withhold any matter within his knowledge.

150. A Presidency Magistrate may, with the

Tender of pardon to accomplice.

view of obtaining the evidence of any persons supposed to have been directly or indirectly concerned in, or privy to, any offence specified in column seven of the second schedule hereto annexed as triable exclusively by the High Court, tender a pardon to such person on condition of his making a full and true disclosure of the whole of the circumstances, within his knowledge, relative to such offence and to every other person concerned in the perpetration thereof.

Every person accepting a tender under this section shall be examined as a witness in the case.

Such person, if not on bail, shall be detained in custody until the termination of the trial.

151. When a pardon has been tendered under

Commitment of person to whom pardon has been tendered.

section 150, if before the trial it appears to the Presidency Magistrate that any person who has accepted such tender has either by wilfully

concealing anything essential, or by giving false evidence, not complied with the conditions under

which the tender was made, such Magistrate may commit him for trial for the offence in respect of which the pardon was so tendered, or for any other offence of which he may appear to have been guilty in connection with the same matter.

The statement made by a person under pardon which pardon has been withdrawn under this section, may be put in evidence against him.

E.—Special Rules of Evidence.

152. The deposition of a civil surgeon or other

Deposition of medical witness, taken and duly attested by a Magistrate, may be given in evidence in any inquiry or

trial under this Act, although the deponent is not called as a witness.

The Presidency Magistrate may, if he thinks fit,

Power to summon and examine such medical witness. deponent as to the subject-matter of his deposition.

153. Any document purporting to be a report

aminer, or Assistant Chemical Examiner to Government, upon any matter or thing duly submitted to him for examination or analysis and report, in the course of any inquiry or trial under this Act, or in any preliminary inquiry relating thereto, may, if it bears his signature, be used as evidence in any inquiry or trial under this Act.

The Presidency Magistrate may presume that the

Genuineness of signature may be presumed.

signature to any such document is genuine, and that the person signing it held the

office which he professed to hold at the time when he signed it.

The Presidency Magistrate may, if he thinks

Power to summon Chemical Examiner.

fit, summon and examine such Chemical Examiner or Assistant Chemical Examiner as to the subject-matter of his said report.

154. A previous conviction or acquittal may be

Previous conviction or acquittal how proved.

proved (a) by an extract certified, under the hand of the officer having the custody of the records of the Court in which such conviction or acquittal was had, to be a copy of the sentence or order, or (b), in case of a conviction either by a certificate signed by the officer in charge of the jail in which the punishment or any part thereof was inflicted or by production of the warrant of commitment under which the punishment was suffered.

155. If an accused person abscond, and after

Record of evidence in absence of accused.

due pursuit cannot be arrested, the Presidency Magistrate may, in his absence, examine the witnesses (if any) produced on behalf of the prosecution, and record their depositions; and any such deposition may, on the arrest of such person, be put in on his trial for the offence with which he is charged, if the attendance of the deponent cannot be procured.

156. Whenever any Presidency Magistrate,

Convictions on evidence partly recorded by one Magistrate and partly by another.

after having heard the whole or any part of the evidence in an inquiry or trial, ceases to exercise jurisdiction therein, and is succeeded by another Magistrate who has and who exercises such jurisdiction, the Magistrate so succeeding may act

on the evidence so recorded by his predecessor, or partly recorded by his predecessor and partly recorded by himself, or he may re-summon the witnesses and re-commence the inquiry or trial :

Provided that the accused person may, when the second Magistrate commences his proceedings, demand that the witnesses be re-summoned and reheard, in which case the inquiry or trial shall be re-commenced :

Provided also that the High Court may set aside any conviction passed on evidence not wholly recorded by the Magistrate before whom the conviction was had, if such Court is of opinion that the accused person has been materially prejudiced thereby ; and may order a new inquiry or trial.

157. Whenever in the course of a trial or inquiry under this Act it appears that the attendance of a witness cannot be procured without an amount of delay, expense or inconvenience which, under the circumstances of the case, would be unreasonable, the Presidency Magistrate may dispense with such attendance.

When attendance of witness may be dispensed with.

of a witness cannot be procured without an amount of delay, expense or inconvenience which, under the circumstances of the case, would be unreasonable, the Presidency Magistrate may dispense with such attendance.

158. Such Magistrate may direct a commission to any Magistrate of the District, or Magistrate of the first class, within the local limits of whose jurisdiction such witness may be.

The Magistrate to whom the commission is directed, or, if he be the Magistrate of the District, such Magistrate of the first class as he appoints in this behalf, shall proceed to the place where such witness is, or shall summon such witness before himself, and shall take his evidence in the same manner, and may for this purpose exercise the same powers, as in trials of warrant-cases under the Code of Criminal Procedure.

If the witness is within the local limits of the jurisdiction of any Presidency Magistrate, other than the Magistrate dispensing with his attendance, the latter Magistrate may direct a commission to the former Magistrate, who thereupon shall have the like power to compel the attendance of, and to examine, such witness as he possesses for that purpose in cases pending before himself.

The complainant and the accused person may respectively forward interrogatories, in writing, upon which the Magistrate to whom the commission is directed shall examine the witness,

or the complainant and the accused person (if on bail) may appear before such Magistrate,

or the complainant and the accused person may so appear respectively by advocate, attorney or pleader,

and may examine, cross-examine and re-examine (as the case may be) the said witness.

After any commission issued under this section has been duly executed, it shall be returned, together with the deposition of the witness examined thereunder, to the Magistrate by whom it was issued ; and the commission, the return thereto, and the deposition of such witness, may be used as evidence in the case and shall form part of the record.

F.—Of Search-Warrants.

159. When a Presidency Magistrate considers that the production of any thing is essential to the conduct of an inquiry into an offence known or suspected to have been committed or to the discovery of the offender,

or when he considers that such inquiry or discovery will be furthered by a general search or inspection,

he may grant his search-warrant ; and the officer charged with the execution of such warrant may search or inspect any place within the local limits of the jurisdiction of such Magistrate.

The Magistrate may, if he thinks fit, specify in the warrant the particular place, building or part thereof to which only the search or inspection shall extend ; and the officer charged with the execution of such warrant shall then search or inspect only the place, building or part so specified.

Nothing in this section or in section 145 shall authorize a Magistrate to grant a warrant to search for a letter or telegram in the custody of the Postal Department or of a telegraph officer.

160. If a Presidency Magistrate, upon information and after such inquiry as he thinks necessary, has reason to believe that any place is used for the deposit or sale of stolen property, or

of property which has been fraudulently obtained, or for the deposit or sale or manufacture of forged documents, or counterfeit Government stamps, or counterfeit coin, or instruments or materials for counterfeiting coin, or for forging,

or that any forged documents, or counterfeit stamps, or false seals, or counterfeit coin, or instruments or materials used for counterfeiting coin, or for forging, are kept or deposited in any place,

he may by his warrant authorize any Police-officer above the rank of a constable—

(a) to enter, with such assistance as may be required, and by force if necessary, such place, and

(b) to search the same as specified in the warrant, and

(c) to take possession of any property, documents, stamps, seals or coins therein found, which he reasonably suspects to be stolen, unlawfully obtained, forged, false or counterfeit, and also any such instruments and materials as aforesaid, and

(d) to convey such property, documents, stamps, seals, coins, instruments or materials before a Presidency Magistrate, or to guard the same on the spot until the offender is taken before a Presidency Magistrate, or otherwise to dispose thereof in some place of safety, and

(e) to take into custody and carry before the said Magistrate every person found in such place, who appears to have been privy to the deposit, sale or manufacture or keeping of any such property, documents, stamps, seals, coins, instruments or materials knowing or having reasonable cause to suspect the said property to have been stolen or otherwise unlawfully obtained, or the said documents, stamps, seals, coins, instruments or materials to have been forged, falsified or counterfeited, or the said instruments or materials to have been or to be intended to be used for counterfeiting coin or for forging.

161. The provisions of sections 59, 60 and 61 shall apply to all search-warrants issued under this chapter.

162. Whenever any place liable to search or inspection under this chapter is closed, any person residing in, or being in charge of, such place shall, on demand of the officer or other person executing the warrant, allow such officer or other person free ingress thereto, and afford all reasonable facilities for a search therein.

163. A Police-officer or other person, authorized by a warrant to search any place, may break open any outer or inner door or window of such place, in order to execute the warrant, if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

164. If the place ordered to be searched is an apartment in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the officer or other person charged with the execution of the warrant shall, unless a warrant of arrest has been issued against her, give her notice that she is at liberty to withdraw.

After giving such notice and allowing a reasonable time for such woman to withdraw, and affording her every reasonable facility for withdrawing, such officer or person may enter such apartment for the purpose of making the search, using at the same time every precaution consistent with this section for preventing the clandestine removal of the thing mentioned in the warrant.

165. Before making a search under this chapter the officer or other person about to make it shall call upon two or more respectable inhabitants of the locality in which the place to be searched is situate to attend and witness the search.

The search shall be made in their presence, but they shall not be required to attend the Court of the Magistrate as witnesses, unless especially summoned by him.

The occupant of the place searched, or some person in his behalf, shall, in every instance, be permitted to attend during the search.

166. Whenever it is necessary to cause a woman to be searched, the search shall be made with strict regard to the customs of the country.

CHAPTER XII.—OF APPEALS.

167. Any person convicted on a trial held by a Presidency Magistrate, may appeal to the High Court if the Magistrate has sentenced him to imprisonment for a term exceeding six months, or to fine exceeding two hundred rupees:

Provided that, where an accused person has been convicted on his own plea, no such appeal shall lie except as to the extent or legality of the sentence.

Sentences passed under section 13 on the same occasion shall, for the purposes of this section, be considered as one sentence.

For the purposes of the Indian Limitation Act, 1871, all appeals under this section and all applications to the High Court for the exercise of the

powers given by Act No. X of 1875, section 147, shall be deemed to be appeals under the Code of Criminal Procedure.

168. The Local Government may direct the Public Prosecutor or other officer specially or generally appointed in this behalf to present an appeal to the High Court from a Presidency Magistrate's order of acquittal or of dismissal, or of discharge; but in no other case shall there be an appeal by the prosecution from any order under this Act.

No appeal shall be presented under this section after two months from the date of the order complained of.

When an appeal is presented under this section, the High Court may order the accused person to be arrested and brought before it, and may commit him to prison pending the disposal of the appeal, or (if the offence of which he is accused be bailable) admit him to bail.

The High Court may, in any case so appealed, direct a new trial by any Presidency Magistrate, or may pass such order as may be warranted by law.

169. Every petition of appeal under this Act shall be accompanied by a copy of the order appealed against.

170. If any person affected by an order passed under this Act desires to have a copy of such order or of any deposition or other part of the record, he shall, on applying for such copy, be furnished therewith; provided that he pay for the same, unless the Magistrate, for some special reason, thinks fit to furnish it free of cost.

171. If the appellant be in jail, he shall be at liberty to present his petition of appeal, and the copy of the order appealed against, to the officer in charge of the jail, who shall thereupon forward such petition and copy to the High Court.

172. On receiving the petition of appeal and the copy of the order appealed against, the High Court shall peruse the same, and may fix a reasonable time for hearing the appellant or his advocate or pleader, or if he be present may hear him at once.

The High Court may, if it considers that there is no sufficient ground for altering or revising the order appealed against, reject the appeal summarily.

Before rejecting an appeal under this section, the High Court may call for the record of the case, but shall not be bound to do so.

In rejecting under this section an appeal by a person convicted, the High Court shall not enhance the sentence.

173. If the High Court does not reject the appeal summarily, it shall cause notice to be given to the appellant and the Public Prosecutor, Government Solicitor, or other officer

empowered by Government in that behalf, of the day on which such appeal will be heard,

and in case of appeals under section 168, the High Court shall also cause a like notice to be given to the respondent.

All such notices shall be served in manner provided by this Act for serving a summons unless in the case of persons present in Court, to whom they may be given orally.

174. The High Court shall send for the record of the case, and after perusing the same, and hearing the appellant or his advocate or pleader, if he appears, and the Government Solicitor or other officer empowered by Government in this behalf, if he appears, may—

(a) alter or reverse the order of such Court, or
(b) enhance any punishment which has been awarded, but not so as to inflict a greater punishment for the offence which, in the opinion of the High Court, he has committed, than the Presidency Magistrate could have inflicted for such offence, or

(c) order the appellant to be re-tried before any Presidency Magistrate or before the High Court, or

(d) if it considers that there is no sufficient ground for interfering with the sentence or order appealed against, reject the appeal.

175. Pending any appeal under section 167, the High Court may direct that the execution of the order appealed against be suspended, and, if the appellant be in confinement for a bailable offence, may order that he be released on bail.

Where the appellant is ultimately sentenced to imprisonment, the time during which he is so released shall be excluded in calculating the term of his imprisonment.

176. In dealing with any appeal under this chapter, the High Court, if it thinks additional evidence upon any point bearing upon the guilt or innocence of the accused person to be necessary, may either take such evidence itself, or may direct it to be taken by a Presidency Magistrate.

When the additional evidence is taken by the Presidency Magistrate, he shall certify such evidence to the High Court, and the High Court shall thereupon proceed to dispose of the appeal.

Unless the High Court otherwise directs, the accused person or his advocate, attorney or pleader, shall be present when the additional evidence is taken.

The provisions of this Act relating to summoning and enforcing the attendance of witnesses and their examination shall, so far as may be, apply to witnesses examined before a Magistrate under this section.

177. No order passed by a Presidency Magistrate shall be reversed or altered on appeal on account of any error or defect, either in the charge or in the proceedings, or on account of the improper admission or rejection of any evidence, unless such error or defect has occasioned a failure of justice, either

by affecting the due conduct of the prosecution, or by prejudicing the accused person in his defence.

178. No irregularity in the proceedings prior to the commencement of the trial is a sufficient ground for reversing or altering any order passed in a trial properly held.

179. When a Presidency Magistrate has passed an order inflicting punishment on any person for an offence not triable by such Magistrate, the High Court shall cancel the order, and either try the case itself or direct it to be tried by a Court of competent jurisdiction.

180. No appeal shall lie from any order of a Presidency Magistrate, except in the cases provided for by this Act or by any other law for the time being in force.

Illustrations.

- (a.) There is no appeal against an order refusing to grant compensation, in case of a groundless complaint.
(b.) There is no appeal against an order requiring a person to furnish security to keep the peace.
(c.) There is no appeal against an order requiring a person to furnish security to be of good behaviour.
(d.) There is no appeal against an order of maintenance.

181. Whenever an application is made to the High Court for the exercise of the powers conferred by the High Courts' Criminal Procedure Act, 1875, section 147, the applicant shall give to the Public Prosecutor, Government Solicitor, or such other officer as the Local Government appoints in this behalf, notice in writing of the application, together with a copy of the grounds on which it is to be made; and no order shall be made on the merits of the application unless at least twenty-four hours have elapsed between the giving of such notice and the hearing of the application.

182. When the decision of any Presidency Magistrate is called in question in the High Court, the Magistrate may submit with the record of the case a statement setting forth the grounds of his decision and any facts which he thinks material to the issue; and the Court shall consider such statement before overruling or setting aside the said decision.

CHAPTER XIII.—OF EXECUTION.

183. In cases tried by a Presidency Magistrate, the Magistrate passing any order inflicting imprisonment or whipping shall forward the accused person with a warrant for the execution of the sentence to the officer in charge of the jail of the Presidency town in which the trial was held,

or where there are more such jails than one, to the officer in charge of such of them as the Local Government from time to time directs in this behalf.

The warrant shall state the offence of which the accused person has been convicted, the nature of the punishment to which he has been sentenced, and if he has been sentenced to imprisonment, the term for which he is to be imprisoned.

184. Every such warrant shall be in writing under the hand of the Magistrate who issues it, and shall be directed to the officer in charge of the jail aforesaid, and shall be in the form (G) given in the third schedule to this Act or to the like effect.

Form and direction of warrant of commitment.

185. Whenever a Presidency Magistrate imposes a fine under this or any other Act for the time being in force, he may issue a warrant for the levy of the amount of the fine by distress and sale of any moveable property belonging to the offender, although the sentence directs that, in default of payment of the fine, the offender shall be imprisoned.

Levy of fine.

Such warrant may be executed within the local limits of such Magistrate's jurisdiction, and it shall authorize the distress and sale of any such property without such limits when endorsed by the Magistrate of the District in which it is found.

This section shall not apply to cases in which any special procedure is laid down, by any special or local law in force for the time being, for the recovery of any fine, but shall apply to cases in which no such procedure is laid down, and to all fines not levied when this Act comes into force, but which might have been levied under this section if it had been in force when they were imposed.

Section to what cases applicable.

When a warrant is issued under this section, the Presidency Magistrate may order the offender to be imprisoned until return can be conveniently made to such warrant, unless the offender enter into a recognizance, with or without sureties, as the Magistrate thinks fit, conditioned for his appearance before the Magistrate on the day appointed for such return, such day not being more than eight days from the time of taking the recognizance. But if, before issuing such warrant of distress, it appears to the Magistrate, by the admission of the offender or otherwise, that no sufficient distress can be had within the local limits of his jurisdiction whereon to levy such fine or penalty, he may, if he think fit, refrain from issuing such warrant.

Detention of offender until return made to distress-warrant.

No distress made under this Act shall be deemed unlawful, nor shall any person making the same be deemed a trespasser, on account of any defect or want of form in the summons, conviction, warrant of distress or other proceeding relating thereto.

Distress not illegal, nor distrainer a trespasser, for defect of form in proceedings.

The said warrant may be issued either by the Magistrate who imposes the fine, or by his successor in office.

Who may issue distress-warrant.

186. Whenever a Presidency Magistrate imposes a fine under any law in force for the time being, he may order the whole or any part of the fine to be paid in compensation—

Payment of fine in compensation.

(a) for expenses properly incurred in the prosecution,

(b) for the injury complained of, where such injury can, in the opinion of such Magistrate, be compensated by money.

Such payment shall be made, as the Magistrate thinks fit, to or for the benefit of the complainant, or the person injured, or both.

If the fine be imposed in a case which is subject to appeal, no such payment shall be made until the period allowed for presenting the appeal has elapsed, or, if an appeal be presented, until after the decision of the appeal.

At the time of awarding damages in any subsequent civil suit relating to the same matter, the Court shall take into consideration any sum which may have been paid under this section.

187. When the punishment of whipping is imposed, in addition to imprisonment, in a case which is subject to appeal, the whipping shall not be inflicted until fifteen days from the date of such sentence, or, if an appeal be made within that time, until the sentence is confirmed by the High Court: but the whipping shall be inflicted immediately on the expiry of the fifteen days, or, in case of an appeal, immediately on the receipt of the order of the High Court confirming the sentence.

Whipping, if imposed in addition to imprisonment in appealable case, when to be inflicted.

188. In the case of a person of or over sixteen years of age, the punishment of whipping shall be inflicted with such instrument, in such mode, and on such part of the person, as the Local Government directs; and, in the case of a person under sixteen years of age, it shall be inflicted in the way of school-discipline with a light ratan.

Mode of inflicting punishment of whipping.

In no case, if the cat-of-nine-tails be the instrument employed, shall the punishment of whipping exceed one hundred and fifty lashes, or, if the ratan be employed, shall such punishment exceed thirty stripes.

The punishment of whipping shall be inflicted in the presence of the officer in charge of the jail: provided that, in the case of a person under sixteen years of age, the Magistrate may order it to be inflicted in his own presence.

189. The punishment of whipping shall not be inflicted unless a medical officer, if present, certifies, or, if there is not a medical officer present, unless it appears to the officer or Magistrate present, that the offender is in a fit state of health to undergo such punishment.

If, during the execution of a sentence of whipping, a medical officer certifies, or it appears to the officer or Magistrate present, that the offender is not in a fit state of health to undergo the remainder of the sentence, the whipping shall be finally stopped.

Stay of execution.

Not to be executed by instalments.

190. No sentence of whipping shall be executed by instalments.

191. In any case in which, under section 189, a sentence of whipping is, wholly or partially, prevented from being executed, the offender shall be kept in custody till the Magistrate who passed the sentence can revise it; and the said Magistrate may, at his discretion, either remit such sentence, or sentence the offender, in lieu of whipping, or in lieu of so much of the sentence of whipping as was not executed, to

Procedure if punishment be prevented under section 189.

imprisonment for any period, which may be in addition to any other punishment to which he may have been sentenced for the same offence:

Provided that the whole period of imprisonment to which such offender is sentenced shall not exceed that to which he is liable by law, or that which the Magistrate is competent to inflict.

192. When sentence is passed under this Act on an escaped convict, such sentence, if of fine or whipping, shall take effect immediately, and, if of imprisonment, shall take effect after he has undergone the portion of his former sentence which remained unexpired at the time of his escape.

193. When a person already under sentence of imprisonment or transportation is sentenced under this Act to imprisonment, such imprisonment shall commence at the expiration of the imprisonment or transportation to which such person has been previously sentenced.

PART III.

CHAPTER XIV.—OF LUNATICS.

194. When any person accused before a Presidency Magistrate of an offence appears to such Magistrate to be of unsound mind and incapable of making his defence, the Magistrate shall enquire into the fact of such unsoundness, and shall cause the accused person to be examined by such medical officer as the Local Government directs, and thereupon shall examine such officer as a witness, and shall reduce the examination into writing.

If such Magistrate is of opinion that the accused person is of unsound mind, he shall stay further proceedings in the case.

195. When, from the evidence given before a Presidency Magistrate, there appears to be sufficient ground for believing that an accused person committed an act which, if he had been of sound mind, would have been an offence, and that he was at the time when the act was committed, by reason of unsoundness of mind, incapable of knowing the nature of such act or that he was doing what was contrary to law, the Presidency Magistrate shall, if such accused person appears to be of sound mind at the time of the inquiry or trial, proceed with the case.

196. Whenever an accused person is found to be of unsound mind and incapable of making his defence, the Presidency Magistrate, if the offence of which such person is accused be bailable, may release him on sufficient bail being given that he shall be properly taken care of, and shall be prevented from doing injury to himself or to any other person, and for his appearance when required before the Magistrate or such officer as the Magistrate appoints in this behalf.

If the offence be non-bailable, or if sufficient bail be not given, the Magistrate shall report the case for the order of the Local Government, and the accused person shall be kept in safe custody in such place as the Local Government directs.

197. Whenever proceedings are stayed under section 194, the Presidency Magistrate may at any time resume the inquiry or trial, and require the accused person to appear or to be brought before him.

When the accused person has been released under section 196, and the sureties for his appearance produce him to the officer whom the Magistrate appoints in this behalf, the certificate of such officer that the accused person is capable of making his defence shall be receivable as evidence.

198. If, when the accused person appears or is again brought before the Magistrate, such Magistrate considers him capable of making his defence, the inquiry or trial shall proceed.

If the Magistrate considers the accused person to be still incapable of making his defence, the Magistrate shall again act according to section 194.

199. Whenever any person is acquitted by a Presidency Magistrate upon the ground that, at the time at which such person is alleged to have committed an offence, he was, by reason of unsoundness of mind, incapable of knowing the nature of the act alleged as constituting the offence complained of, or that he was doing what was contrary to law, the order of acquittal shall state specially whether he committed the act or not.

200. Whenever such order states that the accused person committed the act alleged, the Presidency Magistrate before whom the trial was held shall, if such act would, but for the incapacity found, have constituted an offence, order such person to be kept in safe custody, in such place and manner as the Magistrate thinks fit, and shall report the case for the order of the Local Government.

The Local Government may order such person to be kept in safe custody in a lunatic asylum or other suitable place of safe custody.

201. When any person is confined under the provisions of section 196 or 200, the Inspector General of Prisons, if such person is confined in a jail, or the visitors of the lunatic asylums, or any two of them, if he is confined in a lunatic asylum, may visit him in order to ascertain his state of mind; and he shall be visited once at least in every six months by such Inspector General or by two of such visitors as aforesaid; and such Inspector General or visitors shall make a special report to the Local Government as to the state of mind of such person.

202. If such person is confined under section 196, and such Inspector General or visitors as aforesaid shall certify that, in his or their opinion, such person is capable of making his defence, he shall be taken before the Presidency Magistrate at such time as such Magistrate appoints, and such Magistrate shall deal with such person under the provisions of section 198; and the certificate of such Inspector General or visitors as aforesaid shall be receivable as evidence.

203. If such person is confined under the provisions of section 200, and such Inspector General or visitors as aforesaid certify that, in his or their judgment, he may be discharged without danger of his doing injury to himself or to any other person, the Local Government may thereupon either order him to be discharged, or to be detained in custody, or to be transferred to a public lunatic asylum, if he has not been already sent to such an asylum; and may appoint a commission, consisting of a judicial officer and two medical officers, whereof the chief medical officer attached to the lunatic asylum shall be one.

Procedure where lunatic confined under section 200 is declared capable of being discharged.

The said commission shall make formal inquiry into the state of mind of such person, taking such evidence as is necessary, and shall report to the Local Government, who may order his discharge or detention as it thinks fit.

204. Whenever any relative or friend of any person detained under the provisions of section 200 is desirous that he shall be delivered over to his care and custody, the Local Government, upon the application of such relative or friend, and on his giving security to the satisfaction of such Government that the person so detained shall be properly taken care of and shall be prevented from doing injury to himself or another, may order such person to be delivered to such relative or friend.

Delivery of lunatic to care of relative.

Whensoever such person is so delivered over, it shall be upon condition that he shall be produced for the inspection of such officer as the Local Government appoints, and at such times as such Government directs.

The provisions of sections 201 and 203 shall, *mutatis mutandis*, apply to persons detained under the provisions of this section; and the certificate of the inspecting officer appointed under this section shall be dealt with as a certificate of the Inspector General of Prisons, or the visitors of lunatic asylums, under the said sections.

CHAPTER XV.—OF CONTEMPTS OF COURT.

205. When any such offence as is described in sections 175, 178, 179, 180 or 228 of the Indian Penal Code is committed in the view or presence of a Presidency Magistrate, he may cause the offender to be detained in custody; and, at any time before the Magistrate leaves his Court on the same day, he may take cognizance of the offence, and sentence the offender to punishment by fine not exceeding two hundred rupees, and; in default of payment, by imprisonment in the civil jail for a period not exceeding one month, unless such fine be sooner paid.

In every such case, the Magistrate shall record the acts constituting the offence, with the statement (if any) made by the offender as well as the finding and sentence.

If the offence is under section 228 of the Indian Penal Code, the record must show the nature and stage of the judicial proceeding in which the Magistrate interrupted or insulted was sitting, and the nature of the insult or interruption.

206. If the Presidency Magistrate considers that a person accused of any of the offences referred to in section 205 should be imprisoned otherwise than in default of payment of fine, or that a

Procedure where Court considers that accused should be imprisoned, or fined more than 200 rupees.

fine exceeding two hundred rupees should be imposed upon him, such Magistrate, after recording the facts constituting the offence and the statement of the accused person shall forward the case to another Presidency Magistrate, and shall require bail to be given for the appearance of such accused person before such other Magistrate, or, if sufficient bail be not given, shall forward such person under custody to such Magistrate.

Such other Magistrate shall proceed to try the accused person in the manner provided by this Act for trials before a Presidency Magistrate; and may sentence the offender to punishment, as provided in the section under which he is charged.

207. When any Presidency Magistrate has sentenced an offender to punishment, or forwarded him to another Magistrate for trial, for refusing or omitting to do anything which he was lawfully required to do, or for any intentional insult or interruption, the former Magistrate may discharge the offender, or remit the punishment, on his submission to the order or requisition of such Magistrate, or on apology being made to his satisfaction.

CHAPTER XVI.—OF SECURITY FOR KEEPING THE PEACE AND FOR GOOD BEHAVIOUR.

A.—Security for keeping the Peace.

208. Whenever a person accused of rioting, assault, or other breach of the peace, or with abetting the same, or with assembling armed men or taking other unlawful measures with the evident intention of committing the same, is convicted of such offence before a Presidency Magistrate,

and such Magistrate is of opinion that it is necessary to require such person to execute a personal recognizance for keeping the peace,

he may, in addition to any other order passed in the case, order the person so convicted to execute a personal recognizance for keeping the peace during such period as the Magistrate thinks fit to fix, not exceeding one year.

209. Whenever a Presidency Magistrate is of opinion that it is necessary to require sureties for keeping the peace,

he may, in addition to the personal recognizance of the person so convicted, such Magistrate may require him to give such sureties, and may fix the penalties which the sureties shall be respectively bound to discharge, and may direct that, if such bail be not given, he shall be imprisoned for such term not exceeding one year as the Magistrate thinks fit.

210. If the person so convicted be sentenced to imprisonment, the period so fixed, and the term of imprisonment in default of executing the recognizance, shall commence on the expiration of his sentence.

Where the order to execute such recognizance is not made at the time of signing, or by the Magistrate who signs the judgment, the person so convicted must be produced before the Magistrate making such order.

211. Whenever it appears to a Presidency Magistrate that it is necessary for the preservation of the peace that the term for

Extension of time for which person is bound.

which any person is so bound should be extended, he may, before the expiration of the first year, record his opinion to that effect and the grounds thereof, and may refer the case for the orders of the High Court.

Such Court, after examining the proceedings of the Magistrate, and making such further inquiry as it thinks necessary, may, if it see cause, authorize him to extend such term for a further period not exceeding one year from the expiration of the first year.

EXPLANATION.—When the subject of dispute, or ground for apprehension, is the same as that on which the first order was passed, the Magistrate must proceed under this section if the first bond is still in force, and not under section 215.

B.—Security for Good Behaviour.

212. Whenever it is proved before a Presidency Magistrate that any person is lurking within the local limits of his jurisdiction, or that there is within such limits a person who has no ostensible means of subsistence, or who cannot give a satisfactory account of himself, the Magistrate may require such person to enter into such recognizance, with sureties, for his good behaviour for a period not exceeding six months, as the Magistrate thinks sufficient.

When Magistrate may require security for good behaviour for six months.

When Magistrate may require security for good behaviour for one year.

213. Whenever it is proved before a Presidency Magistrate that any person is by repute

a robber, house-breaker or thief, or a receiver of stolen property, knowing the same to have been stolen, or of notoriously bad livelihood, or of a dangerous character, such Magistrate may require similar security for the good behaviour of such person for a period not exceeding one year.

Procedure where security required for more than one year.

214. Whenever it is proved before a Presidency Magistrate that any person is an habitual robber, house-breaker or thief, or an habitual receiver of stolen property, knowing the same to have been stolen, or of a dangerous character, and that his release without security, at the expiration of the limited period of one year, would be hazardous to the community, the Magistrate shall record his opinion to that effect, and make an order requiring similar security for the good behaviour of such person for a period not exceeding three years.

If such person does not comply with the order, the Magistrate shall issue a warrant directing his detention pending the orders of the High Court.

C.—Provisions as to both Kinds of Security.

215. Whenever a Presidency Magistrate receives information that any person is likely to commit a breach of the peace, or to do any act that may probably occasion a breach of the peace, or that he is one of the persons referred to in sections 212, 213 and 214, he may summon such person to attend at a time and place mentioned in the summons, to show cause why he should not be required to execute a recognizance to keep the peace or for good behaviour, as the case may be.

Summons to person to show cause why he should not give bond to keep peace or for good behaviour.

EXPLANATION I.—A summons calling on a person to show cause why he should not execute such recognizance, may be issued on any report or other information which the Magistrate believes; but the Magistrate shall not require any person to execute such recognizance until the Magistrate has adjudicated on evidence before him.

EXPLANATION II.—A Magistrate may, if he thinks fit, recall any summons issued under this section.

216. Such summons shall set forth the substance of the report or information on which it is issued, the penalty to be specified in the recognizance, and the term for which it is to be in force, and, if bail are to be taken, their number, the penalties which they shall be respectively bound to discharge, and the time and place at which the person summoned is required to attend.

When the person believed to be likely to commit a breach of the peace or to be one of the persons referred to in sections 212, 213 and 214, is present in Court, no summons is necessary, but the Magistrate may at once require him to show cause why he should not be required to execute the recognizance.

217. If the person summoned does not attend on the day appointed at the hour and place named in the summons, the Presidency Magistrate, if satisfied that the summons has been duly served, may issue a warrant for his arrest:

When warrant of arrest may issue.

Provided that, whenever it appears to such Magistrate, upon the report of a Police-officer or upon other credible information (the substance of which report or information shall be recorded by the Magistrate on the warrant), that there is reason to fear the commission of a breach of the peace, which may probably be prevented by the immediate arrest of any person, or that there is reason to think that any person is one of the persons so referred to, the Magistrate may at any time issue a warrant for his arrest.

218. The Magistrate may, if he sees sufficient cause, dispense with the personal attendance of the person informed against under section 215, and may permit him to appear and execute the required recognizance, or show cause against such requisition, by an advocate, attorney or pleader.

Magistrate may dispense with personal attendance of person informed against.

219. If on the appearance of the person so informed against or, if his attendance is dispensed with, of his advocate, attorney or pleader, the Magistrate is not satisfied that there is occasion to bind over such person to keep the peace, or to be of good behaviour, the Magistrate shall direct his discharge.

Discharge of person informed against.

220. If the Magistrate is satisfied that it is necessary for the preservation of the peace or the maintenance of good behaviour that such person shall execute a recognizance, the Magistrate shall make an order accordingly.

The penalty specified in every recognizance executed under this chapter shall be fixed with due regard to the circumstances of the case and the means of the person bound.

The penalty which the sureties shall be jointly and severally bound to discharge shall not exceed the penalty which the principal debtor is bound to discharge.

221. If a person required to furnish security under section 214 does not furnish the same, or offers sureties whom the Magistrate rejects, the proceedings shall be laid, as soon as conveniently may be, before the High Court.

Proceedings to be laid before High Court.

Such Court, after examining such proceedings and requiring any further information or evidence which it thinks necessary, may pass such orders on the case as it thinks fit, provided that the period (if any) for which it may direct the security to be taken shall not exceed three years.

222. Whenever security is required under this chapter, the amount of the security, the number and description of sureties, and the period of time for which the recognizance is to remain in force, shall be stated in the order, and the recognizance shall be in the form (H) or (I), as the case may be, given in the third schedule hereto annexed or to the like effect.

Contents of order for security.

period of time for which the recognizance is to remain in force, shall be stated in the order, and the recognizance shall be in the form (H) or (I), as the case may be, given in the third schedule hereto annexed or to the like effect.

Form of recognizance. as the case may be, given in the third schedule hereto annexed or to the like effect.

223. In the event of any person required to give security under the provisions of this chapter failing to furnish the security so required, he shall be committed to prison until he furnish the same:

Imprisonment in default of security.

Provided that no such person shall be kept in prison for a longer period than that for which the security has been required from him.

Term of imprisonment.

Imprisonment under this section may be rigorous or simple, as the High Court or Magistrate in each case directs.

224. If any person required under this chapter to enter into a recognizance is under sentence of imprisonment, he shall, on or after the expiration of his sentence, be brought up before the Magistrate for the purpose of entering into such recognizance.

Binding of sentenced person.

225. A Presidency Magistrate may at any time release any person imprisoned for failing to furnish security for good behaviour, whether by his own order or that of his predecessor in office, provided that the Magistrate is of opinion that such person may be released without hazard to the community.

Release of prisoners under requisition of security.

Whenever a Presidency Magistrate is of opinion that any person imprisoned for failing to furnish security for good behaviour, as ordered by the High Court, may be safely released without such security, such Magistrate shall make an immediate report of the case for the orders of the High Court.

Release of prisoner under requisition of security by order of High Court.

226. A surety for the peaceable conduct or good behaviour of another person may at any time apply to a Presidency Magistrate to discharge his recognizance.

Discharge of sureties.

On such application being made, the Magistrate shall issue his summons or warrant requiring the person for whom such surety is bound to appear or be brought before him.

When such person appears or is brought before the Magistrate, such Magistrate shall discharge the recognizance of the surety, and shall order such person to give a fresh surety.

227. The commission, or attempt to commit, or Commission, &c., of the abetment of, any offence, a breach. whatever, and wherever it may be committed, is a breach of the recognizance.

228. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter has been forfeited, he shall record the grounds of such proof, and call upon the person bound by such recognizance to pay the penalty thereof, or to show cause why it should not be paid.

Recovery of penalty from principal.

If sufficient cause be not shown and the penalty be not paid, the Magistrate shall proceed to recover the same by issuing a warrant for the attachment and sale of any moveable property be-

Such warrant may be executed within the local limits of the jurisdiction of the Magistrate who issued it; and it shall authorize the distress and sale of any moveable property belonging to the person so bound without such limits, when endorsed by the Magistrate of the District in which such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, the person so bound shall be liable to imprisonment by order of the Presidency Magistrate in the civil jail for a period not exceeding six months.

The penalty shall not be enforced until the person so bound has had an opportunity of showing cause against the enforcement, and until the breach of the condition of the recognizance has been proved.

229. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter by a surety has been forfeited, the Magistrate may give notice to the surety to pay the penalty to which he has thereby become liable, or to show cause why it should not be paid.

Recovery of penalty from surety.

If no sufficient cause is shown, and such penalty is not paid, the Magistrate may proceed to recover the penalty from such surety in manner provided by the last preceding section.

And in case such penalty cannot be so recovered, the Magistrate may sentence the surety to imprisonment in the civil jail for a period not exceeding six months.

230. Any previous conviction of the person to be bound may, in proceedings under this chapter, be proved in the manner prescribed in section 154.

Proof of previous conviction.

231. Proceedings under this chapter may be taken in any district in which the breach of the peace is apprehended, or in which an offence has been committed in breach of the bond, or in which the person whom it is desired to bind may be.

Where proceedings under this chapter may be taken.

232. The provisions of this chapter relating to security for good behaviour do not apply to European British subjects in cases where they may be dealt with under the European Vagrancy Act, 1874.

Provisions of chapter not applying to European vagrants.

CHAPTER XVII.—OF RESTORING POSSESSION OF IMMOVEABLE PROPERTY.

233. Whenever any person is convicted by a Presidency Magistrate of an offence attended with criminal force, and it appears to such Magistrate that, by such criminal force, any person has been dispossessed of any immoveable property, the Magistrate may order such person to be restored to possession.

No such order shall prejudice any right over such immoveable property which any person may be able to show in a civil suit.

CHAPTER XVIII.—OF THE MAINTENANCE OF WIVES AND FAMILIES.

234. If any person, having sufficient means, neglects or refuses to maintain his wife, or his legitimate or illegitimate child unable to maintain itself, a Presidency Magistrate may, upon due proof thereof by evidence, order such person to make a monthly allowance for the maintenance of his said wife, or child, or both, at such monthly rate not exceeding fifty rupees in the whole, as such Magistrate thinks fit, and to pay the same to such person as the Magistrate from time to time directs.

Order for maintenance of wives and children.

Such allowance shall be payable from the date of the order.

If any person so ordered wilfully neglects to comply with the order, a Presidency Magistrate may, for every breach of the order, issue a warrant for levying the amount due in manner hereinbefore provided for levying fines; and may sentence such person, for each month's allowance remaining unpaid, to imprisonment for any term not exceeding one month:

Provided that, if such person offers to maintain his wife on condition of her living with him, and his wife refuses to live with him, such Magistrate may consider any grounds of refusal stated by such wife; and may make the order allowed by this section notwithstanding such offer, if he is satisfied that such person is living in adultery, or that he has habitually treated his wife with cruelty.

No wife shall be entitled to receive an allowance from her husband under this section, if she is living in adultery, or if, without any sufficient reason, she refuses to live with her husband, or if they are living separately by mutual consent.

235. On the application of any person receiving, or ordered to pay, a monthly allowance under the provisions of section 234, and on proof of a change in the circumstances of such person, his wife or child, the Magistrate may make such alteration in the allowance ordered as he thinks fit, provided the monthly rate of fifty rupees be not exceeded.

236. A copy of the order of maintenance shall be given without fee to the person in whose favour it is made, or to his guardian (if any); and such order shall be enforceable by any Magistrate in any place where the person against whom it is made may be, on such Magistrate being satisfied as to the identity of the parties and the non-payment of the allowance due.

PART IV.

CHAPTER XIX.—MISCELLANEOUS.

237. The procedure prescribed by this Act shall be followed, so far as it can be, in all miscellaneous criminal cases and proceedings which are instituted in any Presidency Magistrate's Court.

238. All offences against the provisions of any law for the time being in force relating to Railways, Telegraphs, the Post Office, and Arms and Ammunition may be enquired into by a Presidency Magistrate, and may be tried according to the provisions of this Act.

239. The powers conferred on a Presidency Magistrate by section 238 may be exercised whether the offence is stated to have been committed within the local limits of his jurisdiction or not; but such powers shall only be exercised if the witnesses necessary for the prosecution of the offender are to be found within such limits.

240. A Presidency Magistrate may, if he thinks fit, refer for the opinion of the High Court any question of law which may arise in the hearing of any case in which he has jurisdiction; or may give judgment in any such matter, subject to the decision of the High Court on such reference; and, pending such decision by the High Court, may either commit the accused person to jail or release him on bail to appear for judgment

241. When a question has been so referred, the High Court shall pass such order thereon as it thinks fit, and shall cause a copy of such order to be sent to the Magistrate by whom the reference was made, who shall proceed to dispose of the case conformably to the said order.

The High Court may direct by whom the costs of the reference shall be paid.

242. Whenever any person causes a Police-officer to arrest another person, and whenever a complaint of any offence is made before any Presidency Magistrate, if it appears to the Magistrate by whom the case is heard that there was no sufficient ground for causing such arrest or for making such complaint, the Magistrate may award such compensation, not exceeding fifty rupees, to be paid by the person so causing the arrest or making the complaint, to the person so arrested or complained against, for his loss of time and expenses in the matter, as the Magistrate thinks fit.

In such cases, if more persons than one are arrested or complained against, the Magistrate may, in like manner, award to each of them such compensation, not exceeding fifty rupees, as such Magistrate thinks fit.

All compensation awarded under this section may be recovered as if it were a fine.

243. When the inquiry or trial before any Presidency Magistrate is concluded, he may make such order as he thinks fit for the disposal of any moveable property produced before him regarding which any offence appears to have been committed.

EXPLANATION.—In this section the term 'property' includes not only such property as has been originally in the possession or under the control of any party, but also any property into or for which the same may have been converted or exchanged, and anything acquired by such conversion or exchange, whether immediately or otherwise.

244. If any property alleged to be stolen or fraudulently obtained, is in the custody of any Police-officer by virtue of any warrant of a Presidency Magistrate, or in prosecution of any complaint of an offence in regard to the obtaining thereof, and the person accused of such offence is not found, or has been summarily dealt with and discharged, or has been tried and acquitted,

or if such person has been tried and found guilty, but the property so in custody has not been included in the charge upon which he has been found guilty, or if any property has been seized by a Police-officer under section 160,

any Presidency Magistrate may make an order for the delivery of such property to the person appearing to be the rightful owner thereof; or, in case the owner cannot be ascertained, may make such order with respect to the property as the Magistrate thinks fit:

Provided that no such order shall bar the right of any person to sue the person to whom the property is delivered, and to recover such property from him, so that the suit be instituted within six months next after such order has been made.

245. Subject to any rules that may be made by the Local Government, with the previous sanction of the Governor General

payment, on the part of Government, of the reasonable expenses of any complainant or witness attending for the purpose of any trial under this Act.

246. Every person aware of the commission within the local limits of the jurisdiction of a Presidency Magistrate of any offence made punishable under sections 121, 121A, 122, 123, 124, 124A, 125, 126, 130, 302, 303, 304, 382, 392, 393, 394, 395, 396, 397, 398, 399, 402, 435, 436, 449, 450, 456, 457, 458, 459 or 460 of the Indian Penal Code, shall, in

the absence of reasonable excuse, the burthen of proving which shall lie upon such person, give information of the same to the nearest Police-officer or Presidency Magistrate.

247. Within such local limits every person is bound to assist a Presidency Magistrate or Police-officer demanding his aid in the prevention of a breach of the peace, or in the suppression of a riot or an affray, or in the taking of any other person whom such Magistrate or Police-officer is authorized to arrest.

SCHEDULE II.

TABULAR STATEMENT OF OFFENCES.

(SEE SECTION 4.)

EXPLANATORY NOTES.—1st.—The entries in the second and sixth columns of the schedule, headed respectively "Offence" and "Punishment under the Indian Penal Code," are not intended as definitions of the offences and punishments described in the several corresponding sections of the Indian Penal Code, or even as abstracts of those sections, but merely as references to the subject of the section, the number of which is given in the first column.

2nd.—The term "Whether bailable or not," in column 5, is to be taken in connection with the provisions of sections 70 and 71 of this Act.

3rd.—The High Court may try an offence entered in column 7 as triable by a Magistrate.

4th.—The last part of the schedule, headed "Offences against other Laws," shall not be taken to alter or affect any special provision contained in such laws regarding the procedure to be followed in the case of offences made punishable thereby.

5th.—The direction in column 4 is meant to indicate to Presidency Magistrates the manner in which the discretion vested in them by sections 34 and 35 is commonly to be used.

THE FIRST SCHEDULE.

THE SECOND SCHEDULE.

An Act to regulate the Emigration of Native Labourers from the Presidency of Fort Saint George to the Straits Settlements.

WHEREAS it is expedient to regulate emigration under engagements to labour from the Presidency of Fort Saint George to the Straits Settlements; It is hereby enacted as follows :—

I.—PRELIMINARY.

Short title. I. This Act may be called
"The Straits Settlements
Emigration Act, 1877:"

Local extent. It extends only to the territories under the government of the Governor of Fort Saint George in Council;

Commencement. And it shall come into force on such date as the Governor of Fort St. George in Council, with the previous sanction of the Governor General in Council, may, by notification in the *Fort St. George Gazette*, direct.

Interpretation-clause. 2. In this Act, unless there be something repugnant in the subject or context—

"Emigrate" denotes the departure of any Native of India out of the said territories, under an engagement to labour in the said Settlements:

"Emigrant" means a person who "emigrates" within the meaning of the above definition

"Magistrate" means a Magistrate of a District a Magistrate of a division of a district, or any other person appointed by the Governor of Fort St. George in Council to perform the functions of a Magistrate under this Act:

"Vessel" includes anything made for the conveyance by water of human beings or property.

3. It shall not be lawful to emigrate except from such ports as may from time to time be declared by the Governor of Fort St. George in Council, by a notification in the *Fort Saint George Gazette*, to be ports from which emigration under this Act shall be lawful.

The Local Government may, at any time, by a like notification, revoke any such notification.

II.—EMIGRATION AGENTS.

4. The Government of the Straits Settlements may, from time to time, appoint such persons as the Governor of Fort St. George in Council approves, to act as Emigration Agents at such ports as aforesaid.

Any Emigration Agent so appointed may be suspended or removed by the Government of the Straits Settlements.

III.—PROTECTORS OF EMIGRANTS.

5. The Governor of Fort St. George in Council shall direct such persons as he thinks fit to act as Protectors of Emigrants under this Act at such ports and for such local areas as may be assigned to them respectively, and may,

with the sanction of the Governor General in Council, assign to such persons such establishment as the Governor of Fort St. George in Council thinks fit.

6. Every Protector of Emigrants, in addition to any special duties assigned to him by this Act, shall, so far as is in his power, protect and aid all emigrants with his advice or otherwise, and cause all the provisions of this Act to be duly complied with.

He may also inspect on arrival all vessels bringing return emigrants to the port at which he is Protector, and inquire into the treatment received by such emigrants both during the period of their service in the Straits Settlements and also during the voyage, and shall make a report thereon to the Governor of Fort St. George in Council.

Such Protector shall also aid and advise such return emigrants, so far as he reasonably can, when called upon by them to do so.

IV.—EMIGRATION DEPÔT.

7. Every Emigration Agent shall establish a suitable depôt for emigrants at the port at which he is Agent. Such depôt may be licensed by the local Protector of Emigrants after being inspected and approved of by him.

For every such license the Emigration Agent shall pay to the Protector of Emigrants a fee of fifteen rupees.

8. The Protector of Emigrants may, at any time, examine into the state of the depôt and the manner in which the emigrants are therein lodged, fed, clothed and otherwise provided for and attended to, and shall do so at least once a year.

And he may at any time cancel the license, if he considers that the depôt for which it was granted is unhealthy, or has in any respect become unsuitable for the purpose for which it was established, or if the local Emigration Agent fails to comply with any of the requirements of this Act.

The Emigration Agent and all persons in charge of, or employed in, the depôt, shall give the Protector every facility for making such inspections as he may deem necessary or proper, and shall afford him all such information respecting the depôt and the emigrants as he may require.

9. The Emigration Agent shall provide at the depôt such medical aid and comforts as the Protector may from time to time direct.

V.—RECRUITERS OF LABOURERS.

10. Each Protector of Emigrants shall license so many fit persons as he deems necessary, to be recruiters of labourers for the Straits Settlements; and no person shall engage or attempt to engage any Native of India to emigrate, or shall otherwise act or be employed as a recruiter of labourers, except under a license from a Protector of Emigrants.

11. No such license shall be in force for a longer period than one year; and in case of misconduct on the part of any recruiter, the Protector of Emigrants who granted it may cancel his license before the expiration of the period for which it was granted.

Duration and cancellation of license.

12. Every such license shall specify the local limits within which the person licensed may recruit labourers, and shall be in the form set forth in the first schedule hereto annexed.

Form of license.

For every such license the recruiter shall pay to the Protector a fee of five rupees.

Fee for license.

13. No recruiter shall engage, or attempt to engage, labourers in any district without having first exhibited his license to a Magistrate in such district, and obtained the countersignature of such Magistrate thereupon.

Recruiter to obtain Magistrate's countersignature to license.

No Magistrate shall countersign a recruiter's license unless and until he has satisfied himself, by such enquiry as he thinks fit, that the licensee is not by character or from any other cause unfitted to be a recruiter under this Act.

If any Magistrate who has countersigned a license afterwards finds reason to think that the licensee is by character or other cause unfitted to be a recruiter under this Act, he may require the licensee to produce the license and may cancel his signature; or he may, if he thinks fit, impound the license and send it to the Emigration Agent for cancellation.

Every Magistrate refusing to countersign a recruiter's license or cancelling his signature as aforesaid, shall, without delay, report his refusal or cancellation and the grounds of it to the Protector of Emigrants who has authority to cancel the recruiter's license.

VI.—CONTRACTS WITH EMIGRANTS.

14. No contract made by a recruiter with a Native of India to emigrate shall be enforceable by the recruiter or his principal unless it—

Conditions of validity of emigration contracts.

(a) is expressed in writing;

(b) is executed by the recruiter on behalf of some principal in the Straits Settlements;

(c) states the terms, if any, agreed on as to the redemption of the recruit's engagement for employment, or of the unexpired term of such engagement;

(d) the term of the recruit's employment, the nature of the services to be performed by him, and the rate of wages to be paid in respect of the same are registered in the manner provided in section eighteen.

But nothing contained in this section shall be deemed to prevent such Native from insisting, if he thinks fit, that such contract shall be performed.

15. Every such contract shall—

Contents of such contracts.

(a) contain an engagement for employment to be provided by such principal for a definite term not exceeding three years; and

(b) specify the nature of the services to be performed by such recruit and the rates of wages

(not less than twelve cents a day for an able-bodied male adult) payable in respect of the same.

16. Save as provided by section fourteen, clause (c), every agreement entered into by a Native of India in the territories subject to the Governor of Fort Saint George in Council, to pay money to any person in the Straits Settlements, in consideration of pecuniary or other assistance given to such Native to emigrate, shall be illegal and void.

Certain agreements declared void.

Every contract not containing the particulars required by section fifteen shall be illegal and void.

17. Every recruit who has entered into such a contract as aforesaid shall be brought by the recruiter before the Civil Surgeon of the district or such other medical officer as the Local Government appoints in this behalf or, in default of such appointment, before such medical officer as the Magistrate directs.

Medical examination of intending emigrants.

The medical officer shall thereupon examine the recruit, and shall either reject him or shall certify that he is in a fit state of health and able in point of physical condition to proceed to the Straits Settlements and to work there.

If it is intended that any persons shall accompany the recruit as his dependents, the recruiter shall also bring them before the medical officer for the purpose of obtaining certificates that they are in a fit state of health and able in point of physical condition to perform the journey to the Straits Settlements; and the medical officer shall examine such persons and shall give or refuse certificates according to his opinion as to their fitness and ability.

Dependents.

Certificates shall be in the form set forth in the second schedule hereto annexed; and the recruiter shall pay to the medical officer such fee for each person so examined as the Local Government may from time to time prescribe.

Form of certificates.

18. Every certified recruit and every accompanying dependent shall appear with the recruiter before a Magistrate in the district within which the contract with the recruit was entered into.

Emigrant to appear before Magistrate.

The Magistrate shall thereupon inspect the instrument of contract and the medical certificate of the recruit, and shall, apart from the recruiter, examine the recruit with reference to his contract.

If it appears on such examination that the recruit understands the nature of the contract he has entered into, and that he is willing to fulfil the same, the Magistrate shall register

(a) the name, the father's name and the age of such recruit;

(b) the name of the village or place in which he resides;

(c) the port of embarkation to which it is intended he shall proceed;

(d) the name of his employer;

(e) the term of his employment, the nature of the services to be performed by him and the rate of wages to be paid in respect of the same.

The recruit shall thereupon be deemed an emigrant under this Act.

If the Magistrate thinks that the recruit does

Registration when to be refused.

not understand the nature of the contract into which he has entered, or has been induced to enter into it by fraud or misrepresentation, or finds that the contract is not in accordance with section fifteen, he shall refuse to register the particulars specified as aforesaid, and record his reasons for such refusal.

• 19. On the appearance of any person claiming

Examination of dependents.

to be dependent on an emigrant, the Magistrate, after inspecting the medical certificate, shall, apart from the recruiter, examine

such person if able to give intelligent answers to questions as to his dependence upon the emigrant whom he is about to accompany, and as to his willingness to accompany such emigrant.

If the Magistrate is satisfied that such dependence and willingness exist, he shall register the dependent as a dependent on such emigrant.

But if the Magistrate sees reason to doubt the existence of such dependence or willingness, he may refuse to register the alleged dependent, and, if so, shall record his reasons for such refusal.

20. The Magistrate shall furnish to every emi-

try book by a Magistrate, shall be forthwith forwarded by such Magistrate to the Emigration Agent and to the Protector of Emigrants.

22. The registration required by sections 18 and

Registration.

19 shall, in the case of emigrants recruited in any local area for which a Protector of Emigrants has been appointed, be effected before him instead of a Magistrate; and such Protector shall furnish to the emigrant one copy of the matters so registered, and another copy of the same matters to the Emigration Agent.

23. For the registration of every recruit under

Fee for registration.

section 18, the recruiter shall pay to the Magistrate or to the Protector of Emigrants, as the case may be, such fee not exceeding one rupee, as may be from time to time directed by the Local Government.

VII.—ARRIVAL AT DEPÔT AND PROCEDURE THEREON.

24. The arrival of each emigrant at the depôt

Arrival at depôt to be reported.

shall immediately be reported by the person in charge of the depôt to the Emigration Agent, and by such Agent to the Protector of Emigrants.

The Emigration Agent may institute such examination of the emigrants as he thinks fit in order to satisfy himself of their fitness to emigrate.

25. The Protector of Emigrants shall, within

Duty of Emigration Agent on arrival of emigrants.

forty-eight hours after the arrival at the depôt of each emigrant not registered by himself, question such emigrant as to the mode in

which he has been treated on his journey to the depôt, and shall at the same time examine the emigrant's contract and the copy of the register furnished to him under section 20.

If, for any reason, further inquiry is necessary, he shall make such enquiry forthwith.

26. If in the opinion of the Protector of Emi-

Countersignature of register.

grants the examination and enquiry made under section 25 disclose no valid reason

against the fulfilment of the contract, and the emigrant has not become physically unfit for emigration, the Protector and the Emigration Agent shall countersign the emigrant's copy of the register and the Emigration Agent shall make out and

Grant of embarkation pass.

deliver to the emigrant an embarkation-pass signed by the Emigration Agent, and countersigned by the Protector, stating the name and the age of the emigrant and the name of his father, certifying that he has been duly registered for emigration to the Straits Settlements and mentioning the port of debarkation.

27. If the Protector of Emigrants considers

When the emigrant to be sent back to the place of registration.

that any emigrant is physically unfit to emigrate, and that he has not dishonestly represented himself as physically fit;

or that any such irregularity has occurred in the recruitment of any such emigrant, as makes it just to vacate the contract;

or if the Emigration Agent refuses without the consent of the Protector to countersign the emigrant's copy of the register as required by section 26, or to be bound by the contract;

the Protector of Emigrants may order the

Payment of expenses of sending him back.

Emigration Agent, or the recruiter with whom the contract was made, forthwith to pay to him such reasonable sum as is necessary to enable such emigrant to return to the place where his name was registered under section 18; and may take any steps he thinks necessary for the conveyance of such emigrant to such place

and any emigrant who from his state of health is in the opinion of the Protector of Emigrants physically unfit to undertake such return, shall be entitled to be fed, lodged and attended to at the port of embarkation at the expense of the Emigration Agent until he is reported by the Protector of Emigrants fit to undertake such return to such place.

28. If a dependent has accompanied such emi-

Payment of expenses of dependent accompanying emigrant.

grant, the Protector of Emigrants may order the Emi-

gration Agent or recruiter to pay such sum as is necessary to enable him to return to the place at which his name was registered under section 19, as well as to feed or lodge him during the detention (if any) of the emigrant at the depôt.

29. If the Protector of Emigrants has reason

Effect of such dependent's unfitness from ill-health to return to Straits.

to think that any dependent is in such a state of health that his journey to the Straits Settlements, or his detention in the depôt, would

be dangerous to himself or others, he shall so certify to the Emigration Agent, and thereupon

the emigrant to whom such dependent is attached shall be entitled, if he so wishes, to return as if he himself had been found under section 27 to be physically unfit to emigrate.

If the emigrant still desires to emigrate, then the dependent shall be kept and returned to the place at which he was registered as if he were an emigrant falling under section 27.

30. If upon the arrival of any emigrant or dependent at the depôt, it appear that, during the journey thither, he has suffered any ill-treatment, or the recruiter has failed to provide him with proper and sufficient food and lodging, the Protector of Emigrants may order the Emigration Agent to pay him a reasonable sum by way of compensation.

31. On failure of the Emigration Agent or of such recruiter for twenty-four hours to comply with an order of the Protector for the payment of any sum, ordered to be paid under any of the four last preceding sections, the Protector may pay the same to, or on behalf of, the emigrant.

Every sum so paid shall be recoverable by the Protector, with six per cent. per annum interest from the date of payment, from the Emigration Agent, or from such recruiter.

No further proof shall be required by any Court in any such case than that the Protector gave such Emigration Agent or recruiter an order to pay such money, and that the Emigration Agent or recruiter for a space of twenty-four hours made default in complying therewith.

32. Whenever the Emigration Agent refuses, without the consent of the Protector, to countersign an emigrant's copy of the register as required by section 26, or is chargeable with a breach of any duty which any contract with an emigrant expressly or by implication imposes upon him, the Protector may, if he thinks fit, institute a suit on behalf of the emigrant against the Emigration Agent for the recovery of damages for the breach of such contract.

In every such suit the contract entered into by the recruiter shall be deemed to have been entered into by, and to be binding on, the Emigration Agent.

VIII.—EMIGRANT VESSELS.

33. No Master or other person in charge of a vessel shall receive on board any emigrant unless such vessel has been licensed, under the law for the time being in force relating to the carriage by sea of Native passengers, to carry passengers for the intended voyage and unless the Master of such vessel has obtained a certificate from the Protector of Emigrants authorizing him to receive on board the number of emigrants specified therein.

No such certificate shall be granted by the Protector of Emigrants unless he has satisfied himself that the vessel has been licensed as aforesaid, and that provisions and water for

the number of emigrants to be specified in the certificate according to the scale prescribed under such law have been actually put on board such vessel.

34. On embarkation every emigrant shall deliver to the Master of the vessel the embarkation pass granted to him under section 26, and the Master shall not receive any emigrant on board unless he delivers up such pass.

35. The Emigration Agent shall be personally present at the embarkation of all emigrants, and shall see that the Master duly examines the passes of the emigrants, and shall himself also examine such passes.

The Emigration Agent shall not permit any emigrant to remain on board who has not a pass.

36. The Master of every vessel carrying emigrants shall, after the embarkation of the emigrants, and before the departure of the vessel, give to the Emigration Agent a list of all emigrants on board, signed by himself and mentioning the port of debarkation, and shall retain a counterpart of such list signed by the Emigration Agent.

A copy of such list signed by the Emigration Agent and Master shall be sent to the Protector of Emigrants before the vessel sails.

IX.—SUPPLEMENTARY POWERS.

37. Whenever the Governor General in Council has reason to believe that proper measures have not been taken for the protection of emigrants and the enforcement of the engagements entered into with them immediately upon their arrival at the Straits Settlements, or during their residence therein, the Governor General in Council may, by a notification published in the *Gazette of India*, declare that emigration under this Act to the said Settlements shall cease from a day to be specified in such notification.

When any notification has been published under this section, emigration under this Act and the making of contracts to emigrate to the Straits Settlements shall be unlawful from the day specified in such notification.

38. Such notification may be revoked in like manner by the Governor General in Council, and thereupon emigration to the said Settlements shall again be allowed from a day to be specified in the revocation.

From the day so specified all the provisions of this Act authorizing emigration to the said Settlements shall be revived and have the same effect as if such emigration had not been suspended, except as to acts done, offences committed, and proceedings commenced, during the time of such suspension.

X.—OFFENCES.

39. Whoever, except under and in conformity with the provisions of this Act, engages or attempts to engage any Native of India to emigrate,

or whoever engages, or attempts to engage, any Native of India to enter into any such contract as is hereby declared illegal,

or, not being a recruiter duly licensed under this Recruiting without Act, acts or is employed being licensed. as a recruiter of labourers for the Straits Settlements,

or being a recruiter duly licensed under this Act, Recruiter omitting to removes or attempts to remove any person whom he before Magistrate or Protector. engages in any district from such district until the particulars required by section 18 have been duly registered,

shall be punished with imprisonment, which may extend to six months, or with fine not exceeding five hundred rupees, or with both.

40. Whoever, by means of intoxication, violence, fraud, or false pretences, causes or induces or attempts to cause or induce any Native of India to emigrate or to enter into any contract to emigrate, or into any such contract as is hereby declared illegal, or to proceed to the said Settlements without having entered into any contract, shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both; and any police-officer may for such offence arrest him without warrant.

41. Whoever, without lawful authority, issues any written order to the police to assist himself or any other person to procure labourers to proceed to the said Settlements, or falsely represents that such labourers are required by the Government, or are to be engaged on behalf of the Government, shall be liable to imprisonment for a term not exceeding six months, or to fine not exceeding five hundred rupees, or to both.

42. Any Master of a vessel not licensed as provided in section thirty-three who knowingly receives on board, for conveyance to the said Settlements, any emigrant or person who has entered into a contract hereby declared illegal, and any Master of a vessel licensed as aforesaid, who knowingly receives any emigrant as aforesaid without having previously obtained a certificate under the said section, or in excess of the number specified in such certificate, shall be liable for each emigrant or person so received to imprisonment for a term which may extend to three months, or to fine not exceeding two hundred rupees, or to both, and the vessel shall be liable to be forfeited.

43. Any Master of a vessel who receives on board such vessel any emigrant for the said Settlements and fails to comply with the requirements of sections 34 and 36, shall be liable to a fine not exceeding two hundred rupees.

44. Any Master of a vessel landing any emigrant or dependent at any port other than the port of debarkation specified in embarkation-pass and list, unless in case of stress of weather or other unavoidable accident, shall be liable for every emigrant or dependent so landed to a fine not exceeding two hundred rupees, or to imprisonment for a term which may extend to one month, or to both.

45. Any Master of a vessel who having cleared such vessel for the said Settlements, takes on board any emigrant not entered in the list mentioned in section 36, shall be liable to a fine not exceeding two hundred rupees for every emigrant so taken on board.

46. All prosecutions under sections 42, 43, 44 and 45 shall be instituted by the Emigration Agent, or by the Protector of Emigrants, or by an officer appointed for the purpose by the Local Government.

47. All the powers vested by law in the officers of Customs in regard to the search and detention of vessels, or otherwise, for the prevention of smuggling on board thereof, may be exercised by such officers for the prevention and detection of the illegal embarkation of emigrants on board vessels bound for the said Settlements and of other offences against this Act.

48. Nothing in this Act shall apply to any vessels in the service of the Lords Commissioners of the Admiralty, or to any of Her Majesty's vessels.

49. Nothing in this Act shall apply to any contract with, or the emigration of, any Native seaman, or other person who of his own free will contracts to navigate or serve on board of any vessel, or who embarks on board such vessel in pursuance of such contract, or any person who contracts to serve as a menial servant only and who embarks as such menial servant.

50. The Emigration Agent and all persons employed by him and the Protector of Emigrants shall be deemed to be public servants within the meaning of the Indian Penal Code.

51. The Indian Emigration Act, 1871, shall not apply to the Straits Settlements, unless and until the Governor General in Council, by notification in the *Gazette of India*, declares it so to apply.

52. Act No. XIV of 1872 (*to exempt the Straits Settlements from the Indian Emigration Act, 1871*) is hereby repealed.

53. Act No. XIV of 1872 (*to exempt the Straits Settlements from the Indian Emigration Act, 1871*) is hereby repealed.

54. Act No. XIV of 1872 (*to exempt the Straits Settlements from the Indian Emigration Act, 1871*) is hereby repealed.

PART V.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March 1877 :—

No. 6 OF 1877.

A Bill to amend the law relating to assignments from the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871.

WHEREAS it is expedient to authorise the Local Government of the North-Western Provinces to provide out of the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871, for payment of certain charges incurred or to be incurred on account of canals and railways in the North-Western Provinces; It is hereby enacted as follows :—

1. Section 10 of the said Act shall be repealed, and in lieu thereof the following shall be substituted :—
Substitution of new section for section 10 of Act XVIII, 1871.

“10. The Lieutenant-Governor may from time to time assign from such Fund such amount as he thinks fit, to be applied in payment of charges incurred or to be incurred on account of such canals and railways as he, with the previous sanction of the Governor General in Council, may declare to be works of general provincial utility, and he shall from time to time allot from such Fund an amount to be applied in each district for expenditure on all or any of the following purposes :—

(a) the construction, repair and maintenance of roads and communications;

(b) the maintenance of the rural police and district post ;

(c) the construction and repair of school-houses, the maintenance and inspection of schools, the training of teachers, and the establishment of scholarships ;

(d) the construction and repair of hospitals, dispensaries, lunatic asylums, markets, wells and tanks ; the payment of all charges connected with the purposes for which such buildings or works have been constructed, and any other local works likely to promote the public health, comfort or convenience ;

Provided that the amount assigned in respect of such canals and railways shall not exceed ten per cent. of the total sum levied under this Act in the year in which the assignment was made, and that the amount allotted to be applied in each district for expenditure on all or any of the purposes mentioned in clauses (a), (b), (c) and (d) of this section shall be at least ninety per cent. of the total sum levied under this Act in such district in the year in which the allotment was made.”

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to make a small amendment of Act No. XVIII of 1871, which provides for the levy in the North-Western Provinces, of rates on land for local purposes. These rates are in the first instance credited to a general Provincial Fund, from which the Lieutenant-Governor is bound to assign amounts to be applied in each district for certain specified purposes.

These are the construction and maintenance of Roads and Communications; Rural Police; District-post; Education; Hospitals; Lunatic Asylums; Markets; Wells and Tanks; and other local works likely to promote the public health, comfort, or convenience: the annual assignment made to each district must not be less than the total amount of local rates levied in it; but any portion of such assignment which remains unexpended at the end of the year may be spent in any way which the Lieutenant-Governor thinks beneficial to the North-Western Provinces generally.

The principle is thus recognized, that these rates may, in part at least, be expended on objects of provincial utility; and, as a matter of fact, a large portion of them has been so expended. As it is not now wished to increase the burdens on the land, the present Bill proposes to authorize the Local Government to make assignments from the local rates for the purpose of meeting charges on account of Irrigation-works and Railways of provincial utility: the maximum amount of such assignments is fixed at ten per cent. of the total sum levied under the proposed Act, leaving 90 per cent. to be spent as at present; but there is no reason for anticipating that the actual proportion of the rates so assigned will amount to this maximum. The total amount of the local rates levied annually in the North-Western Provinces is about £430,000, and the proposed amendment of the law will not seriously diminish the existing grants for local purposes.

WHITLEY STOKES,
Secy. to the Govt. of India.

[First Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March 1877:—

No. 7 OF 1877.

Bill for the licensing of certain trades and dealings in the North-Western Provinces.

WHEREAS it is expedient that persons carrying on certain trades and dealings in the North-Western Provinces should take out licenses and pay for the same; It is hereby enacted as follows:—

1. This Act shall be called "The North-Western Provinces License Act, 1877:"

It extends only to the provinces under the government of the Lieutenant-Governor of the North-Western Provinces;

And it shall come into force at once.

2. Every person who, on and after the first day of April 1877, falls under any of the heads specified in the schedule hereto annexed and carries on (whether on behalf of himself or any other person) his trade or dealing, shall take out a license under this Act and shall pay for the same the annual fee mentioned in the same schedule as payable by persons of the class and grade to which he belongs: provided that, for any such license granted between the first day of November in each year, and the thirtieth day of April next ensuing, there shall be paid only one-half of such fee.

3. Every license under this Act shall be granted by the Collector of Land Revenue of the district or place in which the person requiring such license carries on his trade or dealing: provided that, if such person carries on his trade or dealing in more than one district or place in the North-Western Provinces, the license shall be granted by

the Collector of the district or place in which his principal place of business is situate.

Every such license shall be signed by the Collector granting it, or by any Assistant or Deputy Collector under the Collector's orders, and the Courts shall take judicial notice of such signature.

Particulars to be specified in the license. 4. Every such license shall specify—

- (a) the date of the grant thereof;
 - (b) the name, father's name, caste, and trade or dealing of the licensee;
 - (c) the fee paid for the license;
 - (d) the place or places where the licensee intends to carry on trade or dealing for the ensuing year; and
 - (e) the term for which the license shall remain in force,
- and shall be received in evidence as *prima facie* proof of all matters contained therein.

5. Every such license shall have effect and continue in force from the day of the date thereof till the first day of April next after the day of the granting thereof.

6. Every person to whom any such license has been granted and who desires to continue to carry on his trade or dealing after the expiration thereof, shall take out a fresh license for that purpose for the following year, to expire on the day appointed in the last preceding section, and shall renew the same so long as he desires to continue to carry on such trade or dealing.

7. The Collector shall from time to time determine under which of the classes and grades mentioned in the said schedule every person to whom a license may be granted by him as aforesaid shall be charged.

List of Licensees.

8. As soon as may be after the first day of April 1877 and the first day of January in every subsequent year, the Collector shall prepare a list of the persons licensed under this Act in the district or place aforesaid. Such list shall state—

- (a) the trade or calling of each of the persons therein named;
- (b) the class and grade under which he is charged; and
- (c) the fee paid for his license.

Such list shall be filed in the office of the Collector, and the list, or such part or parts thereof as he shall think fit, shall be filed in such other places as the Collector directs, and shall be open to public inspection at all reasonable times, without any payment.

9. The Collector shall, at or about the same time, issue a notification, in such form as the Local Government directs, showing the classes and grades chargeable under this Act, and the fees which members of each class and grade are charged, with such other information as the Local Government may direct.

The notification shall be published in the principal muhallas or ganjes of all towns, and in the chaupál, or other public place, in all villages concerned.

10. So soon as may be practicable after the issue of such notification, notice shall be served on each person charged: provided that in any year it shall not be necessary that such notice shall be served on any person charged under this Act in the year immediately preceding.

Such notice shall contain—
the name, father's name, caste, and trade or dealing of the person charged;
the class and grade under which he falls;
the fee payable by him under this Act;
the date on which such payment is to be made;
the mode and place of payment and the person to whom the fee may be paid;
the penalty incurred by failure to make payment of the fee on the given date;

and shall notify that if the person so served continues his trade or dealing, payment of the amount specified in the notice must be made in the year 1877, within thirty days of receiving the notice, and within thirty days next after the first day of January of each subsequent year.

11. Any person served with such notice and objecting to the class or grade under which he is charged may, within thirty days after such service, apply by petition to the Collector in order to establish his right to have his name transferred to another class or grade or altogether removed from the list.

The statements contained in the petition shall be verified by the petitioner or some other competent person in manner required by law for the verification of plaints.

12. The Collector shall fix a day for the hearing of the petition, and on the day so fixed shall hear the same and pass such order thereupon as to him shall seem fit:

Provided that if in his judgment the fee which the petitioner has been charged exceeds two per cent. upon his annual nett earnings, such excess shall, for the purpose of section eleven, be deemed a valid objection:

Provided also that if in the judgment of the Collector the nett annual earnings of the petitioner are less than two hundred rupees, the petitioner's name shall be removed from the list.

Any person dissatisfied with such order may, within fifteen days from the date thereof, present a petition of appeal to the Commissioner of Revenue of the Division, whose decision upon such appeal shall be final.

Every petition presented under this section shall be accompanied by a copy of the petition to the Collector, the Collector's order thereon, and all other documents (if any) connected with the case.

Penalties.

13. If after expiry of the period mentioned in the notice served on him under section ten, for payment of the amount specified

therein, any person carries on his trade or calling without having taken out a license as required by this Act, he shall be liable, by order of the Collector, to pay twice the fee with which he would otherwise have been chargeable under this Act, and on receipt of such payment, the Collector shall grant him a license.

All sums due under this section shall be recoverable as if they were arrears of land-revenue.

14. Every person required by this Act to take out a license, who without reasonable excuse neglects or refuses to produce and show his license when required so to do by an officer generally or specially empowered in writing by the Collector to make such requisition, shall, on conviction before a Magistrate, be liable to a fine not exceeding one hundred rupees.

No person shall be proceeded against for any such offence except at the instance of the Collector, and there shall be no appeal from any sentence under this section.

Receivers, Courts of Wards and Trustees.

15. Receivers or managers appointed by any Court in India, and the Courts of Wards, shall be chargeable under this Act in respect of any trade or dealing of which the income is officially in their possession or under their control.

16. When any trustee, guardian, curator, committee or agent is charged with any trade or dealing, or when any receiver appointed by any Court or Court of Wards is charged under this Act, every person and Court so charged may, from time to time, out of the money coming to his or its possession as such trustee, guardian, curator, committee or agent, or as such receiver or Court of Wards, retain so much as is sufficient to pay the fee charged.

Every such person or Court is hereby indemnified for every retention and payment made in pursuance of this Act.

Municipalities.

17. The Collector of the District may require any Municipal Committee constituted under Act No. XV of 1873 to furnish, within a period to be specified under the orders of the Local Government, returns showing the names and numbers of persons chargeable under this Act resident within the limits of such Municipality, together with the class and grade under which they respectively fall and the fees payable by them respectively.

If the Municipal Committee fails within the period prescribed to make such returns, or if it make such returns, but the Collector of the District has reason to doubt their accuracy, he may at any time cause a return showing the names, numbers, classes and grades aforesaid to be prepared in such manner as may be prescribed by the Local Government.

18. When the return mentioned in section 17 has been furnished or prepared, notice shall be served on the Municipality, calling

on it to pay to the Collector of the District, within a period to be specified in the notice, a sum calculated on such return in accordance with the provisions of this Act.

Any Municipality may appropriate any part of its revenues to the payment of the sum leviable from it under this section, or raise such further sums in addition to its existing revenue as may be needful for such payment: provided that such further sums be raised in accordance with the said Act No. XV of 1873.

Miscellaneous.

19. All taxes raised and penalties recovered under this Act shall be paid to the credit of the Local Government, or as such Government shall from time to time direct.

20. All or any of the powers and duties conferred and imposed by this Act on a Collector, an Assistant or Deputy Collector, and a Commissioner of Revenue, may be exercised and performed by such other officers or persons as the Local Government shall from time to time appoint in this behalf.

Every person shall be legally bound to furnish information to any officer or person so appointed when required by him to do so.

21. Nothing in this Act applies to (a) persons being itinerant vendors only, or (b) persons earning their livelihood solely by agriculture.

22. The Local Government may, from time to time, with the previous sanction of the Governor General in Council,

(a) exempt from the operation of this Act any portion of the territories subject to such Government or any class of trade or dealings falling under the said schedule;

(b) make rules consistent with this Act, (1) for regulating the time and manner of collecting the fees charged under this Act, (2) for allowing to the persons employed in the collection fees not exceeding three per centum on the fees so collected charged to the licensees, and (3) generally for the guidance of officers in matters connected with the enforcement of this Act.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to impose a light License-tax on Traders and Dealers in the North-Western Provinces. Similar measures are in force in many large Indian towns and (under Act XIV of 1867) in the Central Provinces. The principal trades have been classified and graded, and a specific sum is put down against each class and grade: the highest license fees proposed are those on Bankers and wholesale dealers in country-produce, and they vary from Rs. 16 to Rs. 64 a year: other traders will have to pay smaller sums, which are in some cases as low as Rs. 2, and in no case exceed Rs. 32.

ACCOUNTS, &c.

The 22nd March 1877.

No. 1709.—The following Resolution is published for general information:—

Read again—

Resolution No. 3334, dated 14th December 1870.

Read—

The Financial Statement made by the Hon'ble Sir John Strachey to the Legislative Council of the Government of India on the 15th March 1877, and the Abstracts of the Accounts and Estimates therewith presented.

RESOLUTION.—Subject to the approval of the Secretary of State in Council, the Governor General in Council has resolved to re-incorporate in the Imperial Estimates and Accounts, in the manner described in this Statement by the Hon'ble Sir John Strachey, the transactions of the Local Governments, which have, since 1871-72, been represented by a single net entry in the Imperial Estimates and Accounts under the Head *Alloiments for Provincial Services*.

2. Additional Revenues have been already surrendered to the provincial uses of the Governments of *Bengal*, the *North-Western Provinces* and *Oudh*, and additional Services transferred to their management and responsibility: it is the intention of the Governor General in Council, after consultation with the other Local Governments, to propose similar expansions of the measure of December 1870 in respect to the Revenues and Services of the other Provinces.

3. In consequence of the arrangements thus completed or contemplated, it is necessary to revise the conditions under which the Local Governments administer the Revenues and Services entrusted to their particular use and management.

4. In supersession, therefore, of all existing regulations upon the subject, the Governor General in Council is pleased to decide that, till further orders, the following shall be the

Rules and Conditions which apply to the administration by the Local Governments of all Revenues and Services surrendered to provincial uses and management.

I.—Without the previous sanction of the Government of India—

- (1) No additional taxation may be imposed, and no change made in any existing system of Revenue management ;
- (2) No new general service or duty may be undertaken : whenever a Local Government proposes to undertake any such new service or duty, it must satisfy the Government of India that it can provide the funds for it, temporarily, if the service or duty is temporary, and permanently, if it is permanent ;
- (3) No appointment may be created with a pay of more than Rs. 250 a month ; and no addition may be made to the pay and allowances of any officer if they exceed, or would, after the addition, exceed, Rs. 250 a month ;
- (4) No appointment of which the pay and allowances are more than Rs. 250 a month may be abolished ; and the pay and allowances of no such appointment may be reduced ;
- (5) No class or grade of officers may be created or abolished ; and the pay of no class or grade of officers may be raised or reduced ;
- (6) The rates of discount upon the retail of stamps and court-fee labels, and the local duty on spirit and drugs, must not be altered : the Governor General in Council reserves the right of forbidding any such alterations as are likely to injure the Revenues of neighbouring Provinces or prove otherwise inconvenient ;
- (7) No addition may be made to the pay or allowances of any individual officer, or class of officers, that may lead to increase in the emoluments of any public servants doing duty in the same Province, whose pay and allowances are not charged under one of the transferred Heads of Service. The Government of India reserves the right to forbid alterations in rates of pay or allowances, which, in its opinion, would produce inconvenience in other Provinces ;
- (8) No money may be removed from the Public Treasury for investment, or deposit elsewhere : the Government of India, which is responsible for the provision of ways and means for the public service in all Departments, must, always, retain, as at present, in its own hands, absolute and unconditional control over all money in the Public Treasury : a Local Government may not withdraw such money except for expenditure upon the public service ;
- (9) No alteration must be made in the form or procedure of the Public Accounts ;
- (10) No services previously rendered to other Departments at the charge of the Departments made over to the control of the Local Governments may be diminished, and no services previously rendered to these Departments at the charge of other Departments may be increased ;
- (11) No line of through communication may be abandoned, or allowed to fall out of repair.

II.—Returns are to be made quarterly, through the several Administrative Departments of the Government of India, to the Financial Department, showing every change made in the pay of any officer, every new office created, and every existing office abolished ; also any unusual or extraordinary charge incurred, and any expenditure discontinued.

- III.—All Standing Orders and Rules of the Supreme Government are to be observed, including, in particular, the Rules in the Codes of the Financial and Public Works Departments, Travelling Allowance Rules and the Rules and Circular Orders of the Comptroller General.
- IV.—Returns, Accounts, and Estimates are to be submitted to the Supreme Government in such forms, and at such times, as may be prescribed.
- V.—The Local Governments must keep the Governor General in Council, in the several Departments, fully informed of their executive and financial proceedings; the Governor General in Council will not relinquish his general powers of supervision and control in any Department: but His Excellency in Council will, as far as possible, avoid interference with the details of the administration of the transferred revenues and services, and any embarrassment of the provincial finances.
- VI.—A Local Government must accept, without remonstrance, any charge which would, under the system in force before 1871-72, have been recorded, under any of the transferred Heads of Account, in the Accounts of its Presidency or Province; and must not raise objections on such grounds as that the charge has originated outside the Presidency or Province, or that the Presidency or Province is not interested in it, or the like: if any doubt arises at any time, whether any charge should or should not be entered under any particular Head in the Accounts of any Presidency or Province, such doubt must be solved by one test only, *viz.*: “How would it have been entered if it had occurred before 1871-72, when the powers and responsibilities of Local Governments were first enlarged?” Thus, for example, the pay or leave allowances of an officer belonging to another Administration on duty or on leave in the North-Western Provinces, and drawn there, must be charged in the Accounts of the North-Western Provinces: the Governor General in Council did not intend by the measure of 1870, and does not, now, intend, to introduce, or authorise, any change of practice in such matters, or any inter-provincial, inter-presidential or inter-departmental adjustments, not theretofore allowed: in regard to all such transactions, the arrangements made with the Local Governments were calculated upon the basis of the system which existed before the year 1871-72.
- VII.—The grant made to a Local Government for all the services entrusted to its administration is a consolidated grant: no claim will lie against the Imperial Treasury on the ground that the cost of any service exceeds the amount at which it was estimated in the calculation of the consolidated grant.
- VIII.—In the management of its finances, a Local Government must never absolutely exhaust its Balance in the Imperial Treasury: the Government of India will not accept any estimates, or allow any transactions, by a Local Government, which involve the expenditure of more money than is at its credit in the Imperial Treasury: it is the duty of every Accountant General to take care that this condition is never infringed, and promptly to report to the Governor General in Council any transgression of it which is not, upon his representation, immediately rectified by the Local Government addressed.
- IX.—A Local Government may not lend money from the Balance at its credit in the Imperial Treasury: the Government of India will always pay every attention to any recommendation for the loan of public money in excess of the powers which are entrusted to a Local Government by law or rule; but all loans alike must be from the Imperial Balances; such operations must not be mixed up with the arrangements between the Imperial and the Local Government for the collection and appropriation of the Public Revenues or the administration of the Public Services.

- X.—It is a general condition precedent to the delegation of all authority to disburse public money that it shall be *bond fide* for a public object; nothing must be carried out by means of the public funds for the advantage of any individual or body of private persons, unless, in accordance with some declared or established rule or principle, recognised by the Government of India: it is the duty of every Audit Officer, at all times, to challenge any infringement of this principle; and every Local Government must submit, for the orders of the Government of India, any representation made to it by any Audit Officer in accordance with this Rule which it does not promptly accept.
- XI.—On or before the 31st January of each year, each Local Government must forward to the Government of India in the Financial and Public Works Departments and publish in the Local Government Gazette, in detail of Major Heads, with such explanations as may be necessary for the due understanding of its financial administration—
- (1) An Account showing—
 - (a) The balance of the Local Government in the Imperial Treasury at the beginning of the last complete financial year;
 - (b) The revenues appropriated during that year to provincial uses, and the supplementary assignment from the Imperial Treasury;
 - (c) The expenditure under provincial responsibility during that year;
 - (d) The balance of the Local Government in the Imperial Treasury at the end of that year;
 - (2) Revised Estimates in the same detail for the current financial year;
 - (3) Estimates in the same detail for the coming financial year.
- XII.—The Governor General in Council reserves power to modify, add to, or repeal these Rules and Conditions at any time.

of Medal Ribbon which may be indented for.

This order cancels that portion of G. G. O. No. 1080 of 1864 which refers to Medal Ribbons for British Corps.

PAY AND ALLOWANCES.

No. 287.—PAY CODE—

The following corrections are to be made in the Pay Code for India, Volume 1, "British Troops:—

Article 1074 is re-constructed as follows:—

"1074. A monthly allowance of Rs. 100 is authorized in aid of the maintenance of a band in each regiment of native infantry in which one is established."

Article 1039*a*.—Add the following additional Clause :—

“ Furlough granted under this article, for a period not exceeding three months, is not to be considered as furlough requiring an interval of three years' service between two furloughs. Such furlough will, however, be excluded from the three years' service required between two furloughs.”

Article 292 is re-constructed as follows :—

“ 292. An officer of the staff corps or Indian army, who may be permitted to serve on the personal staff out of India, will receive, at the charge of the Indian revenues, the English furlough pay of his rank for a period of three years only, in addition to the allowances that may be assigned to him from other sources; the tenure of such appointment is limited to five years, subject to the liability of recall should his services be required in India. The whole of the time so passed will count towards Indian pension.”

Insert the following articles :—

“ 381*a*. An officer who may be permitted to serve beyond the limits of India, shall, while so serving, receive, at the charge of Indian revenues, the English furlough pay of his rank in addition to the allowances that may be assigned to him from other sources—but see article 292.”

“ 556*a*. The pay of an officer who may be permitted to serve beyond Indian limits will be regulated by article 381*a*.”

Article 2135 is re-constructed as follows :—

“ 2135. When an officer of the staff corps or Indian army is called for to serve on the personal staff out of India, the whole of his service under such circumstances, shall count towards Indian pension; but to secure this privilege in the case of an officer whose services are lent for other than imperial purposes, either in England, or in a British colony, or to a foreign State, he must contribute to the Indian exchequer a proportion, not exceeding one-fifth, of the emoluments which he may receive during such transfer of his services.”

Article 1667*a*.—*Add*—After the word “employment” the words “or on leaving his corps or battery to proceed to England as an invalid, or for discharge.”

Article 997, third line, and article 2129, clause (c), second line.—Expunge the word “permanent,” which was inserted under the authority of G. G. O. No. 560 of 1876, now cancelled.

Article 892, third line.—Expunge the parenthetical sentence “(reckoning from date of first permanent commission)” which was inserted under the authority of G. G. O. No. 560 of 1876, now cancelled.

Article 1043*b*, second line.—Expunge the parenthetical sentence “(counting from date of first permanent commission)” which was inserted under the authority of G. G. O. No. 560 of 1876, now cancelled.

Insert the following articles :—

“ 373*a*. For all purposes under the staff corps warrant, except for the calculation of service qualifying for admission to the staff corps, and for furlough and pension, an officer's service will be considered as commencing from the date of his first permanent commission.”

“ 322*a*. An officer of the staff corps or Indian army selected for admission to the staff college, Sandhurst (article 314*a*), who may hold an appointment with a native regiment, will be seconded for the whole period of his absence from regimental duty.”

Article 921*a*.—*Add*—“ This article does not apply to a general officer on the divisional or brigade staff.”

Articles 1005 and 1006 are cancelled, and the following substituted :—

“ 1005. Leave granted under these rules without furlough pay, will not reckon as furlough already taken in calculating the balance at an officer's credit, or as part of the total of eight years allowed, as shewn in article 1022; but all furlough with furlough pay, whether on private affairs or on medical certificate, taken under these rules, will so reckon.”

“ 1006. Furlough and leave previously taken, under the rules of 1796 or 1854 will count, as respects officers who have elected these rules, as follows :

Furlough on private affairs, with pay, taken under the rules of 1796 or 1854, counts in all respects as furlough.

Leave on sick certificate under the rules of 1796 does not count in any respect as furlough.

Leave on sick certificate, with pay, under the rules of 1854, counts as part of the maximum of eight years allowed under these rules, but until the maximum thus made up be reached, this leave will not count as furlough already taken in determining the amount of furlough to which an officer is entitled.

Leave without pay under the rules either of 1796 or 1854, does not count in any respect as furlough.”

Article 971.—The last sentence commencing “this rule,” &c, is cancelled, and the following substituted :—

“ This restriction does not apply to short leaves to sea, *i. e.*, three months, nor does it apply to a general officer of the staff corps or of the local service who may be unemployed.”

Article 1009.—*Add*—“ A colonel of the Indian army who may be desirous of proceeding on furlough on the expiration of his term of brigade command, may, if he has furlough at his credit, avail himself of it without reference

to the restriction of having served three years from the date of his last return to duty."

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The first part of the "Indian Law Reports," published under the authority of the Governor General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the follow-

ing statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 40
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES ...	" 8	" 9
Complete set ...	" 45	" 50

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
" " MADRAS SERIES ...	" 1	0
" " BOMBAY SERIES ...	" 1	0
" " ALLAHABAD SERIES ...	" 1	0
Complete set ...	" 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER, VINING AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

The publication of the Bengal Law Reports and the Madras, Bombay, and N. W. P. High Court Reports will cease on the completion of the volumes now in course of publication.

Subscribers to the Bengal Law Reports, who have already paid their subscriptions to the end of June 1876, will be supplied with the complete set of Reports for the first half of 1876 in lieu of the volume of the Bengal Law Reports which they would otherwise have received.

The following books may be had from the Office of Superintendent of Government Printing, No. 8, Hastings Street.

No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every Rupee's worth of stamps, for discount in exchanging them for cash. Service labels are not received.

Books required for the public service cannot be supplied on payment ; they are only issued on the authority of the Department to which the indenting officer is subordinate.

THE FIRST SCHEDULE.

THE SECOND SCHEDULE.

An Act to regulate the Emigration of Native Labourers from the Presidency of Fort Saint George to the Straits Settlements.

WHEREAS it is expedient to regulate emigration under engagements to labour

Preamble.

from the Presidency of Fort Saint George to the Straits Settlements; It is hereby enacted as follows :—

I.—PRELIMINARY.

Short title.

I. This Act may be called "The Straits Settlements Emigration Act, 1877."

It extends only to the territories under the government of the Governor of Fort Saint George in

Local extent.

Council

And it shall come into force on such date as the Governor of Fort St. George in Council, with the previous

Commencement.

sanction of the Governor General in Council, may,

by notification in the *Fort St. George Gazette* direct.

Interpretation-clause.

2. In this Act, unless there be something repugnant in the subject or context—

"Emigrate" denotes the departure of any Native of India out of the said territories, under an engagement to labour in the said Settlements :

"Emigrant" means a person who 'emigrates' within the meaning of the above definition.

"Magistrate" means a Magistrate of a District, a Magistrate of a division of a district, or any other

person appointed by the Governor of Fort St. George in Council to perform the functions of a Magistrate under this Act :

"Vessel" includes anything made for the conveyance by water of human beings or property.

3. It shall not be lawful to emigrate except from such ports as may from time to time be declared by the Governor of Fort St. George in Council, by a notification in the *Fort Saint George Gazette*, to be ports from which emigration under this Act shall be lawful.

The Local Government may, at any time, by a like notification, revoke any such notification.

II.—EMIGRATION AGENTS.

4. The Government of the Straits Settlements may, from time to time, appoint such persons as the Governor of Fort St. George in Council approves, to act as Emigration Agents at such ports as aforesaid.

Any Emigration Agent so appointed may be suspended or removed by the Government of the Straits Settlements.

III.—PROTECTORS OF EMIGRANTS.

5. The Governor of Fort St. George in Council shall direct such persons as he thinks fit to act as Protectors of Emigrants under this Act at such ports and for such local areas as may be assigned to them respectively, and may, with the sanction of the Governor General in Council, assign to such persons such establishment as the Governor of Fort St. George in Council thinks fit.

6. Every Protector of Emigrants, in addition to any special duties assigned to him by this Act, shall, so far as is in his power, protect and aid all emigrants with his advice or otherwise, and cause all the provisions of this Act to be duly complied with.

He may also inspect on arrival all vessels bringing return emigrants to the port at which he is Protector, and inquire into the treatment received by such emigrants both during the period of their service in the Straits Settlements and also during the voyage, and shall make a report thereon to the Governor of Fort St. George in Council.

Such Protector shall also aid and advise such return emigrants, so far as he reasonably can, when called upon by them to do so.

IV.—EMIGRATION DEPÔT.

7. Every Emigration Agent shall establish a suitable depôt for emigrants at the port at which he is Agent. Such depôt may be licensed by the local Protector of Emigrants after being inspected and approved of by him.

For every such license the Emigration Agent shall pay to the Protector of Emigrants a fee of fifteen rupees.

8. The Protector of Emigrants may, at any time, examine into the state of the depôt and the manner in which the emigrants are therein lodged, fed, clothed and otherwise provided for and attended to, and shall do so at least once a year.

And he may at any time cancel the license, if he considers that the depôt for which it was granted is unhealthy, or has in any respect become unsuitable for the purpose for which it was established, or if the local Emigration Agent fails to comply with any of the requirements of this Act.

The Emigration Agent and all persons in charge of, or employed in, the depôt, shall give the Protector every facility for making such inspections as he may deem necessary or proper, and shall afford him all such information respecting the depôt and the emigrants as he may require.

9. The Emigration Agent shall provide at the depôt such medical aid and comforts as the Protector may from time to time direct.

V.—RECRUITERS OF LABOURERS.

10. Each Protector of Emigrants shall license so many fit persons as he deems necessary, to be recruiters of labourers for the Straits Settlements; and no person shall engage or attempt to engage any Native of India to emigrate, or shall otherwise act or be employed as a recruiter of labourers, except under a license from a Protector of Emigrants.

11. No such license shall be in force for a longer period than one year; and in case of misconduct on the part of any recruiter, the Protector of Emigrants who granted it may cancel his license before the expiration of the period for which it was granted.

12. Every such license shall specify the local limits within which the person licensed may recruit labourers, and shall be in the form set forth in the first schedule hereto annexed.

For every such license the recruiter shall pay to the Protector a fee of five rupees.

13. No recruiter shall engage, or attempt to engage, labourers in any district without having first exhibited his license to a Magistrate in such district, and obtained the countersignature of such Magistrate thereupon.

No Magistrate shall countersign a recruiter's license unless and until he has satisfied himself, by such enquiry as he thinks fit, that the licensee is not by character or from any other cause unfitted to be a recruiter under this Act.

If any Magistrate who has countersigned a license afterwards finds reason to think that the licensee is by character or other cause unfitted to be a recruiter under this Act, he may require the licensee to produce the license and may cancel his signature; or he may, if he thinks fit, impound the license and send it to the Emigration Agent for cancellation.

Every Magistrate refusing to countersign a recruiter's license or cancelling his signature as aforesaid, shall, without delay, report his refusal or cancellation and the grounds of it to the Protector of Emigrants who has authority to cancel the recruiter's license.

VI.—CONTRACTS WITH EMIGRANTS.

14. No contract made by a recruiter with a Native of India to emigrate shall be enforceable by the recruiter or his principal unless it—

(a) is expressed in writing;

(b) is executed by the recruiter on behalf of some principal in the Straits Settlements;

(c) states the terms, if any, agreed on as to the redemption of the recruit's engagement for employment, or of the unexpired term of such engagement;

(d) the term of the recruit's employment, the nature of the services to be performed by him, and the rate of wages to be paid in respect of the same are registered in the manner provided in section eighteen.

But nothing contained in this section shall be deemed to prevent such Native from insisting, if he thinks fit, that such contract shall be performed.

15. Every such contract shall—

(a) contain an engagement for employment to be provided by such principal for a definite term not exceeding three years; and

(b) specify the nature of the services to be performed by such recruit and the rates of wages (not less than twelve cents a day for an able-bodied male adult) payable in respect of the same.

16. Save as provided by section fourteen, clause (c), every agreement entered into by a Native of India in the territories subject to the Governor of Fort Saint George in Council, to pay money to any person in the Straits Settlements, in consideration of pecuniary or other assistance given to such Native to emigrate, shall be illegal and void.

Every contract not containing the particulars required by section fifteen shall be illegal and void.

17. Every recruit who has entered into such a contract as aforesaid shall be brought by the recruiter before the Civil Surgeon of the district or such other medical officer as the Local Government appoints in this behalf or, in default of such appointment, before such medical officer as the Magistrate directs.

The medical officer shall thereupon examine the recruit, and shall either reject him or shall certify that he is in a fit state of health and able in point of physical condition to proceed to the Straits Settlements and to work there.

If it is intended that any persons shall accompany the recruit as his dependents, the recruiter shall also bring them before the medical officer for the purpose of obtaining certificates that they are in a fit state of health and able in point of physical condition to perform the journey to the Straits Settlements; and the medical officer shall examine such persons and shall give or refuse certificates according to his opinion as to their fitness and ability.

Certificates shall be in the form set forth in the second schedule hereto annexed; and the recruiter shall pay to the medical officer such fee for each person so examined as the Local Government may from time to time prescribe.

18. Every certified recruit and every accompanying dependent shall appear with the recruiter before a Magistrate in the district within which the contract with the recruit was entered into.

The Magistrate shall thereupon inspect the instrument of contract and the medical certificate of the recruit, and shall, apart from the recruiter, examine the recruit with reference to his contract.

If it appears on such examination that the recruit understands the nature of the contract he has entered into, and that he is willing to fulfil the same, the Magistrate shall register

(a) the name, the father's name and the age of such recruit:

(b) the name of the village or place in which he resides:

(c) the port of embarkation to which it is intended he shall proceed:

(d) the name of his employer:

(e) the term of his employment, the nature of the services to be performed by him and the rate of wages to be paid in respect of the same.

The recruit shall thereupon be deemed an emigrant under this Act.

If the Magistrate thinks that the recruit does not understand the nature of the contract into which he has entered, or has been induced to enter into it by fraud or misrepresentation, or finds that the contract is not in accordance with section fifteen, he shall refuse to register the particulars specified as aforesaid, and record his reasons for such refusal.

19. On the appearance of any person claiming to be dependent on an emigrant, the Magistrate, after inspecting the medical certificate, shall, apart from the recruiter, examine such person if able to give intelligent answers to questions as to his dependence upon the emigrant whom he is about to accompany, and as to his willingness to accompany such emigrant.

If the Magistrate is satisfied that such dependence and willingness exist, he shall register the dependent as a dependent on such emigrant.

But if the Magistrate sees reason to doubt the existence of such dependence or willingness, he may refuse to register the alleged dependent, and, if so, shall record his reasons for such refusal.

20. The Magistrate shall furnish to every emigrant an authenticated copy on substantial paper of the matters registered under sections 18 and 19.

21. A copy of every entry made in the register-book by a Magistrate, shall be forthwith forwarded by such Magistrate to the Emigration Agent and to the Protector of Emigrants.

22. The registration required by sections 18 and 19 shall, in the case of emigrants recruited in any local area for which a Protector of Emigrants has been appointed, be effected before him instead of a Magistrate; and such Protector shall furnish to the emigrant one copy of the matters so registered, and another copy of the same matters to the Emigration Agent.

23. For the registration of every recruit under section 18, the recruiter shall pay to the Magistrate or to the Protector of Emigrants, as the case may be, such fee not exceeding one rupee, as may be from time to time directed by the Local Government.

VII.—ARRIVAL AT DEPÔT AND PROCEDURE THEREON.

24. The arrival of each emigrant at the depôt shall immediately be reported by the person in charge of the depôt to the Emigration Agent, and by such Agent to the Protector of Emigrants.

The Emigration Agent may institute such examination of the emigrants as he thinks fit in order to satisfy himself of their fitness to emigrate.

25. The Protector of Emigrants shall, within forty-eight hours after the arrival at the depôt of each emigrant not registered by himself, question such emigrant as to the mode in which he has been treated on his journey to the depôt, and shall at the same time examine the emigrant's contract and the copy of the register furnished to him under section 20.

If, for any reason, further inquiry is necessary, he shall make such enquiry forthwith.

26. If in the opinion of the Protector of Emigrants the examination and enquiry made under section 25 disclose no valid reason against the fulfilment of the contract, and the emigrant has not become physically unfit for emigration, the Protector and the Emigration Agent shall countersign the emigrant's copy of the register and the Emigration Agent shall make out and deliver to the emigrant an embarkation-pass signed by the Emigration Agent, and countersigned by the Protector, stating the name and the age of the emigrant and the name of his father, certifying that he has been duly registered for emigration to the Straits Settlements and mentioning the port of debarkation.

27. If the Protector of Emigrants considers that any emigrant is physically unfit to emigrate, and that he has not dishonestly represented himself as physically fit;

or that any such irregularity has occurred in the recruitment of any such emigrant, as makes it just to vacate the contract;

or if the Emigration Agent refuses without the consent of the Protector to countersign the emigrant's copy of the register as required by section 26, or to be bound by the contract;

the Protector of Emigrants may order the Emigration Agent, or the recruiter with whom the contract was made, forthwith to pay to him such reasonable sum as is necessary to enable such emigrant to return to the place where his name was registered under section 18; and may take any steps he thinks necessary for the conveyance of such emigrant to such place;

and any emigrant who from his state of health is in the opinion of the Protector of Emigrants physically unfit to undertake such return, shall be entitled to be fed, lodged and attended to at the port of embarkation at the expense of the Emigration Agent until he is reported by the Protector of Emigrants fit to undertake such return to such place.

28. If a dependent has accompanied such emigrant, the Protector of Emigrants may order the Emigration Agent or recruiter to pay such sum as is necessary to enable him to return to the place at which his name was registered under section 19, as well as to feed or lodge him during the detention (if any) of the emigrant at the dépôt.

29. If the Protector of Emigrants has reason to think that any dependent is in such a state of health that his journey to the Straits Settlements, or his detention in the dépôt, would be dangerous to himself or others, he shall so certify to the Emigration Agent, and thereupon the emigrant to whom such dependent is attached shall be entitled, if he so wishes, to return as if he himself had been found under section 27 to be physically unfit to emigrate.

If the emigrant still desires to emigrate, then the dependent shall be kept and returned to the place at which he was registered as if he were an emigrant falling under section 27.

30. If upon the arrival of any emigrant or dependent at the dépôt, it appear that, during the journey thither, he has suffered any ill-treatment, or the recruiter has failed to provide him with proper and sufficient food and lodging, the Protector of Emigrants may order the Emigration Agent to pay him a reasonable sum by way of compensation.

31. On failure of the Emigration Agent or of such recruiter for twenty-four hours to comply with an order of the Protector for the payment of any sum, ordered to be paid

under any of the four last preceding sections, the Protector may pay the same to, or on behalf of, the emigrant.

Every sum so paid shall be recoverable by the Protector, with six per cent. per annum interest from the date of payment, from the Emigration Agent, or from such recruiter.

No further proof shall be required by any Court in any such case than that the Protector gave such Emigration Agent or recruiter an order to pay such money, and that the Emigration Agent or recruiter for a space of twenty-four hours made default in complying therewith.

32. Whenever the Emigration Agent refuses, without the consent of the Protector, to countersign an emigrant's copy of the register as required by section 26, or is chargeable with a breach of any duty which any contract with an emigrant expressly or by implication imposes upon him, the Protector may, if he thinks fit, institute a suit on behalf of the emigrant against the Emigration Agent for the recovery of damages for the breach of such contract.

In every such suit the contract entered into by the recruiter shall be deemed to have been entered into by, and to be binding on, the Emigration Agent.

VIII.—EMIGRANT VESSELS.

33. No Master or other person in charge of a vessel shall receive on board any emigrant unless such vessel has been licensed, under the law for the time being in force relating to the carriage by sea of Native passengers, to carry passengers for the intended voyage and unless the Master of such vessel has obtained a certificate from the Protector of Emigrants authorizing him to receive on board the number of emigrants specified therein.

No such certificate shall be granted by the Protector of Emigrants unless he has satisfied himself that the vessel has been licensed as aforesaid, and that provisions and water for the number of emigrants to be specified in the certificate according to the scale prescribed under such law have been actually put on board such vessel.

34. On embarkation, every emigrant shall deliver to the Master of the vessel the embarkation pass granted to him under section 26, and the Master shall not receive any emigrant on board unless he delivers up such pass.

35. The Emigration Agent shall be personally present at the embarkation of all emigrants, and shall see that the Master duly examines the passes of the emigrants, and shall himself also examine such passes.

The Emigration Agent shall not permit any emigrant to remain on board who has not a pass.

36. The Master of every vessel carrying emigrants shall, after the embarkation of the emigrants, and before the departure of the vessel, give to the Emigration Agent a list of all emigrants on board, signed by himself and mentioning the port of debarkation, and shall retain a counterpart of such list signed by the Emigration Agent.

A copy of such list signed by the Emigration Agent and Master shall be sent to the Protector of Emigrants before the vessel sails.

IX.—SUPPLEMENTARY POWERS.

37. Whenever the Governor General in Council has reason to believe that proper measures have not been taken for the protection of emigrants and the enforcement of the engagements entered into with them immediately upon their arrival at the Straits Settlements, or during their residence therein, the Governor General in Council may, by a notification published in the *Gazette of India*, declare that emigration under this Act to the said Settlements shall cease from a day to be specified in such notification.

When any notification has been published under this section, emigration under this Act and the making of contracts to emigrate to the Straits Settlements shall be unlawful from the day specified in such notification.

38. Such notification may be revoked in like manner by the Governor General in Council, and thereupon emigration to the said Settlements shall again be allowed from a day to be specified in the revocation.

From the day so specified all the provisions of this Act authorizing emigration to the said Settlements shall be revived and have the same effect as if such emigration had not been suspended, except as to acts done, offences committed, and proceedings commenced, during the time of such suspension.

X.—OFFENCES.

39. Whoever, except under and in conformity with the provisions of this Act, engages or attempts to engage any Native of India to emigrate,

or whoever engages, or attempts to engage, any Native of India to enter into any such contract as is hereby declared illegal,

or, not being a recruiter duly licensed under this Act, acts or is employed as a recruiter of labourers for the Straits Settlements,

or being a recruiter duly licensed under this Act, removes or attempts to remove any person whom he engages in any district from such district until the particulars required by section 18 have been duly registered,

shall be punished with imprisonment, which may extend to six months, or with fine not exceeding five hundred rupees, or with both.

40. Whoever, by means of intoxication, violence, fraud, or false pretences, causes or induces or attempts to cause or induce

any Native of India to emigrate or to enter into any contract to emigrate, or into any such contract as is hereby declared illegal, or to proceed to the said Settlements without having entered into any contract, shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both; and any police-officer may for such offence arrest him without warrant.

41. Whoever, without lawful authority, issues any written order to the police to assist himself or any other person to procure labourers to proceed to the said Settlements, or falsely represents that such labourers are required by the Government, or are to be engaged on behalf of the Government, shall be liable to imprisonment for a term not exceeding six months, or to fine not exceeding five hundred rupees, or to both.

42. Any Master of a vessel not licensed as provided in section thirty-three who knowingly receives on board, for conveyance to the said Settlements, any emigrant or person who has entered into a contract hereby declared illegal, and any Master of a vessel licensed as aforesaid, who knowingly receives any emigrant as aforesaid without having previously obtained a certificate under the said section, or in excess of the number specified in such certificate,

shall be liable for each emigrant or person so received to imprisonment for a term which may extend to three months, or to fine not exceeding two hundred rupees, or to both, and the vessel shall be liable to be forfeited.

43. Any Master of a vessel who receives on board such vessel any emigrant for the said Settlements and fails to comply with the requirements of sections 34 and 36, shall be liable to a fine not exceeding two hundred rupees.

44. Any Master of a vessel landing any emigrant or dependent at any port other than the port of debarkation specified in embarkation-pass and list, unless in case of stress of weather or other unavoidable accident, shall be liable for every emigrant or dependent so landed to a fine not exceeding two hundred rupees, or to imprisonment for a term which may extend to one month, or to both.

45. Any Master of a vessel who having cleared such vessel for the said Settlements, takes on board any emigrant not entered in the list mentioned in section 36, shall be liable to a fine not exceeding two hundred rupees for every emigrant so taken on board.

46. All prosecutions under sections 42, 43, 44 and 45 shall be instituted by the Emigration Agent, or by the Protector of Emigrants, or by an officer appointed for the purpose by the Local Government.

47. All the powers vested by law in the officers of Customs in regard to the searching and detention of vessels, or otherwise, for the prevention of smuggling on board thereof, may be

exercised by such officers for the prevention and detection of the illegal embarkation of emigrants on board vessels bound for the said Settlements and of other offences against this Act.

XI.—MISCELLANEOUS.

48. Nothing in this Act shall apply to any vessels in the service of the Lords Commissioners of the Admiralty, or to any of Her Majesty's vessels.

49. Nothing in this Act shall apply to any contract with, or the emigration of, any Native seaman, or other person who of his own free will contracts to navigate or serve on board of any vessel, or who embarks on board such vessel in pursuance of such contract, or any person who contracts to serve as a menial servant only and who embarks as such menial servant.

50. The Emigration Agent and all persons employed by him and the Protector of Emigrants shall be deemed to be public servants within the meaning of the Indian Penal Code.

51. The Indian Emigration Act, 1871, shall not apply to the Straits Settlements, unless and until the Governor General in Council, by notification in the *Gazette of India*, declares it so to apply.

52. Act No. XIV of 1872 (*to exempt the Straits Settlements from the Indian Emigration Act, 1871*) is hereby repealed.

Bills introduced into the Council of the Governor General for making
Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT:

[Second Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March 1877 :—

No. 6 OF 1877.

A Bill to amend the law relating to assignments from the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871.

WHEREAS it is expedient to authorise the Local Government of the North-Western Provinces to provide out of the general Provincial Fund established under the North-Western Provinces Local Rates Act, 1871, for payment of certain charges incurred or to be incurred on account of canals and railways in the North-Western Provinces ; It is hereby enacted as follows :—

1. Section 10 of the said Act shall be repealed, and in lieu thereof the following shall be substituted :—

“ 10. The Lieutenant-Governor may from time to time assign from such Fund such amount as he thinks fit, to be applied in payment of charges incurred or to be incurred on account of such canals and railways as he, with the previous sanction of the Governor General in Council, may declare to be works of general provincial utility, and he shall from time to time allot from such Fund an amount to be applied in each district for expenditure on all or any of the following purposes :—

(a) the construction, repair and maintenance of roads and communications ;

(b) the maintenance of the rural police and district post ;

(c) the construction and repair of school-houses, the maintenance and inspection of schools, the training of teachers, and the establishment of scholarships ;

(d) the construction and repair of hospitals, dispensaries, lunatic asylums, markets, wells and tanks ; the payment of all charges connected with the purposes for which such buildings or works have been constructed, and any other local works likely to promote the public health, comfort or convenience :

Provided that the amount assigned in respect of such canals and railways shall not exceed ten per cent. of the total sum levied under this Act in the year in which the assignment was made, and that the amount allotted to be applied in each district for expenditure on all or any of the purposes mentioned in clauses (a), (b), (c) and (d) of this section shall be at least ninety per cent. of the total sum levied under this Act in such district in the year in which the allotment was made.”

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to make a small amendment of Act No. XVIII of 1871, which provides for the levy, in the North-Western Provinces, of rates on land for local purposes. These rates are in the first instance credited to a general Provincial Fund, from which the Lieutenant-Governor is bound to assign amounts to be applied in each district for certain specified purposes.

These are the construction and maintenance of Roads and Communications ; Rural Police ; District-post ; Education ; Hospitals ; Lunatic Asylums ; Markets ; Wells and Tanks ; and other local works likely to promote the public health, comfort, or convenience ; the annual assignment made to each district must not be less than the total amount of local rates levied in it ; but any portion of such assignment which remains unexpended at the end of the year may be spent in any way which the Lieutenant-Governor thinks beneficial to the North-Western Provinces generally.

The principle is thus recognized, that these rates may, in part at least, be expended on objects of provincial utility; and, as a matter of fact, a large portion of them has been so expended. As it is not now wished to increase the burdens on the land, the present Bill proposes to authorize the Local Government to make assignments from the local rates for the purpose of meeting charges on account of Irrigation-works and Railways of provincial utility: the maximum amount of such assignments is fixed at ten per cent. of the total sum levied under the proposed Act, leaving 90 per cent. to be spent as at present; but there is no reason for anticipating that the actual proportion of the rates so assigned will amount to this maximum. The total amount of the local rates levied annually in the North-Western Provinces is about £430,000, and the proposed amendment of the law will not seriously diminish the existing grants for local purposes.

WHITLEY STOKES,
Secy. to the Govt. of India.

[Second Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th March 1877 :—

No. 7 OF 1877.

A Bill for the licensing of certain trades and dealings in the North-Western Provinces.

WHEREAS it is expedient that persons carrying on certain trades and dealings in the North-Western Provinces should take out licenses and pay for the same; It is hereby enacted as follows :—

1. This Act shall be called “ The North-Western Provinces License Act, 1877 : ”

It extends only to the provinces under the government of the Lieutenant-Governor of the North-Western Provinces ;

And it shall come into force at once.

2. Every person who, on and after the first day of April 1877, falls under any of the heads specified in the schedule hereto annexed and carries on (whether on behalf of himself or any other person) his trade or dealing, shall take out a license under this Act and shall pay for the same the annual fee mentioned in the same schedule as payable by persons of the class and grade to which he belongs: provided that, for any such license granted between the first day of November in each year, and the thirtieth day of April next ensuing, there shall be paid only one-half of such fee.

3. Every license under this Act shall be granted by the Collector of Land Revenue of the district or place in which the person requiring such license carries on his trade or dealing: provided that, if such person carries on his trade or dealing in more than one district or place in the North-Western Provinces, the license shall be granted by

the Collector of the district or place in which his principal place of business is situate.

Every such license shall be signed by the Collector granting it, or by any Assistant or Deputy Collector under the Collector's orders, and the Courts shall take judicial notice of such signature.

Particulars to be specified in the license. 4. Every such license shall specify—

- (a) the date of the grant thereof;
 - (b) the name, father's name, caste, and trade or dealing of the licensee;
 - (c) the fee paid for the license;
 - (d) the place or places where the licensee intends to carry on trade or dealing for the ensuing year; and
 - (e) the term for which the license shall remain in force,
- and shall be received in evidence as *prima facie* proof of all matters contained therein.

5. Every such license shall have effect and continue in force from the day of the date thereof till the first day of April next after the day of the granting thereof.

6. Every person to whom any such license has been granted and who desires to continue to carry on his trade or dealing after the expiration thereof, shall take out a fresh license for that purpose for the following year, to expire on the day appointed in the last preceding section, and shall renew the same so long as he desires to continue to carry on such trade or dealing.

7. The Collector shall from time to time determine under which of the classes and grades mentioned in the said schedule every person to whom a license may be granted by him as aforesaid shall be charged.

List of Licenses.

8. As soon as may be after the first day of April 1877 and the first day of January in every subsequent year, the Collector shall prepare a list of the persons licensed under this Act in the district or place aforesaid. Such list shall state—

- (a) the trade or calling of each of the persons therein named;
- (b) the class and grade under which he is charged; and
- (c) the fee paid for his license.

Such list shall be filed in the office of the Collector, and the list, or such part or parts thereof as he shall think fit, shall be filed in such other places as the Collector directs, and shall be open to public inspection at all reasonable times, without any payment.

9. The Collector shall, at or about the same time, issue a notification, in such form as the Local Government directs, showing the classes and grades chargeable under this Act, and the fees which members of each class and grade are charged, with such other information as the Local Government may direct.

The notification shall be published in the principal muhallas or ganjes of all towns, and in the chaupál, or other public place, in all villages concerned.

10. So soon as may be practicable after the issue of such notification, notice shall be served on each person charged: provided that in any year it shall not be necessary that such notice shall be served on any person charged under this Act in the year immediately preceding.

Such notice shall contain—
the name, father's name, caste, and trade or dealing of the person charged;
the class and grade under which he falls;
the fee payable by him under this Act;
the date on which such payment is to be made;
the mode and place of payment and the person to whom the fee may be paid;
the penalty incurred by failure to make payment of the fee on the given date;

and shall notify that if the person so served continues his trade or dealing, payment of the amount specified in the notice must be made in the year 1877, within thirty days of receiving the notice, and within thirty days next after the first day of January of each subsequent year.

11. Any person served with such notice and objecting to the class or grade under which he is charged may, within thirty days after such service, apply by petition to the Collector in order to establish his right to have his name transferred to another class or grade or altogether removed from the list.

The statements contained in the petition shall be verified by the petitioner or some other competent person in manner required by law for the verification of plaints.

12. The Collector shall fix a day for the hearing of the petition, and on the day so fixed shall hear the same and pass such order thereupon as to him shall seem fit:

Provided that if in his judgment the fee which the petitioner has been charged exceeds two per cent. upon his annual nett earnings, such excess shall, for the purpose of section eleven, be deemed a valid objection:

Provided also that if in the judgment of the Collector the nett annual earnings of the petitioner are less than two hundred rupees, the petitioner's name shall be removed from the list.

Any person dissatisfied with such order may, within fifteen days from the date thereof, present a petition of appeal to the Commissioner of Revenue of the Division, whose decision upon such appeal shall be final.

Every petition presented under this section shall be accompanied by a copy of the petition to the Collector, the Collector's order thereon, and all other documents (if any) connected with the case.

Penalties.

13. If after expiry of the period mentioned in the notice served on him under section ten, for payment of the amount specified

therein, any person carries on his trade or calling without having taken out a license as required by this Act, he shall be liable, by order of the Collector, to pay twice the fee with which he would otherwise have been chargeable under this Act, and on receipt of such payment, the Collector shall grant him a license.

All sums due under this section shall be recoverable as if they were arrears of land-revenue.

14. Every person required by this Act to take out a license, who without reasonable excuse neglects or refuses to produce and show his license when required so to do by an officer generally or specially empowered in writing by the Collector to make such requisition, shall, on conviction before a Magistrate, be liable to a fine not exceeding one hundred rupees.

No person shall be proceeded against for any offence except at the instance of the Collector, and there shall be no appeal from any sentence under this section.

Receivers, Courts of Wards and Trustees.

15. Receivers or managers appointed by any Court in India, and the Courts of Wards, shall be chargeable under this Act in respect of any trade or dealing of which the income is officially in their possession or under their control.

16. When any trustee, guardian, curator, committee or agent is charged under this Act in such capacity, or when any receiver appointed by any Court or Court of Wards is charged under this Act, every person and Court so charged may, from time to time, out of the money coming to his or its possession as such trustee, guardian, curator, committee or agent, or as such receiver or Court of Wards, retain so much as is sufficient to pay the fee charged.

Every such person or Court is hereby indemnified for every retention and payment made in pursuance of this Act.

Municipalities.

17. The Collector of the District may require any Municipal Committee constituted under Act No. XV of 1873 to furnish, within a period to be specified under the orders of the Local Government, returns showing the names and numbers of persons chargeable under this Act resident within the limits of such Municipality, together with the class and grade under which they respectively fall and the fees payable by them respectively.

If the Municipal Committee fails within the period prescribed to make such returns, or if it make such returns, but the Collector of the District has reason to doubt their accuracy, he may at any time cause a return showing the names, numbers, classes and grades aforesaid to be prepared in such manner as may be prescribed by the Local Government.

18. When the return mentioned in section 17 has been furnished or prepared, notice shall be served on the Municipality, calling

on it to pay to the Collector of the District, within a period to be specified in the notice, a sum calculated on such return in accordance with the provisions of this Act.

Any Municipality may appropriate any part of its revenues to the payment of the sum leviable from it under this section, or raise such further sums in addition to its existing revenue as may be needful for such payment: provided that such further sums be raised in accordance with the said Act No. XV of 1873.

Miscellaneous.

19. All taxes raised and penalties recovered under this Act shall be paid to the credit of the Local Government, or as such Government shall from time to time direct.

20. All or any of the powers and duties conferred and imposed by this Act on a Collector, an Assistant or Deputy Collector, and a Commissioner of Revenue, may be exercised and performed by such other officers or persons as the Local Government shall from time to time appoint in this behalf.

Every person shall be legally bound to furnish information to any officer or person so appointed when required by him to do so.

21. Nothing in this Act applies to (a) persons being itinerant vendors only, or (b) persons earning their livelihood solely by agriculture.

22. The Local Government may, from time to time, with the previous sanction of the Governor General in Council,

(a) exempt from the operation of this Act any portion of the territories subject to such Government or any class of trade or dealings falling under the said schedule;

(b) make rules consistent with this Act, (1) for regulating the time and manner of collecting the fees charged under this Act, (2) for allowing to the persons employed in the collection fees not exceeding three per centum on the fees so collected charged to the licensees, and (3) generally for the guidance of officers in matters connected with the enforcement of this Act.

	Fourth grade ...	„ 2

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to impose a light License-tax on Traders and Dealers in the North-Western Provinces. Similar measures are in force in many large Indian towns and (under Act XIV of 1867) in the Central Provinces. The principal trades have been classified and graded, and a specific sum is put down against each class and grade: the highest license fees proposed are those on Bankers and wholesale dealers in country-produce; and they vary from Rs. 16 to Rs. 64 a year: other traders will have to pay smaller sums, which are in some cases as low as Rs. 2, and in no case exceed Rs. 32.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st March 1877:

No. 8 OF 1877.

A Bill to facilitate the admission of Military Lunatics into Asylums.

WHEREAS it is expedient to facilitate the admission of European Military Lunatics into Asylums, and to amend the law now in

force with regard to the admission thereto of Native Military Lunatics; It is hereby enacted as follows:—

1. This Act may be called the "Military Lunatics Act, 1877:"

It extends to the whole of British India and, so far as regards subjects of Her Majesty, to the dominions of Native Princes and States in India in alliance with Her Majesty;

And it shall come into force on the passing thereof.

2. Act XXI of 1872 (*to facilitate the admission of Native Military Lunatics into Asylums*) shall be repealed.

3. Whenever any European officer, Warrant-officer, Non-commissioned officer, soldier or other person subject to the provisions of the Act for punishing Mutiny and Desertion and for the better payment of the Army and their quarters for the time being in force has been declared a lunatic, in accordance with the provisions of the military regulations of the Presidency to which he belongs, and has been ordered to be forwarded to any one of the Presidency-towns, and it appears to one of the Surgeons-General, either of the British Forces or of the Indian Medical Service, according to the Presidency and the service to which the said lunatic belongs, that it is inexpedient that he should be removed to England, or that he should be detained in military custody until he can be conveniently sent to England, such Surgeon General may, if he think fit, make an order under his hand for the reception of the said lunatic into the Lunatic Asylum at Bhowanipur, Madras or Bombay, or such other Lunatic Asylum as may be duly authorized for the purpose by the Governor General in Council;

and the officer in charge of such asylum shall receive the lunatic in the asylum, and detain him therein until he is discharged therefrom, in accordance with the local military regulations in force for the time being, or until the Surgeon General applies for his transfer to the military authorities in view to his removal to England.

4. Whenever any Native officer, Non-commissioned officer or soldier appears to be insane, the officer commanding the regiment or detachment to which he belongs shall report the case to the general officer commanding the division or district or force in which such regiment or detachment is serving.

5. Such general officer shall thereupon cause the said Native to be examined by a committee composed of at least two medical officers, or (if this be impracticable) by a regimental committee comprising the officer in command of the wing or squadron to which the Native belongs and the medical officer in charge of the corps or detachment of which such wing or squadron forms part.

6. If the said committee or regimental committee (as the case may be) are satisfied that the Native is insane, the officer commanding the division or district or force may, if he thinks fit, make an order under his hand for the reception of the said Native into a Lunatic Asylum, and shall then send him thither under military escort; and the officer in charge of such asylum shall receive the Native into the asylum and detain him therein until he is discharged therefrom in accordance with the local military regulations in force for the time being.

7. Whenever it appears to the officer in charge of a Lunatic Asylum that the discharge of a military lunatic, whether European or Native, is necessary either on account of his recovery, or for any other purpose, such person shall be brought before the visitors of the asylum, and on the visitors recording their opinion that the discharge should be made, the general officer commanding the division, district or force, or other officer authorized to order the admission of military lunatics into asylums, shall forthwith direct him to be discharged, and such discharge shall take place in accordance with the local military regulations in force for the time being.

8. The Paymaster of the military circle within which any such asylum is situated shall pay to the officer in charge of such asylum the expense of the lodging, maintenance, clothing and medicine of every lunatic, whether European or Native, received and detained under this Act.

9. All military lunatics heretofore received into Lunatic Asylums shall be deemed to have been so received in accordance with law.

STATEMENT OF OBJECTS AND REASONS.

It appears that at present there is no law whatever under which British soldiers afflicted with mental disease can be admitted into, or (when cured) discharged from, Lunatic Asylums in this country; and the primary object of this Bill is to legalize such admission and discharge.

At the same time the opportunity has been taken to amend the law as to the discharge of Native military lunatics. The Bill proposes to repeal Act XXI of 1872 (*to facilitate the admission of Native Military Lunatics into Asylums*) and re-enact it with the necessary addition.

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 21st March 1877 :—

No. 9 OF 1877.

A Bill to revive and amend Act No. XXIII of 1867.

WHEREAS Act No. XXIII of 1867 (*for the suppression of murderous outrages in certain districts of the Panjáb*) received the assent of the Governor General on the 18th day of March 1867, and by section 17 of the said Act was limited to expire in ten years from the date of passing it; And whereas it is expedient to revive the same Act and to amend it in manner hereinafter appearing; It is hereby enacted as follows :—

1. The said Act shall be revived and shall remain in force until the Governor General in Council otherwise directs.

2. For the word "Commissioner" wherever it occurs in the said Act, the words "Sessions Judge or Commissioner" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Panjáb Murderous Outrages Act, XXIII of 1867, expired on the 18th instant, and the primary object of this Bill is to revive it.

At the same time the opportunity has been taken to amend the Act by extending to the Sessions Judge the jurisdiction which it gives to the Commissioner only.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

DEVELOPMENT OF THE EXPORT TRADE IN INDIAN WHEAT.

No. 3030.

Extract from the Proceedings of the Government of India in the Department of Revenue, Agriculture and Commerce, dated Calcutta, the 11th March 1876.

[AGRICULTURE AND HORTICULTURE.]

READ the following despatches from the Secretary of State:—

No. 130 (Statistics and Commerce), dated the 21st December 1876, forwarding an extract from a letter from a merchant in London, on the subject of the qualities of Indian wheat which are most appreciated in the English market, and of the means by which the prices given for them might be raised, and drawing attention to the importance of the adoption of measures with a view to encourage the improved cultivation, of this grain and to facilitate its transport to England in good condition.

No. 14 (Statistics and Commerce), dated the 18th January 1877, requesting that a compilation be prepared shewing the main features of the cultivation of wheat, its consumption and export, the selling prices, the probable cost of transport; and that samples of the chief local varieties of the grain carefully named and described may be made and sent to England.

Read also the following papers shewing the action taken by the Chief Commissioner of the Central Provinces, with a view to improving the quality of the wheat in those Provinces and preventing its admixture with other grains:—

Circular No. 11, dated the 5th May 1876.

Extract, paragraph 3, from a circular, No. 25, dated the 4th August 1876.

Circular letter No. 3433-162, dated the 9th September 1876, and enclosures.

RESOLUTION.

OBSERVATIONS.—The development of the export trade in Indian wheat has long occupied the attention of the Government of India. In January 1873, on the representation of the Bombay Chamber of Commerce, who urged that the weight of the export duty and the length of the sea voyage practically disabled Indian wheat from successfully competing with any country in the English market, except perhaps California and Australia, the Government of India freed Indian wheat from all duty on export.

2. Since then, aided by various other circumstances, particularly the shortened transit through the Suez Canal, and recently the state of exchange,

and perhaps to some extent the political condition of Eastern Europe, the increase in the trade has been very great, as will be seen from the figures appended showing the quantity and value of the wheat exported to foreign countries :...

		Cwt.	Rs.
1871-72	...	637,099	23,56,445
1872-73	...	394,010	16,76,900
1873-74	...	1,755,954	82,76
1874-75	...	1,069,076	49,04,352
1875-76	...	2,498,285	90,10,255
1876-77 (first ten months)		4,839,290	1,67,34,001

Seeing that the quality of Indian wheat has commended itself to English millers, it may be hoped that with the advantages she now possesses, India will be able to maintain this important trade at a high level. But it must not be forgotten that this country has active and eager competitors in the United States, Southern Russia, Austro-Hungary, and Egypt, and that some of these countries are naturally possessed of great advantages in the shipment of wheat to England. It is necessary, therefore, that the greatest care should be taken by every body interested in the trade, from the cultivator to the shipper, to prevent any cause for complaint regarding the quality of the grain exported.

3. It appears from the despatch No. 130, received from Her Majesty's Secretary of State, that complaints are now made of the dirty condition of Indian wheat received in England, as well as of its admixture with inferior grains. The Governor-General in Council desires that these papers may be circulated amongst district officers and published for general information. To some extent the complaints regarding the dirty condition of our wheat will diminish with the extended employment of the railways in its carriage to the port of shipment, in supersession of boats, and with the increased facilities of despatch from the port. A great deal may also be done by the trade in undertaking the cleansing and sorting of the grain before it is shipped. It would appear from a letter from the firm of Messrs. Scott, Finlay & Co., of Bombay, to the Chief Commissioner of the Central Provinces, that in the present state of the market it would hardly be profitable to incur much expense in such cleansing and sorting. But probably with an increased demand for cleaned and sorted wheat, it will prove remunerative to set up winnowing and sorting machines of the kind referred to in the communication from Her Majesty's Secretary of State at the great centres of shipment, *viz.*, Bombay, Kurrachee, and Calcutta. In view of the poverty and ignorance of the agricultural community of India, the Governor-General in Council does not consider that it would be expedient to suggest the employment in the rural districts of machines, the purchase of which would require capital which is probably not forthcoming, and the repair of which, when broken, could not be effected except at the Presidency towns. His Excellency in Council considers, however, that much may be done in the way of advice and instruction by district officers to impress upon the agriculturist the necessity of so treating his crop, after it has been reaped, as to keep it reasonably clean, and that such advice will be welcomed and acted upon by the cultivator in his own interest as soon as it is made clear to him that clean wheat will command a readier and better market than dirty grain.

4. The question of admixture of wheat with inferior grains, such as barley and gram, is a separate matter. It is not probable that the adulteration is altogether fraudulent. The truth is that the cultivating classes, who do not largely consume wheat themselves but the inferior grains, have hitherto been in the habit of sowing these inferior grains with their wheat in the same field, the object being to have some resource to fall back upon in the event either of failure in the wheat crop or of difficulty in selling it at a remunerative price. As long as circumstances operated against the development of a steady and sure trade in wheat, this practice of the cultivator could perhaps only be regarded as dictated by prudence. But circumstances have changed, and a practice which formerly was reasonable, has now no reason for continuance, and indeed its continuance will have an injurious effect on the cultivator. There seems little reason to doubt that the agricultural community will be

ready to modify this habit on becoming acquainted with the facts of the case, and that they may easily be persuaded either to cease to cultivate inferior grains in the same field with wheat, or to be careful in reaping to keep them apart. The local officers in each district should cause them to be properly instructed in this matter, and they should specially impress upon the cultivators the need for careful selection of their seed. Much good may result from judicious action in this direction, and the Governor-General in Council commends the matter to the particular attention of the local authorities. His Excellency in Council has noticed with much satisfaction the steps which have already been taken towards the attainment of the object desired by the Chief Commissioner of the Central Provinces.

5. The Secretary of State for India desires that a paper may be prepared, bringing together all the facts procurable regarding wheat cultivation in India. To assist in the preparation of such a paper, the Governor-General in Council requests that in each province a memorandum may be drawn up, shewing, as far as the information may be available,

- (1) the names of the districts in which wheat is grown;
- (2) the area (in acres) under wheat in each of the last five years to the end of 1876-77;
- (3) the average outturn in pounds per acre;
- (4) a brief account of the cultivation, in which should be stated the kind of land preferred, the quantity of seed sown per acre, the crop which wheat follows, the season of cultivation, and other useful particulars;
- (5) the average wholesale price of wheat;
- (6) average consumption per head of the population of the district;
- (7) total consumption within the district;
- (8) annual imports into the district for five years, and places whence imported;
- (9) annual exports for the same period, places whither exported, and proportion carried by road, rail or river;
- (10) estimated average cost of cartage to the railway station nearest the district;
- (11) cost of transit to port of shipment (Calcutta, Bombay, or Kurrachee), by rail, by road, and by river;
- (12) local names for the varieties of wheat cultivated, and their description in English; and
- (13) a general summary for the province, shewing the total area under wheat, the average outturn per acre, the total outturn, and the details of the import and export trade.

6. It is also requested that no time may be lost in obtaining the samples of wheat required by the Secretary of State. It is desirable that these should be put up in bags containing two pounds each, properly labelled with the name of the district in which the wheat was grown and its distinctive name. These samples should be forwarded to this office as soon as possible, without waiting for the completion of the information asked for.

ORDER.—Ordered that a copy of this Resolution, with a copy of the papers read in the preamble, be forwarded to the
 with a request that the necessary measures may be taken without delay to carry into effect the suggestions and instructions contained in this Resolution. The Governor-General in Council will be glad to receive any suggestions which local Governments and Administrations may desire to make with a view to the further development and improvement of the trade.

(True Extract.)

G. H. M. BATTEN,

Offg. Secretary to the Government of India.

No. 130 (Statistics and Commerce), dated India Office, London, 21st December 1876.

From—Her Majesty's Secretary of State for India,

To—The Government of India.

I transmit, for the information of Your Excellency, an extract of a letter from a merchant in London, on the subject of the qualities of Indian wheat which are most appreciated in the English market, and of the means by which the price given for them might be raised. Besides the points therein mentioned, it is desirable that attention should be drawn to the loss resulting

from the mixture of barley or gram with the wheat, and from the want of cleanliness in the granaries in which it is stored and in the boats in which it is carried to the port of shipment. Any means by which the importance of remedying these defects can be impressed on the people may have a very salutary effect on the trade.

2. I have applied for further information on the subject of a system of inspection said to be adopted in the United States and Canada, as described in the accompanying extract from a statement relating to the trade of Canada.

ENCLOSURES.

No. 1.

Extract of a letter from a London Merchant, dated December 1876.

With reference to the interview I had with you last month as to the growth and production of wheat in the Empire of India, I now beg to lay before you a short statement of the present position of the trade, to which I have paid close attention the last three or four years.

Calcutta.—The wheats that come from this port are fine, mellow, soft, white,—from Cawnpore, Meerut, and Delhi districts,—which bring the highest price in the market (except the finest Bombay, which, however, so far has not formed an article of import owing to inadequate prices obtained in London and Liverpool), and are very clean on the whole; they could, however, be improved by proper blowing and exhaust machines and sifting machines, and I should recommend this to be done so as to get rid of grain, tares, and barley as much as possible; if this cleaning process is enforced by the district officials, I have no doubt these fine wheats could be made worth 2s. to 4s. per quarter more money in the United Kingdom. As far as I can make out from merchants who have been in the North-West, the name these fine wheats go by is "Pegu" or "Pegoo." In our market, it goes by the name of "No. 1 Club."

I next come to a wheat, inferior to the above, which I understand goes generally by the name of "Doodiah" or "Doodcah," being called in our market "No. 2 Club." This is the quality we see most of, and it is very well liked, as in preparing for use it absorbs a great weight of water, which, of course, is very profitable for the miller in this country. The great drawback to it, however, is its foulness, caused by admixture with grain, tares, and barley. There is no reason, however, why, in two or three seasons, this fault should not be almost entirely remedied by your officers attending to properly cleaned seed being put into the ground.

I next come to a white-grey hard wheat, which appears to me to come from low ground, as it is almost as hard and flinty as rice; on the whole, it is a clear wheat, still it could be improved by the seed wheat being better attended to.

I next come to a soft red wheat, which appears to me to come from the same districts as the "No. 2 Club," as, except in colour, it seems to be the same style of grain; it is quite as foul as the "No. 2 Club," and, by properly cleaning it for seed, I have no doubt its value as an article of trade could be raised also 2s. to 4s. per quarter.

Another class of wheat we see largely from Calcutta is a rather large-berried wheat, classed between the No. 1 and No. 2, which we call in Mark Lane "Mountain Club," parties who have seen it grow telling me it comes from pretty high ground. This is a clean wheat, but can also be improved by the seed being more carefully attended to.

The last wheat I would name as coming from Calcutta is from the Central Provinces, and is called "Jubbulpore;" the district where it is produced lies about half-way between Bombay and Calcutta by rail, and most of it goes to the west coast for shipment, and I therefore treat this under the head of—

Bombay.—The wheats from this port seem to be all produced in Central India; at least all I have seen, whether soft or hard, show a long, bold grain just like the "Jubbulpore."

No. 1, "White Bombay," is the finest wheat I have ever seen from India, and it does not seem possible to improve upon it, when I state that it sells at close to the same price as Australian (the finest wheat imported).

No. 2, "Bombay White," is also a superior article, but its great drawback is the coarse large-grained brown wheat, and some pains ought to be taken to have this grain extracted. The same cleaning machines named elsewhere in this paper might be tried to get it out, but I doubt the success of this process, and suspect the only way to bring the No. 2 wheat up to the No. 1 is to hand-pick out the coarse brown grain and sow the wheats separate. In three or four seasons, by this mode, I feel sure the quantity of No. 1, "Bombay White," might be much increased, and No. 2 decreased in proportion.

The next wheat to be noticed as exported from Bombay is the long-berried coarse brown wheat, a good article, but not much known on this side, and does not bring within 5s. per quarter of No. 2 White.

From Bombay also is exported a very fine long-berried hard wheat, of which large quantities have gone the last two seasons to Marseilles and other Mediterranean ports; but it is not liked here, being too much of rice nature. So far as the Bombay wheat trade is concerned, the production of the fine wheats should be as much encouraged as possible for the United Kingdom consumption, and as regards cleaning, where necessary, the machines mentioned elsewhere are the best.

Madras.—So far as I know, no wheat has reached the United Kingdom from that presidency, but I have this season seen a sample of red wheat thence which would do well for use in our markets, being of a sound, strong red type.

Kurrachee.—The export of wheat from the Indus country through this port has been at times considerable, and there seems to me no reason why it should not rapidly increase; the quality of the wheat, white and red, is soft and mellow, but its great drawback is the large admixture of barley it contains, which ought to be got out. I have no hesitation in saying that, in four or five years, Kurrachee-shipped wheat would be improved 2*s.* to 5*s.* per quarter if due attention were paid to the cleaning of the seed wheat. The machines I allude to elsewhere are the very things for the purpose, and I have great confidence in the future of the Indus country as growing wheat, since the grain itself is mellow and easy for the miller to handle.

Machines.—I have taken a good deal of trouble in this matter, consulting Dell and Son of Mark Lane, who are clever, intelligent machine-inventors and makers, and most respectable people. I send you several copies of their last list, and Mr.

Dell, Junior, has kindly noted a few remarks against the machine* he specially points to for seed wheat cleaning purposes; he is supplying D. Sassoon & Co. with machines for cleaning the wheat shipped now so freely at Bussorah on the Persian Gulf, and from experiments on foul wheats from India, Persia, and Syria, that I have seen, there is no doubt Messrs. Dell and Son understand their business in recommending the machines they do.

Of course, I need hardly tell you that the cause of the sudden increase in the wheat trade with India is the opening up of the Suez Canal, thus enabling wheat to arrive in London and Liverpool in 42 to 48 days from Calcutta, from dates of bill of lading, in 35 to 38 days from Bombay, in 40 to 45 days from Kurrachee, by which means the ravages of the weevil are much checked; and altogether the trade is rapidly settling down to a regular one, the quality of wheat from India generally competing well with Russian, British, and American sorts. It appears to me that the grand thing to point to is to get the wheat as cheaply as possible to the ports, either by cheapening railway carriage, or improving the rivers, or increasing and extending canals,—probably you will say, by doing all.

Before ending these remarks, which I fear you may find wearisome, I should not like you to suppose that shipments are made by the Suez Canal alone, though they are so entirely from Kurrachee, and very much so from Bombay; from Calcutta, however, large quantities of wheat are shipped yearly by sailing vessels, and it is found the grain stands the voyage well by being stowed at the bottoms of the ships in bags, where no light or air can get to it, thus keeping the destructive weevil quiet and in a dormant state.

If you want any more information, I shall be glad to give it you, or obtain it for you if it is not within my personal knowledge.

As far as I can find out, the Calcutta people call the different wheats as follows:—

Soft red, "Jamajallee."	} Gunga and Jumna—wheats of the Doab.
Hard „ "Gungajallee."	
Soft white, "Doodeah."	
Soft „ (fine, North-West), "Pegu," or "Pegoo."	

Prospectus referred to in preceding letter.

BLOWING, WINNOWING, AND SCREENING MACHINES.

THE universal approval and many prizes accorded to this machine have given rise to many imitations. Every part of these machines is made to a standard gauge, thus ensuring an accuracy of fit, and facility of repair, unequalled in any other machine of this class. The care and attention which has been bestowed upon the production of these improved machines, together with the sound principles upon which they are constructed,—ensuring durability and efficiency to a high degree,—have already brought them into extensive use. They are made of the very best materials; are light, simple, pleasing in appearance, such as can only be obtained by first-class design and workmanship.

For separating and cleaning all kinds of grain and seeds for market, this machine has no equal. For export they are not to be surpassed, being durable and simple. They are capable of cleaning grain as fast as one man can fill the machine, being a complete blowing and dressing machine at one time, but can be used as a blower separately, if required. Having an eccentric motion, it can be thrown in and out of gear, making two complete implements in one. Large stock always on hand.

Prices.

No. 1.—Machine complete, with blowing apparatus riddles, 22 by 18 inches, £10. If of hard wood for hot climate, £1 extra.

This machine, with special sieves, will do 8 to 10 quarters per hour of the sample tried. If put through twice, a great improvement would be made on the first sample.

No. 2.—Same as No. 1, without blowing apparatus, £9.

No. 3.—Small size, without blowing apparatus riddles, 18 by 18 inches, £8.

Blowing apparatus to No. 3, 15*s.* extra.

Seed riddles, 10*s.* extra.

No. 4.—New size for small occupations, riddles, 16 by 16 inches, £6 10*s.*

For shipment machines can be made in sections, so that six machines will occupy the measurement of one when erected.

Facilities for transferring grain, &c.

* * * * *

With all the facilities referred to at his command, the grain merchant in Montreal stands in a most important relation to the markets of Europe on the one hand, and the vast cornfields of the western world on the other. In response to orders by cable, he either forthwith buys Canada wheat on the spot or near at hand, or he directs the purchase of grain in Chicago or Milwaukee. Subjected, as it is, at these great centres, to the most perfect system of inspection in existence, it arrives at Kingston, and is there transferred to barges of similar capacity to the vessels from which it is delivered, and, passing through the cool waters of the river St. Lawrence, the cargo of wheat, corn, rye, or other grain, is placed alongside the ocean-going ship for transport across the Atlantic. All this is accomplished, as must be evident, without the possibility of the grain being changed, or mixed with an inferior quality, by the way (a result which cannot be relied upon by any other route), thus giving additional value to the inspection certificate which was issued for the cargo at the original port of shipment. Not the least important consideration is, that the northerly latitude of the Canadian transportation route relieves the grain from all danger as to *condition*, even in the summer months, when the risk by other channels is comparatively great.

No. 14 (Statistics and Commerce), dated India Office, London, 18th January 1877.

From—Her Majesty's Secretary of State for India,

To—The Government of India.

In my despatch of the 21st ultimo, No. 130, I drew Your Excellency's attention to the importance of measures adapted to encourage the improved cultivation of wheat, and to facilitate its transport to this country in good condition.

2. It seems very desirable that a compilation should be prepared, as has already been done with various Indian products, shewing the main features of its cultivation, consumption and export, the local selling prices for a series of years, and the probable cost of transport from the chief markets to the place of export. An attempt to prepare such a paper has been made in the Department of the Reporter on Products; but it was found that the information in this country was not sufficient for the purpose.

3. A selection should also be made of the chief local varieties of the grain, and samples should be sent to England carefully named and described, so that their place of production could be certainly distinguished, in order that the opinion of competent persons in this country may be obtained as to their market-value. This latter suggestion is one which might, in my opinion, be advantageously acted upon with the least practicable delay.

Circular No. 11, dated Nagpur, 5th May 1876.

From—The Offg. Secretary to the Chief Commissioner, Central Provinces,

To—All Commissioners and Deputy Commissioners, Central Provinces.

It has been represented to the Chief Commissioner that the value of the wheat which is exported from these provinces to England—and of late years a considerable quantity of wheat has found its way to England—is materially affected by its admixture with *lak*, *massur*, and similar pulses.

2. The Chief Commissioner is aware that it is a common practice in these provinces to sow these pulses with the wheat, but the practice is one which it is very desirable to discourage. It is said that, by machinery, stones, dirt and sand can be easily separated from the wheat, but not so this admixture of pulse, which on the wheat being ground, gives the flour a bad colour and materially reduces its market-value.

3. The Chief Commissioner desires that Deputy Commissioners will explain to malguzars and cultivators how injurious the present practice is, and will try to induce them to keep their wheat free from admixture. The price of agricultural produce has fallen so much of late years that farmers cannot afford to lose the excellent market for their wheat which England appears to be likely to become, and if they will only endeavour to suit the English market, it seems probable that Indian wheat will become an important export and may rival the other wheat-producing countries which supply England.

Extract, paragraph 3, from a Circular, No. 25, dated 4th August 1876, from the Officiating Assistant Secretary to the Chief Commissioner, to all Commissioners and Deputy Commissioners in the Central Provinces.

Para. 3.—In a late Circular, the Chief Commissioner commented upon the fact that the value of the wheat grown in these provinces and exported to England was materially affected by its admixture with the various pulses, and prizes for wheat free from such admixture would be practical, and direct encouragement to the people to keep their wheat free from admixture.

If a beginning is now made, and an annual show of some kind or other held in each district, it will be possible before long to arrange for an annual show in each tahsili, and so bring home to the bulk of the people that the Government encouragement is in furtherance of the people's own interests.

I AM directed to send you copies of the marginally noted letters that have passed between this office and Messrs. Finlay, Scott and Company of Bombay. You will also receive, in a separate packet, separate samples of the various kinds and qualities of wheat, as described and classified by Messrs. Finlay, Scott and Company. A portion of each sample should be given to each of your Tahsildars, and the Chief Commissioner wishes that these samples should be shown to as many of the leading agriculturists, malguzars, and ryots as possible, and that the respective places which these kinds of wheat occupy in the market should be explained.

2. The cultivators should be exhorted to pay attention to the cultivation of a wheat which is sure to fetch a good price; to bear in mind the importance of keeping the wheat in their fields free from any admixture of pulses; remember the necessity of having all the wheat they sell in bulk of the same kind and quality; and to try the effect of *selecting* the seed they put down in their fields. The result of sowing *selected* seed would very soon become visible.

3. These are all matters that can easily be made comprehensible to the native farmer, and the Chief Commissioner hopes that you and your Tahsildars will again and again impress on them the advantage of acting up to the advice given them.

4. This Office Circular, No. 25 of the 4th August, has suggested a way to strengthen your hands in the matter and to interest the cultivators themselves; and you will perceive from a notice in the *Gazette*, that the Nagpur District Fund Committee have made a beginning in the matter of improving of agricultural produce, by offering prizes for the best of large samples of grain exhibited at the Ramtek fair.

Dated Bombay, 11th July 1876.

From—Messrs. Finlay, Scott & Co.,

To—The Chief Commissioner, Central Provinces.

By the mail to hand last week, we received from our Mr. R. V. Reid some very interesting information regarding the favour in which wheats grown in the districts of your Commission were now held in the Home market. The millers there are learning rapidly to appreciate the great advantage to be derived from mixing these grains with those grown in England, especially after a wet harvest with them, the reason being that the extreme dryness of the Indian grain serves to absorb much of the excess of moisture from the Home grain, and reduces the average of what is thus mixed to a proper condition of moisture.

2. Mr. Reid then remarks upon the injury done to the market of this wheat at Home by the large admixture of foreign grains. As this is a question in which we know you have particularly interested yourself, and as it is one of great importance to us, being, as we are, the largest exporters of the article from Bombay, we gladly lay before you our knowledge on the subject, and will be happy to provide you with any further information you may require with regard to it.

3. The quantity of pure wheat exported from Bombay is very small compared with that of the lower and adulterated qualities; but under present circumstances it does not pay as well to ship the former as the latter, the scarcity of the best wheat here making the margin of price between it and the lower kinds greater on this side than in the Home market. On an average, the cost of good wheat is 1 shilling per 100 lbs. dearer to ship than the other, and fetches only 6 pence to 9 pence more in Liverpool. We send you herewith two samples of *best* quality shipped by one of our neighbours, which obtained top prices on account of purity.

4. This pure wheat, called by the natives "Ek dana Pissie," comes mostly to the Seonee and Etarsi stations from the Bhopal State, and is found in Doleeria market; and its present value in England is from 10 shillings to 10 shillings 3 pence per cental (100 lbs.)

5. The wheat that comes from Nagpur is pretty free from admixture of foreign grains, but contains a large percentage of hard red wheat which prevents its getting as good a price as the pure white Pissie.

For shipment machines can be made in sections, so that six machines will occupy the measurement of one when erected.

Facilities for transferring grain, &c.

* * * * *

With all the facilities referred to at his command, the grain merchant in Montreal stands in a most important relation to the markets of Europe on the one hand, and the vast cornfields of the western world on the other. In response to orders by cable, he either forthwith buys Canada wheat on the spot or near at hand, or he directs the purchase of grain in Chicago or Milwaukee. Subjected, as it is, at these great centres, to the most perfect system of inspection in existence, it arrives at Kingston, and is there transferred to barges of similar capacity to the vessels from which it is delivered, and, passing through the cool waters of the river St. Lawrence, the cargo of wheat, corn, rye, or other grain, is placed alongside the ocean-going ship for transport across the Atlantic. All this is accomplished, as must be evident, without the possibility of the grain being changed, or mixed with an inferior quality, by the way (a result which cannot be relied upon by any other route), thus giving additional value to the inspection certificate which was issued for the cargo at the original port of shipment. Not the least important consideration is, that the northerly latitude of the Canadian transportation route relieves the grain from all danger as to *condition*, even in the summer months, when the risk by other channels is comparatively great.

No. 14 (Statistics and Commerce), dated India Office, London, 18th January 1877.

From—Her Majesty's Secretary of State for India,

To—The Government of India.

In my despatch of the 21st ultimo, No. 130, I drew Your Excellency's attention to the importance of measures adapted to encourage the improved cultivation of wheat, and to facilitate its transport to this country in good condition.

2. It seems very desirable that a compilation should be prepared, as has already been done with various Indian products, shewing the main features of its cultivation, consumption and export, the local selling prices for a series of years, and the probable cost of transport from the chief markets to the place of export. An attempt to prepare such a paper has been made in the Department of the Reporter on Products; but it was found that the information in this country was not sufficient for the purpose.

3. A selection should also be made of the chief local varieties of the grain, and samples should be sent to England carefully named and described, so that their place of production could be certainly distinguished, in order that the opinion of competent persons in this country may be obtained as to their market-value. This latter suggestion is one which might, in my opinion, be advantageously acted upon with the least practicable delay.

Circular No. 11, dated Nagpur, 5th May 1876.

From—The Offg. Secretary to the Chief Commissioner, Central Provinces,

To—All Commissioners and Deputy Commissioners, Central Provinces.

It has been represented to the Chief Commissioner that the value of the wheat which is exported from these provinces to England—and of late years a considerable quantity of wheat has found its way to England—is materially affected by its admixture with *lak*, *massur*, and similar pulses.

2. The Chief Commissioner is aware that it is a common practice in these provinces to sow these pulses with the wheat, but the practice is one which it is very desirable to discourage. It is said that, by machinery, stones, dirt and sand can be easily separated from the wheat, but not so this admixture of pulse, which on the wheat being ground, gives the flour a bad colour and materially reduces its market-value.

3. The Chief Commissioner desires that Deputy Commissioners will explain to *malguzars* and cultivators how injurious the present practice is, and will try to induce them to keep their wheat free from admixture. The price of agricultural produce has fallen so much of late years that farmers cannot afford to lose the excellent market for their wheat which England appears to be likely to become, and if they will only endeavour to suit the English market, it seems probable that Indian wheat will become an important export and may rival the other wheat-producing countries which supply England.

Dated Bombay, 11th July 1876.

From—Messrs. Finlay, Scott & Co.,

To—The Chief Commissioner, Central Provinces.

By the mail to hand last week, we received from our Mr. R. V. Reid some very interesting information regarding the favour in which wheats grown in the districts of your Commission were now held in the Home market. The millers there are learning rapidly to appreciate the great advantage to be derived from mixing these grains with those grown in England, especially after a wet harvest with them, the reason being that the extreme dryness of the Indian grain serves to absorb much of the excess of moisture from the Home grain, and reduces the average of what is thus mixed to a proper condition of moisture.

2. Mr. Reid then remarks upon the injury done to the market of this wheat at Home by the large admixture of foreign grains. As this is a question in which we know you have particularly interested yourself, and as it is one of great importance to us, being, as we are, the largest exporters of the article from Bombay, we gladly lay before you our knowledge on the subject, and will be happy to provide you with any further information you may require with regard to it.

3. The quantity of pure wheat exported from Bombay is very small compared with that of the lower and adulterated qualities; but under present circumstances it does not pay as well to ship the former as the latter, the scarcity of the best wheat here making the margin of price between it and the lower kinds greater on this side than in the Home market. On an average, the cost of good wheat is 1 shilling per 100 lbs. dearer to ship than the other, and fetches only 6 pence to 9 pence more in Liverpool. We send you herewith two samples of best quality shipped by one of our neighbours, which obtained top prices on account of purity.

4. This pure wheat, called by the natives “Ek dana Pissie,” comes mostly to the Seonee and Etarsi stations from the Bhopal State, and is found in Doleeria market; and its present value in England is from 10 shillings to 10 shillings 3 pence per cental (100 lbs.)

5. The wheat that comes from Nagpur is pretty free from admixture of foreign grains, but contains a large percentage of hard red wheat which prevents its getting as good a price as the pure white Pissie.

6. The largest export from Bombay is of the Mundie Pissie, which comes from the neighbourhood of Jubbulpore—from Sehora Road, Chhindwara, and adjacent stations; this in itself is a very pretty grain, but much depreciated owing to heavy mixtures of foreign seeds. Mr. Reid writes in this connection :—

“ Fearful are the complaints of *dhall* and gram in it, principally the *wild dhall*, which *discolours the flour*.

7. There can be no doubt that this injurious result is brought about by carelessness and want of method in sowing, and we think that a great improvement would very ~~soon be~~ forthcoming if by any means the ryot could be persuaded to be more careful in sowing an unmixed grain.

8. The wheat trade with India is now becoming more important every day, and it is, of course, for the interests of all concerned that the character of the article should suffer as little as possible from the primitive and ignorant way in which the ryot is content to farm. Notwithstanding the advanced period of the season, we propose to send you at our first leisure samples showing the various descriptions of grain as they come to this market in their order of merit.

No. 2741-125, dated 15th July 1876.

From—The Offg. Secretary to the Chief Commissioner, Central Provinces,

To—Messrs. Finlay, Scott & Co., Bombay.

I AM directed by the Chief Commissioner to acknowledge the receipt of your letter of the 11th instant, and am to say that the subject of improving the quality of the wheat produced in these provinces and preventing its admixture with inferior grains has already been under the Chief Commissioner's consideration. I enclose copy of a circular addressed to district officers, and also copy of a letter to the Chamber of Commerce, asking to be supplied with samples of the best kinds of wheat. If you would, either yourselves or in concert with the Chamber of Commerce, supply samples showing the best kinds of grain, and the order in which they come, the Chief Commissioner will be much obliged, and will do what lies in his power to impress on the ryots the advantage of clean sowing, and of preserving their wheat from admixture with inferior grains. No doubt, improvement will be gradual; but the Chief Commissioner is confident that, in time, the ryots will desist from sowing various kinds of grain in the same field when they find that by doing so they spoil their market, and the better kinds of wheat will be cultivated if it is known that they fetch a higher price.

There are some ten districts in these provinces whence wheat is procured, and these are divided each into three or four sub-divisions; and it is desirable that every sub-divisional officer should have small samples of the wheats in their order of merit, so that the Chief Commissioner hopes you will be able to send samples large enough to supply a small sample to each, say not less than two lbs. of each kind of wheat.

The Chief Commissioner will, at all times, be glad to receive hints or information from you which may enable him to enlarge the market for any of the staples of these provinces.

Dated Bombay, 28th August 1876.

From—Messrs. Finlay, Scott & Co.,

To—The Chief Commissioner, Central Provinces.

REFERRING to our letter of 11th July on the subject of the sowing of wheat, we now beg to enclose railway receipt for two bags sent to your address, containing standard samples of the descriptions of grain grown in the districts of your Commission, and known in the Home markets.

These we have divided into five small bags containing one half-hundredweight each.

No. 1.—White (Ek Danna), despatched to this market from Seonee and Etarsi stations.

„ 2.—White Pissie from districts near Nagpur.

„ 3.—Mundie Pissie „ „ Jubbulpore. (These three descriptions we described in our letter of 11th July).

„ 4.—Red Pissie from districts near Simree.

„ 5.—Akola Pissie.

These descriptions of red wheat are daily coming into greater favour in the French market, a good business having taken place with Marseilles at favourable prices. The Simree has only a small percentage of hard grains, this admixture being on a larger scale in the lower quality from Akola; in the latter description, the hard Kuthia grain is found as much as ten per cent., and its presence serves considerably to diminish the value of the bulk.

We may mention that the cause of our being unable to send you these samples earlier is due to the great difficulty that always exists, at the close of the season, in procuring reliable samples to represent the fair quality of the crop.

NOTICE AS TO REGISTRATION OF TRADE MARKS FOR COTTON GOODS.

ous marks used in the cotton trade at the date of the passing of the Trade Marks Registration Acts (38 & 39 Vict. c. 91., and 39 & 40 Vict. c. 33.), are, by reason of their common usage, excluded from the scope of that Act, the following rules have been made for the guidance of persons desirous of registering trade marks for cotton goods:—

- “ 57. For the purpose of facilitating the granting of trade marks in respect of cotton goods in Classes 23, 24, and 25, there shall be established by the Commissioners of Patents, and subject to their control, an office at Manchester for the exhibition of all devices, marks, headings, labels, tickets, letters, words, or figures, or combinations of letters, words, or figures, used in the cotton trade, and in these rules included under the expression ‘ cotton marks.’
- Establishment of office for exhibition of cotton trade marks at Manchester.
- “ 58. Every person who at the date of the passing of the Act (August 13, 1875), used any cotton mark shall, on or before the first day of December one thousand eight hundred and seventy-six, send to the Manchester office three representations of such cotton mark, in such form and with such a description as may be from time to time required by the Commissioners of Patents.
- Representations of cotton marks to be sent to Manchester office on or before December 1st, 1876.
- “ 59. A committee of persons versed in the usages of the cotton trade shall be appointed by the Commissioners of Patents, consisting of such number of persons as may from time to time be determined by them, and it shall be the duty of such committee, on or before a time to be named by the Commissioners of Patents, to divide the cotton marks, representations of which have been so sent in to the Manchester office, into two classes, the first class consisting of such of the said cotton marks as are, in the opinion of the committee, trade marks within the meaning of the Act, and the second class consisting of such of the said cotton marks as are not, in the opinion of the committee, trade marks within the meaning of the Act.
- Committee of experts to be appointed and to divide cotton marks into two classes.
- “ 60. The said committee shall form a list of the cotton marks sent to the Manchester office in each of the aforesaid classes, and shall transmit such lists to the Commissioners of Patents, accompanied by two representations of each of the marks specified in the second class in such list.
- Committee to form list of marks sent in to Manchester office.
- “ The third representation of each of the marks in the second class in such list shall be retained for reference in the Manchester office.
- “ 61. The Commissioners of Patents may from time to time add to the aforesaid list any cotton marks as they may think just, and such addition shall be deemed to be part of the original list.
- Marks may be added to list.
- “ 62. Any proprietor of a cotton mark not specified in the second class in such list may apply to be registered as proprietor of such cotton mark in manner and subject to the conditions in which he may apply to be registered as proprietor of any other trade mark, but it shall not be lawful for the Registrar to register any person as proprietor of any cotton mark in the second class of the aforesaid list except in pursuance of an order of the Court.
- Any person claiming to be the proprietor of a cotton mark in Class I may apply to be registered.
- “ 63. A cotton mark shall not be registered except in manner and subject to the conditions prescribed by these rules with respect to the registry of cotton marks.”
- Cotton mark not to be registered except in manner herein prescribed.

An office, as provided by Rule 57, will be opened at 48, Royal Exchange, Manchester, on the 24th of October 1876.

The following gentlemen have been appointed by the Commissioners of Patents to form the Committee of Experts under Rule 59:—

Edmund Ashworth, Esq., President of the Chamber of Commerce, Manchester.
 John Cheetham, Esq., Vice-President of the Chamber of Commerce, Manchester.
 B. Davies, Esq.
 S. A. Fulda, Esq.
 P. Goldschmidt, Esq.
 A. J. Hunter, Esq.
 H. J. Leppoe, Esq.
 G. Lord, Esq.
 E. Crompton Potter, Esq.
 E. Reiss, Esq.
 H. M. Steinthal, Esq.
 E. H. Sykes, Esq.

Mr. Joseph Fry has been appointed by the Commissioners of Patents as keeper of the Manchester office.

Each representation required to be furnished by Rule 58 should be attached to a separate half-sheet of foolscap paper, on which should be written,—*a*, the name and address of the applicant; *b*, the number of the class in which registration is desired; and *c*, the length of time the mark has been in use. If it be desired to register a mark in more than one class, three representations in each class must be furnished. No fee will be required, nor will any formal declaration or statement be necessary.

In the case of a combined stamp the applicant should state whether it is desired to protect the whole combination or only a part of it; in which case a line should be drawn round the part which it is desired to protect.

Representations of marks considered by the owners as private should be marked with the letter "P."

When application has been already made to the Principal Registry in London, the Registrar's number must be quoted in the Manchester application.

Owners of marks placed upon the second class specified in Rule 59, although not entitled to registration except by an order of the Court, may obtain from the Registrar a certificate of refusal to register, as provided by section 2 of 39 & 40 Vict. c. 33.

It is intended that all marks for cotton goods made in the piece should be claimed in Class 24.

These regulations do not apply in the case of marks not used prior to the 13th of August 1875. Application to register such marks must be made in the usual way to the Trade Marks Registry in London.

SYSTEM OF WORKING TRAINS ON INDIAN RAILWAYS.

Nos. 893—99 R., dated Fort William, March 26, 1877.

Read—

Remarks by Major H. Mallock, Officiating Deputy Director General of Telegraphs, on papers from the Madras Railway Company received with Madras Government Proceedings Nos. 434—6 of 19th October 1874, and papers from the South Indian Railway received with Proceedings No. 487 of 19th April 1875.

The former discuss the—

Line clear	}	systems.
Block		
and		
Time Table		

The latter principally bear on the subject of whether "Line clear" signals are to be trusted when sent on a "Through wire."

If the former questions be considered first, the latter will be easily understood.

It must first be decided what a "Block system" is.

Mr. Winter in the first section of his paper states—

"It has been the custom recently among Telegraph Engineers to define the block system as that system by which trains are kept apart upon the same line of rails by certain and invariable intervals of space instead of by uncertain and variable intervals of time;" and then he proceeds to define it himself as "one in which there are certain permanent signals which indicate the condition of the line between any two stations with regard to its being either clear or blocked by trains running upon it."

As he bases his following arguments on this latter definition, they and the consequent arguments of the Traffic Manager, Agent, and Consulting Engineer, are rather liable to confuse the subject in the minds of others who have accepted the terms.

"Block system" to mean intervals of space.

"Permissive Block system" to mean intervals of time.

To prove that these are the general interpretations, and also to explain thoroughly the difference between the two systems, I cannot do better than quote freely extracts from the evidence given before the Select Committee of the House of Lords in 1873.

Colonel Yolland, R. E., Inspector of Railways.

Question 5.—Would you shortly explain to the Committee what is meant by the term "the block system?"

"The block system" is intended to provide that no two Railway trains, nor a train and an engine shall be on the length between any two stations or any two block stations, at one and the same time on the same line of rails.

Question 6.—Are the Committee to understand "that the object of the block system is to secure intervals of space between trains or between a train and engine?"

Exactly so, to preserve intervals "of space, in order that no collision between following trains, or a train standing upon one line and another coming up to it shall take place."

Question 7.—You refer to trains all going on the same line?

Yes.

Question 8.—How is that effected?

That is effected with the "assistance of the electric telegraph; the Signalman at B telegraphs to the box in advance where the train is going to ascertain whether the line is clear up to that box, and if he receives in answer to his telegram the signal that the line is clear, he then gives to the train that is waiting or coming up to his box at that time permission to proceed; and at the same time or generally a little in advance of it he telegraphs the Signalman at the box B in advance that the train is coming, which is indicated by 'on line.'"

Captain W. Tyler, Inspector of Railways.

Question 236.—What is the exact meaning of a "permissive block?"

The permissive system ought not "to be called a block at all; it is more properly a permissive system; instead of keeping the trains apart from one another, under the permissive system, they are allowed to follow one another at certain intervals of time that are kept between the trains, but those intervals may be lost after the trains have passed the block station."

Question 237.—Then the permissive block is, in "fact, hardly any security?"

It is really no block at all; but "it does act in this way that it gives a caution at certain times and places to the Engine Drivers."

Also on the South Eastern Railway, except on the new Suburban Sections where the Board of Trade Inspectors enforced the use of visible signals, nothing is used but single stroke bells and the indispensable Train Book; and the following extract from evidence before the same Committee will show that the original Block system was worked by these only.

Mr. C. Eborall, General Manager, South Eastern Railway. *Question 1089.*—"Have you got the Block system on any part of your line?"

"Yes; we adopted the block system in 1851; we are in fact the authors of the block system."

Question 1091.—"Having had so much experience of it, are you in favour of the block system?"

"I am very strongly in favour of the block system; in fact I would not be without it. I should consider it would be unsafe to work the South Eastern Railway without the block system."

There is indeed but one block system, but there are various means of working it; and as the signals necessary to work it have to be sent over distances varying from $\frac{1}{2}$ mile to 10 miles, it is more convenient to employ electricity either to work needle indices or semaphores, or to tell a man to raise his large semaphore, than it is to employ ropes ten miles long to pull up distant signals; and the block system can be worked either by verbal messages, by bell calls, or by miniature distant signals.

I think then we shall be less liable to a confusion of meaning if we adhere to the following definitions, *viz.* :—

I.—Block system means intervals of space.

II.—Permissive block system means intervals of time.

III.—Electric index or semaphore system means (what Mr. Winter describes as the block system) far distant signals worked by electricity and used in conjunction with the block system.

A perusal of Part V of Mr. Winter's report, and a little consideration will show that what he terms the "Line Clear System" as ordered by Government, in Rule 2 of the General Regulations issued under Act XVIII of 1854, is neither more nor less than the block system pure and simple; but there is ample evidence to show that, on nearly all, if not all, the Guaranteed Railways in India, it is habitually neglected in favour of the "Permissive Block" or "Time Interval System."

The following questions now present themselves for consideration, *viz.* :—

I.—Is it possible to work the absolute block system on a single line?

II.—Can it be worked without extra establishment?

III.—What are the causes of the faults pointed out in Mr. Winter's Sections VI, VII and VIII of the present system of working adopted on all Indian lines except those in Madras?

IV.—What is the result of the "Time-table system?"

The answers are—

I.

Between the years 1869 and 1872, the block system was introduced on the following single lines in the United Kingdom, *viz.* :—

Cambrian.

Caledonian.

North British.

Bristol and Exeter.

II.

See Proceedings of House of Lords Committee.

Mr. H. Cattle, Traffic Manager, Cambrian Railway.

Question 641.—“How do you arrange your signal boxes on the Cambrian Railway?”

“We utilize the Station Masters themselves. We have some block stations where we have only two men employed, and some where we have only one man.”

Question 642.—“Under the block and interlocking systems on the Cambrian Railway some of the instruments are in the stations, and some in the signal boxes, are they not?”

“Yes, that is so.”

Question 643.

This question and answer, which is too long to quote, go on to describe how the block instruments cannot show a reverse signal without the use of a key kept in charge of the man on duty.

III.

In para. 3 of the Consulting Engineer's letter No. 565, paras. 4 and 5 of the Agent's letter No. 822, and Sections VI, VII and VIII of Mr. Winter's paper, there appears a general condemnation of the “Line Clear” system as adopted by the Railways in Bombay and Northern India.

That is, not the “Line Clear” or “Block System” distinctly ordered by Government, but the means (invented first I believe on the East Indian Railway, and used universally on the others) for carrying out the permissive block.

That is, “is Line Clear for No. X goods” asked for in an ordinary telegram? The line may not be really clear, as No. Y passenger may be still on the Section, but No. X goods is told to come on, and gets what is called a “Caution Line Clear.” No. Y passenger arrives, and it depends to a great extent on the Station Master's memory whether No. X goods arrives before he sends No. Z extra to meet it.

The dangers of this “Memory” system are as shown in both the papers now under discussion objected to by both the Railways in the Madras Presidency, but this system has nothing to do with the “Absolute Block” or “Permissive Block,” it is merely a means of working either one or the other.

It may and must be complicated* by the use of a “Through wire,” to which I will refer further on, but the real remedy to the difficulties Mr. Winter points out, and Messrs. Elwin and Church and Colonel Shaw-Stewart agree in, is the “Train Register” book.

There is no reason why, if verbose telegrams be still insisted on, the train register book should not be used in addition to them, but this book (never used in India except when it was employed on the famine line in Tirhoot) is the foundation of the whole English block system, and whether Line Clear be asked for and given by bells alone, by code calls on Morse sounders, or actual messages, it tells any one looking at it the state of the section on each side of him at a glance.

It was by means of the train register books and single stroke bell that the block system was first started on the London and South-Eastern Railway in 1851, and what can be done by it and bells alone is shown by the fact that on one occasion six years ago Spa Road Station worked 892 trains in 18 hours. On the other hand a reference to the various reports on English Railway accidents will show that those as per margin were attributed by the Inspecting Officers to the want of train books.

IV.

As to the result of the time-table system.

In Section III of Mr. Winter's remarks, his first paragraph really bears more on the advantages of a “Station to Station” instead of a “Through wire” than on the use of Electric Semaphores, but in para. 2 of his Section II he points out that the time-table system depends on its being worked by men of “long experience” “intimately acquainted with the section of the line under their charge,” whilst in para. 2 of his Section III he describes the responsibility thrown on these men. Again, Mr. Church referring to Mr. Winter's remarks shows in his para. 4 that this system depends entirely on a man understanding his work, knowing the time-table of his Section by heart, and remembering it.

That is, although the responsibility of remembering where the trains are is lifted from the shoulders of Native Station Masters on to those of District Traffic Superintendents, the time-table system of the Madras Railway depends as much on memory as the train message system originated on the East Indian Railway.†

On the other hand, we have the experiment on the Tirhoot line in 1874, where with more than double the Madras Railway Traffic a train register book enabled the Government Telegraph Signallers, none of whom had been employed on a Railway before, to commence working with no Traffic Superintendent, no time-table, and only one experienced Station Master to 7 or 8 stations.

* See para. 2 of Mr. Winter's Section VII.

† Indeed the accident that occurred at the end of last month on the Madras line was due to the Engine-driver forgetting to stop at an unusual station.

We now come to the subject of working trains on the "through wire" system.

To render this clear I give in the margin a diagram of the telegraph connections now in use on the Indian State Railways. The upper line shows the "through," the lower the Station-to-Station or train wire and their respective instruments and batteries.

On the through wire half the battery is at either end of the line; the current is permanently on, and any station breaking the circuit by pressing down its key causes every instrument in the circuit to work.* Hence if A call H, both C and F hear what is going on, and neither can communicate until A and H have stopped.

If A call F, F only knows that he is wanted by hearing his own name given (either in full or abbreviated), and until he answers, he does not know who called him. Hence on this line a Signaller who can read the code calls must be present.

On the train wire there is a battery and two instruments at each station, and the circuit is completed at each. On this line, if D hear his left hand instrument call, he knows that it can only be C calling him; and *vice versa* C knows that no one else but D can call him on his right hand instrument.

Except on the Cawnpoor and Lucknow Section of the Oudh and Rohilkhand Railway this scheme has not yet been perfected up to its original design, *viz.*, that at each Station there should be an electric bell† worked automatically by the signalling sounders.

That is, it is intended to place a bell between the two instruments, say at C. When the Station Master has other business to attend to, he will put the bell into circuit; either of his instruments being worked from B or D will then ring his bell; when he returns to his desk, he will throw his bell out of circuit, receive and send signals as usual, and then on again leaving re-adjust the bell circuit.

This plan works into the train book system. That is, each Station should have a train book of which the right hand page belongs to his right hand instrument and right hand section, and similarly the left hand instrument and left hand page belong to his left hand station.

On looking at the connections it will be seen that, if F ask E for "Line Clear," C or D cannot possibly hear the call and give Line clear to the wrong section.

If A wants to send a message to D or G, on which there is no communication on the through wire, C or F receive the message, and repeat it on the train wire sections C D or F G.

Now omitting all question of train safety, and considering message traffic only, it is evident that, as on the through wire no two stations can talk at the same time, the fewer stations there are the better.

It is found in practice that about five or six stations can be connected on the through wire; this will cover therefore about 150 miles without repetition, say 300 miles with one, and 450 with two repetitions. For distances over that, a third wire may be required.

When we attempt to use a through wire for train working, it is necessary to ensure an immediate reply, that at every station a signaller must constantly be on the watch. By using a station to station wire for the trains, whether bells be used or no, any one may watch the instrument, and as, when his instrument works, he must know his station is called, he can then call the signaller, who, when he is Station Master also, can, when not absolutely wanted at the instrument, attend to his other duties.

It may be assumed that the "through wire" goes into the more important stations (it must never miss more than two smaller stations) where there are more men to attend to the call, but even if they do not attend, inattention to an ordinary message must be of infinitely less importance than inattention to the train instrument.

In designing this method it has been considered that the object of a Railway Telegraph is not that of a Telegraph Department proper. The latter has to cover the longest distances in the shortest possible time, and its local is unimportant in comparison with its through traffic.

The object of a Railway telegraph has been conceived to be the safety of trains and passengers, and the absence of any delay to trains.

When, however, in order that the speed of a Telegraph Department proper may be imitated for through messages, one of the Railway wires is used to cover long distances, and the second is used as a subsidiary message wire on the through circuit system, it becomes nearly useless for train messages.

The Madras Railway telegraph is always in good order, and yet from Mr. Winter's Report, Part III, we see the result of a through wire. The "through wire" plan was in imitation of other Indian Railways tried on the Delhi Section of the Rajpootana State Railway when it first opened, and on one occasion where say F asked E for Line Clear, C thought D asked and gave it, although E had just sent off a train towards F, consequently two trains met; but they were luckily stopped without a collision.

If from the foregoing we allow that a station-to-station wire is the correct means of working trains, it would appear reasonable that this should be the first wire to be thought of in scheming a set of telegraph connections for any Railway. It may be worked by—

- I.—Needle instruments, as on the East Indian Railway line.
- II.—Morse sounders alone, as on the State Railway lines.
- III.—Morse sounders and a bell, as on the Cawnpore and Lucknow Section of the Oudh and Rohilkund line.
- IV.—Bell alone, as on the London and South-Eastern Line, or by
- V.—Bells and electric semaphores, as on most of the English lines.

Having laid down this wire, the number of wires for messages much depend on their number, and also to a great extent on whether it is considered that a Railway telegraph be designed for the use of the Railway in the first instance, and for private messages when these can be carried without interfering with Railway work, or whether it be designed in the first instance to carry private messages, and to consider the revenue derived from them of more importance than a slow but sure service for the use of trains.

In conclusion, I would summarise that—

- I.—The line clear system ordered in the Regulations issued under Act XVIII of 1854 is the "Block System."
- II.—This is in India generally neglected for the permissive block.
- III.—The block system is used on single lines in Great Britain, and therefore can be used.
- IV.—The block system does not depend on electric semaphores, which are but one of the methods of working it.
- V.—A train register book is the original basis of the English block system; has worked on the South-Eastern Railway for 26 years, and is so simple that men utterly ignorant of train working have in India brought it into use at a moment's notice.
- VI.—The time-table system (which would never be allowed by the Board of Trade) is a system dependent on the memory and local experience of Traffic Superintendents.
- VII.—The first essential of Railway telegraphy is a station-to-station wire.
- P. S.—As it may be of use, I annex a Newspaper cutting of the report of the House

THE PREVENTION OF RAILWAY ACCIDENTS.

The Select Committee appointed to consider the Regulation of Railways (Prevention of Accidents) Bill have agreed to the following Report :—

"1. The Bill proposes to enforce upon all Railway Companies the obligation of securing an interval of space between trains following each other on the same line of rails, which is now generally effected by what is called the block system, and it also proposes to enforce the interlocking system.

"2. These systems are explained in the evidence by the railway inspectors and by other witnesses whom the Committee have examined.

"3. For the purpose of working the block system, there must be frequent signal stations provided with means of communication, so that a clear course for every train may be secured.

"4. The arrangements necessary to effect this object must vary according to the circumstances of the line, and the peculiarities of the traffic.

"5. There is a general concurrence of opinion among the witnesses in favour of the block system on all important railways which carry passengers.

"6. Experience has proved that this system is compatible with the highest rates of speed.

"7. On some railways, where the block system exists on their entire lines, the speed is stated, in the case of certain trains, to be between 50 and 60 miles an hour.

"8. There are many single lines where the block system has been found indispensable for the safety of the traffic.

"9. The system called permissive block does not afford the security of the block system and cannot be recommended.

"10. The interlocking system has been devised to prevent divergence between the points and signals at stations and junctions.

"11. The Committee had the advantage of seeing a model that supplied information which cannot easily be obtained from the evidence.

"12. This system was first introduced in the year 1856. It has been adopted on the most important lines of railway throughout the country, and the witnesses concur in recommending it on lines where there are numerous junctions and frequent trains. It is now enforced by the Board of Trade at all new junctions.

"13. The block system and the interlocking system are not necessarily connected, but the union of the two systems is strongly recommended on all important lines of railway.

"14. It is admitted that some lines could not be efficiently and safely worked without a combination of the two systems.

"15. In the case of the following railways, the evidence shows the mileage over which the block and interlocking systems have been already adopted, and the progress now being made in the further extensions of these improvements.

"16. The South Eastern and the Bristol and Exeter Companies have adopted the block system on their entire lines, and are gradually extending the interlocking system at all principal stations and junctions.

"17. The Midland Railway Company have adopted the block system on a large portion of their main lines, and are extending the interlocking system.

"18. The Lancashire and Yorkshire Company are extending the block system, and have a contract for the expenditure of a large sum during the current half-year in providing the apparatus for the interlocking system.

"19. The Metropolitan Railway is worked throughout on the block and interlocking systems.

"20. The Great Northern have the block system over the main line, and the interlocking system is also being largely introduced.

"21. The Caledonian Railway Company have as yet made little progress in introducing these improvements; they expect, however, in a few months to open 100 miles under the block system, and are going on faster with the interlocking than with the blocking.

"22. The North Eastern Company have the block system in operation on the larger portion of their main line, and are introducing it over the whole of their lines where there is much traffic, as fast as the labour market will allow. They are also extending the interlocking system over the whole of their lines, except the mineral lines.

"23. The Great Eastern have the block system on part of their line, and have for many years partially adopted the interlocking system.

"24. The London and North Western have the block system in operation or in course of construction over a large portion of their main line. They have during the last five years expended, and are still expending, large sums on the interlocking system.

"25. The London and South Western have the block system in operation over a large portion of their main line, and are at this moment extending it, and have introduced the interlocking system at all their junctions and principal stations.

"26. The Great Western are fast introducing both systems, and have established workshops to expedite the construction of interlocking apparatus.

"27. The North British have some miles under the block system, and are gradually extending the interlocking system, under the direction of the Board of Trade.

"28. The Highland Railway have the block system over the whole of their line, and they have the interlocking system at their junction stations.

"29. It may be confidently stated that the general safety of railway travelling would be increased by the more extensive employment of the block and of the interlocking systems.

"30. Some witnesses stated that these precautionary arrangements and mechanical appliances tend to lessen the sense of responsibility in the engine-drivers. Such an effect may have been produced, but nevertheless the advantages resulting from the introduction of these systems are practically admitted by all the witnesses, and, in the judgment of the Committee, decidedly preponderate.

"31. The policy of enforcing these systems upon all Railway Companies by severe penalties for default requires, however, to be further considered.

"32. A perfect system of interlocking requires many complicated arrangements, such as refuge sidings, alteration of signal stations, and other changes, which, especially where the junction unites two lines under the management of different Companies, involve matters of difficult adjustment. The evidence will explain more fully the cost and complex character of these arrangements.

"33. Railway Companies have, during the last five years, paid 2,348,000*l.* in compensation for injury to passengers and goods, and therefore have a direct pecuniary interest in rendering their lines safe.

"34. There are many lines of railway, some used solely for conveyance of minerals, and some small branch lines, where few trains run in the course of the day, which could not reasonably be required to incur the expense of these appliances.
